Parivarthana Unit Visit

SDG 4: Quality Education

Parivarthana Unit Visit

Event: Parivarthana Unit Visit
Venue: Parivarthana Unit, Bangalore Central Campus
Date: 23rd July, 2022
Number of volunteers: 38

- Sdg 4- quality education
- Sdg 12: Responsible Consumption and Production: Mindful use of resources and sustainable consumption

Description and Objective:
The Parivarthana Unit Visit was held by Prayatna to sensitise their volunteers on the efforts that are put in by the akkas to manually segregate the wet and dry waste. These separated wastes are further segregated into different categories and recycled individually. The volunteers also understood the importance of segregation as well as how to better separate their food wastes.

SDG 4: Quality Education

Department of Professional Studies
CHRIST (Deemed to be University), Bangalore
Activity Report

General Information

Type of Activity	Outreach Event
Title of the Activity	Genesys
Date/s	June 2022 – May 2023
Time	From 2 to 5 pm on Saturdays and Monday to Friday 7pm to 9pm online
Venue	CHRIST (Deemed to be University) Bangalore central campus, Online platform
Collaboration/Sponsor (if any)	-

Speaker/Guest/Presenter Details

Name	Prof. Dr Budha Anuradha
Title/Position	Faculty Coordinator for Genesys club
Organization	Professional Studies, CHRIST (Deemed to be University)
Title of Presentation	-

(Add/repeat above rows if there is more than one Speaker)

Participants profile

Type of Participants	Students
No. of Participants	30 wards, 80 Trainers

Synopsis of the Activity (Description)

Highlights of the Activity	Genesys is a forum where students of Department of professional Studies teach wards of house keeping staff and security guards of CHRIST(Deemed to be University)
Key Takeaways	As the wards of the housekeeping staff get support for their regular academics and build basic digital skills, the students of Team Genesys learn compassion and responsibility, they also learn to go beyond themselves and be a prt of a more sustainable and inclusive world.
Summary of the Activity	In the academic year 2022-23 total of 30 children of the age between 7years to 18years old registered.

	80 students of Department of Professional Studies also registered in the forum. This Academic year the online classes were taken by our Department students everyday. Only on Saturday kids came to campus and interacted with their respective teachers and mentors in person.
Follow-up Plan, if any	The success of genesys and the marks scored by the mentees post the intervention of the mentors, ensures the continuation of the event in a more structured form.

Activity Report

General Information

Type of Activity	Fundraiser for Child Sponsorship Program
Title of the Activity	Alleviate: The Dream Crescent
Date/s	27th February, 2023
Time	9 am- 4 pm
Venue	Garden Street, Christ University
Collaboration/Sponsor	N/A

Participants profile

Type of Participants	BBA Students
No. of Participants	73

Synopsis of the Activity (Description)

Highlights of the Activity	Alleviate is the annual fundraiser of Anvaya wherein each year, the funds raised are donated towards different causes. This year's funds went to the child sponsorship program that supports the yearly education of children in project areas of the Centre for Social Action. The event was inaugurated by the Vice Chancellor, Fr. Joseph CC along with Dr. Amalanathan S, Head of the department, Dr. Victor Paul, Director of CSA, Dr. Valarmathi B, faculty Incharge, CSA and Dr. Jogi Mathew, Faculty Coordinator of Anvaya. Various stalls of food, games and products were set up by interested students of the BBA Department. The event saw a footfall of 11,000- 12, 000 christites who came and played games,

	had food items or bought products. The event not only aimed at getting funds from the university but also instilled entrepreneurial skills in those who setup any type of stall. The stall owners came up with their own ideas to attract a crowd and each stall covered their costs and gained profit. Stall owners contributed around 65% of their profits on an average and the funds raised supported the education of four children.
Key Takeaways	● This year's funds went to the child sponsorship program that supports the yearly education of children in project areas of the Centre for Social Action. ● Various stalls of food, games, and products were set up by interested students of the BBA Department. ● The event had a footfall of 11,000-12,000 Christites who came to play games, have food, or buy products. ● The event aimed to instil entrepreneurial skills in students who set up any type of stall.
Summary of the Activity	● By far the largest event of the year, Alleviate was organised to raise funds for the education of children as a part of the Child Sponsorship Programme and managed to sponsor 4 children, proving this event to be a success. ● Various stalls were put up which involved games stalls for the students and stalls for our small business owners who were ready to help this noble cause. ● This event saw a footfall of 11,000-12,000 students and was a whole day event where the students learnt about social entrepreneurship and the power of collaborative action.

Workshop Summary

On the 13th of April, at around 10:30 am, the Sustainable Development Goals Cell members left campus with their co-ordinator Dr. Surbhi Srivastava to Composite School, Nai Basti located at Ashram Road, Nandgram. Upon arrival, they were welcomed and escorted by the Ashram's faculty to the open corridor by the classrooms, where around a hundred students of the school were seated, most in uniform and some in coloured home clothes.

The workshop began with a semi-formal speech and interactive talk about the importance of education in each of our lives, and further on how education heavily influences one's future. Upon being asked the question, "What do you want to do when you grow up?", the students eagerly raised their hands for an opportunity to talk about how they wanted to be a soldier for the army, a software engineer, a doctor, and more.

Concluding the talk, the cell members then prepared to conduct a quiz. The questions of the quiz were such that students regardless of the grade they studied in, could participate and answer. To incentivize their participation, a choco-pie was rewarded for every right answer and in some cases, even for attempts at answering.

After a round of 40 questions, the quiz was concluded and a role-play session with the elements of a moral-story recital was enacted. The role-play focused on mundane real-life instances where education makes important differences. The emphasis was placed on the difference that quality education makes as opposed to education lacking quality. The students were asked to pay careful attention to each of the five different scenes enacted, each of which portrayed some form of immoral behavior by a character, and were asked to figure out what it was that was immoral and why. The five scenes covered the following topics;

1. Inefficient Use and Wastage of Electricity
2. Food and Leftover Wastage by Restaurants Goers
3. Stereotyping the Role of Women in Homes
4. Conversation on Gender Roles
5. Breaking Stereotyped Gender Roles

The students actively engaged with the role-play and expressed varied and vivid opinions on each of the scenes enacted.

For the final activity, paper posters with pictures of eminent individuals were displayed. The students took turns guessing who each of them were and for every personality displayed, the cell members engaged in the

CHRIST Deemed be University
Delhi NCR

storytelling of what collectively made them eminent: their learnedness.This included Dr A P J Abdul Kalam, Sarvepalli Radhakrishnan, Lord Krishna, Gautham Budh, Savithribhai Phule and Chanakya.

To end the workshop on a lively note, students who wished to take the front to display any talent they wished to were invited forward. Before wrapping up, students who were most active in their participation in the workshop were gifted craft sketch pens. The workshop was finally brought to its end at 2:00 pm.

No. of Participants	**163**

Synopsis of the Activity (Description)

Highlights of the Activity	**1.** Brief introduction about ethics and its need. **2.** Importance of ethics in professional environment, what does an organisation expect as code of ethics, ethical dilemmas, 3. difference between personal and professional ethics, solving

CHRIST (Deemed to be University) Department of Computer Science Bengaluru

	ethical problems and many more
Key Takeaways	**1.** How honesty, Integrity, Confidentiality and Competence are main pillars while practicing ethics in professional environment **2.** Aware of possible ethical threats like self-interest, familiarity, intimidation, advocacy, bribe and self-review and how can an individual avoid such unethical practices
Summary of the Activity	Professional ethics event was conducted on May 9, 2022. This session was conducted for the final year student from department of computer science that included students from BCA-A&B, CME and CMS. The chief guest of the event was Dr Leena James from school of Business & Management. The session started with introduction given by Muskaan Jain from 6BCA followed by the introduction of the chief guest which was given by Debayan from 6CME. Dr Leena gave a brief introduction about ethics and its need. The session was very informative and interesting. There were many key takeaways from the session like how honesty, Integrity, Confidentiality and Competence are main pillars while practicing ethics in professional environment. Dr Leena's session was followed by appreciating the effort of students who were a part of science exhibition 2022 and winners were awarded with certificate. The session was concluded by Nandhini from 6BCA.
Follow-up plan	**Exploring different topics under Professional Ethics for future session like panel discussion**

PROFESSIONAL ETHICS
PROFESSIONAL ETHICS
Dr Leena James,
School of Business & Management .
leena.james@christuniversity.in

ETHICS
• The word "ethics" is derived from the Greek word "ethos" which refers to character guiding beliefs, standards and ideals that pervade a group, a community or people.
• "the moral principle that governs a person's behavior or how an activity is conducted"
• It can be defined broadly as a set of moral principles or values. Each of us has such a set of values.

Synopsis of the Activity (Description)

Highlights of the Activity	1. ECONTAGO – The Economics Association conducted a Financial Literacy Drive for the housekeeping staff and the security personnel of the University on the 17 and 19 of November 2022. The drive was held during the fourth and sixth hours at the fourth floor tables. 2. There were eleven volunteers including students from Economics (hons) classes and EMP classes. 3. The volunteers actively interacted with the housekeeping staff and security personnel and educated them on the different aspects of Financial literacy. 4. The topics covered were: ▪ How to Open a Bank Account

	▪ Filling a challan and a cheque ▪ Deposit and withdrawal of money using atms ▪ Government Schemes- financial (include those specific to Karnataka as well) ▪ Filing for Ration Card ▪ Net Banking and UPI - setting up, details required ▪ Net Banking and UPI - how to transfer money, scan QR, incorrect transfers 5. The queries regarding the same were answered and the session ended with the distribution of refreshments.
Key Takeaways	1. The financial literacy drive helped promote awareness and understanding of basic financial knowledge among the housekeeping staff and security personnel of CHRIST (Deemed to be University) Bannerghatta Road Campus. 2. The event showcased that basic awareness can be promoted among all members of society by starting with helping those in our surroundings. 3. The event also brought out the enthusiasm and willingness of students to participate in drives to spread awareness among staff and personnel essential to the functioning of the university.
Summary of the Activity	Financial Literacy Drive was successfully organized by ECONTAGO- The Economics Association of Christ (Deemed to be University), Bannerghatta Road Campus. The student-led initiative seeked to impart financial knowledge to the non-teaching staff of the university. The vision was to help them gain better comprehension of financial concepts which in turn would assist in proper money management, financial decision making and financial stability. Subjects concerning prerequisites and procedures involved in accessing banking facilities such as opening and operating a bank account, internet banking and UPI transactions., etc. were explained in depth. In addition to that, information regarding various government financial schemes was also given.

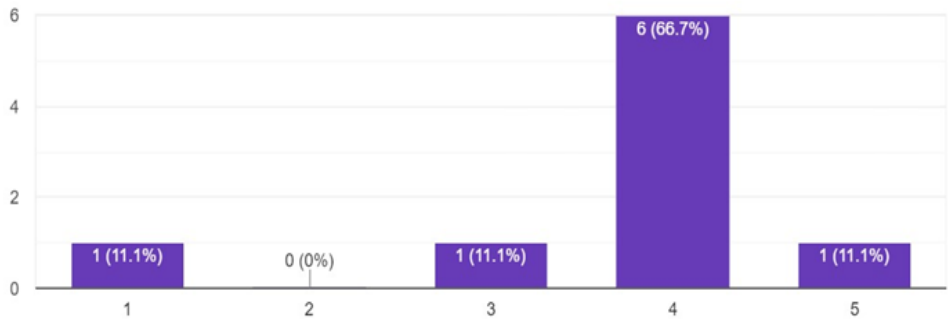
How useful do you think the sessions were for the target audience?

Copy

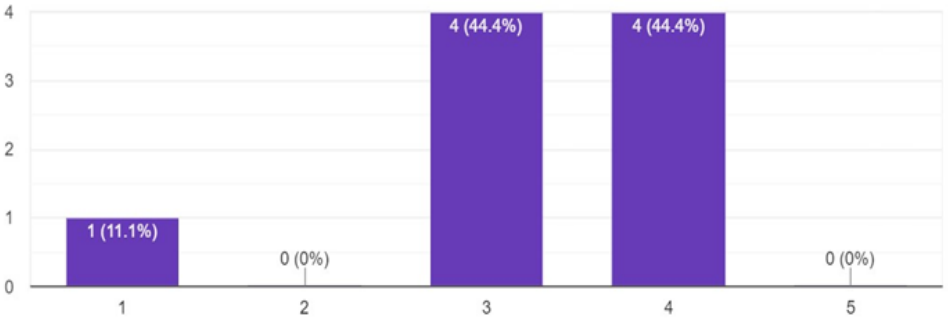
9 responses



On a scale of 1 to 5, how well planned do you think the event was?

Copy

9 responses



In which aspect of the drive do you think we have a scope for improvement?

9 responses

Could have done a need assessment survey

We can ask the akkas what they want to know about financial services

Improvements can be brought in the way we planned the content for the drive ... The drive was extremely helpful for the Akkas but it was not same for the security guards,as they were already aware of more than half of the things we planned for them . I'd say we conduct some sort of requirement survey before conducting such drives for the next time.

Drafting the plans according to the requirements.

In terms of preparing the volunteers, so that they are well versed in the things they are about to teach so that the Akkas or the ones who will need the help do not get confused and mislead to wrong conclusion

Lack of volunteers

A needs analysis must be conducted to understand the requirements of the non teaching staff members, to make the session more beneficial for them. I am suggesting this based on the feedback received, where

Kindly add the pointers you took as feedback from the non teaching helping staff members

6 responses

It was interesting to teach them and also it's always nice talking to them

More kannada speakers

They require
#A session on various government schemes
#The Akkas need to be taught about smart phone usage.
#Frequent sessions as they tend to forget if we only teach them once .

They wanted a kannada speaking volunteer.

Most of the Akkas were interested in learning about the debit card and it's function and weren't much interested in the UPI. The security people were mostly well versed with the basics of banking like opening an account, how to use a debit card. The government schemes should be the highlight for the next time because most of them were really interested in it. Some security personnel were even asking abou the basics of investment as they have seen the ads and how to grow money using the method. So basics of investment can also be taught to them

Descriptive Report

The event was organised as a way of introducing liberal arts students to the many career opportunities available to them after the completion of their degree. The event commenced with Dr. Aditi Bhartiya, faculty of Liberal Arts, introducing Ms. Saviola de Mello, a program and event specialist currently situated in Sharjah. Ms. de Mello took over, introducing herself and stating her background in Liberal Arts. She went on to describe her Liberal Arts education as one which instilled a strong sense of social responsibility and imparted strong intellectual and transferable skills.

She advised the participants to make full use of the practical aspects of their course. She encouraged them to take all and every opportunity available to gain more experience in different careers. They should use this time to network with as many people as possible and venture out of their comfort zones. She told the participants to immerse themselves in different experiences and broaden their horizons as much as possible through their flexible course structure. Since a liberal arts student is taught to view the world through a multidisciplinary lens, she advised the students to make maximum use of their unique perspective.

Ms. de Mello went on to describe her own selection of subjects and how they helped her during her career. Her background in Anthropology allowed her to understand various cultures while her Media Studies background gave her the tools she needed for advertising and marketing. Using her Film Studies background she was able to help organise a Film Fest in Sharjah. She told the participants that first year is the time to explore and to figure out what to do while internships starting from second year onwards must help in your course of action. Her experience during her internship directly impacted what she wanted to do in life. It allowed her to put into application what knowledge she had gained through her courses. Her experience in organising exhibitions and art gallery events have also given her great insight into the market scene around cultural products so much so that they inspired her to create her own line of products centered around South and West Asian motifs. This culminated in "Archeopoloji" a venture which uses recycled materials embellished with Middle Easterm and South Asian motifs, designed by women from Pakistan, Philippines and the UK.

Following this, Dr. Prerana relayed some common anxieties of the students about future career prospects and asked Ms Saviola to provide some guidance regarding the same. Ms. Saviola replied that it is true that Liberal Arts as a subject is very unconventional and often seems like it would not work but she advised the students to take some time to think about what they would like to be in life and chart their own path. Even if it gets discouraging, stick to what you want. Dr. Prerana thanked her for the answer and asked her to share her inspiration behind starting her own business. She also asked Ms. Saviola to advise the students on how to sustainably run a small business. Ms. de Mello provided her insights such as being active on Instagram, attending exhibitions and events where sponsors and such could be met and to create communities of people with similar interests. She emphasised the role of promoting yourself to the right people and making connections that would propel you forward.

She answered a few more questions from the students regarding various aspects of running a small business and of applying the knowledge gained through Liberal Arts in real life. Dr. Aditi ended the event by thanking Ms. Saviola for her fruitful insights and guidance that would surely be helpful to

the participants.

Trip to Chitradurga

SDG 4: Quality Education

BA Liberal Arts

CHRIST (Deemed to be University), Bangalore

Field trip to Chitradurga Fort

August 2022

Classes: 3BALIB
Faculty Coordinators: Dr Prerana and Dr Embassy

Date: August 12th, 2022 (Day Trip)

Trip Objective:

Educational Tours for students provide them with an opportunity to collaborate with teachers, and integrate new perspectives with informal environments to enhance learning initiatives. Among the many educational tour benefits, skill development is the most important. In order to meet several educational tour objectives, students need to apply skills, values and general knowledge in new settings.

The workshops will be designed to cover the four cornerstones of leadership: vision, values, passion and people skills. Each student then gets the time and opportunity to practice some of the practical skills that are required to lead effectively. This is done through interactive leadership games.

Outbound Training Programme Vision:

The Vision of the Outbound training is that everyone has leadership attributes and abilities. Students are at various stages of their leadership development. This day-long engagement trip will help them to grow and learn tools they can use immediately. These sessions are meant for engagements in leadership conferences or retreats, or as stand alone sessions to get students engaged in developing their leadership abilities. All of them can be presented in 30 minute to 2 hour formats and are fun, highly interactive, and get students excited about growing as a leader. In lieu of that - we are hoping to take them to a place of historical significance, which has open spaces available - and create a day long activity-based workshop with them - with an underlying narrative of Sustainability.

In an increasingly busy world it can be hard for students to feel confident in themselves or their leadership abilities. Finding their purpose will put them on the path to greater confidence!

Trip Outcome:

- Acquire useful application of the 'inquiry based learning approach' where data and information are converted into useful knowledge
- Employ confidence-building techniques to envision, write, and implement a game plan for personal, academic, and leadership growth and success.
- Provide valuable qualitative and affective learning experiences which will encourage deeper thinking about the interaction between man and his environment.
- To be exposed to the cultures and way of life of different groups of people and to be humble and respectful of their interaction.
- Acquire and demonstrate observation skills, personal skills in teamwork, collaboration, and leadership vital to working as part of a research team
- To demonstrate a comprehension of both text in the syllabus as well as the applicability chosen from outside.

Trip Plan :

Chitradurga
Fort Distance :
220 kms Time:
3.5 hrs

Chitradurga is an ancient town and was part of the Mauryan Empire under Ashoka the Great, in the 3rd century BC. Chitradurga Fort covers an area of 1500 acres and its walls cover a distance of 8km. The fort was built between the 17th and 18th centuries by several Kings and dynasties ranging from Rashtrakutas, Chalukyas, Nayaks, Hoysalas, Vijayanagar and Hyder Ali.

Sustainability context:

Chitradurga Fort is locally known as *Elusuttina Kote* (meaning the fort of seven circles) and is one of the country's strongest hill forts. The fort originally had to have 19 gateways, 38 postern-gates, 35 secret entrances and 4 'invisible' entrances. Many of these have gone out of existence now. The doors were made of strong and thick wooden beams fastened with iron plates. The soaring ramparts are hewn from rock to complement the craggy landscape and were designed so that each line of fortification overlooks others below. Zigzagging pathways slowed down enemy soldiers and prevented the use of battering rams. The doors of the main gateways were, in addition, bristling with iron spikes to ward off elephants.

Chitradurga fort is famed for its sophisticated water harvesting system. Interconnected reservoirs collected and stored rainwater, which overflowed from each tank flowing into other tanks below it. Such an effective system ensured that the fort never ran out of water.

After filling all these tanks, the water used to flow to the moats round the fort-walls. The Fort was built in various stages during the reign of different dynasties. It comprises seven enclosure walls, eighteen temples, the masjid, nineteen gateways, thirty eight posterior entrances, palaces, mosque, granaries, oil pits, secret entrances and water tanks. The many interconnecting tanks were used to harvest rainwater and the fort was known to have no water shortage. The fort was built using granite stones for fortification, covering an area of 1500 acres. The Fort is also known as the Fort of Seven Rounds, has seven walls within it which were designed with thin paths to stop enemies from entering the fort. The height of the walls were made in alignment with the topographical condition of the surrounding area. The structure definitely benefits from the architectural skill and expertise of artisans and craftsmen belonging to various dynasties over a period of many years.

Liberal Arts Context:

As the Programme's main philosophy is Sustainability driven - visiting spaces like this, understanding the Historical Context, the use of space, the politics and dynamics of the Heritage, as well as Tourism is seen to be very important for a developmental growth in any field and context. This will also give space to the class to collectively come together and work on a Project, where they will come up with solutions together. This will be counted as part of their Skill Development module.

Chitradurga Fort is open from 6 AM to 6 PM on all days. Certified guides are available near the entrance who can be hired to give a guided tour and narrate historic importance.

Trip Itinerary:

One of the reasons for the trip was to make sure the students are able to apply the historical and archaeological theories learned in class to develop judgments and inferences about archaeological sites and spaces and structures. The trip will also help the students to better situate the ideas based on an archaeological site experience.

Transport will be needed between CHRIST (Deemed to be University) Bannerghatta Campus and to the sites. Food is available near the sites (Udupi Bhavana/Darshini) but we recommend carrying ample amounts of water for the journey and for the site exploration.

The Field Trip is a one day Trip on 12th August 2022. We shall leave in Morning at 5.15 am and come back by 6 pm. 12th August 2022 being a Friday, the students will be missing 4/5 hours of classes - which we are proposing to reschedule wherever needed and is possible. Alternatively, the students can be given some work to do for the attendance in those subjects/courses in lieu of whatever was to be taught in those hours by the Faculty.

Breakdown of Expenses:

Travel	**Christ Bus** Rs 45/km **Total Km:** 450 (Approx) **Total: Rs 20,250**
Food	**ICH:** Rs 230 per student (Breakfast, Lunch and Water)

	Total: 52 students (6EPH and 4BALIB) 52 x 230 = **Rs 11,960**
Total Expenses	**Rs** 11,960 + 20,250 **= Rs** 32,210
Contribution per student	**Rs 620/per head**

Parivarthana Exposure

Activity Report

General Information

Type of Activity	Departmental exposure towards Parivarthana, the waste management unit of the university
Title of the Activity	Parivarthana Exposure
Date/s	11-13 January, 2023
Time	9 am- 4 pm
Venue	Parivarthana Unit, Christ University, Bangalore
Collaboration	Centre for Social Action

Speaker Details

Name	Anup Srivatsa
Title/Position	Student Representative
Organization	Centre for Social Action

Participants profile

Type of Participants	Anvaya Volunteers
No. of Participants	16

Synopsis of the Activity (Description)

Highlights of the Activity	The exposure's main aim was to raise awareness about the decentralized, waste-management unit which recycles any possible waste material and sensitize the students of school of business and management towards the importance of waste management. The students were given a tour of the parivarthana unit's 5 pillars- Waste segregation, Bio Gas, Composting, Paper Recycling Unit and the Water Treatment Plant over 3 days in 2 hour-slots. Some students even got hands-on experience towards making recycled paper. Some members of the club even volunteered to give the

	exposure and were trained to give exposures in the future by the CSA Representatives.
Key Takeaways	● The exposure aimed to raise awareness about Parivarthana and sensitize students towards the importance of waste management. ● The tour included Parivarthana's 5 pillars: Waste segregation, Bio Gas, Composting, Paper Recycling Unit, and Water Treatment Plant. ● Students got hands-on experience making recycled paper. ● Some members of the club volunteered to give the exposure and were trained to give exposures in the future by the CSA Representatives.
Summary of the Activity	● This event focused on raising awareness about the parivarthana unit which recycles any possible waste material to ensure that the University is a zero-waste campus ● Students accompanied by Anvaya volunteers were given a tour of the 5 verticals of the Parivarthana unit ● The event focused on giving a pragmatic and hands-on experience of how a social as well as ecological impact is created
Follow-up plan	Ensure discipline among students who are being exposed to the unit.

Buddy Learning Programme 4.0

SDG 4: Quality Education

BUDDY LEARNING PROGRAMME 4.0

Event: Buddy Learning Programme 4.0
Venue: CHRIST(Deemed to be University), Bannerghatta Road Campus
Date: 2 November, 2022 - 7 November, 2022
Number of volunteers: 22

SDG Goals:

- SDG 4 - Quality Education: It promotes peer-to-peer learning, which can enhance the quality of education and skills development among CSA volunteers.
- SDG 5 - Gender Equality: If the initiative encourages both male and female volunteers to participate equally, it contributes to gender equality by providing opportunities for all.
- SDG 8 - Decent Work and Economic Growth: By teaching valuable skills, this initiative can enhance employability and contribute to economic growth.
- SDG 10 - Reduced Inequalities: Peer learning can reduce inequalities in access to education and skills development, ensuring that all volunteers have a chance to benefit.
- SDG 17 - Partnerships for the Goals: Collaborative initiatives like this demonstrate the power of partnerships and cooperation among CSA volunteers, fostering a sense of community and shared learning.

Description and Objective:
Buddy Learning Programme is a peer learning initiative by the Media and Communication wing. Under this initiative, CSA volunteers teach a skill they are good at, to the other CSA volunteers with the motive to help them learn a particular skill that might prove to be beneficial in their future.

Impact on the community:

1. Volunteers are sensitized about social issues relevant to the courses which were a part of the event.
2. Few of the skills under the programme would prove to be useful to the volunteers in helping the community.
3. It created a holistic learning environment where the volunteers and the Christites worked together and learnt something new, every day.

Benefit to Volunteers:

1. The courses and workshops as a part of the peer-learning drive helped the volunteers to add to their skill set.
2. The skills taught to them would help in their professional as well as personal life.
3. Apart from the aspect of learning new skills, volunteers were also able to engage in activities they liked after college hours.
4. Volunteers were able to enhance their knowledge through a more personalized, engaging, and collaborative learning experience.

Chat Over Coffee

SDG 4: Quality Education

<u>Chat Over Coffee Report</u>
Centre for Social Action
Bannerghatta Road Campus

Event: Chat Over Coffee
Venue: 5th floor, BGR Campus
Date: 26 August, 2022
Number of volunteers: 25

- SDG 4: Quality Education: ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including through education for sustainable development and sustainable lifestyles.
- "Chat Over Coffee" fosters discussions and learning opportunities related to important social issues, contributing to quality education by enhancing volunteers' knowledge and understanding.
-
- SDG 16: Peace, Justice, and Strong Institutions: Ensure responsive, inclusive, participatory, and representative decision-making at all levels.
- This initiative promotes open and constructive discussions, indirectly supporting principles of inclusivity and participation, which are essential for achieving peace, justice, and strong institutions.

Description and Objective:
Chat Over Coffee is an initiative by the Media and Communication wing of CSA which focuses on promoting effective communication through group discussions. This initiative focuses on bringing awareness on an important issue or a social cause among the volunteers. Everyone sits together in a circle for a fruitful group discussion and have a chat over a cup of coffee.

Impact on the community:
1. Through an active discussion with the volunteers, their friends and family would also get more information and insight into the various issues faced by the genders and the importance of gender equality.
2. The discussion not only impacted the volunteers but the community they live in because they would apply the learnings from the discussion to the society they live in.

Date: 24th June 2023
Venue: Kengeri campus, Block New Architecture block
Time: 08:50 AM – 09:20 A M
SDG Coordinator: Ozam Akhtar, Tanya Jaiswal, Vanshika Malhotra

School of Architecture, CHRIST (Deemed to be University), India

About the Event

World Environment Day 2023

The day was celebrated in the School of Architecture, Christ University to raise awareness about the current situation of the environment and how we as practicing architects and architecture students can contribute to preserve the environment.

The whole agenda of the day was on beat plastic pollution and as a part of this beautiful profession where it's just not only art but also science blended with morals and ethics we pondered on what are the roles of this profession and what should be our roles if we continue this career path.

Scope of the Meeting

Repurposing of single use plastic (plastic water bottles) into wall art (architecture)

09.10: Conclusion by - Dr. Siva Jaganathan

09.15: Common discussion +Q/A (speaker)

09.20: Vote of thanks - Dr Anitha Suseelan

Participants: Faculty and students from 2nd , 3rd, 4th year 2023-2024

Report of the Event

The School of Architecture, CHRIST (Deemed to be University) Kengeri Campus, with SDG organized its very first meeting on 23rd June 2023.
The meeting was attended by about 20 faculties from the Architecture Department CHRIST (Deemed to be University) Kengeri, Campus, and about 100 students from B.Arch degree course.

SDG student coordinators anchored the event. It began with an introduction to what is SDG and who all are its coordinators . Followed by 2 min silence and a small quote to begin with . Then students were made aware regarding the topic and introduced to #BEATPLASTICPOLLUTION by a small presentation and a small talk .

Ar. Jyoti Gupta and Dr. Siva Jaganathan also shared their thoughts with students and other faculty members on this agenda . After that, a QA session was conducted, both students and faculties interacted with ultimate excitement. The floor was open for discusisons .

The session concluded with a small talk by Dr. Anitha Suseelan (HOD).

Participant's profile

Type of Participants	**Faculty**
No. of Participants	**42**

Synopsis of the Activity (Description)

Highlights of the Activity	The sessions cover the basics of maths, statistics, python and other topics which are important to get into the field of Machine Learning.
Key Takeaways	Knowledge and introduction of various aspects related to Machine and Deep Learning.
Summary of the Activity	The FDP consists of 3 sessions each day (5 days) on different topics and link among these. First day sessions introduce basics of linear algebra and its relevance with ML and python implementation. Second day sessions are based on statistical thinking and Gaussian distribution and its role in ML. Third day sessions are on few regressions and Gaussian mixture model. Fourth day sessions are on classification, Ensemble based learning, SVM and basics of Deep Learning. Fifth day sessions are in continuation with fourth day and covers CNN and AuthoEncoder followed by feedback.
Follow-up Plan, if any	This programme may be extended to an advanced level with more participation and more advanced topics.

School/Department of Sciences
CHRIST (Deemed to be University), Delhi NCR

FDP Abstract Session Wise

Day 1

Resource Person: Prof. R. Renuka and Dr. Akshara Makrariya

Topic: Basics of Linear algebra, Relevance with Machine Learning and Python Implementation.

Abstract: The sessions cover matrices, its decomposition into vectors, dataset representation of few real-life example like of flower, diet planning, books options etc into matrix form and connection with ML, Introduction to Artificial Intelligence and Fuzzy logic systems, an example to understand Machine Learning and implementation of operations in python.

Day 2

Resource Person: Dr. Ashis Kumar Chakraborty

Topic: Statistical Thinking, Gaussian Distribution and Relevance with ML, PCA and LDA.

Abstract: First session is the introduction to some real-life problems, identify the problem as a Classification problem, find out possible solutions using Statistics. Second session introduce some real-life problems, identify the problem as a Regression problem, find out possible solutions using Statistics. Third session introduce Machine learning concepts and show how Statistics along with Machine learning gives better solutions to the above problems.

Day 3

Resource Person: Prof. Surbhit Shukla

Topic: Linear and Logistic Regression & K-Means and Gaussian Mixture Model.

Abstract: The sessions of this day cover linear regression: its analysis for a given data set, logistic regression: its analysis for a given data set. Their advantages and disadvantages. K-clustering algorithms in supervised and unsupervised learning. Implementation of these applications in python and visualization and Gaussian mixture model.

Day 4

Resource Person: Prof. Aparna Bulusu and Dr. Chandra Blessie

Topic: Tree based classifiers, Ensemble Learning algorithms, SVM and basics of Deep Learning.

Abstract: The sessions cover the concepts of pruning, classification of data set, how this classification can be represented in form of trees, Different ensemble learning algorithms, support

CHRIST (DEEMED TO BE UNIVERSITY) SCHOOL OF SCIENCES

vector machine, creation or choosing of a function, which acts as a hyperplane to separate different types of data and its applications. Session also covers introduction of deep learning and how it is different from neural networks.

Day 5

Resource Person: Prof. Aparna Bulusu

Topic: CNN and AuthoEncoders

Abstract: The event started with the valedictory session and then talk on the mentioned topic covering applications of Deep learning in video editing, audio editing, its advantages and disadvantages, colour scales, pixels and its effect on images. Requirements of systems capable of Representation Learning, basic architecture of a CNN concluded with vote of thanks and feedback.

Activity Report- January 2022

General Information

Type of Activity	***Training***
Title of the Activity	**Financial Literacy 2022**
Date/s	**10th January 2022**
Time	**03:00 PM to 04:30 PM**
Venue	**Online Mode**
Collaboration/Sponsor (if any)	

Speaker

Name	**Dr. N.N. Pandey**
Title/Position	**Associate Professor**
Organization	**Christ Deemed to be University, Delhi NCR**
Title of Presentation	**Financial Literacy**

Participants profile

Type of Participants	**Students and Faculty**
No. of Participants	**180**

Synopsis of the Activity (Description)

Highlights of the Activity	Faculty and student knowledge on Financial literacy
Key Takeaways	1. Knowledge on Budget 2. Various ways to invest money
Summary of the Activity	This training program was good for the faculty members, faculty queries and doubts were taken by the trainer . The participants were provided with live examples and hand on training which shall give them the opportunity to experience the real world problems on bit coin and various currency.
Follow-up Plan, if any	To conduct this type of training for next semester

Financial Literacy

Desriptive Report

Financial training enlighten the knowledge of students and faculties in many ways. This training program was good for the students, students queries and doubts were taken by the trainer . In total 180 students and faculty mebrers were participated in the training. The participants were provided with live examples and hand on training which shall give them the opportunity to experience real world problems.

Most of us who are inrested to invest money but they didn't know when and where money can be invested. Why a investment is important and how it is going to be beneficial for us. Participants got a clear view about all these questions which occurs every now and then and left us in deep confusion. It was a seamless training program and very informative. Most of the participants will now know that we should invest money on time . Participants were overwhelmed by the session and most of their queries were solved. A big thanks to the team for sharing the knowledge.

Speaker's Brief Profile

Dr. N. N. Pandey, is presently working as Associate Professor, school of management, CHRIST university Delhi NCR campus. He is a Fellow Member of the Institute of Chartered Accountants of India. He has completed his Masters' degree in Business Administration in Finance from Pondicherry University. He has 15 years of corporate experience. From last 15 years, he is in academic field.

He has authored two books one on Internal Audit and Control and another on Banking related Laws and practices. He has also reviewed 2(Two) books on Financial Management and one book on Security Analysis and Portfolio Management. He has published 9 research papers in Journals of international repute. In the year 2009, he has been declared as "The Best Teacher" by Ghaziabad Management Association.

His areas of interest include market efficiency, financial derivatives and corporate finance.

Activity Report

General Information

Type of Activity	*Training* /5.1.2
Title of the Activity	**Peer interaction**
Date/s	5th August 2022
Time	2.30 pm
Venue	Offline – Room No. A316, A-Block
Collaboration/Sponsor (if any)	**Nil**

Speaker/Guest/Presenter Details

Name	Mr. Abin Johnson
Title/Position	MSc Economics and Analytics (3rd Semester)
Organization	Christ (Deemed to be University), Delhi NCR
Title of Presentation	Internship Opportunities

Participants profile

Type of Participants	**Student**
No. of Participants	**61**
Teacher	**1**
Student	**60**
Male=46	**Female=15**

Synopsis of the Activity (Description)

Highlights of the Activity	1. Career opportunities in Data Science, Data Analytics, Machine Learning, etc. 2. Ways to level up the data science skills 3. Importance of doing internships and projects
Key Takeaways	1. Important to have a LinkedIn profile or any other relevant sources to gain information on internships and projects. 2. Various specialization courses available online that can build analytical or programming skills
Summary of the Activity	The activity was about the 'Internship opportunities' where the speaker mentioned his experience as a Data Analyst. He talked about the various job aspects required in this field. He also spoke about how we can improve our skills and chances of getting a job in this field. He mentioned companies that provide free internships. He also says the importance of internships as the companies offer letters of Recommendation for our other jobs and help connect with people with expertise in this field.

Peer Interaction

Activity Report- August 2022

Descriptive Report:

The first peer interaction conducted on 5th August 2022 started at 2.30 pm. Suchismitha Yelisetty(5BCMS) introduced Mr. Abin Johnson, our speaker, to the students from the School of Sciences. He spoke about the 'Internship opportunities' where he mentioned his experience as a Data Analyst. He talked about the various job aspects required in this field, i.e., computer science, mathematics, statistics, and business/domain expertise (by internships and projects). He also talked about how we can improve our skills and chances of getting a job in this field – by attending online courses related to programming, analytics, statistics, etc. He mentioned companies that provide free internships like The Sparks Foundation, Oasis Infobyte, iNeuron, Let's Grow More, etc. He also says the importance of internships as the companies provide letters of Recommendation for our other jobs and help connect with people with expertise in this field. Also, it helps to gain hands-on experience working as a Data Scientist or Data Analyst.

The discussion concluded at 3.30 pm, with a vote of thanks from Suchismitha Yelisetty (5BCMS)

School/Department of Sciences

CHRIST (Deemed to be University), Delhi NCR

Peer interaction

Activity Report- August 2022

Speaker Profile:

Mr. Abin Johnson

Mr. Abin Johnson is currently doing his final year in MSc Economics and Analytics at Christ (Deemed to be University), Delhi-NCR campus. He has completed his undergraduate studies in BSc Physical Sciences (Mathematics and Chemistry) from St. Stephen's College, Delhi.

Over the last couple of years, he has developed various skills in Data Science such as Exploratory Data Analysis and Data Visualization, Storytelling, Machine Learning, and Statistical Skills such as Econometric Modelling, Regression, Time Series, Classification, and Clustering.

He has done various internships as a data analyst and business analyst intern, including Remarkable ones.

1. Data Science Intern

- Innomatics Research Labs ·

· 2. Data Analyst

- Sunaayy Foundation · Internship

· 3. Data analyst intern

- KPMG Australia · Internship

· 4. Data Science and Business Analytics Intern

- The Sparks Foundation · Internship

SCHOOL OF SCIENCES

Action Taken

Overall the students were satisfied with the session, and they were requested to conduct more similar events. We plan to conduct more such events to make our students understand opportunities in placement and internship.

Academic Co-ordinator

HOD 16/09/2022

CHRIST (DEEMED TO BE UNIVERSITY) SCHOOL OF SCIENCES DELHI (NCR)

Feedback Analysis and Action Taken:

The first peer interaction event held on August 5th, 2022, for the students of the School of Sciences, received positive feedback. Mr. Abin Johnson discussed internship opportunities, emphasizing the importance of skills development and online courses in fields like programming, analytics, and statistics. Mr. Johnson also highlighted companies offering free internships and the benefits of gaining hands-on experience as a Data Scientist or Data Analyst. Overall, the students expressed satisfaction with the session and requested more similar events in the future. This positive feedback indicates their interest in understanding placement and internship opportunities. As a result, the School of Sciences plans to organize more events to further educate students about the available opportunities in the field.

CHRIST (Deemed to be University), Delhi NCR

Faculty Development Program on Problem Solving and Programming using Python

Descriptive Report

Day 1
29th June 2022 (Wednesday)

Session by Dr Shikha Mehta, JIIT Noida

The speaker started the session with a brief introduction of Machine Learning. The session comprises Linear Algebra applications for Machine Learning, Data Representation in Machine Learning and Machine Learning Technique-k-means algorithm.

Day 2
30th June 2022 (Thursday)

Session by Dr Payal Batra, JIIT Noida

The session comprises of the Applications of linear Algebra, Principal Component Analysis, Singular Value Decomposition, Recommender System, Latent Semantic Analysis, NLP, Introduction to Matrix, Transpose, Inverse of a Matrix, Eigen Value and Eigen Vectors, PageRank (Google Search Algorithm), Singular Value Decomposition, Dimensional Reduction with hands-on lab session related to the topics were discussed.

Day 3
1st July 2022

Session by Dr Payal Batra, JIIT Noida

This session enlightened the different types of learning which includes Supervised Learning,regression and Classification, Linear Regression Model, Linear Regression Hypothesis, Linear Regression Implementation, Visualizing Cost Function, Gradient Descent, Linear Regression

SCHOOL OF SCIENCES

with Multiple Variables, Normalization Techniques, Logistic Regression, the Cost function for Logistic Regression, Convex Logistic Regression, Multiclass Classification Problems with hands-on lab sessions related to the topics.

Day 4
4th July 2022

Session by Dr Shikha Mehta, JIIT Noida

The session discussed the Clustering, k-means clustering algorithm, Introduction to Neural Network and Deep Learning, Features of Learning Problem with hands-on lab sessions related to the topics.

Day 5
5th July 2022

Session by Dr Shikha Mehta, JIIT Noida

The session focussed on the practical hands-on demonstration of the algorithms using the Keras package.

Day 6
6th July 2022

Session by Dr Shikha Mehta, JIIT Noida

The session comprises Deep Learning architecture, Unsupervised Architecture, Autoencoder, Generative Adversarial Networks, Supervised Architecture, Convolutional Neural Network, and Max Pooling, with hands-on lab sessions related to the topics.

Faculty Development Program on Problem Solving and Programming using Python

Speakers Brief Profile

1. **Dr Shikha Mehta**

Dr Shikha Mehta, Associate Professor, Department of Computer Science Engineering, Jaypee Institute of Information Technology, Noida, attained her doctorate in the domain of Artificial Intelligence from the University of Delhi, Delhi. She has over 19 years of teaching experience at both undergraduate and postgraduate levels. Dr Shikha has organised many special sessions at conferences and is in the program committee of various conferences of repute. She has addressed a diverse audience as a keynote speaker in UGC and TEQIP-sponsored FDPs and workshops. She is an active researcher in the field of Machine Learning, Nature Inspired computing and social networks. She has guided various M tech thesis, more than 100 B.Tech projects, and presently she is guiding three PhD scholars and one has been already awarded PhD under her guidance. With many national and international research publications to her credit, she is also the chief editor of a book published by a reputed international publisher. She is also having two patents to her credit.

2. **Dr Payal Batra**

Dr Payal Khurana Batra is working as Assistant Professor (Senior Grade) at JIIT, Noida, since 2016. Before that, she worked with various institutes and universities like Amity University, Sharda University, NCCE, Panipat etc. She obtained PhD (CSE) degree from JIIT in 2017, M.E (IT) from Panjab University in 2009, Chandigarh and B.Tech (CSE) from Kurukshetra University in 2004, respectively. She has more than ten years of experience in Academics. She has many publications in International Journals, and International Conferences indexed in SCI and Scopus. She has a Patent to her name as well. She delivered talks in various workshops and FDPs. She is the reviewer of many reputed Journals and conferences such as IEEE Transactions on Vehicular Technology, IEEE Access, Journal of Intelligent Systems, IEEE Wireless Communications Letters, PCCDS-2020, PCCDS-2021, ICCCIS 2021, and IC3 2022 etc. She also worked as an organiser of the workshops at JIIT. During her teaching career of more than ten years, she has taught subjects like Computer Networks, Wireless Sensor Networks, Computer Organization, Internet of Things, Data Base Systems and Web, Big Data and Data analytics and many more

Activity Report

General Information

Type of Activity	Webinar on *Career Guidance for Higher Studies*
Title of the Activity	**Career Guidance for Higher Studies**
Date/s	07/03/2022
Time	2:30 - 3:30 PM
Venue	Seminar Hall, Block A, Third Floor
Collaboration/Sponsor (if any)	None

Speaker/Guest/Presenter Details

Name	Prof. Gaurav Misra
Title/ Position	International Life Skills Trainer
Organization	University of Petroleum and Energy Studies (India)
Title of Presentation	Career Guidance for Higher Studies

Participants Profile

Type of Participants	Faculty and Students
No. of Participants	154

Synopsis of the Activity (Description)

Highlights of the Activity	This event is organised to make students aware of various opportunities available for higher studies and the general process of applying scholarships/fellowships.
Key Takeaways	Various Scholarship/Fellowship Schemes available. Tips to prepare for interviews.
Summary of the Activity	The event focussed on making students aware of various scholarship/fellowships opportunities available in both national and international universities. The invited speaker also addressed queries raised by the students and clarified their doubts.

Rapporteur

Name of the Rapporteur	Dr. Swati Agrawal, Dr. Iyyappan Murti

Webinar on Career Guidance for Higher Studies

Descriptive Report

A session on *Career Guidance for Higher Studies* was organised by the School of Sciences on 07 March 2022. It was a one-hour session conducted in hybrid mode. The event was coordinated by Y. Suchismita (20218010), student of B.Sc (CMS) sem IV.

The expert, Prof. Gaurav Misra, started the event with a "Question and Answer" session to get an overview about the student's motivation to study in foreign universities and their knowledge about various opportunities available at foreign universities. He provided information regarding scholarships/ fellowships available in various universities. He also shared details of a few websites that students
can explore for further information and explained the procedure of applying for these scholarships/fellowships. He also gave some tips on how to prepare for interviews. He emphasized on using social networking sites like Linkedin for better networking and taking guidance from those students who have already cleared the interview process.

At the end of the session he answered queries raised by students and clarified their doubts. The session concluded with a "vote of thanks".

Webinar on Career Guidance for Higher Studies

Speaker's Profile

Prof Gaurav Misra is India's 1st Life Skills Coach acknowledged with 'International Recognition' by CTAUN, United Nations, New York. he is a multi-award winning communication & soft skills trainer, language facilitator, educator, motivational speaker, and blogger. At present, he is associated with University of Petroleum and Energy Studies (India) to contribute to its most innovative initiative 'School for Life'.

He has been training, coaching & mentoring corporate professionals, university graduates and school students from USA, UK, Australia, Germany, Canada, Mauritius, Dubai, Japan and India. In 2019, and was selected as 'Global Leader for Innovation & Knowledge Scholar' by 'Fujitsu', Japan's no. 1 ICT organization. He is an award winning alumnus from JAIMS (Japan America Institute of Management Science), Hawaii, USA. In 2016, he represented India as a 'Youth Leader' at the United Nations headquarters, New York.

He is the 1st Indian instructor to teach Hindi as a Foreign Language to Americans in the University of Montana, USA. As a Master Coach, he has trained Career Coaches and Student Mentors at India's topmost e-Learning platform upGrad. He has conducted various corporate trainings for British Council, USIEF, Reliance, Fujitsu, Bajaj Hindusthan, Eureka Forbes, Lifestyle Mr. & Ms. India, NCC (National Cadet Corps) and many more.

Prof. Gaurav Misra studied Life Skills at the University of Montana, USA for one year. He then pursued his passion for Human Resource Development by earning T&D Diploma from ISTD (Indian Society for Training & Development), New Delhi. He holds a Post Graduate Diploma in Management and in English literature too. He has been trained, coached & mentored by Worldclass Professionals like, Jere Hodgin - American Director & TEDx Speaking Coach Dr. Cheryl Minnick - US National Career Coach and Prof. Nonaka - Global Expert on Innovation Management.

Some of his career highlights are as follows:
2019 Honorable Student Award, JAIMS, Japan
2019 International Recognition, CTAUN, United Nations, New York
2019 State Recognition, Chief Minister's Office, Uttarakhand
2018 Global Teacher Award, GTC Worldwide, New Delhi
2017 National Youth Icon Award, ONGC, India
2016 Distinguished Service & Outreach Award, UM, USA
2015 Fulbright Scholar Award, USIEF, New Delhi
2011-14 'Topmost Trainer Throughout' Recognition, GEHU
2009-10 'Employee of the Year' Award, MTouch, Noida
2008 Best Trainee Award, Promotion House, New Delhi
2007 Best Presentation & Case Study Award, ICFAI.

Corporate talk series-2
17 January 2022

Descriptive Report

The corporate Interface club from the School of Sciences organized Corporate Talk-2 on 17th January 2022.

The session started at 3:00 pm with Yagyansh Kapoor (BSc EMS) introducing the speaker, Mr. Sachin Jhala. The session revolved around the topic of the latest technology Trends. The students and the faculty of the Department of Computational Science consisted of the audience.

Mr. Sachin Jhala talked about the latest developments in artificial intelligence, including feeding knowledge into AI to make the machine more compatible. The session also includes talks about Virtual Reality, Data Science, Applications of Machine Learning, and Cloud Computing. He shared some information about the use of AWS and the massive amount of data storage.

Not only was the session incredibly insightful and saw active participation, but it also encouraged the students to deliberate and research on the subject discussed further. The meeting ended with an open question-and-answer platform between the students and the speaker. By 4:15 pm, after the vote of thanks presented by Apurv Das from BCA, the session was concluded successfully.

Informative

Impressive session

Knowledge

AI integegens

About data structures

Changes in technology and how to deal with it

It was a informative session.

ok..

About various upcoming and emerging technologies being used in the today's world and how it can help us to be well-equipped for the industry

---

Any other comments, that you would like to share with us for the further improvement

161 responses

No everything was good

Could have been more fun learning ! !

Speakers knowledge should be more vast

Nothing

No, not as such! Thank you for the session!

nope

Attendance

No other comments

The information about every technological area was explained at its best. Thanks to Mr. Sachin Jhala who inspired us to work in such upcoming career fields.

Action Taken

Overall the students were satisfied with the session. We plan to conduct more such events to make our students connect with the corporate world.

Skill enhancement workshop-1
20 January 2022

Descriptive Report

Corporate interface CHRIST (Deemed to be University), Delhi NCR, conducted a skill enhancement workshop with a public speaker and startup mentor, Mr. Sagar Ranshoor.

The event saw participation from various departments with more than 200 participants, with an 80% attention ratio. Mr. Sagar Ranshoor ensured that the audience was engaged throughout the session, which depicts his excellent oratory skills and talent.

Sagar sir introduced students to the world of public speaking, and he gave tips on how a successful speaker should deliver his content to his audience. He also busted common misconceptions of public speaking. The students gave positive feedback and requested more such workshops.

The event was successfully hosted by our esteemed members Vaishali Pant from 1BscCMS and Poorvii Goel from 4BscEMS.

Speaker's profile:

Mr.Sagar Ranshoor is a public speaker and a communication coach, with vast experience of more than 7+ years, in this field. He is the recipient of more than 10+ awards at various state and national levels.

He has delivered 100+ speeches at various prestigious organizations like Saint Gobain, Lokmat, IIT- Bombay, and more, addressing more than 20,000 people across India.

He has been the youngest anchor for Vice President of India & Chief Minister of Maharashtra at 21. He is certified from 'University of Cambridge' specializing in Business Communication & also holds a Bachelor of Mass Media degree from 'University of Mumbai.'

He is a good communication coach and mentor, but he is also known for his startup and entrepreneurship skills. As an entrepreneur, he founded Tuck-in Food & Beverages - a quick-service restaurant brand at 23.

The event was successfully hosted by our esteemed members Vaishali Pant from 1BscCMS and Poorvii Goel from 4BscEMS.

CAPS Training
"Statement of Purpose"

Descriptive Report

An CAPS training by the School of Sciences was conducted on 09th September 2022. Prof. Rincy Dienal, Assistant Professor from Christ University, Kengeri campus was the speaker for the event. It was a one-hour event conducted in seminar hall. The event was coordinated by the Dr. Varuna Gupta and Dr. Punceth.

The event started with a silent prayer. The host introduced the speaker to all the participants. Prof Rincy then threw some light on what is CAPS. She also discussed about how to set your statement of purpose. It was a very intractive session. The session ended with a Q&A session. The vote of thanks was delivered by Sanskriti Saran (3BCA).

Overall Analysis and Action Taken

The IPR training program conducted by the School of 30 August 2022. received overwhelmingly positive feedback. All most all the course from school of sciences were participated. The students gained satisfied knowledge from this session.Students found that the topic of the training was very useful for their career.

The participants expressed their satisfaction with the content of the training. Overall the students and faculties were satisfied with the session, and they were requested to conduct more similar events.

As per the feedback given by the students more such interactive topics can be considered for future events. More student interaction should be there during the sessions. Relevant videos must be included.

Activity Report

General Information

Type of Activity	*International Workshop*
Title of the Activity	Introduction to Systems Science and Introduction to Complex Systems & Network Science
Date/s	**21 Nov. 2022 – 22 Nov. 2022**
Time	**10.00 AM - 3.30 PM**
Venue	**Offline**
Collaboration/Sponsor (if any)	**Office of International Affairs**

Speaker/Guest/Presenter Details

Name	Prof. Hiroki Sayama
Title/Position	Professor
Organization	Binghamton University, State University of New York
Title of Presentation	1. Introduction to Systems Science 2. Introduction to Complex Systems and Network Science

(Add/repeat above rows if there is more than one Speaker)

Participants profile

Type of Participants	Students
No. of Participants	80
Male= 68	Female= 12

Synopsis of the Activity (Description)

Highlights of the Activity	Complex Network Systems & Network Science, Implementation through python.
Key Takeaways	The students learnt complex systems and network science, covering many relevant concepts and methodologies, including: emergence, self-organization and pattern formation, power-laws and scale-free distributions, collective behaviors, phase transitions, dynamical networks, agent-based modeling, social network analysis, and adaptative and evolutionary processes.
Summary of the Activity	This is one of the most important subjects in academic curricula and a booming field in innovative research. The participants were provided hands-on training, allowing them to experience real-world problems.
Follow-up Plan, if any	To conduct more sessions on this topic.

on

Introduction to Systems Science and Introduction to Complex Systems & Network Science

Descriptive Report

A two day International workshop on "Introduction to System Science and Introduction to Complex Systems and Network Science" was conducted in collaboration with Office of International Affairs on 21-22, Nov. 2022. The resource person for this workshop was Prof. Hiroki Sayama, Director, Center for Collective Dynamics of Complex Systems, Binghamton University, State University of New York. The lecture introduced the students to complex systems and network science, covering many relevant concepts and methodologies, including: emergence, self-organization and pattern formation, power-laws and scale-free distributions, collective behaviors, phase transitions, dynamical networks, agent-based modeling, social network analysis, and adaptative and evolutionary processes. Systems Science is a highly interdisciplinary/transdisciplinary research field that focuses on system-based modeling/analysis methodologies instead of specific subjects of study. In today's heavily inter-connected world, there has been an increasing demand for professionals who have strong systems thinking and problem solving skills.

Speakers Brief Profile

1. **Dr Hiroki Sayama**

Dr.Hiroki Sayama is a Professor in the Department of Systems Science and Industrial Engineering, and the Director of the Center for Collective Dynamics of Complex Systems (CoCo), at Binghamton University, State University of New York, USA. He also serves as a non-tenure-track Professor in the School of Commerce at Waseda University, Japan, as well as an External Faculty member of the Vermont Complex Systems Center at the University of Vermont. He received his B.Sc., M.Sc. and D.Sc. in Information Science, all from the University of Tokyo, Japan. He did his postdoctoral work at the New England Complex Systems Institute in Cambridge, Massachusetts. His research interests include complex dynamical networks, human and social dynamics, collective behaviors, artificial life/chemistry, interactive systems, and complex systems education, among others. He is an expert on mathematical/computational modeling and analysis of various complex systems. He has published more than 200 peer-reviewed journal articles and conference proceedings papers and has written or edited 14 books and conference proceedings about complex systems related topics. His open-access textbook on complex systems modeling and analysis has been downloaded more than 70,000 times globally and has become one of the standard textbooks on this subject. He currently serves as a Board member of the Network Science Society (NetSci) and the International Society for Artificial Life (ISAL), the Chief Editor of Complexity (Wiley/Hindawi), the Founding Co-Editor-in-Chief of Northeast Journal of Complex Systems (NEJCS), an Associate Editor of Artificial Life (MIT Press), and as an editorial board member for several other journals.

Analysis:

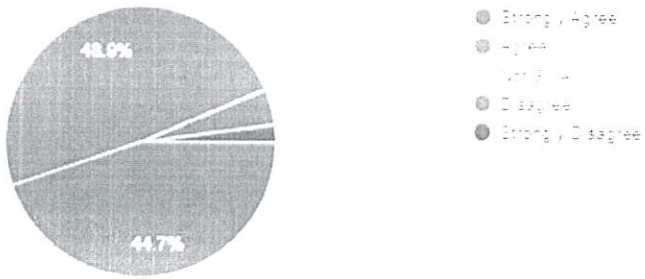
1. 95.7 % students found that the content shared by the resource person was very effective.
2. 51.1 % of the students agreed that the session met their expectations, 42.6% strongly agreed that the session met their expectation from the speaker whereas rest of the students are not sure about this.

I am interested in knowing more about courses appropriate for me at Binghamton

47 responses

Overall the workshop was very informative and engaging

47 responses



Analysis:

1. Interested to know more about the courses at Binghamton University
   59.6 % of the students want to know, 25.5 % may like to and rest of the students are not interested.

2. 48.9 % of the students agree that overall the workshop was very informative and engaging whereas 44.7% strongly agree and rest of the students are not sure about it.

Action Taken

In future more such talks to be organised.

Corporate Interaction

Descriptive Report

The School of Sciences organized a corporate interaction on Start-Ups on 23 August 2022. Mr. Gaurav Gupta, Founder & CEO, TripClap and BillClap, was the resource person for the talk. The speaker threw light on how to establish a Start-Up.

The event started with a silent prayer. The host, Ms. Vaishali, introduced the speaker to all the participants. Mr. Gaurav then explained the importance of technology and trends being followed in the corporate sector. He also focussed on how the students can convert their ideas into start-UPs. He also talked about the pros and cons of start-ups. It was an interactive session in which the speaker cleared the students' queries. The vote of thanks was delivered by Ms. Vaishali (3B.Sc EMS).

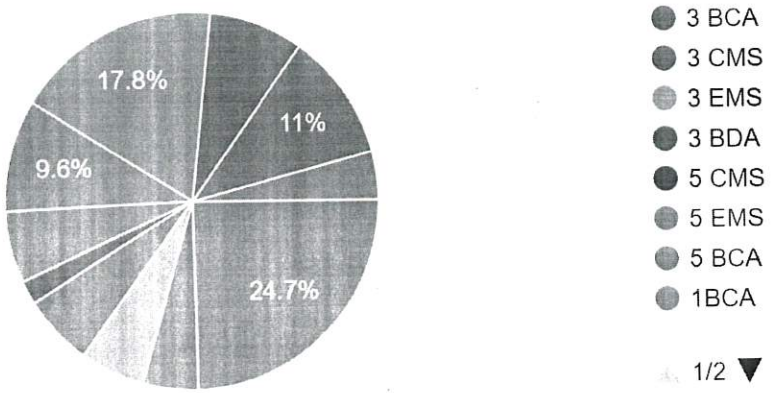
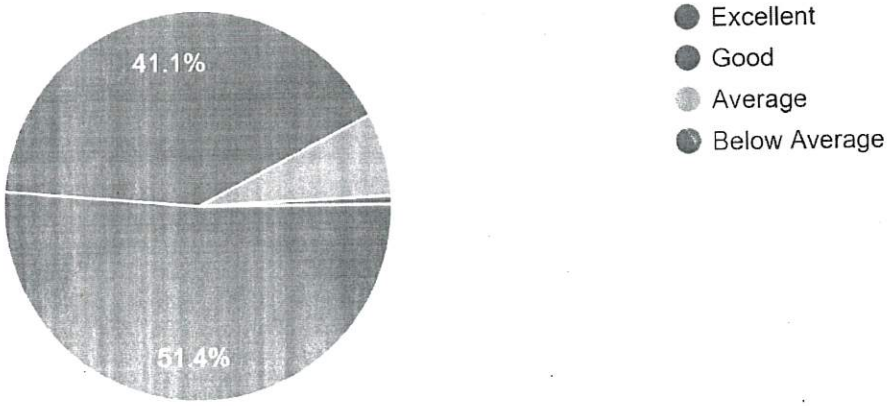
Feedback

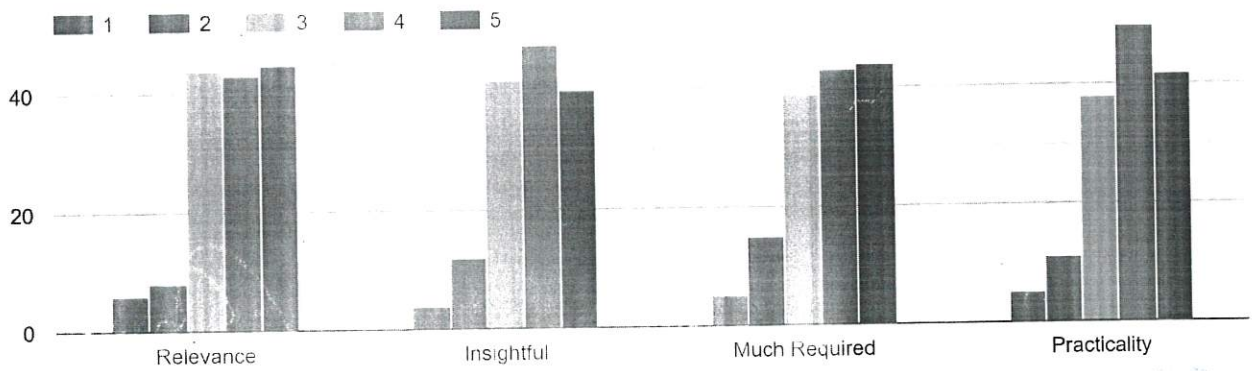
1. **Class**



2. **How would you rate the overall session?**

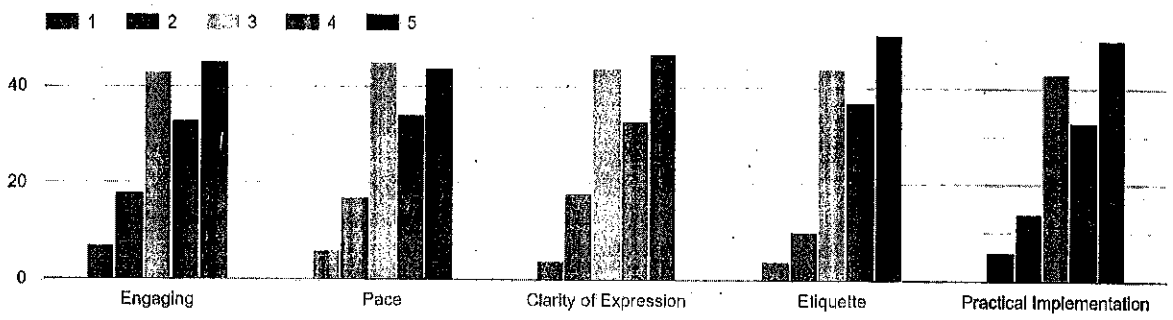


3. **Topics discussed in the session.**



CHRIST (Deemed to be University) SCHOOL OF SCIENCES DELHI (NCR)

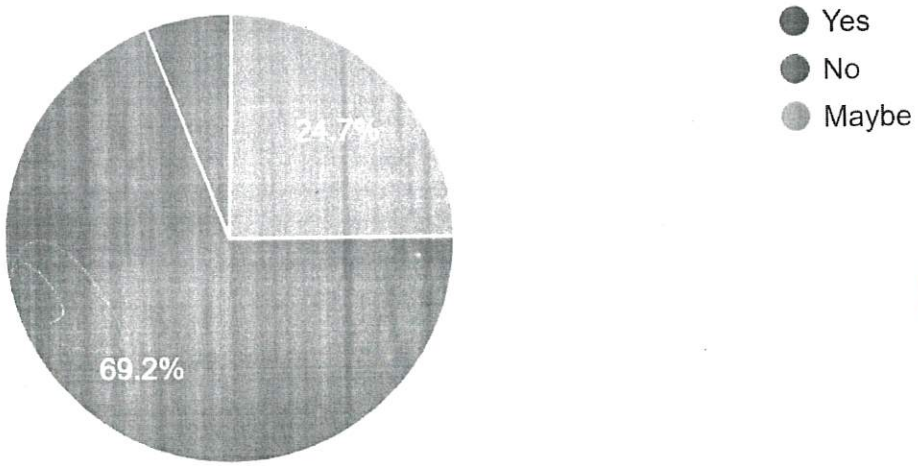
4. **Feedback on the Delivery of the topics by the speaker.**



5. **Your takeaways from the session .**
   - Good
   - Insightful
   - Future of programming
   - Focus on fundamentals
   - Entrepreneurship
   - It was a nice session
   - Informative
   - Corporate culture
   - Learnings about technology
   - Funding concepts
   - Tips for interview
   - Guidance
   - Focus on one thing for now and stick to it until you get perfect
   - Guidance towards the goal
   - A good insight for the ones who want to become an entrepreneur surely i also got some knowledge from this session.
   - Helped get more aware of the decisions we make in the future regarding career options.
   - Inspirational
   - The insights about the corporate world that I got from the interaction was brilliant.
   - How to become an entrepreneur.
   - Insightful on the tech industry and the Placement and internships requirements.
   - Came to know much more about technology and companies.
   - Go for excellence rather than success.
   - Focusing on fundamentals.
   - A recruiter's mindset.

- Following excellence plays a major role in the path of success.
- Work on Basic Fundamentals.
- Look within than to look outside.
- Find myself; work on myself.
- Consistency and discipline.
- Get work experience before startup.
- Work hard and success will come to us definitely.
- Take the risk.
- Be able to understand what you want to do in your life. Be thorough with whatever you have studied and clear your fundamentals as it is in demand by big IT firms and various other firms.
- Discipline and interest in the field are important to start a new job or startup.
- Importance of technological advancements and their scope.
- Requirements for getting a Job.
- Have in depth knowledge about a particular topic.
- Attitude is something that sticks to you.
- Very much motivated for the placements
- Knowledge about internship and further studies
- I understood that I have to work hard . Rather focusing on becoming a full stack developer I should excel in a field.
- It was nice to understand the requirements for a good placement.The session was very motivating and helpful.
- Got to know about the basic skill sets which are required to land a job in an IT firm.
- Very knowledgeable and gainful session.

6. Would you like to attend more of such sessions in future ?



CHRIST (DEEMED TO BE UNIVERSITY) SCHOOL OF SCIENCES DELHI (NCR)

7. **Any other comments that you would like to share with us for further improvement.**

- It was good.
- It's helpful for me in the future.
- Great session looking for more.
- More relevant topics, and new knowledge.
- It was one insightful and much needed session.
- Needs to be more energetic.
- Its good, it's knowledgeable.
- Need more such interactions.
- I'm expecting some real life scenarios as in what would be asked in an interview: what are the topics required ,where to prepare for them from and how can we target product oriented companies that are more reliable.
- The session was best, expecting more relevant to corporate and all.
- The session should be a little longer.
- Corporate interaction from people in various fields would be insightful and beneficial for the students.
- Intellectual speakers could be called.
- Less time consuming so short and crisp will be maintained.
- These activities if possible should be increased to 2 hours.
- Always keep an activity hour in the auditorium.
- Nicely conducted.
- These kinds of sessions really motivate a student.
- It would be nice to attend such sessions in the future.
- The session could have been more interactive. Session should not be of long duration.

Action Taken

As per the feedback given by the students more of such sessions should be organised in future. These activities should be increased to 2 hours.

Activity Report

General Information

Type of Activity	*Corporate Interaction*
Title of the Activity	**Career Opportunities in Bioinformatics**
Date/s	26th August 2022
Time	2.30 pm
Venue	Offline – Seminar Hall, Third floor, A-Block
Collaboration/Sponsor (if any)	**Nil**

Speaker/Guest/Presenter Details

Name	Mr. Suyash Srivastava
Title/Position	Senior Software Engineer
Organization	Paystack, Dubai, UAE

Participants profile

Type of Participants	Student
No. of Participants	252
Teacher	10
Student	242
	Male=161 Female=81

Synopsis of the Activity (Description)

Highlights of the Activity	1. Introduced the field 'Bioinformatics". 2. The various job aspects in the field of ' Bioinformatics.' 3. Importance of statistics in this field. 4. Opportunities in foreign universities in this field.
Key Takeaways	1. Understand the field of bioinformatics. 2. The students were able to relate to subjects like statistics in this field. 3. To know about the job opportunities in this field.
Summary of the Activity	Career opportunities in bioinformatics were conducted on 26th August 2022 and started at 2.30 pm. Niharika Patni(3BCMS) introduced Mr. Suyash Srivastava, our speaker, to the students from the School of Sciences. The speaker presented the field of bioinformatics and explained its job opportunities in India and abroad. He also explained how statistics and other related subjects using in this field. The discussion concluded at 3.30 pm, with a vote of thanks from Suhani Sharma(3BEMS).
Follow-up Plan, if any

Career Opportunities in Bioinformatics

Activity Report- August 2022

Descriptive Report:

Career opportunities in bioinformatics were conducted on 26th August 2022 and started at 2.30 pm. Niharika Patni(3BCMS) introduced Mr. Suyash Srivastava, our speaker, to the students from the School of Sciences. First, he briefly explained 'Bioinformatics.' He talked about the various job aspects required in this field, i.e., computer science, mathematics, and statistics. He also spoke about how students from engineering and other areas can pursue this career. He also clarified the importance of statistics in this field. There was a discussion on how to enter our paths to famous universities abroad like Singapore, Canada, etc., and it briefed us on the significant gateways for entering these universities through GRE or GMAT.

The discussion concluded at 3.30 pm, with a vote of thanks from Suhani Sharma(3BEMS)

School/Department of Sciences

Career Opportunities in Bioinformatics
Activity Report- August 2022

Speaker Profile:

Mr. Suyash Srivastava

He is currently a Senior Software Development Engineer with 9 years of industrial experience with a track record of incorporating user and business requirements into cost-effective, secure and user-friendly solutions known for scalability and durability.He has completed his Master of Technology from IIT Hyderabad(2010-2012) and Bachelor of Technology from Uttar Pradesh Technical University(2006-2010).

Skills:

Programming Languages	Proficient: Python, Go Familiar: Java, Scala, Javascript, PHP
Databases	MySQL, MongoDB, Redis, Cassandra, DynamoDB, Spanner
Web Frameworks	Django, Flask, Gin, DjangoREST, Flask-RESTful, Sails.js, Codeignitor
Cloud Platforms	AWS, GCP
Version Control	Git
Others	Familiar with machine Learning and data modelling RabbitMQ, Celery, Kafka, Kafka Connect, Elasticsearch (ELK stack), Hbase, Hive

Experience

He has worked as software engineer for many companies like Noon Ecommerce, Dubai, Icflix Media FZ LLC, Dubai, Amazon Development Center India, Hyderabad, Akamai Technologies India, Bangalore, Ibibo Group Pvt Ltd, Bangalore, Wisecells Learning Solutions LLP , Bangalore.

Feedback Analysis and Action taken

Seminar on Career Opportunities in Bioinformatics under the Corporate Interaction was held on August 25, 2022, was well-received by the students from the School of Sciences. From the feedback received more than 60% of the students are staistfied by the seminar. More than 60% of the students responded their level of knowledge incresesd sfter attending the seminar. Overall, the students expressed satisfaction with the session and requested more similar events about the career opportunities less known areas. Based on the feedback received, there is a plan to organize more events of this nature in future.

Programme Director	Dr. Theresa Nithila Vincent Professor & Head Department of Commerce nithila.vincent@christuniversity.in
Programme Coordinator & Contact person **Mobile Number** **Email Address**	Dr. Girish S Assistant Professor Department of Commerce +919845105030 girish.s@christuniversity.in

II. Programme Description:

The dynamic banking sector has paved the way to numerous jobs post the new reforms in the technical, customer, regulations. The main focus of the programme is to enable candidates to understand and acquire skills in the banking sector. The programme shall emphasize aspects of the banking structure in India and the international banking practices. This programme shall also impart the required training to take up the banking exams and build confidence to face the challenge in the highly competitive world. At the end of the programme candidates will be able to work in banks in roles such as a customer service executive, front office assistant, back-end operations, documentation processing, single-windows, Assistant Manager, Probationary officers, Cashier etc.

III. Programme Objectives:

1. To give an outline of the basics of the banking sector and financial knowledge.
2. To understand the banking operations involved in the national and international banking regulatory framework.
3. To explore the role of information and communication technology in banking operations.
4. To identify the latest trends and innovations in the banking sector.
5. To acquire basic knowledge of banking competitive examinations.

IV. Programme Outcome:

1. Acquire basic banking knowledge and operational skill.
2. Examine the regulatory framework in the banking industry both at the national and international levels.
3. Expertise in applying and using banking technology
4. Explain the contemporary practices in banking from the national and global perspectives.
5. Demonstrate a comprehensive understanding of facing the Banking Competitive Exams.

IV. Programme Content for Basic Level Training for diploma /non-graduation educational qualification (Group 1 category of candidates)

Group 1 candidates with plus 2/PUC/ class 12 qualification shall be eligible for clerical roles, customer service executives, front office assistants and other clerical posts in public, private and cooperative banks and corporate

Group 2 candidates graduates/postgraduate shall be eligible for posts of Analysts, probationary officers/ assistant manager /cashier etc., at public, private and cooperative banks and corporate.

V. **Training Delivery**:

The key training delivery for the program will be done by CHRIST (Deemed to be University) -Department of Commerce comprising of trainers.

- Provision of training through a blended model which includes self-learning, online training, and Face to Face (F2F)
- Training –Online video Google classroom, Instructor led the online class through Zoom, WebEx, Teams, Google meet
- Self-learning topics such as videos, assignments, and short assessments shall be uploaded in the Google Classroom along with e-learning materials by the various subject experts.
- Providing banking knowledge for the basic and advanced level of Banking training to PWDs through google classroom
- All e-modules and e-content of the banking training will be prepared, developed, and shared with CDT and the PWDs
- Soft skill training for the PWDs
- Pre and post-assessment of the candidates will be undertaken for the students through online-google classroom |online.
- Generate and share training reports and the progress of the candidates for each batch
- Ensure and guide candidates are exposed to online banking exams during their learning period, organize webinars and guest lecturers with the support of CDT

VI. The topics taught for the 2 levels (Basic & Advanced level- for PWDs):

A. Basic levels include:

- An overview of the Banking System in India and the regulatory framework
- Knowledge about fundamental banking instruments, products, types of accounts
- Financial Markets- money market and capital market
- E-Banking – digital payments, Core banking, etc.
- Preparation for banking exams for clerical posts
- Accounting concepts and basic understanding of balance sheet
- Preparation for Banking, Finance, and accounting areas for the banking and corporate sector.

B. Advance Level topics

- An overview of the Banking System in India and International banking

- International banking regulations

CHRIST
SCHOOL OF COMMERCE, FINANCE AND ACCOUNTANCY
DEPARTMENT OF COMMERCE
Proudly Presents
Banking Webinar - 1
HOW TO PREPARE AND CLEAR IBPS EXAM?
Mallikarjuna M
Manager Scale II -, Punjab National Bank
Trade Finance Center at Chennai (Foreign Exchange Operations)
Qual.: B.Com, PGDBA in Finance, CAIIB
Saturday | 6 PM - 8 PM | 19th March, 2022

REPORT ON IBPS WEBINAR

CHRIST (Deemed to be University)
SCHOOL OF COMMERCE, FINANCE AND ACCOUNTANCY
DEPARTMENT OF COMMERCE
HOSUR ROAD, BANGALORE - 560029

Event In-Charge: Dr. Girish S Date: 19/03/2022 Time: 6 PM – 8 PM

The CHRIST (Deemed to be University) well rationalized online webinar on "How to prepare and clear IBPS Exams" on 19th March 2022. This webinar was in consortium with Cheshire Disability Trust catering to the needs of the disabled candidates. Christ University in association with the CDT Trust directs through, classifying the webinars that support and educate the candidates to face the professional exams.

The Institute of Banking Personnel Selection (IBPS) is a government-owned personnel recruitment agency under the jurisdiction of the Ministry of Finance, Government of India that was initiated with an ambition to embolden and stimulate the recruitment and placement of young undergraduates, postgraduates, and doctorates government-owned in India. It offers posts like Probationary Officer, Specialist Officer, Clerk/Associate Attendant/Security Guard and so on.

The resource person Mr. Mallikarjuna. M, Manager Scale II, Punjab National Bank, Trade Finance Centre at Chennai (Foreign Exchange Operations) with his profound knowledge and expertise channeled the candidates by elucidating the significant and noteworthy notions related to the banking domain. He explicated the career opportunities in banks and the job grades which evolve from the clerical, PO Scale 1, Manager, Senior Manager, Chief Manager, Asst. General Manager, Deputy General Manager, General Manager, Chief General Manager, Executive Director, and finally the topmost level of the ladder is CMD. He enlightened in detail each job grade's eligibility, Prelims, and Main. For example, the eligibility for the post of clerical job for the age group between 20 to 28 years has a relaxation of 10 years for PWD candidates. The subjects to be studied are reasoning, English, quantitative aptitude in prelims and reasoning ability, English, quantitative aptitude and general awareness in mains. The same holds good for the IBPS PO job except the age limit is up to 30 years at maximum.

The resource person also dispensed out some of the online and YouTube channels to uplift the knowledge on the concepts. He stated the specific topics of each subjects, the cut-offs for various categories like General, EWS, OBC, SC, ST, Hearing Impaired, Orthopedically challenged, Visually impaired and intellectually disabled persons. He illustrated the path for successfully clearing the exams as to what? Why and How? The candidates cleared their doubts on the concepts.

Comprehensively, we can say that this webinar fortified all the important aspects that are required to get through the IBPS exams successfully. At the end, the Director of the CDT project Dr.Theresa Nithila Vincent, HOD of Commerce Department expressed few words about the webinar followed by Dr . Girish.s, CDT Coordinator proposed the vote of thanks and the webinar ended efficaciously.

OBJECTIVES OF THE WEBINAR

The focal objectives of this webinar were:

- Launch operative professional growth for the disabled by supporting them to clear the IBPS exams successfully and professionally.
- Acquire comprehensive skills from the real expert.
- Familiarize with the concepts of banking and the assessment structure.
- Intensify the knowledge on IBPS exams.

PARTICIPANTS

1) The Director of the CDT project - Dr. Theresa Nithila Vincent, HOD of Commerce Department.
2) Prof. Girish, CDT Project Coordinator
3) Ms. Suma – the sign interpreter
4) **Disabled Candidates:** Nagaraju. U, SopanChitale, Ananya. S, Asif, Bhagya, Gayathri, Ismail. S, Mahadeva Nelwade, Mounika, Sama Divyasri, Seetha, Shantha, Shanthakumara. P.S. Srimathi Baskaran, SumitSantre, Varsha. S, Vishnu. S, Karpe Babasaheb.

CONCLUSION:

The webinar was a momentous and significant part of the CDT program as the resource person was an expert in the field of banking. This extended a boundless support and benefit for the disabled candidates who got the right direction from the right person.

HOW TO PREPARE AND CLEAR SBI EXAM?
Ms Ganga Gayathri
Senior Associate,
State Bank of India (SME Branch)
Coimbatore
23 March 2022
6 PM - 8 PM
zoom

The CHRIST (Deemed to be University) in association with Cheshire Disability Trust organized an online webinar on “How to prepare and clear SBI Exams?” on 23rd March, 2022. This webinar was conducted to cater the needs of the PWD candidates. This workshop enables the students to face the professional exams.

State Bank of India (SBI) is a Public Sector Banking and Financial services statutory body headquartered in Mumbai. The rich heritage and legacy of over 200 years, accredits SBI as the most trusted Bank by Indians through generations. SBI, the largest Indian Bank with 1/4th market share, serves over 45 crore customers through its vast network of over 22,000 branches, 62617 ATMs/ADWMs, 71,968 BC outlets, with an undeterred focus on innovation, and customer centricity, which stems from the core values of the Bank - Service, Transparency, Ethics, Politeness and Sustainability. The Bank has successfully diversified businesses through its various subsidiaries i.e., SBI General Insurance, SBI Life Insurance, SBI Mutual Fund, SBI Card, etc. It has spread its presence globally and operates across time zones through 229 offices in 31 foreign countries.

SBI Exams are conducted by the State Bank of India to hire eligible candidates for various posts like SBI Probationary Officer (PO), SBI Clerk (Junior Associates) and SBI Specialist Cadre Officer (SCO/ SO). Growing with times, SBI continues to redefine banking in India, as it aims to offer responsible and sustainable Banking solutions

The resource person Ms. Ganga Gayathri, Senior Associate, State Bank of India (SME Branch), Coimbatore with her vast knowledge and experience spoke to the candidates by elucidating the significant and noteworthy notions related to the banking domain. In simple terms she explained the basic concepts of banks from stating the meaning of banks, functions of Indian banks, the history of banking in India, in detail explanation about RBI, types of banks, scheduled and non-scheduled banks, types of payments, types of accounts and many other basic concepts of banking industry. The later session was discussed on SBI Exams covering the SBI clerk Exam pattern for mains, important topics on English language, numerical ability, reasoning ability, SBI Clerk syllabus and topics in Mains Exam, SBI PO Mains exam patterns, how to prepare and write the exams and many other tricks and tips were discussed. The various career opportunities in banks and the job grades were explained. A detail on the eligibility, Prelims and Mains were given.

Comprehensively, we can say that this webinar fortified all the important aspects that are required to get through the SBI exams successfully. In the end, Prof. Girish, CDT Coordinator, proposed the vote of thanks and the webinar ended efficaciously

Summary of on Campus workshop Participated Candidates Feedback

The training program conducted by CDT and Christ College was excellent, and we learned a lot from this training, and it was a great experience and good learning for all participants. Our knowledge was limited, and it was a bit confusing. Still, when we attend the training, we learn how to study what to study how much to learn on concept wise, each and everything they explained very well and keep practicing the things and how to maintain personality grooming on an interview, so on. We had added so much confusion about applying for exams and what to study everything. Still, this workshop helped clear our doubts, and the workshop was connected excellent entirely with all the facilities. We have happy to come offline to the Christ university campus. We enjoyed it, and we had a good experience as well. And because of this, I have improved myself and am preparing for exams. Because conducting tests during the workshop helped us know what is study well, we are now and where and all I have to improve our self. This three-day workshop helped us a lot because of knowing bank job opportunities and the salary we may get in the future. And guests and the teachers taught us how to make a resume and how it helps us face the interview. They correctly taught us simple words. And the certificate provided by the Christ university made us happy. Christ College hospitality was excellent, and the volunteers; help was tremendous. Without their support, we cannot attend training on time and peacefully. I am always grateful to Cheshire disability trust, Christ College, the funder of this program, lecturers, and last but not most minor volunteers. Thank you all for this beautiful opportunity.

CHRIST University volunteering student's feedback

We never thought of working for impaired candidates in our life, and once we did, it helped us find our inner selves and develop a sense of humanity and kindness towards them. Moreover, it's not just about social service but understanding how difficult it is for them to survive on this planet. On the first day, when we saw the students from Cheshire disability trust, we could see their eagerness to live everyday life like others by coming from faraway places and achieving something in their life. We were blessed to have them on our campus. We could help them for three days in their classes and other needs. 1st day went right. They had lessons and assessments, and we volunteers had a fantastic time with them after the classes. We went for a campus tour. We could show some of the astounding activities Christ University does, like recycling waste and other things. 2nd day we had new lecturers and new experiences. After 4 pm, volunteers could spend special time with the students by playing games, like cricket, throw ball, Uno, chess, etc. The students were happy to play freely on the campus. The 3rd day started well; it was both a joyful and sad day since it was the last day we get a chance to work and enjoy with them. The days went

fast, and volunteering for such amazing souls ended. Although there was a communication gap between us since some of them were hearing impaired, by the last day, we could learn little sign language and talk something to them directly instead of an interpreter. Overall we had a great time, and we feel blessed to volunteer for such and unique event. Volunteering for the event enhanced and developed new skills in us. It taught us several life lessons that won't just be beneficial in our professional lives but will stay with us forever.

Our amazing volunteers are

Activity Report

General Information

Type of Activity	Events (Capacity Development and Skill Enhancement)
Title of the Activity	Prayas 2022
Date	3rd March 2022 – 5th March 2022
Time	9:00 a.m. to 6 p.m.
Venue	Inauguration Ceremony: Main Auditorium, Audi Block Events: Virtual platform provided by Google Meet and Cisco WebEx, CUCA team working from Block 2, Second floor, Panel room Valedictory Ceremony: Room 911, Central Block, Online platform provided by Cisco Webex
Collaboration / Sponsor	Miles Education and IMS Learning Solutions Pvt. Limited

Speaker Details

Name	Mr. Ajay Goel
Title	Chief Financial Officer
Organization	Vedanta Resources Limited
Title of Presentation	Chief Guest Address

Name	Mr. Abhishek Poddar
Title	Managing Director
Organization	Banyan Tree Financial Solutions Private Limited
Title of Presentation	Chief Guest Address

Name	Rev. Dr. Honorary Colonel Fr. Abraham V.M.
Title	Vice Chancellor
Organization	Christ (Deemed to be University)
Title of Presentation	Importance of fest in personal and professional growth

Name	Dr. Theresa Nithila Vincent
Title	Head of Department of Commerce
Organization	Christ (Deemed to be University)
Title of Presentation	Welcome Address

Name	Dr. Tomy K Kallarakal
Title	Dean of Department of Commerce
Organization	Christ (Deemed to be University)
Title of Presentation	Prayas: Meaning and legacy

Name	Dr. Kavitha R
Title	Faculty Coordinator, Christ University Commerce Association
Organization	Christ (Deemed to be University)
Title of Presentation	Vote of Thanks

Name	Dr. Midhun Mathew
Title	Faculty coordinator, Christ University Commerce Association
Organization	Christ (Deemed to be University)
Title of Presentation	Vote of Thanks

Attendees' Profile

Type of Attendees	Students and Faculty
No. of Attendees	1000 (Approximately)

Synopsis of the Activity (Description)

Highlights of the Activity	1. Prayas, the flagship event of Department of Commerce was organized by CUCA for business fest enthusiasts from colleges all over the country. This year, Prayas saw an active competition between the participants for a period of three days, at the end of which an overall winner was chosen. 2. The official commencement of the event started off with an inauguration ceremony on 3rd March in the presence of all dignitaries. The Chief Guest for the ceremony, Mr. Ajay Goel inspired and advised the students to participate in fests like Prayas, citing the importance of practical exposure to survive in real-life jobs. 3. This year, Prayas was structured in a way that the entire event was subdivided into two parts: Prayatna, the contingent event and Prashnottari, the business quiz event. 4. The events started off at 9:00 a.m. on 3rd of March and continued till 4th of March, 5p.m. During this course of two days, the participants were challenged on multiple grounds, forcing them to think creatively and come up with solutions as in how the real-life jobs work. 5. The valedictory ceremony for the event was held on 5th of March at 12 p.m. in the presence of all dignitaries and the

	entire CUCA team. The ceremony was attended Chief Guest, Mr. Abhishek Poddar, Managing director of Banyan Tree financial solutions. 6. Subsequently, the winners of Prayas 2022 were announced based on the total scores achieved by the participants. The contingent event, Prayatna was won by CMS Jain, Bangalore followed by Christ University (Department of professional studies) and St. Joseph's College of Commerce, Bangalore in the second and third position respectively. 7. In the case of Business Quiz event, Prashnottari, Mr. Aswin Cheerath Anilkumar of Christ University, Department of Professional Studies secured the first position followed by Ms. Hemontika Paik of J.D. Birla Institute 8. Both the opening and valedictory ceremonies were graced by magnificent performances by Team Taal and Team Sangeeth from the Department of Commerce. 9. Team Taal of Department of Commerce also conducted a flash mob in the college in order to popularize the Prayas fest. The flash mob was conducted on March 2nd at 1:00 p.m. in the garden street.
Key Takeaways	1. The events organized under Prayas 2022 served as an excellent platform for students all over the world to showcase their talents and skills in various fields. 2. The various rounds designed under Prayas gave the participants an idea about how things worked in a practical dimension. 3. The rounds of events were majorly submission-based rounds, presentation rounds, on-spot rounds which tested various skills and abilities of the participants and developed the various inter-personal, personal and societal skills of the participants.

	4. The participants gained an overall understanding about the challenging, real and complex corporate world. They were equipped with the necessary skills and experience that are necessary to combat any challenge with ease. 5. Critical thinking, presence of mind and confidence were key elements that participants definitely learnt through this event. 6. Overall, Prayas 2022 left behind an atmosphere of competition and desire to work more. The participants showed great enthusiasm and had an enriching experience.
Summary of the Activity	Every year, the Department of Commerce hosts PRAYAS, the National Inter-Collegiate Business and Management Festival. PRAYAS is the flagship event of the department of Commerce, and it aims to provide a platform for young and talented minds to showcase their abilities through a variety of events that are both uniquely challenging and highly entertaining. Prayas has attracted students from the best of the colleges in the country over the years. Prayas usually consists of various rounds that contain elements related to Human resources, Marketing, Public relation, Best manager, Portfolio Management, Integration, Entrepreneurship Development, and Business Quiz. This year, Prayas offered a price money of Rs. 9000 for the Prashnottari (Business Quiz Event) and a price money of Rs. 25,000 for Prayatna (Contingent Event). **Inauguration Ceremony**: The inauguration ceremony for Prayas 2022, was conducted in a highly dignified manner. The ceremony was conducted at the auditorium in the Audi Block, with the gracious presence of Chief Guest, Mr. Ajay Goel (CFO of Vedanta Limited), Vice-Chancellor Dr. Honorary Colonel Fr Abraham V.M., Dean of

	Department of Commerce, Dr. Tomy K Kallarkal, Head of the Department of Commerce, Dr. Theresa Nithila Vincent. The event started with Mr. Rohan Varghese and Ms. Audrey Fernandes welcoming the audience and explaining how the event would be conducted in two rounds: Prayatna and Prashnottari—followed by an exhilarating performance from Team Taal, the dance team of the Department of Commerce. The dignitaries then did the proceedings of lighting the lamp. The event had 17 registrations, including top universities of the nation, out of which top 10 teams were to fight for the championship. Following this, the welcome address was delivered by Dr. Nithila Theresa Vincent, where she welcomed all and highlighted the shift from offline to online fests. This was followed by the Dean of the School of Commerce, Finance, and Accountancy talked about the legacy of Prayas and the positive transformation it had undergone over the years. Vice-Chancellor addressed the audience on academic change and the necessary steps to be taken from students to meet the new workforce requirements. The Chief Guest for the day, Mr. Ajay Goel, is currently working as Group Deputy CFO of Vedanta Resources Limited. He is a Chartered accountant and Company secretary and has 21 years of experience with many top MNCs, including General Electric, Coca-Cola, and Nestle, in various leadership roles. The Chief Guest coming from the world of finance enlightened the students about the current corporate world and motivated students to pursue a new skill which is the need of the hour. The students were awestruck when shown the Prayas promo video created by the CUCA Media Committee. It was all followed by an entertaining performance from Team Sangeeth, the cultural team of the commerce department. The event ended with a Vote of Thanks delivered by Co-ordinator Mrs. Kavita, where she

	thanked all the dignitaries. The Chief Guest was graced with a memento in the end. **Prayatna (Contingent Event):** **Chapter 1:** Numerous enthusiastic participants from different colleges across the country, divided into teams, started Day-1 of the flagship event of the Christ University Department of Commerce with the first chapter that was based on "Energy". This chapter consisted of five rounds testing participants' knowledge of different aspects of the business world. The participants had to face challenges and use their knowledge, imagination, and creativity to move forward through these rounds. The event's success was made possible only because of the coordination of the event heads and sub-event heads. **Round 1: TO BE A LITTLE GREEN** The first round revolves around an urgent need to switch to a more renewable and replenishable resource, prompting many countries to explore "Green Hydrogen." There is high potential in hydrogen changing the geography of energy trade and regionalizing energy relations. However, its current production methods are not following long-term climate and energy goals, and it has specific properties that could be disastrous if not taken care of. The Council has recommended Hong Kong a 2050 carbon neutrality goal for Sustainable Development. Hong Kong falls considerably behind mainland China and many other nations regarding renewable energy development. The participants were required to give the government of Hongkong a plan of action on how their Sustainable goals can be achieved, emphasizing how Green Hydrogen can be integrated into Hong Kong's energy requirements considering its benefits as a source of energy. This

	was a presentation-based round. The round was released on the 3rd of March 2022 at 9:00 A.M. and the submission was due at 10:15 A.M. the same day followed by a presentation. The rounds were judged by Mr. Nishit and Ms. Srinidhi. **Round 2: DARKNESS TO LIGHT** The second round was quite interesting. The government has set an ambitious goal of achieving 175 GW of renewable energy capacity by the end of 2022, intending to increase to 500 GW by 2030. Renewables may provide enormous benefits to cities but launching a compatible energy resource in a city/state is not the end of energy crisis management; rather, it's the first step. The apprehensiveness associated with the costs and newness of renewable energy must be erased to pave the path for informed and sustainable decision-making. Each team is given a fixed budget of 1.5 crores with which they have to bid for a city and at least 3 different resources of their choice from the available options. Each team will have to send the CFO to auction to do the same. The task was to strategize and formulate a plan based on the deliverables and present them. The deliverables included a ppt and a trailer video encapsulating the whole project. The round was released on the 3rd of March 2022 at 9:30 A.M. and the submission was due at 11:30 A.M. the same day, followed by a presentation. The round was judged by Dr. Sandeep and Ms. Ameya. **Round 3: FALL OF MIGHTY LI-ION** The third round was an on-spot round. IIT Hyderabad researchers have developed a new battery that they believe will work as efficiently as the existing lithium-ion batteries while being more environmentally friendly and less expensive. For the Indian market, it might be positioned as a less expensive and environmentally sustainable option. It might also help India's goal of lowering its reliance on fossil fuels. Exicom Power Solutions is a Gurgaon-based company looking forward to tapping into the

	same to come up with cutting-edge product solutions in any arena. As the CXOs of the company, participants are required to pitch the idea with an optimum product to utilize the alternative battery in collaboration with the IIT researchers, Product USP and strategies. The round was released on the 3rd of March 2022 at 10:45 A.M. and the presentations went on till 12:15 P.M. the same day. The round was judged by Professor Sachu S. **Round 4: NUCLEAR: THE NEW - CLEAR?** Today, nuclear energy is considered a sustainable source of energy, and efforts are being made to make it completely renewable. The OECD countries have begun recognizing that nuclear energy could play a valuable role in reducing carbon dioxide emissions. However, most of these countries do not have an operating nuclear reactor, and current expansion plans are uncertain. The Australian Government themselves are not opposed to nuclear energy; however, when it comes to adoption and in-house development, they are anything but 'nuclear'. Participants were put in the position of a consultancy firm in Australia hired by Synergy Australia, an energy company in Australia, to create a proposal to the Australian Government to establish a nuclear power system in the country. They had to develop a project roadmap, manpower management system, a financial plan, and a comprehensive Public Relations strategy. The deliverables included a ppt, a press statement, and a posters campaign supporting the advent of nuclear power produced in Australia. The round was released on the 3rd of March 2022, at 10:30 A.M., and the submission was due the same day at 11:45 A.M., followed by a presentation. The round was judged by Mr. Neelansh. **Round 5: MANY TO ONE** The final round of chapter-1 tested the participants' business knowledge as well as leadership skills. Jean-Marc Gilson, the Belgian executive, who helms Japan's Mitsubishi Chemical

	Holdings Corporation, has appealed to all the Japanese petrochemical makers and domestic rivals in the country to integrate their petroleum assets into a national "champion" company that can compete globally and invest in the emission-reducing technologies. His vision of the petrochemical industry entails a company worth $15-20 billion which essentially has the potential to drive the clean energy transformation in place of a fragmented industry of small companies. However, securing a counterparty for transaction might be a heinous task as most domestic companies and rivals are equally enroute towards the net-zero transition, with the Japanese Government pushing the industry to the green energy transformation. On top of that, the newly formed entity would be dominating the industry, thereby monopolizing the sector. This has earned the ire of several officials who flagged the issues of antitrust laws. This could be a massive hindrance to Gilson's dream of a "national championing company," as such a dream requires better impetus and direct support from the Japanese Government to transform it into a reality of tomorrow. The participants were put in the position of the consultancy firm approached by Mitsubishi to help them become the "national championing company" in Japan. The deliverables included finding the target companies, plan of action, financials, and sustainable strategies. The round was released on the 3rd of March 2022, at 10:30 A.M., and the submission was due the same day at 11:30 A.M., followed by a presentation. At the end of the first chapter of PRAYAS, Team Thrive and Team Euphoria were eliminated. The rest of the teams were given the chance to compete in the next chapter. **Chapter 2:** Chapter 2 'AFRICA,' had a large number of passionate competitors who had successfully addressed 3 chapters on various facets of the business world. This chapter was divided into six

	rounds, each of which focused on a different aspect of Africa. Participants' creativity, knowledge, and decision-making abilities were examined in each round. The contestants were given time constraints and they had to overcome obstacles and make rapid judgments. After 2 eliminations from the previous chapter, 8 teams were qualified to participate in this chapter. **Round 1: TERRIFYING TRADE** The first round focused on the humanitarian situation caused by the party-led government's incapacity to respond. The AGOA facilitates duty-free trade in Sub-Saharan Africa. Because of the conflict between the Tigray People's Liberation Front and the United States, Ethiopia is barred from participating. This has resulted in a serious lack of food supplies, as well as a blockade of medical supplies to the Tigray area, airstrikes haven been carried out by the Ethiopian Air force has been particularly brutally killed. The participants were supposed to make a confidential pitch to the government outlining remedies to the internal conflict as well as plans to improve the country's foreign trade. This round required a PPT presentation with all the deliverables mentioned. This round was released on 4th March 2:45 PM and the submission time was 4:00 PM. **Round 2: THEN THERE WERE NONE** The East African Crude Oil Export (EACOP) Pipeline was all set on becoming the world’s longest heated crude oil pipeline with an ambitious 3-year implementation plan. 2 years post expected completion and no sign of oil; what happened to this miracle pipeline that was aimed at boosting the economy and benefitting all? This project is not just restricted to the construction of a pipeline but also includes the 6 six oil fields with 419 wells, most of which are inside Murchison Falls Natural Parks which houses some of the world’s most biodiverse reserves. The pipeline is also set to cross over 200 rivers and pose a huge threat to vital

	freshwater sources at the occurrence of even one oil spill or leak. Due to its adverse effects to the environment, there was a movement started #StopEACOP was initiated to bring awareness about the lack of transparency on the environmental studies conducted by the government. Alongside permanently altering the flora and fauna of the region, it is also set to displace thousands of families, particularly those involved in the green economy. The participants were assigned to act as Total energies who is one of the major investors with a 62% share. The participants had to make a pitch to the investors with a revised timeline of the EACOP project including all the aspects. This required the participants to make a PPT presentation and detailed financials in an Excel sheet. The round was released on the 4th of March 2022 at 3:15 PM and the submission was due at 4:30 PM. This round was judged by Ms. Srinidhi. **Round 3: MICROCOSM OF THE MACROCOSM** The third round was an on-spot round. Upon taking over the presidency from Robert Mugabe, Emmerson Mnangagwa declared that he would further human rights and opportunities. At the moment, the country is suffering from stagnant production and widespread corruption, as well as extensive targeting by protestors, opposition, and journalists. Furthermore, it suffers from hyperinflation, a colossal debt trap, and excessive taxes. Healthcare and education are being neglected due to poor investment and insufficient attention. The Covid-19 pandemic, outdated infrastructure, and facilities have contributed to the shattered foundation the education sector once stood on. Also, Zimbabwean awards, both educational and vocational, won't be accepted in other countries, causing future generations to struggle. This round was released on 4th March 2022 at 3:30 PM wherein the participants were to assume the role as the representative of the government of Zimbabwe addressing the public have to come up with comprehensive strategies to salvage

	the/revamp the existing education and health sector and pinpoint sources for funds. This round was needed to be presented by the CXO and CHRO and the presentations started at 3:40. **Round 4: DEMOCRATIC REPUBLIC OF COLTAN** In addition to having two-thirds of the world's coltan reserves, Sierra Leone has one of the biggest mines in the world, which is an important source of revenue for many African countries. Niobium and Tantalum, which have a wide range of applications in surface acoustic wave (SAW), are abundant in the region's ores. Most of the trade is confidential, and very little information is disclosed to the government. In the past, the United Nations Security Council has addressed the current situation and supported the efforts of the Government of the Democratic Republic of the Congo to eliminate illegal trade of natural resources. The participants were required to come up with an expansion plan for Talison Lithium Pty Ltd which will continue to mine lithium at Greenbushes in parallel with the GAM tantalum operation. A proposal to the government of the Democratic Republic of Congo laying down your arguments for them to provide the license to Talison Lithium Pty Ltd. The round was released on the 4th of March 2022, at 3:45 PM and the submission was due the same day at 5:00 PM. This round was judged by Ms. Gracious D'Souza. **Round 5: Crash and burn** This round focused on the unlawful shipment of weaponry and war instruments by the Ethiopian government and Eritrean soldiers. Ethiopian Airlines is a member of the Star Alliance, having joined in December 2011 with the help of Lufthansa. Ethiopia was one of four African countries to sign The Chicago Convention on International Civil Aviation (the "Chicago Convention") in 1944, prohibiting commercial aeroplanes from transporting armaments and ammunition. There were images of

	the transportation leaked on social media, and the divided region's economy also crashed. The participants were required to serve as advisors to the Ethiopian government's allied troops and Eritrean forces, establishing an underground supply network, devising strategies, and putting together an employee layoff plan. A PPT presentation and comprehensive financials were among the deliverables. The rounds were released at 4:00 p.m. and was expected to be submitted at 5:00 p.m. **Round 6: DEATH METAL** The round was conducted on the spot. Heavy metal mercury is extensively used in the mining industry. In addition to being extremely toxic and volatile, the metal has been found to harm the environment, humans and other forms of life. As a country that has used the metal in the past for its large-scale underground mining, Ghana still allows the use of the metal under its law, exposing thousands of mineworkers to its harmful effects. Mercury waste disposal in Ghana is not supervised by guidelines or monitoring systems. Mercury and gold are part of a self-reinforcing supply chain in Ghana. The owners of mine sites and gold buyers also provide mercury to local miners. Ghana has ratified the Minamata Convention, which aims to reduce mercury emissions worldwide. However, the lack of significant impact or action from the government has caused questions and concerns from the media and the country's significant international relations. In order to deal with this issue as soon as possible, the Cabinet of Ghana wishes to establish a commission to study and come up with recommendations. As the chief advisor for the commission, the participants were responsible for presenting to the cabinet the following: Plan of action to combat the issue, collect and analyse data, and create awareness of Mercury. The round was released at 5:30 p.m. and the presentations were expected to start at 5:45 p.m. This round also had an add on-

	Zimbabwe's President, Emmerson Mnangagwa, has hiked fuel prices by 150%. This led to protests, during which security forces killed 17 people and raped 17 women. Following this, his spokesperson said the deaths were "just a foretaste of things to come". The above round was judged by Mr. Arnav and Mr. Tanmay. It was released on 4th March 2022 5:30 PM. After Chapter 2, two teams Spartan and Invincible were eliminated. **Chapter 3:** Day 2 of Prayas started with the third chapter based on "SPACE." This chapter consisted of five exciting rounds. All the rounds tested the participant's creativity, time management skills, and how well they could think on their feet. **Round 1: TO INFINITY AND BEYOND** The first round revolved around the recent developments in the Indian space industry, which allows private parties to undertake a range of space activities from building and developing rockets and satellites, providing launching services, and even owning satellites. In 2015 Airbus started its aerospace accelerator network Airbus Bizlab to accelerate and spin out multiple projects in the aerospace industry with its signature acceleration program that identifies and nurtures early-stage projects in several countries worldwide. Considering the immense scope of India's private space industry, Airbus Bizlab is looking to introduce an exclusive Indian space acceleration program. This would include acquiring the required talent and performing thorough analyses of various fields in the space sector that are viable and seem profitable in terms of execution and intellectual property development. Additionally, the headquarters of Airbus has presented a requirement seeking a structure to work closely with their sister concern Airbus Ventures. In collaboration with Airbus Bizlab, the

	organization aims to identify high revenue potential startups from the acceleration program and support their financial needs with required investments by creating a space fund and portfolio. The deliverables included a word document with detailed selection criteria highlighting the need for each specific field, talent acquisition strategies, phase-wise growth strategies for the program, and a comprehensive revenue model. The round was released on the 4th of February at 9:00 A.M., and the submission was due at 10:00 A.M., followed by presentations from 10:10 A.M. on the same day. **Round 2: EASTSIDE** The second round involved The North Eastern Space Application Centre (NESAC). This joint initiative centre enables the state to address issues and challenges of the North-Eastern region with the support of space technology. It has dedicated services to the eight states of the north-eastern region. Their objectives include providing information systems aided for managing resources and infrastructure plans, operational satellite communications, and support for disaster management, among others. Airbus Ventures, through Bizlab, is in full swing with its acceleration program. It is looking to work with larger organizations to aid the space service sector and is eager to collaborate with non-private players, given a chance. The deliverables included a pitch and a detailed HR plan. The round was released on the 4th of February at 10:00 A.M., and the submission was due at 11:00 A.M., followed by presentations from 11:10 A.M. on the same day. Mr. Kunal and Mr. Tanmay judged this round. **Round 3: CLEAN X** This round was designed to focus on Space debris management, one of the most widely spoken about sectors in the space industry for its untapped potential and significance. The Indian Space

	Research Organization has recently initiated research and development activities to remove and handle space debris left in orbit. The organization aims to direct its initiative through the guidelines laid down by the United Nations and the Inter-agency Space Debris Coordination Committee (IADC). For this round, the participants were required to make a proposal pitch to ISRO. The round was released on the 4th of February at 10:45 A.M., and the submission was due at 11:15 A.M., followed by presentations from 11:30 A.M. on the same day. **Round 4: TAKE OFF** The fourth round tasked the participants with drafting a proposal as a consultant of Airbus Bizlab to the ISRO explaining the terms of your intended collaboration. India currently has two operational launch pads at the Satish Dhawan Space Centre (SDSC) in Srihari Kota. Launch vehicles from the SDSC usually fly in the southeast direction after lift-off to avoid flying over Sri Lanka. This trajectory is followed to protect the landmass near the area from rocket debris. Recently, ISRO has proposed to build a new launchpad in Tamil Nadu. As ISRO is closing in on setting up the spaceport, they are looking to collaborate with different strategic partners on the project to meet international standards. The growth potential of the Indian space industry is well known to the company, and the Tamil Nadu launchpad presents the perfect opportunity for Bizlab to work with the national space agency and deepen its ties with the Indian space sector. Further, true participants gave an update, and they had to think on their feet accordingly. The round was released on the 4th of February at 11:00 A.M. The submission was due at noon, followed by presentations from 12:10 P.M. on the same day. Mr. Shubham judged this round. **Round 5: TWO TO TANGO** The participants, for this round, as Bizlab representatives, were required to come up with the details of how the collaborations can

	happen between the two countries by leveraging both their capabilities. The INTA was established in 1942 and is a public research organization in charge of research activities and the provision of technological services. But the INTA has been underperforming for several years. The Spanish government is looking at how the to revamp can be done successfully and potential aid in resource transfer. With its ambitions of further facilitating international collaborations and PPPs, Bizlab continues to lobby with the Spanish and Indian governments that it has long-term partnerships with to emerge as the primary private player for international PPPs in the space industry. The deliverables included a pitch to the Spanish Defence Ministry & Space Energy, a Plan of action to deal with Personnel from India, PR Campaign for the Project. The round was released on the 4th of February at 11:45 A.M. The submission was due at 13:00, followed by presentations from 13:15 on the same day. At the end of the third chapter of PRAYAS, Team Genesis and Team Illuminati were eliminated. The rest of the teams went ahead to the next chapter. **Chapter 4:** Chapter 4 titled "Militarizing Round" consisted of five rounds namely, Senso No Junbi, Thailand, Kingpins of South China Sea, A disguised opportunity and Slay the Dragons, of which the second one was an on-spot round. These rounds consisted of various real case scenarios where the various teams were made to brainstorm and devise innovative plans and ideas to solve economic problems faced by various nations across the world. The teams were given tasks as consultants and the working members of QUAD to solve the challenges given by the respective judges. Each team had about 15 minutes to pitch their ideas and strategies and convince the judges. Only 4 teams namely, Kaizen, Alchemy, TenX and Adyanth were qualified to participate in this

	chapter after Team Spartans and Invincible got eliminated in the previous chapter. **Round 1: SENSE NO JUNBI** The first round was quite an interesting one. It was based on the new Japanese national security strategy (NSS) which is expected to be proposed in the latter part of the year. This is with the aim to be as competent as the Chinese military strategies such as The Indo-Pacific strategy (IPS) and Free and Open Indo-Pacific (FOIP) and collaboration with the US to provide great support to Japan. Moreover, it helps all the QUAD countries gain influence. The policy once implemented will give a boost to the defence spending of Japan, simultaneously increasing its military budgets quickly. Japanese manufacturers lack the technical expertise to develop their own systems to make themselves self-reliant or self-equipped. Therefore, Japan has to make a continuous effort to increase its budget even though its 1/4th of its figures are amassed by China. Based on this, participants were given a scenario where, Mitsubishi, the largest arms contractor to Japan, had been incurring, losses due to lack of economies of scale and low margin, and was looking to move up the value chain and develop its own defence system for local and international markets. Therefore, Mitsubishi is looking for a Joint Venture. The four teams were tasked with finding a feasible company to establish a joint venture with Mitsubishi and develop defence combat to control the Chinese influence. They also had to make a structured plan including relevant details such as capital contribution and profit-sharing ratios of each company, role of each company, manufacturing activities, a roadmap for the sales and operations to understated the profitability of the companies. Moreover, an organized financial breakdown for the same along with a ROCE projection, and a detailed HR plan to promote efficiency which eliminates style and cultural differences, and lastly, a strategic compensation and remuneration plans for both the groups were

	expected from the participants. The judges for the first round were Mr. Hitesh and Mr. Samarth. This round was released by the judges at around 2:00 p.m. and the submission was at 3:00 p.m. with presentations at 3:10 p.m. **Round 2: THAILAND** The second round was an on-spot one. The situation given to the participants was the clash between the QUAD (Quadrilateral security dialogue) and China. The four teams were given the scenario, where the Thai Canal, also known as Kra Canal or Kra Isthmus Canal, refers to a canal that would help connect the Andaman Sea across the Kra Isthmus in southern Thailand, which would significantly reduce travelling time through navigated trade routes. Thailand being a developing country lacks the resources required to complete this project unless a superpower nation lends its support. In this case, China lends its support and is ready to lend up to $30 billion. However, the QUAD has sensed this as an opportunity for China's growth and influence and therefore plans to intervene, as it would help reduce the Chinese influence and increase the revenues of the countries under the QUAD. The participants were given the task to represent themselves as a member of the QUAD working committee and issue a statement negotiating with the Thai government to hand over the project to QUAD instead of China. *Update on the Thailand round:* The QUAD was successfully convinced Thailand and bagged the contract for building the canal. However, the project in the third year witnessed, the migrant workers were being treated poorly, they frequently suffered from abusive employment practices, discrimination, physical and verbal abuse, hazardous working conditions, forced overtime work and more. The QUAD officials have also been accused of unaccounted commissions and illegal deductions from laborer's wages. These officials have been

	summoned by the Thai government for questioning. The judges for the second round were Mr. Ansh and Mr. Pragya. This round was released at 2:30 p.m. hours and the presentation started at 2:40 p.m. **Round 3: KINGPINS OF SOUTH CHINA SEA** The third round revolves around Taiwan, whose political status remains contentious after losing the 1949 Chinese civil war. China, however, continues to claim the island as a part of their Mainland as it provides China with several benefits such as a forward base, extension of its aircraft and missile ranges another 150 nautical miles to the east. Moreover, it would enable them to strike at targets and bases in Japan or Guam which are US-allied nations and would give Beijing control over its fifth-largest trading partner, which means access to high tech industry. Since China is a stronger enemy on all front Taiwan must abandon any nation of war and to adapt an asymmetrical defence plan under its overall defence concept (ODC). Taiwan has adopted the 'porcupine strategy' which seeks to exploit the Taiwan's geo political innovative advantages to create a painfully costly target Beijing to subdue. The quad, supporting a free, open, prosperous inclusive Indo-pacific. The group's primary objective is to actively curtail the growing Chinese influence in the Indo pacific region. Therefore, Taiwan's merges with mainland China would not only build a stronger China but also affect these countries directly. Therefore, the Taiwanese government has planned to implement an asymmetric defence which would require the support of the QUAD countries, while US is a part if the Taiwan Relations Act is required to maintain its capacity to assist the island while the other countries like India and Austria have an all-time low relation and they tend to lose more than they gain by supporting the island. Therefore, recognizing the sensitivity of the situation, QUAD has

given private military companies in its country to work along with the Taiwan government by devising an asymmetric plan. The four teams were given the task, to work as a secret QUAD working group, and devise an asymmetric defence ecosystem for Taiwan, by finding a private company to help them develop weapons, phase-wise planning. Also, to design a public relations campaign to counteract Chinese efforts, and devise strategies and incentives to invite other nations to engage in bilateral trade and agreements. Lastly, to build a discrete supply chain including an alternate route for transportation of weapons and roles of Taiwanese and QUAD countries. The judges for the third round were Mr. Karthik and Mr. Nishit. This round was released at 2:45 p.m. and it ended at 3:45 p.m.

Round 4: A DISGUISED OPPORTUNITY

The fourth round revolves around, the Society for Worldwide Interbank Financial Telecommunication (SWIFT), which is a Belgian cooperative that is owned by banks headquartered in Belgium. This society oversees all financial transactions and payments between banks and worldwide and serves the main messaging network through which international payments are initiated. In March 2012, the EU council directed SWIFT to not provide services to EU-sanctioned European banks. This was particularly implemented to limit international trade with Russia. The UK's sanctions are aimed at freezing assets of Russian banks and also target Rostec, while EU sanctions will end Russian banks' access to European markets. Consequently, once the banks are disconnected sending and receiving money will be a challenge which will make import and export difficult. This sanction raised a few concerns for India as it impacts its defence projects such as the $5.4 billion deal for the five regiments, moreover, India's mercantile exports to Russia which in 2021 accounted for $3.3 billion and imports were $8.5 billion. Therefore, the Government of India decided to increase its budget allocation to about $70.6

	billion, in order to promote indigenous production while restricting the import of 351 items. Therefore, even though the SWIFT restrictions have caused difficulties for India defence sector, at the same time it has created a huge untapped market opportunity for Indian companies. The four teams were given the task as consultants, to draw up an expansion plan for a joint venture between Mitsubishi and an Indian defence company. Moreover, participants were to present the financials for the Indian company, strategies to sell the products in the Indian market and to research about other potential markets. The judges for the fourth round were Mr. Ansh and Mr. Pulkit. This round was released at 3:30 p.m. and was due at 4:30 p.m. **Round 5: SLAY THE DRAGONS** The fifth and the last round was quite an exciting one, the participants were given the scenario of China being the world's biggest lender accounting for almost 67% of the world's official debt, which is bigger than that of World Bank and International Monetary Fund. China has expanded its loan book and has achieved this position by ignoring the fundamental principle, "the borrower's repaying capacity", and claiming its lending to be a 'global public good', however, it has an opposite effect and burdens the developing economy rather than developing them. The participants were given the recent case scenario of the southern port of Hambantota in Sri Lanka. China provided Sri Lanka with the loan of $5 billion for the construction of Hambantota port, which was impossible for Sri Lanka to pay back. The general decline in the world economy combined with Sri Lanka's smaller economy was to blame. Under heavy pressure from Chinese creditors, Sri Lanka had no choice left but to hand over the port and 15,000 acres of land for a 99-year lease to China. This transfer gave China control over territory just a few miles away from India. The People's Liberation Army may enter Hambantota anytime to conduct their military operations there;

	Therefore, Sri Lanka is turning out to be another military base for China. Moreover, this reflects the weak position of Sri Lanka, and the threat it poses in India. The participants, being a QUAD working body were given the task to present a revival plan to Sri Lanka government to reduce its heavy reliance on China. The plan had to consist of the various policies the government should undertake, a phase-wise economic plan, debt restructuring, a plan to accelerate the tourism sector and to identify the sectors for potential collaboration with QUAD countries to boost the growth of the economy. The judges for the last round were Mr. Sahib and Mr. Rahul. This round was released at 3: 45 and was due at 4:45 p.m. After the Chapter 4, Team Kaizen secured the first position followed by Team TenX and Team Adyanth in the second and third position **Prashnottari (Business Quiz Event):** Prashnotarri is a business quiz event hosted by the Department of Commerce and is a part of PRAYAS. Prashnotarri has active participation from students throughout the country. Dr. Arul Mani, a Senior Lecturer at St. Joseph's College, was the quiz master and also judged the event. The quiz required participants' competitiveness and active participation. **Prelims:** The prelims round consisted of 25 questions. Every 5th question was star marked and was later used to break ties. The rules were made very clear during the start of the event. The participants were asked to scan their answers and send it to the Email ID provided. Malpractices of any form were not entertained and had strict consequences. The prelims round consisted of various themes that made the quiz interesting and attracted attention.

	Semi-Finals: The semi-finals also consisted of 25 questions, and the questions were divided into different fields. The first 9 questions were based on identifying an entity, next 8 questions were image-based, and the last 8 questions were part of the pounce round. Pounce is a questioning sequence that is more suited to elicit deep thinking. The rules of the quiz remained the same. The participants were filled with enthusiasm as the semi-final was fiercely competitive. **Finals:** The Finals had a total of 5 rounds, out of which 3 written rounds were conducted on Google Forms and 2 live rounds on infinite bounce. Dr. Arul Mani, the quizmaster and the judge of the event himself, prepared the quiz. The last 2 live rounds were intensive and had all the participants as well as the viewer's attention. After an intensive final round, first place was secured by Mr. Aswin Cheerath Anilkumar, a student of Christ University from the Department of Commerce and Second place was secured by Ms. Hemontika Paik, a student of JD Birla Institute. Mr. Krithivaas Vijay, who scored the second highest number of points was not awarded due to the policy followed by Christ University, whereby not more than one student of the college is given the price in cases where the college hosts the event. **Valedictory Ceremony:** Ms. Bhavya Sood and Mr. Sohail Sanjay Moideen initiated the Valedictory ceremony by welcoming the faculty, followed by a song from Team Sangeeth. An inspiring speech was delivered by Mr. Karthigai Prakasam, M. Com Program Co-ordinator. The speech was indeed a great one and welcomed the audience positively. The address had a Special mention of the faculty who made this event successful.

	The chief guest Mr. Abhishek Poddar, Managing Director of Banyan Tree, added charm to the ceremony. He expressed how these inter-collegiate meets would benefit every student. A good skillset is undoubtedly guaranteed. He also stressed how a powerful mindset could help one win the battles in life. A video followed the speech, which showcased the insightful moments of the event. The results of Prayatna and Prashnottari were declared which were as follows: **Prayatna:** 1. Team Kaizen - Kaizen 2. Team Ten X – Departmental of Professional Studies, Christ (Deemed to be) University 3. Team Adyanth – St. Josephs **Prashnottari:** 1. Mr. Aswin -Departmental of Professional Studies, Christ (Deemed to be) University 2. Ms. Hemontika Paik – J.D. Birla Institute Every event is successful only with the team's support. Dr. Midhun Mathew, in the Vote of thanks, addressed the audience and thanked the supporters who had helped directly and indirectly in making the event a successful one.
Follow-up Plan, if any	A Google form was circulated at the end of the event to invite feedbacks from the participants. Thereafter, the subheads responsible for organizing the event analysed the responses to churn out insights in order to understand the success of the fest and to make necessary improvements to the same.

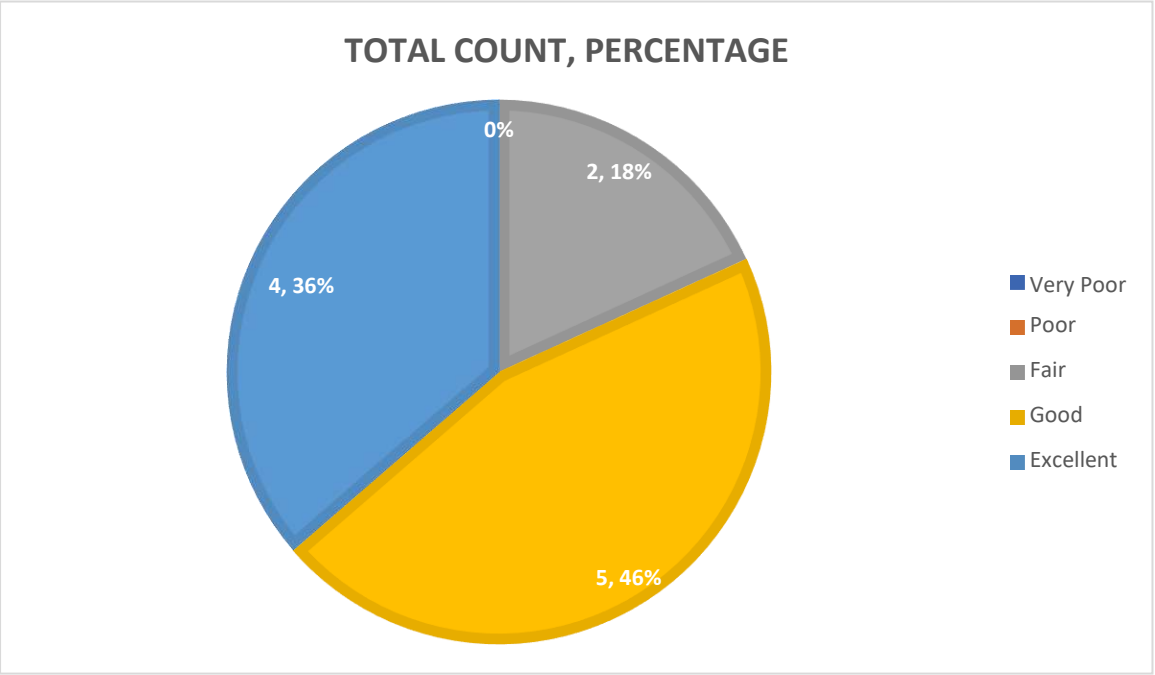
Brief Summary

The Prayas, 2022, the flagship event of Department of Commerce, was organized virtually from 3rd March, 2022 to 5th March 2022. The main objective of the event was to provide a platform for the students across the country to showcase their talents and to provide them with necessary exposure that can help them build necessary skillsets required to survive in the practical world. The event consisted of two parts, Prayatna, the contingent event and Prashnottari, the Business Quiz event. The contingent event had four chapters n total and had multiple rounds under each of the chapter. On the other hand, Business Quiz event had 5 rounds in total. Most of these rounds were elimination based. The event concluded with the valedictory ceremony attended by Chief Guest, Mr. Ashok Poddar, Managing Director of Banyan Tree Financial Solutions. The first position in Prayatna was achieved by Team Kaizen of CMS Jain, Bangalore, followed by Team Ten X of Christ University, Department of Professional Studies, Bangalore and Team Adyanth of St. Joseph's College of Commerce, Bangalore in the second and third position respectively. In the case of Business quiz event, the first position was achieved by Mr. Aswin of Christ University, Department of Professional Studies followed by Ms. Hemontika Paik of J.D. Birla Institute.

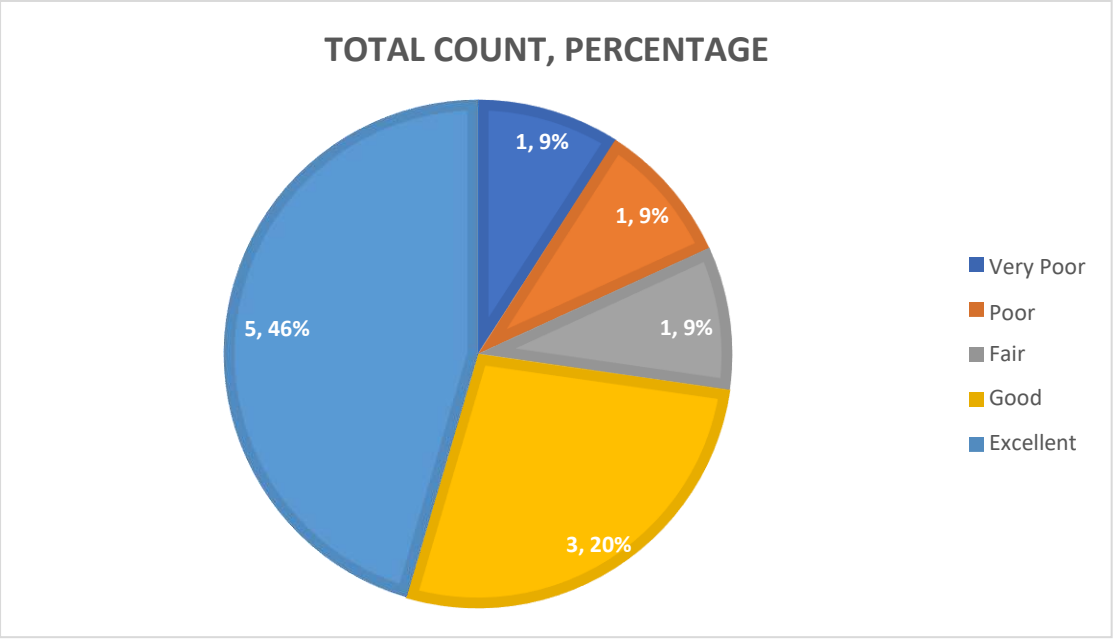
Feedback Data and Analysis:

How well do you rate the ease of registration?



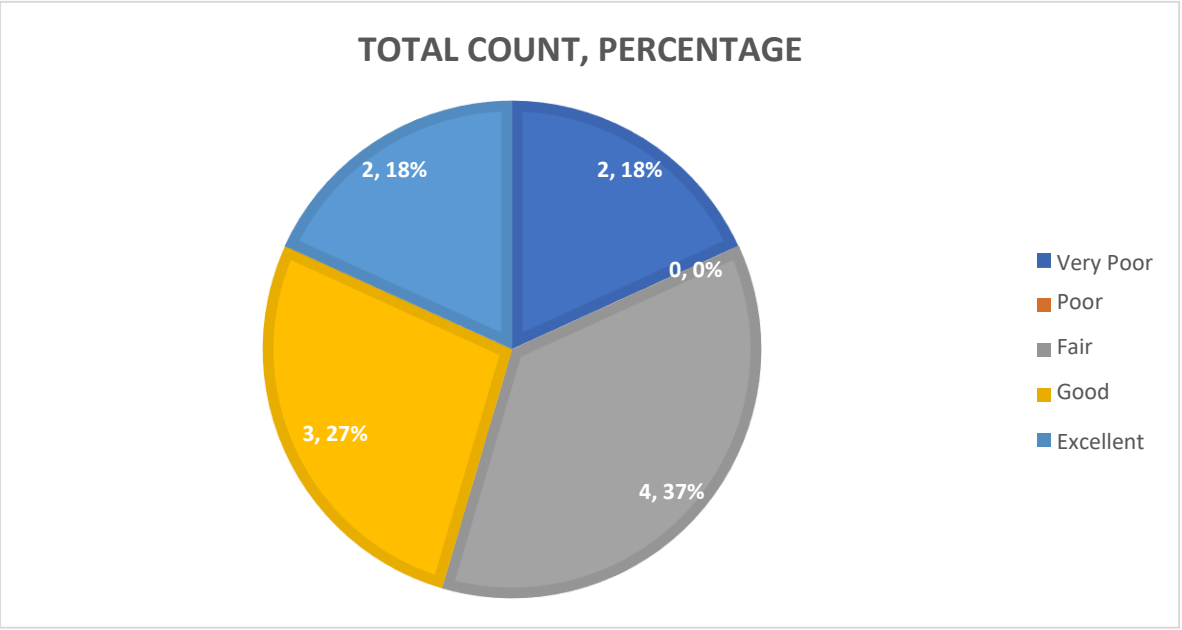
The ease of registration for Prayas, 2022 was viewed as good and excellent by most of the participants. 46% of the participants responded to the level of easiness as "*Good*" whereas 33% chose the level of easiness as "*Excellent*".

How well do you rate the mode of communication?



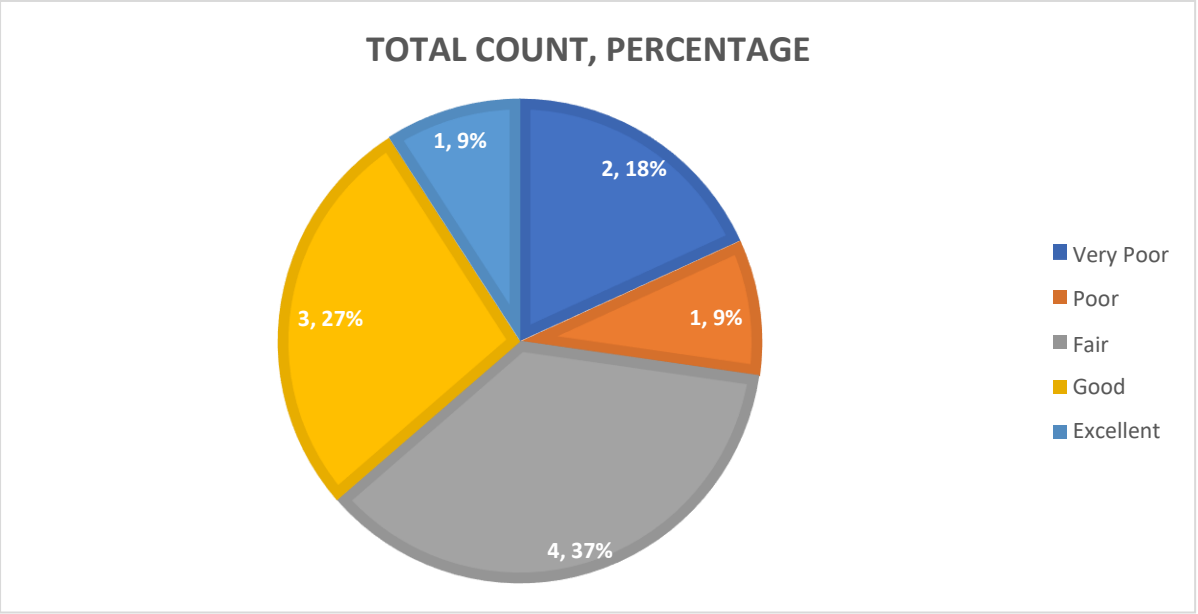
The quality of mode of communication was viewed positively by majority of the participants. 50 % of the participants rated the mode of communication as "*Excellent*" whereas 20% rated is as "*Good".*

How well do you rate the efficiency of the team in releasing the rounds?



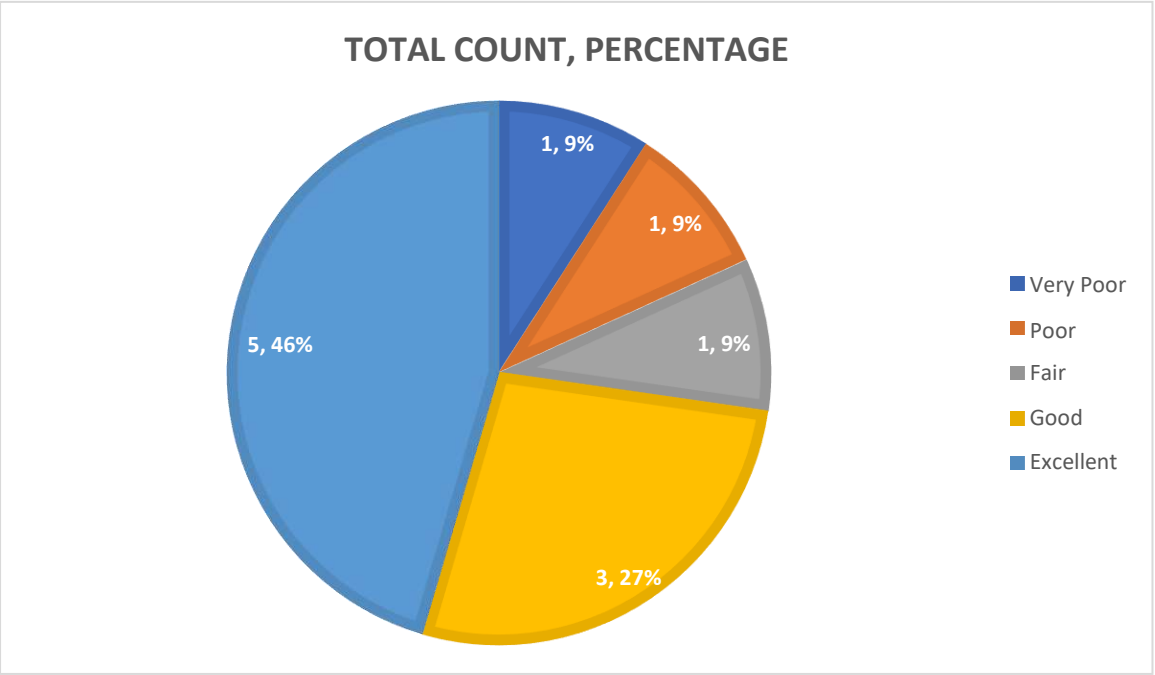
The efficiency of team in releasing the rounds was viewed moderately by most of the participants. 37 % of the participants rated the efficiency as "*Fair"* whereas 27% rated the efficiency as "*Good"*.

How well do you rate the time management during the entire duration of the fest?



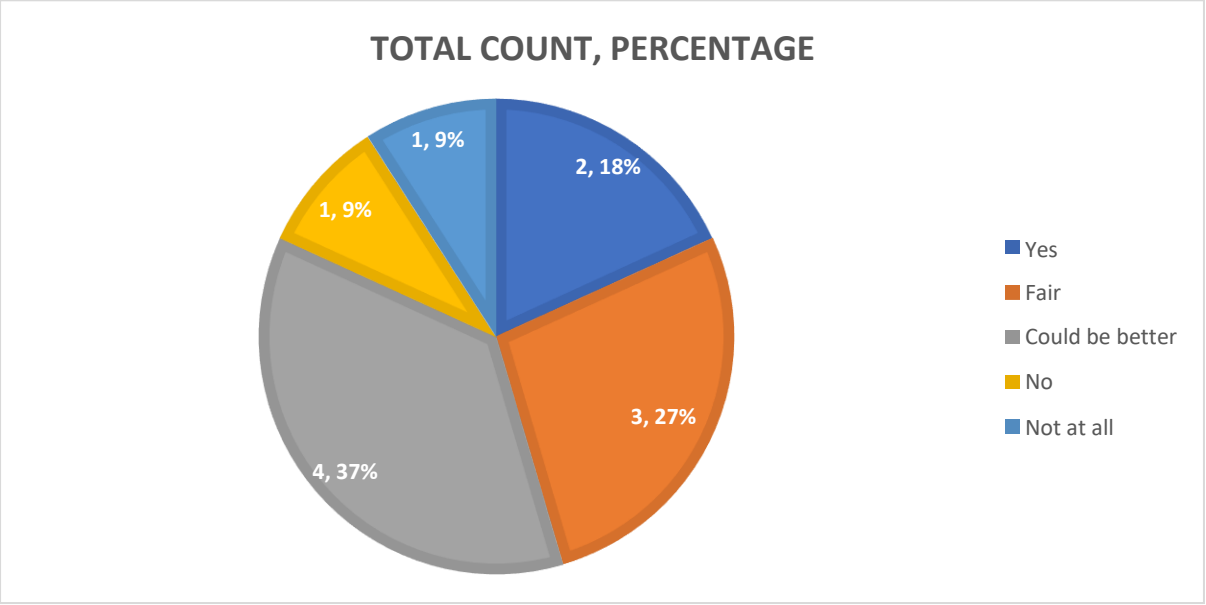
The time management efficiency was viewed moderately by the majority of the participants. 37% of the participants rated the time management as '*Fair*" whereas 27% of the participants rated it as *"Good"*.

How well do you rate the professionalism of organizing committee?



The professionalism of the organizing committee was viewed positively by the majority of the participants. 46% of the participants rated the professionalism as "Excellent" whereas 27% of the participants rated it as "Good".

Was the workload manageable?



The workload was found manageable by the majority of the participants who attended the event. However, some responded that the workload management could have been better. 37% of the participants responded to the question as "*Could be better*" whereas 27% responded to the question as *"Fair".*

Written feedback and Suggestions:

The participants in general found the fest to be informative and value-adding in nature. The participants were satisfied with the rounds presented to them and was happy about the fact that the rounds were associated with real world problems which provided them with better exposure. The participants also appreciated the organizing committee for making sure that the technical difficulties were sorted quickly and effectively. They were also appreciated for the efficiency and time management of the entire organizing committee.

However, some of the participants had complaints regarding the repetitive and monotonous nature of the rounds. They raised the concern that most of the rounds were based on elaborate presentations with strict deadlines. They suggested that the fest would have been better if it had quality rounds that challenged the participants on multiple grounds.

Some of the participants also raised complaints regarding the non-availability of proper itinerary and information regarding the structure of events. Participants also suggested the conduct of event offline as it would provide them better opportunities to communicate with their peers from colleges around the country. One of the responses that was received is given below:

"It would have really helpful if you could have let us know the structure of the rounds before hand, like there would be 4 chapters with 5-6 rounds each. Also, I believe the experience would have more intense and realistic if the event was held offline (that to considering that it's the flagship event). Other than these things our experience was completely worth the while. Thank you all so much!!"

Response to feedback:

As a response to the feedback, the events in the future would be conducted in such a way that the participants are well informed about the structure of events so that they can prepare effectively. The organizing committee will also look into the quality of rounds to make sure that the fest would be much better in the coming year.

ROUND DESCRIPTION

DAY 1

At 10:00 AM prior to the commencement of the rounds we had a brief meeting with the participants and explained the general instructions for the fest.

Round I: CEO's GOT TALENT

The first round had three segments, a video submission of their talents, preparing a speech and answering a question on the spot. The speech and question began at 2:35pm on Day-1 on Google meet and it was projected live for the audience to watch and vote for the participants and it was completed by 3:00pm.

Round II: CASE STUDY

The second round commenced at 11:45 AM on Day-1. There was a 10 minutes briefing prior to the commencement of the round. The case study was posted on Google classroom and the participants were asked to submit their reports in the same link. This round included a surprise element of an additional case study and the round ended at 1:00 PM.

Round III: MERGERS AND ACQUISITIONS

At 1:30 the participants were briefed about the round. It was a stage round and the participants would be given 10 minutes to prepare and present in front of the judges. The judges would score them accordingly after the completion of their pitch. The third round ended at 3:00 PM along with components of ROUND-1.

Round IV: SOCIAL MEDIA DISASTERS

This was the overnighters round and the participants were briefed regarding the round at 10:00 PM. The round commenced at 11:30 and each participant was called one by one. A case was presented to them and they were given 2 minutes to read the same followed by which judges would start their questioning. The round was completed at 1:25 AM.

DAY -2

The briefing for the second day started at 10:30 AM.

ROUND V: SELF SUSTAINABILITY

The briefing for this wound was done at 10:30 followed by which participants were given 30 minutes to prepare a presentation for the round. Participants were asked to join the Google Meet one after the other and were asked to present their pitch in front of the judges followed by which judges would ask them questions. The round ended at 12:30 PM. Followed by which there was an elimination of 1 participant.

ROUND VI: PRESS RELEASE, PRESS CONFERENCE AND LAWSUIT

The final round briefing began at 2:45. The participants were asked to prepare a press release and were asked to prepare for a press conference. They were asked to present their statement in front of the judges and audience. This round was conducted in the KE Auditorium. The round at 4:00PM followed by which the results were announced in the valedictory ceremony.

PARTICIPANTS FEEDBACK:

1) Akshay Muraleedharan C K

“It was a great experience for me as I have gained a lot of knowledge through this and I really appreciate all the effort and hardwork taken to conduct INVICTA. Thoroughly enjoyed participating in this event”.

2) Jabez JP

“It was a great experience working with you all”

ROUND DESCRIPTION

DAY 1

Round I: Fund Management and Allocation

The round started at 10:30am post inauguration ceremony with an introduction of all the team members and task explanation. We faced several issues with the Wi-Fi and room allotment and began 30 minutes later than the planned schedule. It was a submission round on Google classroom for 90-minute duration. The round was cumulative and some participants submitted later than the due time. The results were obtained at 3:57 PM.

Brownie Task I: Pic-Puzzle

This round began at 12:30 PM with task briefing. It was a puzzle to be solved and a submission round on Google Classroom for duration of 30 minutes. The round ran smoothly but the participants had confusion regarding submission, which was cleared promptly. The results were evaluated by the team itself.

Round II: Fin-Plan

The second round started at 2:15 PM with the briefing to the participants. The participants submitted the video on Google classroom and the round was evaluated by 10pm. It was a submission round of 3-hour duration and an elimination round as well. One person backed out of this round due to electricity issues.

Brownie Task II: Comic Strip

This round started late in the evening. It was a submission and cumulative round of 2 hour and 30 minutes. Participants were really creative in their submissions and the results were evaluated by the team itself.

DAY 2

Round III: Formulation with Decision-making and Forecasting (Overnight Round)

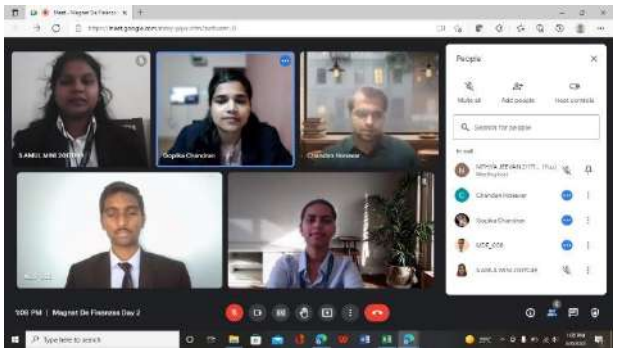
Due to the constant delays during the day, this round began at 12:02 AM on the next day, where the task was briefed to the participants. The duration of this submission cum elimination round was 6 hours. The round went smoothly but one participant backed out of the overnighter due to health issues. The submissions were evaluated by 10:15 AM.

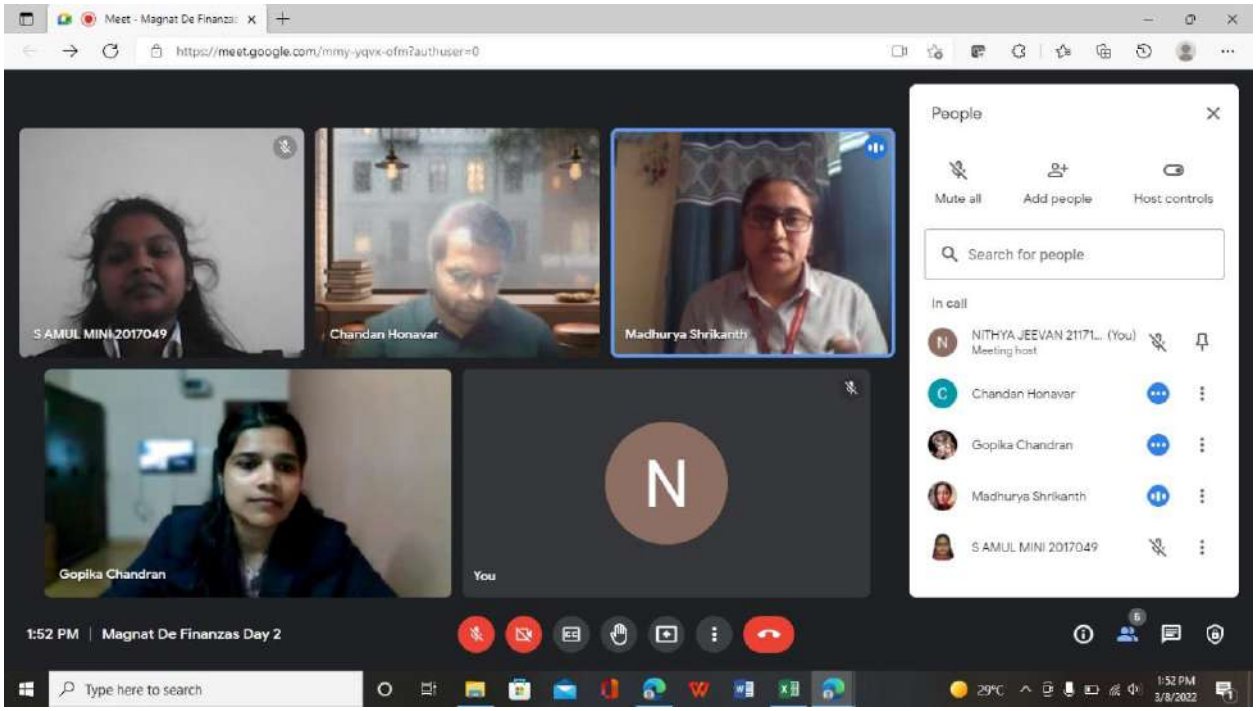
Round IV: Law and Ethics (Semi-Finals)

The briefing of the task and instructions for the day was given to the participants at 12:45 PM. Since it was a stage round, the case was mailed to the participants 30 minutes prior to their presentation slot. The round officially began at 1:00 PM where external judges were called to judge. The judges went beyond their questioning time by almost half an hour causing a delay in the final round. The elimination round ended at 2:43 PM without elimination as one more participant backed out.

Round V: Leadership and Management (Finale)

The final round was conducted on the stage in KE Auditorium. Delayed by the previous round, it began at 2:45 PM instead of 2:15 PM and was held for the three finalists post a short briefing. The case was mailed to them 10 minutes prior to their slot timings and the presentation duration had to be cut short drastically. The round ended at 3:05 PM, after which the judges scores were compiled and the winner was determined.





PARTICIPANT'S FEEDBACK

- "I wish there was a bit more time given for the last 2 rounds to prepare" – **Madhurya Shrikanth**.

JUDGE'S FEEDBACK

"I just wanted to add that,

1. Have a person separately for all the technical stuff.

2. The case study was too rigid. There was not much room for the CFO to be creative or come up with more options to justify himself or his company as the case study clearly stated that the company and the CFO were at fault.

3. The criteria for marking them was too much. As in, the number of parameters on which they were to be judged and also the marks added to each parameter.

You could have just added 5 marks for each parameter and then increased it to how much ever you want such as 15 or 10. Like they reduce it for Mid-Sems etc.

4. Proofread the case study once it is prepared.

Because there may be mistakes and you might not even observe because you've been working on it for long. Give it to someone else and ask them to read it.

Great effort and teamwork. Keep up the good work.

Also have a bit of fun while you're at it." – **Chandan Honavar** (Round 4 Judge).

"The case was really good but 2 or 3 minutes to question is not fair to the judges or participants" – **Raghunandan Sir** (Round 5 Judge).

ROUND DESCRIPTION

DAY 1

Round I: The BEST ALTERNATIVE

This round started at 10:35 with a brief introduction and task explanation. It was a smooth conduction of the quiz on quizizz platform. The scores were recorded for carrying forward and consolidation to the elimination round.

Round II: The VIDEOSCRIBE

The second round started at 11:15 AM with the briefing to the participants. The participants submitted the video on Google drive link and the submission was expected at 12:30 am. This round was evaluated by the Adrishta team itself and scores were carried forward for the next round.

Round III: The Risk & Revival

At 1:30, the briefing was done for approximately 15 minutes. The case study was uploaded in the Google Classroom after the briefing. The participants were expected to submit the word document by 3:30 pm. This round was evaluated based on the answer key.

In this round, one participant team was eliminated from the competition.

Round IV: Element 1: The BIG IDEA

The briefing and the task was provided by 4 o’clock in the evening. The participants submitted their business plan in a word document by 6:30 pm. And the presentation was done on Day 2 and it was scored by the judges.

Overnight Round : The BREAKING NEWS

The round 5 briefing started at 8:30 pm and a case study was uploaded in the Google Classroom immediately after the meeting. And with the interval of every half an hour, there was a news update uploaded in Google classroom till 12:30 am and the participants submitted their work by 1:30 am.

DAY 2

FINAL ROUND:

The final round was conducted on the stage in KE Auditorium. It started at 9 o'clock in the morning. The participants pitch their idea before the judges. The scores were given by the respected judges and it was consolidated with the live voting scores conducted through Google forms.

PARTICIPANTS FEEDBACK:

- Padma Sundri
  "It was a more interactive and Knowledgeable fest which helped to gain more confidence and helped to look up to things in an innovative way".
- Shinik Bose "It was very informative. It was great experience"

4	10:30 pm	12:30 am

4 (continued)	11:00 am	12:30 pm
5	2:00 pm	3:30 pm

ROUND DESCRIPTION

DAY 1

Round I: Befriend the Trend

Part 1: The participants are required to create an engaging **Instagram post/meme** based on the Company/ Brand and Day allotted to them. You are also required to come up with a creative **tagline or Instagram caption** for your post.

Part 2: In this part of the round, the participants will have to reply to tweets. The organisers will post tweets based on a central theme, topic or event and the participants are required to reply to the tweet within the given time in an engaging and fun manner that allows them to promote the brand assigned to them

Round II: The Marketing Heist

Participants were presented with a case study of how money heist went beyond the usual means of marketing their product in various other creative ways , to which the participants had to understand , research and come up with a new marketing campaign and come up with a number of ways to market the Netflix show, **"Dark".**

Round III: Mad Ad

The participants are required to come up with **1 minute to 1.30 minutes video Ad** for a classic keypad mobile phone (which is now obsolete), that has **absolutely no additional features**. This means that the only features that the phone would have are:

- Voice call
- Text message
- Alarm
- Calendar
- Calculator
- Most basic camera
- Music player and radio

The phone **would not have** android, internet access, optional touch feature or anything new. There should be **no new or innovative changes** made to the product. Your challenge is to market this classic keypad mobile phone in the current time period, to be more specific, the **year 2022.** The Ad should showcase the product and its features and how it is relevant today.

You are free to come up with unique brand names for your product and can promote the product as creatively as you can. The video should feature **at least one member** of the team advertising the product.

Round IV: Pleasure doing business with you

Element 1 : The Marketing Chanakya teams will form alliances with the teams of Adrishta to connect and market their product, project and service. The teams will be assigned to the participants in random order. The participants are required to come up with a detailed marketing plan for the prospective business ideas of the teams assigned to them.

DAY 2

Round IV: Pleasure doing business with you

Element 2: participants were informed 10 mins prior that they will now have to come up with a ppt for the same component of which they had submitted marketing plan of in 10 mins and present it in front of the judges after that.

FINAL ROUND:

Round 5 - Stand Your Ground

Participants were given a unconventional service to promote i.e. of ‘child safe agency’ a online nanny service provided and the teams had to come up with a marketing plan and present it in front of the judges on how and why that service exists

On the stage when the team were prepared for their presentations , it was informed that ‘your company liked your plan due to which they want you to immediately do a presentation of a new client” the presentations were changed and now the team had to adapt to the ppt presented to them and stand their ground on absurd products with crazy components

PARTICIPANTS FEEDBACK:

- Mathi – “Thankyou so much for the opportunity, it was fun aswell as practical. We enjoyed a lot”
- Snehalraj verma : “Thank you so much All the rounds were very amazing and got to learn alot. Thank you for inviting us and letting us be a part of this amazing event”
- Rituperna gosh : “Thank you so much ma'am and sir. And we really had great funny and gained a lot knowledge and we really appreciate your hard work for conducting this event. Thank you so much once again.”

Type of Participants	**Students (Internal and External)**
No. of Participants	**214**

Synopsis of the Activity (Description)

Highlights of the Activity	1. A very useful resourcefull session for both external and internal students of post graduate 2. Effective platform and field area experts to judge the papers as per the tracks
Key Takeaways	1. In depth knowledge of the reseach focus area topics by the research experts through their sessions
Summary of the Activity	SAMSHODHAN 2022 was a very engaging and thoughtful online research seminar which included two training sessions and two paper presentation tracks. The event started at 9:00 am after the inauguration and continued till 5.00 pm The event was inaugurated by Dr. Reena Marwah Professor, Delhi University and she had elaborated on the Importance and Opportunities of Research in Social Sciences. After the inauguration ceremony we had two technical sessions which were handled by two trainers namely, Dr. Vipin Khurana Professor and Area Coordinator, IBS Gurgaon, he detailed various data analysis tools in decision making. The second technical session was handled by Dr. Bikramaditya Ghosh Associate Professor, SIBM Bangalore, who had elaborated on the new aspect in research known as “Research Letters”.

	The event had a total of two tracks for paper presentations and papers were grouped according to their field of research. The rounds were judged by carefully picked judges from research fields of expertise who are the faculty members of our college. The students of the MCom program were given the opportunity to be present throughout the training session, which might have enriched them with some knowledge. we had post-graduate participants from more than 10 colleges taking part in the fest. We had a total of 13 papers taking part in the paper presentation and the training sessions across the nation.
Follow-up Plan, if any	**Next year SAMSHODHAN 2023**

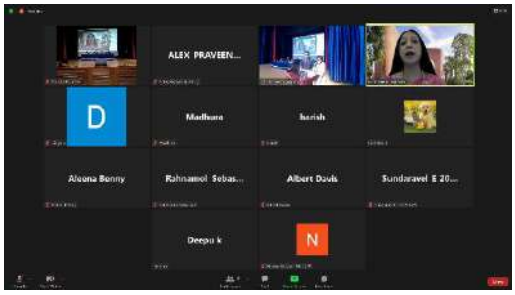
SAMSHODHAN REPORT 2022

THEME: *RESILIENCE AND REINVENTION: TRANSFORMING GLOBAL OUTLOOK IN THE ERA OF SUSTAINABLE DEVELOPMENT*

REPORT FOR THE DAY

INAUGRATION

The inauguration began at 9:05 AM after ensuring that all systems were set up to accommodate the hybrid mode of conducting the Seminar. The hosts for the inauguration were Sanjana Menon and Rishabh Bhawnani. In attendance as dignitaries were: the chief guest Dr. Reena Marwah, Professor at Delhi University; Dr. Tomy K Kallarakal, Dean – School of Commerce, Finance and Accountancy; Dr. Theresa Nithila Vincent – Head of Department and Dr. Karthigai Prakasam – MCOM Co-ordinator. Deepika Sorab sang the invocation hymn, followed by the lighting of the lamp by the dignitaries on the dais and the student co-ordinators of Samshodhan. Dr. Theresa Nithila Vincent delivered the welcome address and Dr. Tomy K Kallarakal addressed the gathering. The chief guest for the inauguration Dr. Reena Marwah, who attended the inaugration online, addressed the gathering and also officially declared the research seminar open. Dr. Anuradha PS, associate professor – Department of Commerce, delivered the vote of thanks. After the Christ anthem was sung, Alex and Mariam – the student co-ordinators – gave the general instructions for the day to the participants as well as the audience. The ceremony ended at 10 AM sharp.



Guest Profile: - Prof. Reena MARWAH

Reena Marwah (M.Phil, Delhi University; PhD, India, International Business)is Professor,Jesus and Mary College, Delhi University. She is a permanent faculty member w.e.f. July 1982 and has been teaching Indian economy, international business and politics of globalization.

She was an ICSSR Senior Fellow, MHRD, Govt. of India, affiliated with the Centre for the Study of Developing Societies, New Delhi from June 2017 to May, 2019, during which her study was on Reimagining India-Thailand Relations. She has also been on deputation as Senior Academic Consultant, ICSSR, Ministry of Human Resource Development, Govt. of India for three years (2012-2015) and continued, on behalf of ICSSR to coordinate/ lead the

India-Europe Research Platform (EqUIP), comprising 10 research councils of Europe till July 2017. She is the recipient of several prestigious fellowships including the McNamara fellowship of the World Bank, 1999-2000 and the Asia fellowship of the Asian Scholarship Foundation 2002-03, during which she undertook research in Thailand and Nepal. She is also a Senior Fellow of the Institute of National Security Studies Sri Lanka (INSSSL). She has been a Consultant for the World Bank and UN Women. She is the founding editor of Millennial Asia, a triannual journal on Asian Studies of the Association of Asia Scholars, published by Sage Publishers.

PROGRAMME	TIME	DURATION
Introduction By EMCEE Ms Sanjana Menon and Mr. Rishabh	09:00 - 09:05 am	5 minutes
Prayer song by Ms. Deepika S Sorab and **Lighting of the Lamp**	09:06 - 09:15 am	10 minutes
Welcome Speech – Dr Theresa Nithila Vincent HOD – Department of commerce	09:16 - 09:20 am	5 minutes

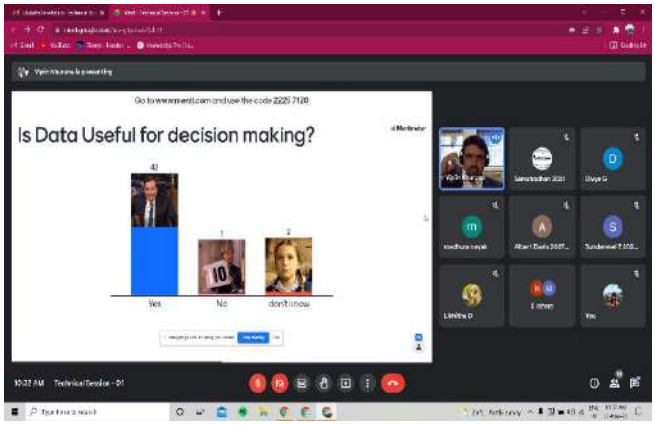
Dean's Address – Dr Tomy K Kallarakal	09:21 - 09:25 am	5 minutes
Chief Guest Address – Dr Reena MARWAH, Professor **And official launch of SAMSHODHAN 2022**	09:26 - 09:40 am	15 minutes
Vote of Thanks – Dr Anuradha P S Seminar Convenor	09:41 - 09:45 am	5 minutes
CHRIST ANTHEM	09:46 - 9:50 am	5 minutes
General Instructions by Mr Alex Praveen Raj **Seminar Student Coordinator**	9:50 am – 9:55 am	5 minutes

TECHNICAL SESSION 1

The Technical session 1 was handled by Dr. Vipin Khurana, on “Data Analysis tools for decision making.” The session took off by 10.15 AM and went on till 11.20 AM.

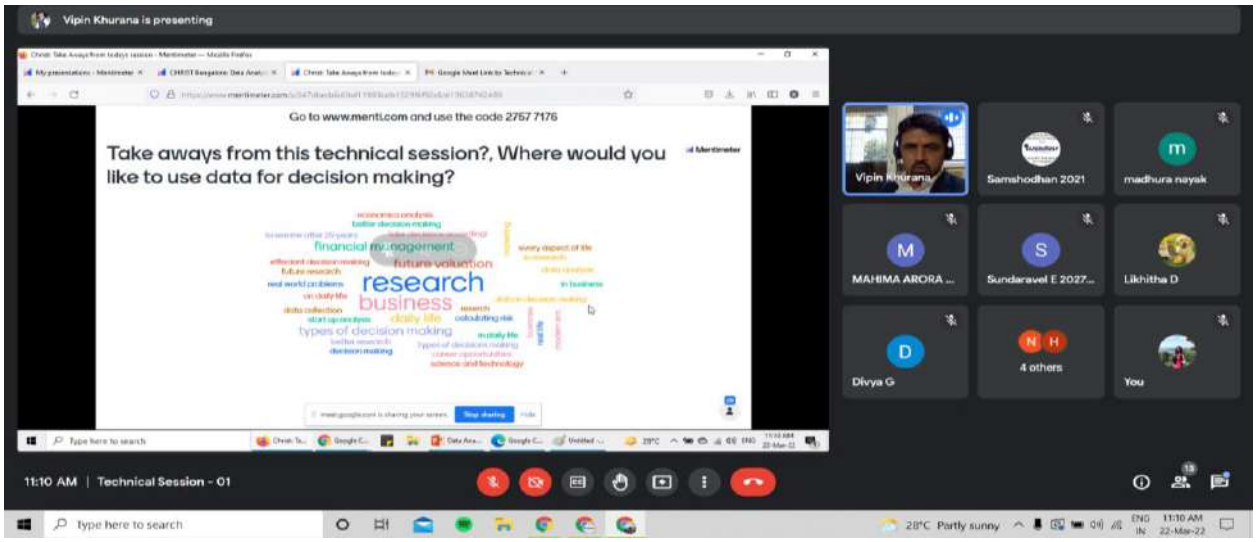
Dr Vipin Khurana is currently serving as Professor and Area coordinator at IBS Ghaziabad, handling Quantitative methods, methods of Business research and Analytics. He started his session with the importance of data and the base of how to work and exacerbate on the humongous data available by the audience feedback on a menti platform.

He went on to speak about data handling, normality, skewness and reliability, via various pictorial depictions and fun mediums. He had a detailed explanation on the various tools and techniques to simplify the data processing in research. He had several engaging moments with the crowd offline as well. The session ended with Q and A, with the following questions ;



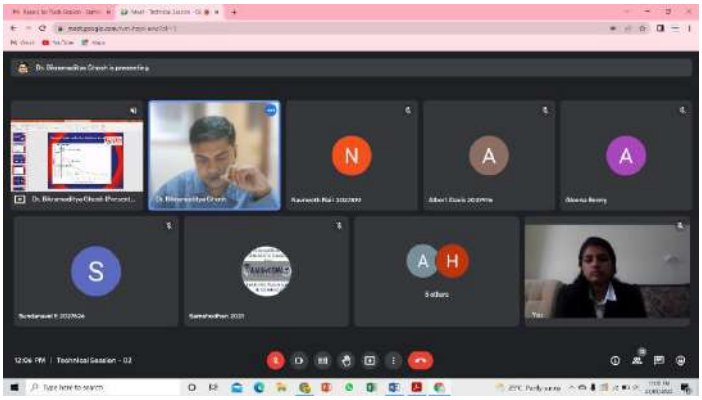
1. How important is it to include tech tools in the curriculum of primary school kids?
2. What are the difficulties of switching the area of research, from a professional background to a field of interest ?

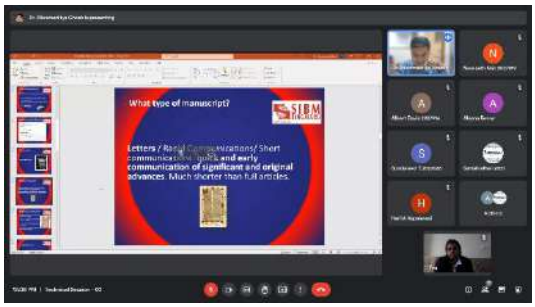
At the end, he circulated a feedback form for everybody to know their retention and backdrop.

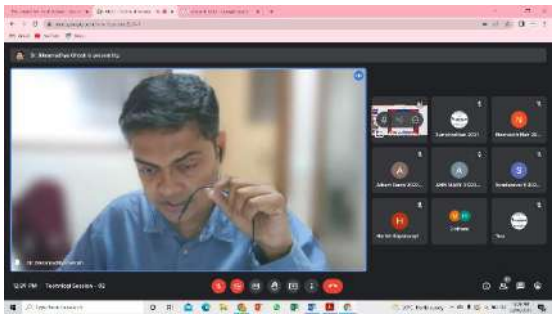


TECHNICAL SESSION 2

The session began at 11:40 AM and was conducted by Dr. Bikramadithya Ghosh. The moderator for the session was Mariam Jetcy and she also introduced and welcomed the speaker. The speaker spoke about research letters and how they are easy to publish, less time-consuming, more elaborate, and require less number of reviews. He elaborated on various topics such as seminal papers, how to write the methodology section, the way results should be displayed, what the discussion sections are supposed to contain, how to speak to the editor and who can be potential reviewers. Although Dr. Ghosh used a Powerpoint he spoke in simple language and gave several tips and tricks on writing a paper. He ended the session with a cartoon depiction of review and editorial prices. The session ended at 1 PM with a vote of thanks to the speaker.







TRACK 1

The track 1 began sharp at 2 PM and ended by 3:00 PM. The main moderator was Ainish D'Cunha and, the back-up moderator and technical assistance for the track was Alex Praveen Raj. The judges for the track were Dr. Mahesh and Dr. Suresh. Participants of Slot 1 had been requested to join the waiting room link 15 minutes prior. The waiting room was managed by Alvin Sabu. All the respective participants had joined the waiting link and the judges had joined the track link by 1:55 PM. Thus, the track began at 1:55 PM with the first participant and ended at 3:50 PM with the 7th and last participant of track 1. The entire track ran smoothly except for the fourth participant who faced technical glitches and did their presentation after the fifth participant. The time limit was strictly followed by reiterating to the

participants and judges to stick to the time limit and not letting them go beyond the stipulated time. Both the judges discussed confidentially post the presentation and the final results from their end was obtained at 3 PM.

SAM22 01	**FINANCIAL LITERACY AMONG RURAL HOUSEHOLDS WITH SPECIAL REFERENCE TO VAZHAPPALLY PANCHAYATH**

Abstract

Financial literacy is considered as one of the important **factors** to be addressed in 21 st century. As research demonstrates, financial illiteracy is widespread among developed countries as well as in rapidly changing markets. (Lusardi & Mitchell, 2011). As the young generation is being more educated and gets in touch with the importance of financial literacy and its benefits. There are certain circumstances under which this issue cannot be addressed properly especially among the people living in rural areas. This study addresses mainly the first four sustainable development goals in order to reach the findings and conclusions. The study clearly estimates there is no significant relationship between monthly income and financial literacy. Knowledge about savings and investment is easily accessible to everyone these days due to the advancement in information technology. Yet it cannot be taken for granted among people with low education, women and minorities. This poses a challenge as to how to communicate the information on financial services to the relevant people who need it most, in order to save them from the clutches of unscrupulous brokers and fraudulent people.

Keywords : Literacy, Rural ,Investment,Monthly income,Savings

SAM22 02	USE OF BRAND STORYTELLING TO GAIN COMPETITIVE ADVANTAGE IN APPAREL INDUSTRY: A CASE OF RAYMOND

Abstract:

Brand storytelling lets companies create a narrative around their company and its products which helps them effectively communicate with the consumers about its products, brand values and what the brand represents. The purpose of this study is to understand the major outcomes of Brand storytelling in Raymond groups and which key attributes lead to the consumer purchase intention. The thesis opted for a quantitative study where the researcher took a sample size of 154 participants through convenience sampling. The quantitative responses were gathered, and the data was accompanied by an in-depth analysis. Through this study, we were able to identify that there is a significant relationship between the independent variables (narrative processing, brand attitude, and self-brand connection) and dependent variable (purchase intension) with regard to the brand storytelling of Raymond's Group. IBM SPSS was used to conduct a Multiple linear regression test and Mediation test to decipher the relationship between independent and dependent variables. The outcomes showed that Brand storytelling elements such as Narrative processing, brand attitude, and self-brand connection which are considered as a primary motive of the purchase intension for Raymond consumers. The research lacks a cross-cultural perspective as it was concentrated within the Indian Male Consumers. This thesis provides managerial wherein marketing heads of the Raymond's group can understand their target audience better with the help of such insights and therefore this study can be used to segment customers based on their narrative processing, brand attitude, and self-brand connection. This study fulfills the need for research in the field of how purchase intention is affected by narrative processing, brand attitude, and self-brand connection and what aspects of brand storytelling can be used to create marketing campaigns.

Keywords: Brand Storytelling, Narrative processing, Brand attitude, self-brand connection, and Purchase intension.

SAM22 03	**IMPACT OF PRIVACY-RELATED ANTECEDENTS ON CUSTOMER'S HIGHLY DEFENSIVE BEHAVIOURS**

ABSTRACT
The research is trying to find the impacts of factors related to privacy on customer's defensive behaviour during online shopping among Indian customers. The defensive mechanism used by the customer to secure data privacy. Factors like corporate privacy responsibility, Regulatory protection, Trust, Privacy concerns, Privacy empowerment, past privacy are considered here. This research is based on the Power-Responsibility Equilibrium theory which states that the powerholders like corporates and governments have the responsibility to protect the privacy of people. The questionnaire was prepared based on these factors and defensive behaviour. A questionnaire circulated in the form of google forms. A total of 346 people from different parts of the country participated. The results showed that there is an impact of these factors on defensive behaviour. At the end of the study findings and recommendations for government and managers are given.

Keywords: Defensive behaviour, Privacy concern, Privacy empowerment, corporate privacy responsibility and Regulatory protection.

SAM22 04	**EFFECT OF BRAND STORYTELLING AND OTHER BRAND DIMENSIONS ON ATHLETIC APPAREL BRAND MARKETING- WITH SPECIAL REFERENCE TO NIKE**

ABSTRACT

Brand storytelling allows companies to create sustainable marketing practice, a narrative around their company and its products which helps them effectively communicate with the consumers about its products, brand values and what the brand represents. The purpose of this paper was to identify and understand how brand dimensions especially those closely related narrative processing will affect the consumers purchase decision within the sportswear apparel industry. A 28-question survey was conducted to measure the extent to which the respondents were capable/affected by a certain factor and then this was analysed to see how they interlinked and to see they would contribute to purchase intention. The questionnaire consisted of 5 sections each measuring different factors. It was an exploratory research. The sample could have been more geographically generalised but due to the resources at hand it was limited to South India. Future research could use a different or modified measurement tool to get more reliable data for measuring narrative processing construct. Through this study we were able to identify that narrative processing itself does not have a significant impact on purchase whereas the other brand dimensions such as brand attitude and self-brand connection does have a positive effect on the purchase intention. However narrative processing did have an indirect effect on purchase intention when both brand attitude or self-brand connection was mediating their relationship. It was also found that using celebrities and emotional connection proves to make the storytelling approach more ideal. This paper was done in a very domestically growing environment in the country and shows the general customer purchase intention within the sports apparel industry in the countries fashion market.

Keywords – Brand storytelling, Narrative processing, Brand dimensions, Brand attitude, Self- brand connection

SAM22 05	RESILIENCE AND REINVENTION IN TRANSFORMING GLOBAL OUTLOOK IN THE ERA OF SUSTAINABLE DEVELOPMENT

ABSTRACT

The industrial revolution brought great progress to humanity. The global population grew by sevenfold, life expectancy doubled, economic output increased hundred fold.There are as many telephone connections as people in the world. However many are left behind. Some three billion people still do not have access to modern cooking and sanitation. A billions go home hungry and also do not have access to electricity, yet many of them have to charge their phones. Those left behind are most vallurable to the negative consequences of industrial revolution from climate change to biodiversity loss. With the modern development rich are getting richer leaving the poor behind to bear the consequences. Therefore transformation towards sustainable future is the only alternative possible to protect the people and planet .Now with the pandemic hit and the war situation there is greater need for sustainability for our future generations. Harm is already done there is need for resilience and reinvention to transform global outlook in the era of sustainable development.

The Sustainable Development Goals(SDG) and the Paris Agreement on Climate Change call for deep transformation at a global level, that require combined actions by government, civil society, science and business. This paper discuses the key areas that would be necessary to achieve the SDG outcomes and how their implementation might be organized into a limited set of six transformations namely Education, gender and inequality; Heath, wellbeing Demography; Energy de carbonization and sustainable industry; Sustainable food, land ,water, Oceans ;Sustainable cities and communities; and digital revolution for sustainable development. Achievement of six transformation will require, deep, deliberate, long-term structural changes in resource use, infrastructure, institutions, technologies, and social relations, which have to happen in relatively short time. By achieving changes in these six areas we can save both people and planet.

SAM22 06	INFLUENCE OF SITUATIONS ON PRIVACY PARADOX IN E-RETAILING WEBSITES

Abstract:
As the e-commerce industry has grown rapidly in recent years, it has become critical to examine the customer engagement in these platforms, particularly privacy-related behaviour. Many studies show that internet users are becoming more concerned about their privacy and aware of their privacy rights. However, there exists a 'Privacy Paradox' where consumers' behaviour does not reflect their concerns and awareness while purchasing in e-retail websites.
This research studies how different situations in e-retail purchasing induces the privacy paradox. A survey instrument was used to collect data from 380 e-retail users. The instrument measures the customers' behaviour in various situations involved in e-retail purchasing. Among the different situations tested, during flash sales and product shortages, people exhibit highly paradoxical behaviour. The primary benefits that lead to paradoxical behaviour include saving time, cost- saving, and improving product suggestions. The study reveals when the benefit is substantial, such as discounts or access to exclusive products, people are willing to share even confidential and sensitive information.
The study's outcome suggests that e-retail businesses should be mindful while collecting sensitive private information as customers tend to provide such information due to the impulse of the situation. Therefore, e-retail businesses have the responsibility to alert the customers at the moment of filling in the information.

Keywords: Privacy Paradox, Concern, Awareness, E-retail, Purchase Situation, Willingness to Share

SAM22 07	AN EXPLORATORY STUDY ON MOOCs IN HIGHER EDUCATION

Abstract: The Sustainable Development Goals (SDGs), also known as the Global Goals, adopted by all United Nations Member States in 2015 includes 17 Sustainable Development Goals, building on the principle of “leaving no one behind”. The fourth goal in the 2030 Agenda for Sustainable Development is ‘the access to quality education’. It is here where our study titled “MOOCs in Higher Education” gains its importance. With the advancement of information technology, the walls of the classrooms are now not a barrier for students as well as teachers to enhance their knowledge. For students and working professionals, the internet offers a new platform to conduct their studies and expand their vision in the form of Massive Online Open Courses or popularly known as MOOC courses. There are plenty of platforms that provide the students with a wide variety of courses and the prominent ones being Coursera, edX, FutureLearn, Udacity, and the India governments’ initiative SWAYAM platform of which many are controlled and maintained by recognized universities. Our study is not intended as an exhaustive survey of all aspects in the field of MOOCs. It aimed to access the level of awareness of various MOOC courses and satisfaction level of the users. The study revealed that majority of the respondents are aware about the various MOOC platforms and the most satisfying factor is the convenience to complete course wherever we are.

Keywords: Massive Online Open Courses, Higher Education, Online learning

TRACK 2

Track 2 began at 2 PM and ended at 3:40 PM. The moderators for the session were Rishabh Bhawnani and Liya Joseph and the waiting room was managed by Sachin. The judges for track 2 were Valarmathi Ma'am and Mohan Sir. Participant 8 to Participant 12 presented their papers but Participant 13 did not and were disqualified as they were unable to join at the scheduled time due to power-cut issues. The rest of the presentations went smoothly where the judges evaluated the presentations and provided feedback on the respective evaluations of the participants.

SAM22 08	THE INFLUENCE OF LOYALTY CARD ON CUSTOMER PURCHASING BEHAVIOUR

Abstract: Marketing is a significant business activity which contributes greatly to the success of an organization. A loyalty program is a marketing strategy designed to build repeat business by offering participating customers something that isn't available to non-participating customers. These Programs exist covering most types of commerce, each one having varying features and rewards scheme. The loyalty cards are generally issued by shopping mall, food and beverage, cosmetics shop and jewelry shop and so on. The research was conducted to know whether the customer choose to a specific store due to a loyalty card they have and to find out how loyalty influence the purchase behavior of customer and the factors influencing customer store loyalty. This Study examines how loyalty card influences the card users and secondly, we look out how loyalty card increases the loyalty among customers and lastly to put some suggestion based on our findings. This study was not intended as an exhaustive survey of all aspects in the field of promotion of products. Rather, the study aimed to conduct to access the various factors affecting the use and benefits of loyalty cards. The sample size used for the study was sixty-four and mathematical and statistical tools were used for data analysis. The result of the study observed that there is a positive influence of loyalty card on customer purchasing behavior and Quality of product is the most important factor affecting customer store loyalty.

Keywords: Loyalty Card, Store loyalty, Purchasing behavior, Loyalty Programs, Customer Loyalty.

SAM22 09	MANYAVAR'S USE OF BRAND STORYTELLING TO GAIN COMPETITIVE ADVANTAGE IN APPAREL INDUSTRY

ABSTRACT

"Manyavar's use of brand storytelling to gain competitive advantage in apparel industry". Understand the effectiveness of consumer purchase intention through brand storytelling of Manyavar and by analysing the variables of brand storytelling that are get affected by it and statistically measure. Quantitative method of research is carried out by using quantitative research instrument. Data collected from the respondent using questionnaire is analyses using SPSS statistical tool and results are provided in the form of tables. Through this research we are able to find out that there is an relationship between few independent variables with the dependent variables with regards of the brand storytelling of Manyavar. This research is cross sectional study that captures the trend at this particular time hence it cannot be taken longer period in time without validation. This study helps in understanding the impact of brand storytelling of Manyavar's in consumers purchase intention and this study also helps the company to understand their customer's perception of their brand. This research provides managerial wherein marketing heads of the Manyavar can understand their target audience better with the help of such insights and therefore this study can be used to segment customers based on their narrative processing, brand attitude and self-brand connection. Independent variables utilized in this research are not directly available hence they are developed from literature review and discussion with brand managers. Data are collected from the respondent first hand, hence they represent the consumers.

SAM22 10	TRACING THE MIGHT AND SCOPE OF AVENUES OF SUSTAINABLE DEVELOPMENT IN THE CONTEMPORARY ERA

Throughout human history, people's economic, sociocultural, environmental, and political mentalities have been shifted by remarkable resilience followed by reinvention. Reinvention recognizes new possibilities from numerous adversities and transforms the global outlook, whereas resilience demonstrates society's strengths. When people realize that the only way to achieve economic equilibrium is to pursue sustainable development, stability and reinvention methods are created to support that goal. Every new financial crisis will exacerbate our miseries. Humans' tremendous conquering nature, on the other hand, fills the gap in the situation through strong communal thinking and provides us with a great conclusion with new, acceptable solutions. When problems from many perspectives are addressed, development occurs. The current issue is to create a healthy, competitive economy while also protecting the environment and promoting social inclusion. As a result, this paper presents a critical literature review of how resilience and reinvention transform the global outlook in the era of sustainable development and essential takeaways and new suggestions derived from real-life examples, focusing on the post-pandemic post-Russia-Ukraine war periods. The current review study is based on secondary data gathered from various government publications; publications of foreign governments or international bodies and their subsidiary organizations; research journals; books, magazines, and newspapers. The research will look into the role of resilience and reinvention in long-term development. Moreover, it proposes to examine the post-Covid era and the Russia-Ukraine conflict (need for strength and resistance). Thereby aiming to emphasize the importance of public policy. The probable outcomes of the study evaluate the relevance of sustainable development and public policy, the consequences of current policies, the necessity to reshape previous approaches, and new research proposals.

Keywords: Resilience, Reinvention, Sustainability in Development, Post covid, and public policy

SAM22 11	THE ANTECEDENTS AND CONSEQUENCES OF LANGUAGE ETHNOCENTRISM ON PURCHASE INTENTION

ABSTRACT
The study examines the relations among demographic antecedents, ethnic identity cultural openness and conservatism on language ethnocentrism and purchase intention. Study outlining how these variables do are related to their level of ethnocentrism and to what level do language ethnocentrism could affect their buying intentions toward fast food restaurants. Language ethnocentrism is the phenomenon in which a consumer thinks that his language has a superior value than other languages and this phenomenon is tested among consumers who frequently visit fast food restaurants to know whether these variables affect their purchase intention.
Until now, various studies were studies were done on ethnocentrism and its impact on purchase intention. Here in this study expands the domain of language ethnocentrism by investigating its impact on purchase intention. Out of the responds from the audience it is revealed that some ethnocentric factors influence the purchasing intention from restaurants. The age and conservatism nature among the consumers affect the language ethnocentrism and this in turn affect their visit on fast food restaurants. The research instrument was a questionnaire and the data were collected. Factor analysis and regression were used to test the research hypothesis. From that It was determined that language ethnocentric tendencies play a significant role in predicting purchase intentions towards from food from restaurants. Results indicate that language ethnocentric tendency positively related to intention to purchase of food from local restaurants.
Keywords: Ethnocentrism, Language ethnocentrism, Ethnic identity, Conservatism, Purchase intention

SAM22 12	A DESCRIPTIVE STUDY OF WORKING WOMEN IN MNC'S WHETHER INVESTING THEIR SAVINGS OR NOT

Abstract
"If we are going to see real development in the world, then our best investment is women" Desmond Tutu.
These words inspire everyone that women play a major role in the development of the world. Now, grabbing the attention towards our country's rapture for women upliftment in the society in the sense of political, social, economic, cultural and civil. In the modern era, Indian women are knocked up through different educational awareness programs which have resulted in the success stories in the various fields. Women want to earn, save and invest to see the financial growth of themselves. Earlier, women used to depend on their spouse or parents for getting money to make fruitful investments. But, now women are earning from their own efforts and hard work which yields a lot of money. This paper chews over the investment pattern of working women in MNC's in Bangalore. One of the studies reveals a report that about 25% of MNCs have women employees. This leads to a question of where these women are using their earned money. Whether the investment mindset among working women is rising accordingly or not. Women are still using traditional investments like gold and silver but she is diversified to modern investment patterns like shares, mutual funds, debentures etc. Indian women are awakening now, thanks to education, and are changing their role from house to office. But now the question arises whether Indian women are changing their roles from salaried individuals to strong investors. Saving is the regular habit that is embodied in women. With the passage of time, the current generation of women, who are equally employed, have knowledge about various investment avenues, such as shares, debentures, mutual funds, real estate and so on. Having abundant knowledge without action is wasteful. Thus, working women in India who are saving their earned money and just devaluing the money due to inflation can enjoy the fruitful returns from the strong investment by keeping a step ahead of taking risk and creating wealth.

Keywords: Investment pattern, Savings, Factor analysis, Risk

SAM22 12	ECONOMIC RESILIENCE

ABSTRACT
The paper analyses the economic implications of COVID-19 vis a vis resilience, reinvention and sustainability and offers a perspective about the future of the economy. The COVID-19 pandemic has forced the world into an unprecedented global slowdown leading to an economic pandemic and has also exposed the fragility of the businesses and the economy at large under crisis.
To thrive through and turn this adversity into an opportunity, businesses all around the globe are required to rapidly reimagine and reinvent resilient and robust systems with response diversity and functional redundancy to provide to the ever-changing consumer demands. Whilst on the other hand the impeding ecological issues require businesses to adapt sustainable processes.
In order to achieve both these economic and ecological developmental goals, businesses and economies should strike the perfect balance between nature and mankind and holistic approach should be implemented where reimagining business processes and developing resilient systems are in line with sustainability to ensure all round development and curate an inclusive green growth.

KEY WORDS:
1. Global slowdown
2. Ecological Issues
3. Fragility
4. Robust system
5. Resilient

VALEDICTORY

The valedictory began at 4:05 PM and ended by 5 PM sharp. The hosts for the valedictory were Aishwarya M and Shrutha Nadig. Anna Joy sang the invocation song, after which the hosts called the dignitaries to the dais. The chief guest of valedictory ceremony, Mr. Saurab Agarwal was attending online. Dr. Karthigai Prakasam, MCOM Coordinator, welcomed the gathering followed by the introduction of and address by the chief guest. Mariam, the student coordinator presented the report of Samshodhan 2022. A video showing the journey of the day was shown and participant's feedback in the form of a video was also displayed. Finally, the winners of Samshodhan 2022 was announced by Nelson D. Alex Raj, student coordinator, delivered the vote of thanks. The valedictory ceremony ended with the national anthem.

Guest Profile: - Dr. Agarwal is a graduate from Sri Rama College Of commerce, University of Delhi. He completed his Masters and also persued his PHD from Delhi university. And today he is the Principal of Indian institute finance of commerce and management Studies, Uttar Pradesh. Sir is the associate editor of Finance India -a quarterly journal of finance. He has 16 years of experience in teaching profession, .He has been an active participant in various organisations, member in National academic advisory council, bureau of Indian standards, Capital market committee- federation of Indian Chamber of commerce and Industry, Young business leader forum and many more.

Overall the conference was great and knowlegable

Very good experience.

I have presented a paper and get know that Samsodhan provides a participation certification only rather than presentation certificate. I consider it as not fair. We taken a lot of pain in preparing a research paper and plz do consider in providing presentation certificat

DR TOMY K KALLARAKAL
DEAN, SCHOOL OF COMMERCE, FINANCE AND ACCOUNTING

MINUTES OF THE MEETING

02.11.2021

The first official meeting of the Samshodhan Core team was held on 2nd November 2021 at 4:30 pm via hybrid mode. The meeting consisted of all the 10 seniors in attendance. Alex and Nelson led the meeting by briefing us on the work to be done and the tentative dates. It was decided that we would have to start working on the theme and all should look into different areas for the theme as it is not restricted to the commerce stream. Other important information was also given to us, such as:

1. Timeline for the one-day research needs to be planned and the date needs to be fixed, wherein it shouldn't clash with ours or any other colleges' exam dates/ conferences.
2. Posters and Brochures are the 1st work to begin on
3. As of now, the event is planned to be conducted in hybrid mode and we will be planning the same.
4. We will have an official meet on 9th November with the program coordinators, i.e. Naveen sir and Anuradha ma'am, and Karthigai sir for the finalization of the theme.

Further, work was segregated between the 10 members into 4 teams as follows:

	COMMITTEES	MEMBERS	WORK TO BE DONE
1.	*Tech* team	Aishwarya, Darshpreet, Gloria	Posters & Brochures
2.	*PR* team	Liya and Nelson	Colleges & contacting
3.	*Hospitality* team	Mariam and Shivani	Online and Offline (venue, dates, mementos, refreshments, pre-prep, Emcee)
4.	*Documentation* team	Alex, Ainish and Tejaswini	Documenting everything. Also, includes sub-division of the review team

We were also informed that the current tentative date would fall between the last week of February and the first week of March. It was decided that the next meet would be held soon to discuss the theme and in addition to researching the theme, we can also create Drive folders, excel sheets, and Rubrics for judging in advance to ease our future work. The meeting ended after clarifications, at 5:30 pm.

04.11.2021

The second official meet was held on 4th November 2021 at 3:10 pm in hybrid mode with 13 core team members in attendance, 9 seniors, and 4 new juniors. Liya was absent. Nelson began by introducing the event and providing further information about it. With the use of PPT, Alex briefed us about the 4 committees and also provided a To-do list for all 4 teams. It was decided that we need to work on the event timeline soon after the finalization of the theme. Once the PPT presentation ended, the 4 juniors chose their committees.

Rishabh	Documentation & Review team

Mahima	PR team
Sushmitha	Creative team
Sachin	Hospitality team

After this, the theme was discussed briefly with Alex putting the ideas into a word document and it was decided that the document will be open for editing till November 7th for the members as the 9th is the finalization date. Tentative deadlines were also discussed.

Theme & Event date	November 9th
Poster & Brochure	November 15th
Mail outreach	November 22nd

It was decided that the next meet would be held on Monday, 8th November as all the members would be attending offline. When no further suggestions or clarifications were asked, the meeting ended at 3:50 pm.

18.11.2021

All 13 members were in attendance.

The meeting was held in online mode at 18th of November at 6.30 p.m. where some core issues regarding the event have been discussed:

- Officially Samshodhan has now been changed from a conference to a seminar
- Change of Timeline of the event
  Abstract for Samshodhan- Feb 1st

  Manuscript submission for Samshodhan- 25th Feb

  8th of March(Tuesday) has been taken as the date for Samshodhan currently

- March 3rd and 4th,5th not available occupied by department of physics
- The updated presentation has been shared on the Whatsapp group.
- **Themes:** Resilience and Reinvention-Transforming global outlook theme only preferred **so new themes needed**
- **Deadlines:**

5 themes are needed to be decided from the whole team	20th
Emails will be shared by **PR** team	21st-
Creative Team-Update for postures and brochures needed	21st/22nd
Hospitality Team- Venues need to be booked K Audi and 119 base	

- Resource Person for the event will be shared on the group so to as to check about the person and an inquiry can be made

---

29.01.22

All were in attendance except for Gloria, who couldn't attend due to personal reasons. The meeting was held online as we are all attending online classes, and began at 5:30pm.

Updates from the last meet till now:

1. Payment link has been created, but is yet to receive approval. Since the conference is for PG students only, all PG students throughout India can apply to attend the conference.
2. Regarding the Guests, 2 have been confirmed and 2 more to go. One guest will be present the inauguration, another will be present for valedictory ceremony, and the remaining 2 will take up technical sessions.
3. Invites have been sent out, participants registration is pending. We haven't received a good response for the event, but there have been queries for the same.
4. The budget has been approved, and all the necessary permissions gotten.
5. We need to attract at least 20 to 30 participants to make the event a success. We have got only 4 valid responses as of now. Therefore, all 13 members could get 2 participants each from your previous institutions.
6. **Change** in conference date from 8th **to 22nd march** – The event will be held ONLINE COMPLETELY and there is no hybrid mode. Additionally, even though the event is online, we will be working from campus.

Duties from here on are as follows:

Team	**Duties**
Creative	• Picture, name and designation of Speaker has to be included in Brochure • The brochure content, i.e. the content and speaker details to be finalized • Badge design/ Conference ID to be designed
Documentation	• Create content and structure for LinkedIn and Instagram pages • No need to open account because we have not yet got approval for it • Planning ideas – polling, day to day, breakthrough etc.
PR	• Thorough scanning of resource person's resume to be done and filter only the important or significant details • They are our brand image/ambassadors, so this is important • ASK permission to use their photos and designations (legal consent) • Date and time of the event need to be clarified with them as well as the tentative schedule for the day
Hospitality	• There is a budget of Rs. 3000 each for guest and Rs. 2000 each for speaker. Put it to good use and use it completely. • Rs. 30,000 allocated for food and refreshments, which can be used on good food – scan for good hotels. Refreshments also to be considered • Take into account faculty members and others who might be present that day (about 150 people) • Momentos will be couried later to the guests, since they are attending online. But the pitching for the momento is pending (price, design). • Momento should be customized to Christ. Plan to order it late in March, so the order can be placed a week before the event. And we want the delivery on 22nd – not before or after – to avoid risks. • **By February 15th-** Give the budget and the pitch.

Some ideas for the members to consider:

1. Work-done-entrepreneurship theory – if others don't respond go ahead with your work.
2. By 31st everything should be ready – if luxury is given, utilize it – if no idea, ask for time.
3. If any health concerns (yours and family) are there, kindly inform any of the seniors in the team.
4. Take care of your health and also take time to complete your duties.
5. Keep the discussions of the meet within the team and confidential

Note: ONLY FOR PG STUDENTS – NO ONE ELSE

MCOM STUDENTS FROM THE CLASS – will participate from BECG

Also, Samshodhan is a RESEARCH CONFERENCE, and not a seminar.

17.02.2022

All the Members were present and the Meeting began at 4p.m and went on for 15 minutes

Updates:

- Nelson stepped down as Student Coordinator and was replaced by Mariam so now Alex and Mariam for Student Enquiry.
- Highlighted for volunteering for work.
- Update on Poster and Brochure approval.
- Subsequent meetings further on.
- It is a SEMINAR again, not conference.

—----------

11.03.2022

The meeting began at 4:15pm with the presence of all 13 members and Naveen Sir and Karthikgai Sir. Updates given by Alex as follows:

- 8 abstracts received so far
- Expecting 14 abstracts and 15 papers
- Documentation and creative working on social media promotion (Instagram and LinkedIn)
- Venue is fixed to KE auditorium.
- Itinerary is ready and waiting approval from IT department. Once approved it will be sent to the Chief guest
- 2 singers confirmed - Deepika and Anna
- Dates for submission of abstract and paper were revised and informed to the participants.

Points discussed at the meeting/ Work to be done:

- We need to insist participants on making payments first
- Approach colleges like Dayanand, Mt. Carmel, Jyothi Nivas
- Send a soft copy of the reminder mail to KP sir
- MC and Review volunteers to be collected next week. Preference for MC given to core team members
- For review, we can take faculties help

- Prepare memento for Judges and guest of honor
- Number of tracks to be decided
- External judges should be given something
- We will be using Zoom link for inauguration and Gmeet for technical sessions. The same will be projected in KE Auditorium
- The students will attend Inauguration, Valedictory, technical sessions
- Dress code for organizers can be formals or saree
- Dance not required
- Lunch and refreshments for judges and organisers to be finalised.

—----------

19.03.2022

The meeting began at 5:13pm with the presence of 9 members, with Naveen sir. The following members were absent:

1. Shivani
2. Sushmitha
3. Mahima
4. Rishabh

Points discussed in the meeting:

- We have decided on having 2 tracks for papers (7+7)
- We will ask the judges also to review the papers - blind review - before the event. It will sent to them as a PDF of word document
- 2 to 4 pm will be the track session for 7 papers each. The time given for presentation to the participants will be 10 + minutes. MCs must ensure that participants and judges adhere to time limit and do not go beyond it.
- 4 to 4:30 we will ask the MCom students to come to Auditorium for valedictory function. We want them settled in by 4:15pm.
- The valedictory guests on the daise will be Nithila ma'am, Anu ma'am, KP sir and Tomy sir.

Immediate work to be done:

- Link generation
- Creating the PDF
- Renaming the papers into slot numbers and Dividing them into the two tracks
- Identifying judges. Potential judges are: Uma ma'am, Raghunandan sir. Confirm Valarmathi ma'am's presence
- Give the slots to participants on Monday
- Track links will be sent from personal mail ID

DOCUMENTATION & REVIEW	• Report to be prepared of the event. Must include: Outcomes of the sessions, pictures (screenshots), feedback of participants, technical sessions • Review of papers with volunteers • Report to be submitted on the 23rd along with the minutes.
HOSPITALITY	• Itinerary and refreshments
CREATIVE	• After-event video must be prepared by 4:30pm. Keep the templates ready • PPT of winners should be ready. Collect participant's pictures for the same • Certificate design is pending approval

- We have to ask all participants to be in waiting room from the beginning of track sessions
- Monday morning, we'll send scoring sheets and the papers to the judges
- Do not let judges go beyond time limit for presentation and cross-questioning in trucks
- On Monday we will keep a meeting for all participants at 8pm
- 9 to 10 am will be hectic for us. We'll be free during technical sessions though. All the core team members will work on a rotational basis throughout the event.
- The role and responsibility distribution for the event and work to be done by each member on Monday will be intimated to us by Alex and Maria.
- For safety measure, we will keep two students as backup to handle all technical aspects of the event.
- The dress code for the core team has been decided as Formals
- Due to personal obligations, Shivani will be unable to be present for the event and therefore, from here on, Alvin Sabu will officially replace her.

21.03.2022

Minutes of the meeting:

Held at 4 PM with Karthigai sir, Satish sir (who is standing in for Naveen Sir) and Anuradha ma'am - Update to teachers from each separate department

PR update:

- Payment of one paper still left with no response

Hospitality update:

- AC not working so fans will be provided

- 8 o clock meeting time

Review update:

- Papers have been sent to judges
- Scoring sheets and links for tracks will be sent to the judges soon
- Report needed for the entire event - Photos needed
- Formals for students

Other updates:

- Changes made in speech: lighting of lamp, general instructions plus technical sessions
- Workflow will be given to the organising team so that there is no confusion

DAKSH 2022
Education Fair

SDG 4: Quality Education

CHRIST (Deemed to be University)
Bangalore Central Campus

SCHOOL OF COMMERCE, FINANCE & ACCOUNTANCY

DEPARTMENT OF COMMERCE

DAKSH 2022 EDUCATION FAIR DOCUMENTATION

DAKSH is an annual Education and Career Guidance Fair hosted by Student Council CHRIST (Deemed to be University). It focuses on the various opportunities available to pre-university, undergraduate, and postgraduate students. DAKSH is here to guide students to acquire knowledge and make informed choices regarding their higher education and careers.

Daksh event provides a platform for all the students to explore the various career options available to them at CHRIST (Deemed to be University). Each department across the campus set up stalls displaying the multiple programs their department has to offer. Various career dialogues by eminent personalities are conducted during this two-day event to give students an in-depth understanding of how multiple careers look in real life. Experts in multiple fields deliver these career dialogues.

DAKSH 2022 took place from 25 - 27 March 2022 in hybrid mode where online stalls were organized along with offline stalls. Through active participation in the stalls, dialogues with eminent speakers from various disciplines, and personalized career counseling sessions, and information regarding programmes like Tech for India , gandhi Fellowship and more , students learned about multiple vocations and fields of study they could pursue.

During the academic year 2018-19, the Student Council also developed an app called "Accord" to make Daksh registrations easier and more paperless, as well as to track the interests of various persons who would visit many stalls to gain a better knowledge of where students' interests lie. The Student Body also established a website for Daksh for the academic year 2021-22, which made it easier to navigate between information and allowed viewers to attend the speakers' online sessions.

The Department of Commerce was very successful this year, with approximately 200+ visitors at the stall both online and offline. The students and parents were made aware of the courses' contents thoroughly, including the subjects, the difference between the courses, the fests

organized by department, placement opportunities, the admission process etc. The DOC Student Council put up the stalls, displaying posters with details of the courses, showing true professionalism. This further attracted more visitors interested in joining the course and helped them clarify any doubts they had regarding the same. A few of the posters are as follows:

Type of Activity	*Activity Hour Event*
Title of the Activity	**Fastest Strategist First**
Date	**8th August, 2022 (Monday)**
Time	**2pm to 4pm**
Venue	**Room No. 412, 4th Floor, Block 4**
Collaboration/Sponsor (if any)	-

Speaker Details

Name	**Ms Shraddha Arvind** **Mr Vakamulla Yatindra** **Ms Bhavya Bhuwal**
Title/Position	**3 BCom SFH Students**
Organization	**CHRIST (Deemed to be University)**
Title of Presentation	**Caselet Scenarios**

Participants profile

Type of Participants	**3 BCom SFH Students**
No. of Participants	**61**

Synopsis of the Activity (Description)

Highlights of the Activity	1. It was a challenging and engaging activity that was held to make the class think on their feet. 2. Most groups were enthusiastic about rebuttals after the teams finished presenting their solutions.
Key Takeaways	1. This activity required the students to draw knowledge and learning from CMA related topics. 2. This activity also served the purpose of getting to know how the students applied their learning into real life scenarios.
Summary of the Activity	Case studies solution presentation - Students were divided into 16 groups of 4-5 members each. A unique case study relating to the corporate world was presented to each team, giving them a few minutes to come up with a justification/solution on the spot. Two judges were invited to mark each of the teams.
Follow-up Plan, if any	-

Rapporteur

Name of the Rapporteur	**Dheeksha Buddharaju**
Email and Contact No	buddharaju.dheeksha@bcomsf.christuniversity.in 9505044222

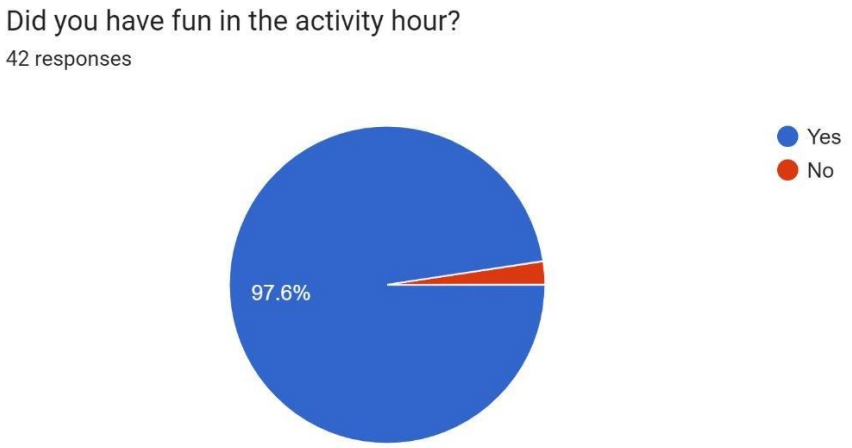
FASTEST STRATEGIST FIRST

The session commenced with the students being placed into different teams. This was done by playing a game of passing the parcel in order to get everyone active and ready for the session. 16 groups consisting of 4-5 members in each team were formed. Following this, each team was invited in front of the class and was presented a case study. The team was supposed to come up with a possible solution/justification for the presented case. Each case study was unique and had relevance to current affairs. It required the students to brainstorm quick solutions by applying their knowledge of costing methods. After each justification, the floor was open to rebuttals to the presentation or possible solutions that the other teams could think of for the given scenario. Two faculty members- Ms Kirti and Mr Sudheesh had come to judge the teams based on their presentation, solution, justification and also cross-questioning. The teams had actively rebutted and also provided creative reasonings to the given problem. The judges were greatly impressed by the level of enthusiasm of the class and the overall conduct of the session.

Photos of the Activity:

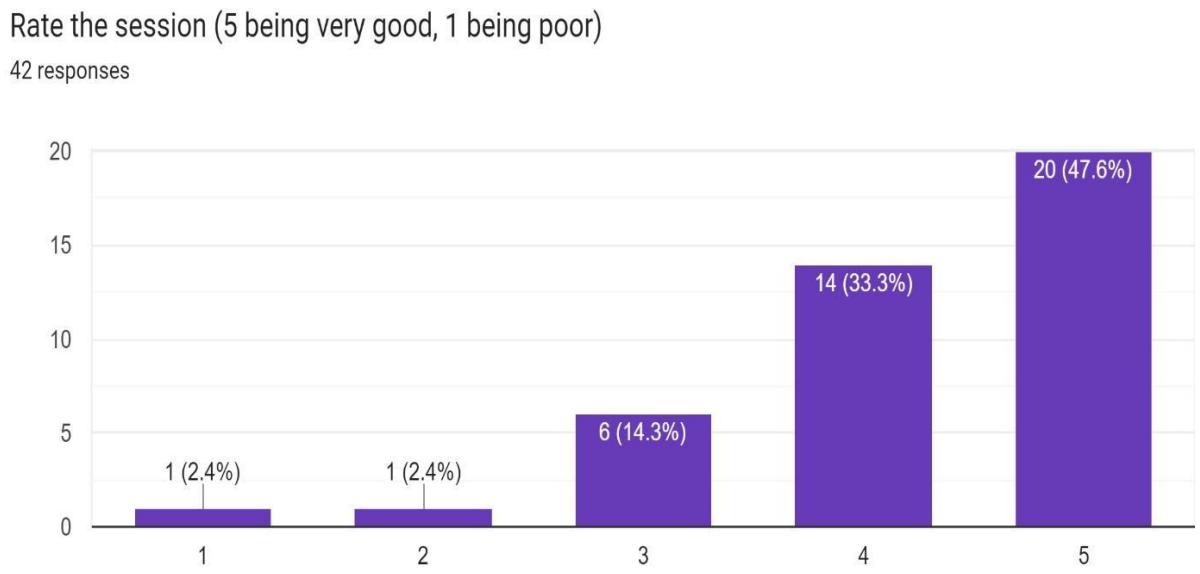
Feedback Data:

1)



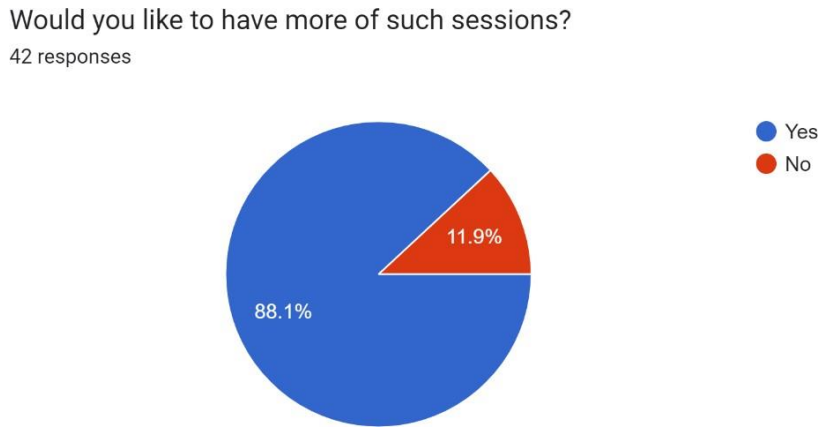
41 of 42 respondents had enjoyed the activity hour session.

2)



Out of 42 responses, 40 respondents have rated the session a 3 and above.

3)



88.1% of the respondents look forward to more of such sessions.

4) Any feedback or suggestions for the upcoming sessions.

- The session was good but there was a lack of time management as the procedure (1 question, 1 solution) was not consistent after each case study.
- Make the teams beforehand.
- Need more time.
- Well conducted session.

5) What kind of events would you like to see IMA student chapter come up with?

- More of fun activities because we already have classes so to have some class bonding, we need some fun activities than educational.
- Events based on finance, strategy and marketing.
- Simulations, interactions with qualified CMAs
- Related to financial instruments and markets.

The class seems to be really enjoying the sessions conducted so far and look forward to more challenging and simulating scenarios that diverse from routine learning. Through these activities they are able to apply what is taught in class and understand the necessity and reason behind learning it. More activities related to finance and mental workout would be organized.

- [x] No

7. Any feedback or suggestions for the upcoming sessions? *

Our team didn't get to ask a question because it was considered invalid (without consideration)

Also a very fun session which brushed up a lot of my CMA concepts

8. What kind of events would you like to see IMA student chapter come up with? *

Not CMA related

Feedback Form

* Required

1. Name

TARUN JAIN – 2110857

2. Did you have fun in the activity hour? *

Mark only one oval.

- [x] Yes
- [ ] No

Yes	○	○	○	✓	○	Could be more informative

6. Would you like to have more of such sessions? *

Mark only one oval.

- [x] Yes
- [ ] No

7. Any feedback or suggestions for the upcoming sessions? *

Give a little more time to prepare if its relevant to our subject so that we can prepare better and tackle those topics.

8. What kind of events would you like to see IMA student chapter come up with? *

As this was indoors as the last session, maybe some activity could be planned for outdoors with a good change.

Feedback Form

* Required

6. Would you like to have more of such sessions? *

Mark only one oval.

- [x] Yes
- [ ] No

7. Any feedback or suggestions for the upcoming sessions? *

For the feedback, ~~today~~ we would like the student chapter to come up with more sessions like this one - fun and informative. Also, more ice-breaking sessions are encouraged :)

What kind of events would you like to see IMA student chapter come up with? *

We would like to see the IMA student chapter come up with activities related to marketing as well, wherein a case study would be given and the participants would pitch their ideas, just like this session.

Feedback Form

* Required

1. Name

Namratha Prince -2110837

2. Did you have fun in the activity hour? *

Mark only one oval.

- [x] Yes
- [ ] No

CMA Masterclass

SDG 4: Quality Education

SCHOOL OF COMMERCE, FINANCE AND ACCOUNTANCY
DEPARTMENT OF COMMERCE
CHRIST (Deemed to be University), Bangalore

Activity Report

General Information

Type of Activity	*Masterclass*
Title of the Activity	**CMA Masterclass**
Date	**16th August, 2022 - 18th August, 2022**
Time	**9:00am-4:00pm, 11:00am-4:00pm, 10:00am-4:00pm**
Venue	**Room No. 205, 407, Block 4**
Collaboration/Sponsor (if any)	-

Speaker Details

Name	**Harshan Bellanthuda**
Title/Position	**External faculty member from Sri Lanka who regularly takes classes for Department of Professional Studies' programmes like CIMA and ACCA.**

Participants profile

Type of Participants	**3 & 5 BCom SFH Students**
No. of Participants	**73 (3 BCom SFH students) , 25 (5 BCom SFH students)**

Synopsis of the Activity (Description)

Highlights of the Activity	Calculating risk & return, different methods of discounted cash flow analysis Solving of MCQ questions similar to the pattern of CMA exam and discussion of answer derivation.
Key Takeaways	Financial Management and Investment Decisions through calculation using financial appraisal techniques. - Net present value - Discounted payback - Internal rate of return - Payback The superior methods for analysing appraisal based on risk appetite of companies. Tax payable and tax relief on assets and salvage value for determining sale value.
Summary of the Activity	Unit 1 and Unit 2 of the Financial Decision Making were covered. The following topics come under these units: Time value of money, Annuity, perpetuity, calculating return, CAPM Incremental cash flows, Income tax considerations, Discounted cash flow analysis (net present value, internal rate of return, comparison of NPV and IRR) ,Payback and discounted payback, Risk analysis in capital investment

CMA MASTERCLASS WITH HARSHAN BELLANTHUDA

Day 1- 16th August, 2022

The first Masterclass session began at 9:00 am with an address from Mr Biju Toms, the Director of the Department of Professional Studies.

Following this, Mr Harshan Bellanthuda began his class, starting with a discussion on Investment Appraisal and its methods. The methods of appraisal- Payback, Discounted Payback, Net Present Value (NPV) and Internal Rate of Return (IRR) were introduced. The students were also simultaneously made to solve sums using the Payback and Discounted Payback method, moving from simple to elaborate examples. Through these sums, the calculation of annual operating cash flow was also taught. The day concluded at 4:00 pm after discussing the solutions and a brief revision of the concepts covered.

Day 2- 17th August, 2022

The second session began at 11:00 am the next day. NPV determination, using annual operating cash flow, and the impact of tax and inflation on profits were discussed. The reason for NPV being the superior investment appraisal method was explained by comparing it to the other techniques and providing basic differences. Pros and cons of using each technique were also shown to help understand each method's practicality and usability. For the impact of tax, tax depreciation and tax shield was covered. Calculations relevant to tax impact were shown: tax payment on operating cash flow and the tax shield from depreciation.

The interdependence and derivation of tax shield from tax depreciation were shown through sums, and exceptional cases were discussed as well. Problems to calculate the effect of inflation were solved through examples, and a question bank regarding the same was shared with the class. The session concluded at 4:00 pm.

Day 3- 18th August,2022

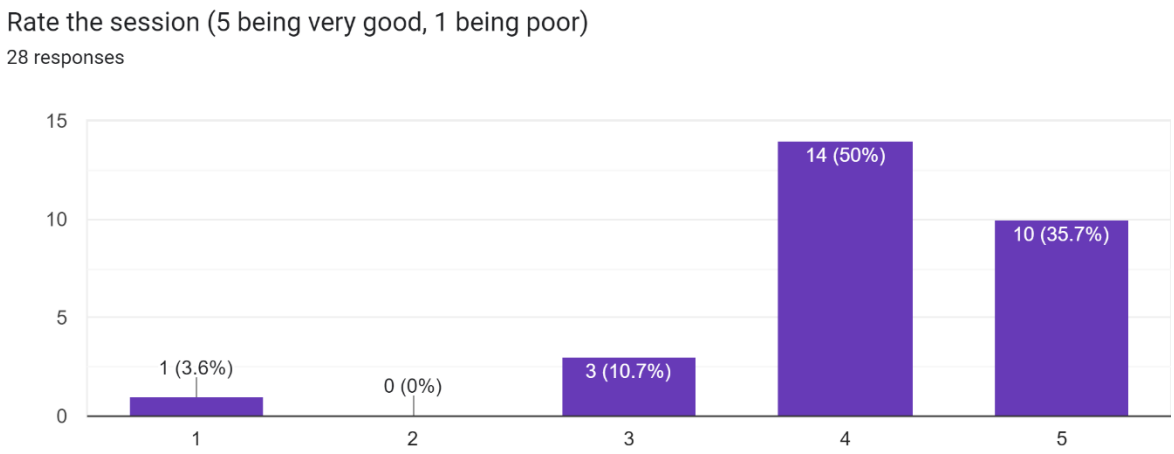
The final session began at 10:00 am with a revision of the previous days' lessons. The quantification of risk and uncertainty were explained, followed by solving sums on Internal Rate of Return (IRR). Non-conventional and conventional cash flows and their impacts on IRR were explained and depicted graphically. The asset replacement cycle was then covered, following which the NPV method of appraisal was used in sums to determine asset cycles. Equivalent Annual Cost (EAC) was then introduced. The students were taught how it provides a comparable measure to assess different assets over different lifespans, overcoming the limitation of NPV.

Capital Asset Pricing Model (CAPM) was also covered under which the systematic risk applicability representation by beta (β**)** was taught. The formula and derivation of beta were shown along with the calculation of the cost of equity capital, touching upon the Weighted Average Cost of Capital (WACC). The session ended at 4:00 pm.

Photos of the Activity

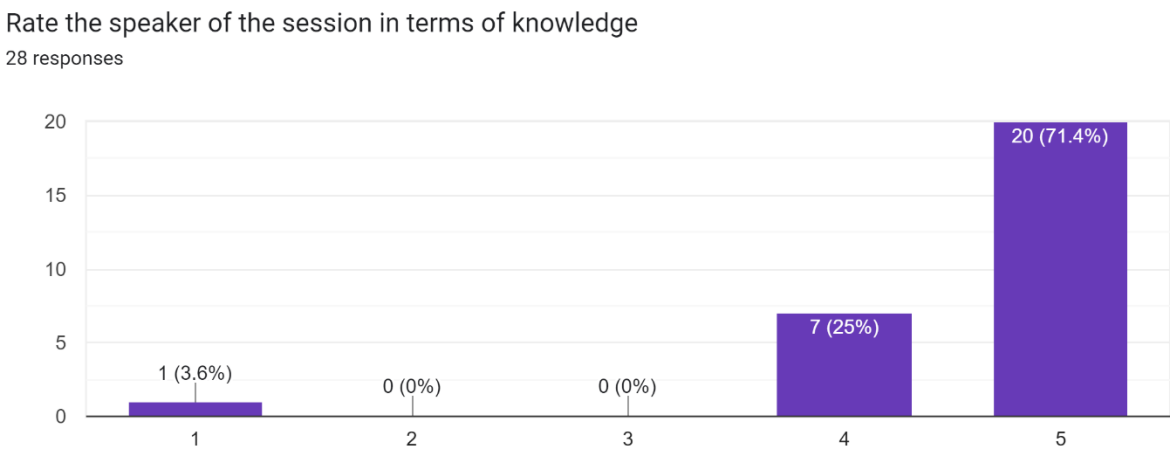
Feedback Data:

1)



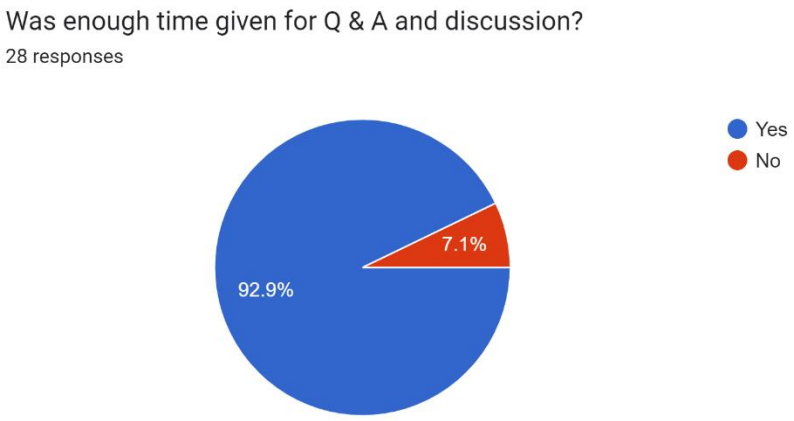
96.4% of the respondents found the session good.

2)



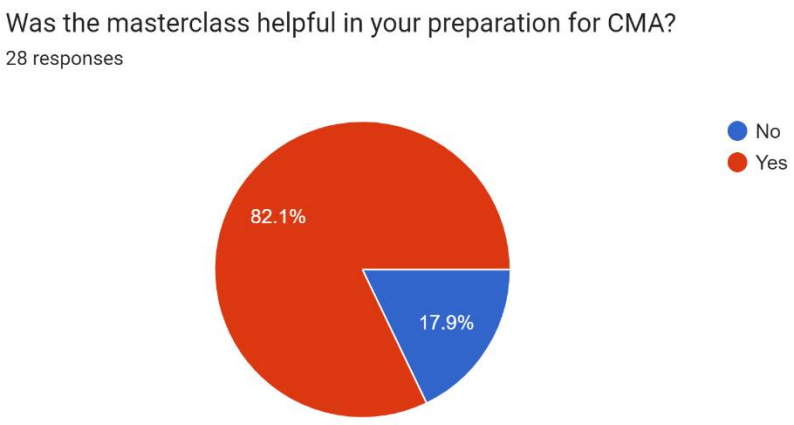
96.4% of the respondents rate the speaker a high number on the scale in terms of the knowledge he possesses.

3)



Most of the participants found that a good enough time was given for doubt clarification and q & a session.

4)



82.1% of the attendees found the masterclass helpful in terms of their CMA preparation.

5) Any feedback or suggestion for the upcoming sessions

- Would like to have session where the questions are solved using financial calculator.
- A few concepts covered seemed to be related to CIMA and not CMA or in the manner previously taught to us. However on the overall it was a wonderful session.

Given the numerous suggestions and requests for a session with financial calculators, a session entirely dedicated to using a financial calculator and solving sums with its help would be organised soon.

Organization	**MMJS Consulting**
Title of Presentation	**Internship and Placement Talk**

Participants profile

Type of Participants	**3 & 5 BCom SFH Students**
No. of Participants	**107**

Synopsis of the Activity (Description)

Highlights of the Activity	1. It was a highly interactive session between the 2nd and 3rd year students and the alumni of the BCom SFH course. 2. The event concluded with a Q&A session where several pertinent questions were answered.
Key Takeaways	1. Students obtained valuable information about how to prepare for internships which involves creating a CV, aptitude tests, interviews, etc. 2. They were also advised that 'learning' should be their main focus while applying for a particular job role/company in order to create value.
Summary of the Activity	Students from the first graduating batch of BCom SFH were invited to answer various questions related to internship opportunities and placements that the students pursuing the course might have, and speak about their personal experiences regarding the same.
Follow-up Plan, if any	**-**

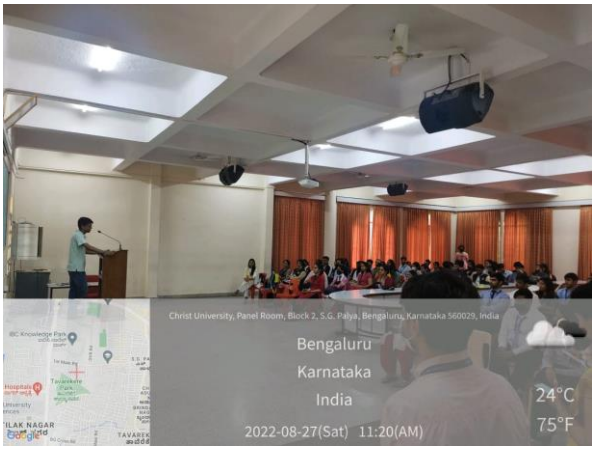
INTERNSHIP AND PLACEMENT TALK

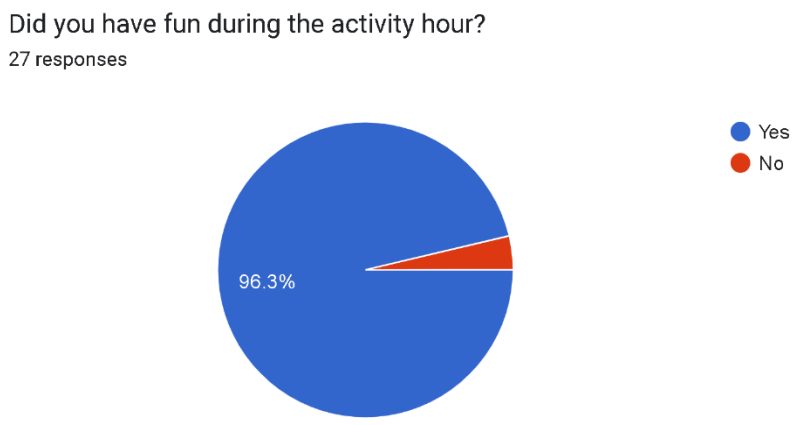
Students from the first graduating batch of BCom Strategic Finance Honours, Christ University – Gaurang Asopa, Shristi Chaudhary and Philip Koshy, were invited to address the students currently pursuing the course about their experience with internships and placements. Each speaker had a unique job profile and provided useful insights on life in the corporate world and how to upskill oneself to be job ready. After an elaborate discussion about the selection process, the alumni spoke about how to build a CV, what resources to use to prepare for aptitude tests, how to ideally answer common interview questions, the different types of job roles a CMA can get, and how much CMA is valued by companies. The interactive discussion was followed by a Q&A session, where second and third-year students had their queries addressed.

Photos of the Activity:



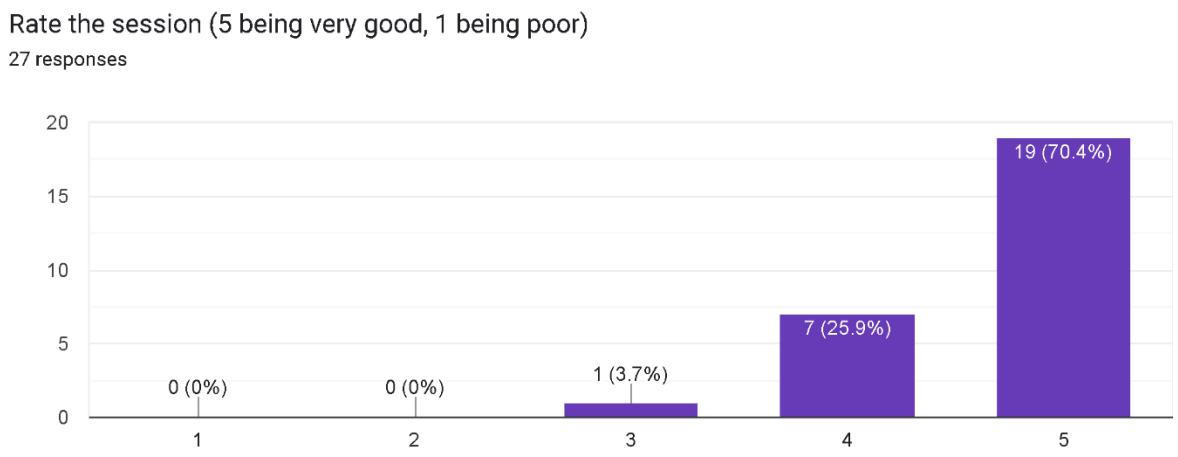
Feedback Data:

1)



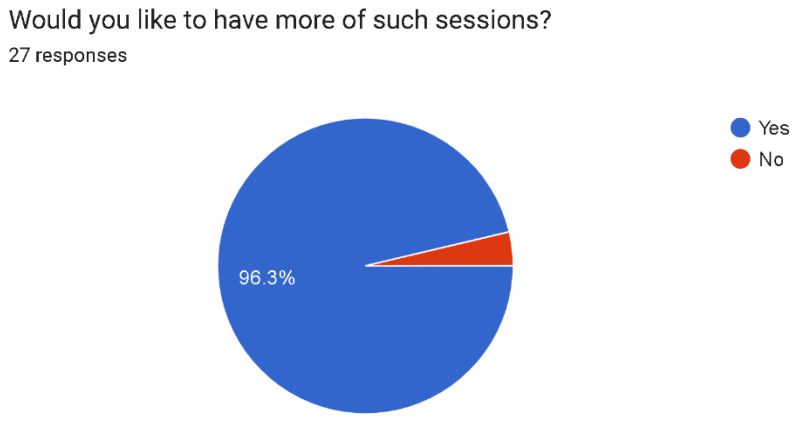
96.3% of the respondents enjoyed the session.

2)



95% of the respondents rated the session a 4 and above.

3)



96.3% of the respondents would like to have more of such sessions.

4) Any feedback or suggestions for upcoming sessions?

- More time for Q&A.
- Some knowledge-based sessions might be great.

5) What kind of events would you like to see the IMA Student Chapter come up with?

- Course on investment from opening demat accounts to investing in stocks/MFs.
- Industry expertise.
- More alumni meets.
- Insightful sessions in terms of college and life after college.

Poor	( )	( )	( )	(●)	( )	Very Good

6. Would you like to have more of such sessions? *

Mark only one oval.

- ( ) Yes
- (●) No

7. Any feedback or suggestions for upcoming sessions? *

The session was useful & informative but more of such sessions will be repetitive & monotonous.

8. What kind of events would you like to see the IMA Student Chapter come up with? *

Something in which everyone's involved.

- (✓) Yes
- ( ) No

7. Any feedback or suggestions for upcoming sessions? *

It is great to have people come in and provide us with a lot of knowledge, but it would be great to have a session where each and every student would get to participate. Since it would mean growth of ~~another~~ everyone.

8. What kind of events would you like to see the IMA Student Chapter come up with? *

As students we are very curious about the life after college. It would be great to have simulations of interview, stress interviews and also simulations of work-life

Activity Report

General Information

Type of Activity	*Mentoring Session*
Title of the Event	**Peer Mentoring**
Date	**27th August, 2022 (Saturday)**
Time	**12 PM - 1 PM**
Venue	**Panel Room, 2nd Floor, Block 2**

Speaker Details

Title	**Senior Chapter Peer Mentors**
Organization	**CHRIST (Deemed to be University)**

Participants profile

Type of Participants	**Senior (Batch of 2021) and Final Year (Batch of 2020) Chapter Members**
No. of Participants	**107**

Synopsis of the Event

Highlights of the Event	1. Interaction among senior and junior chapter members 2. Insight into US CMA preparation and exam 3. Coming up with a timeline for preparation
Key Takeaways	1. Exam style of US CMA 2. Head start for preparation for the exam 3. Tips and tricks from senior chapter mentors who cleared the exams 4. Rough planning outline for preparation
Summary of the Event	The activity hour was all about Senior chapter mentors interacting with Junior SF mentees. The mentors and mentees interacted for the first time and discussed how they would go about the entire peer mentoring program and how to make the best out of it.

Rapporteur

Name of the Rapporteur	**Ms Dheeksha Buddharaju**
Email and Contact No	buddharaju.dheeksha@bcomsf.christuniversity.in 9505044222

PEER MENTORING

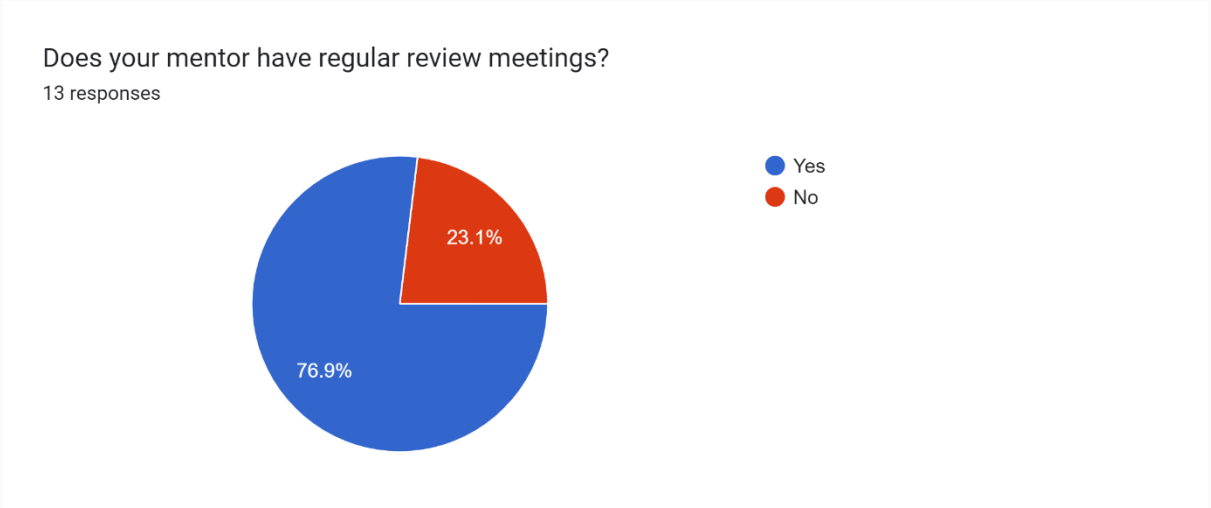
A group of five-six mentees (second year chapter members) were allotted to the mentors (final year chapter members) for the peer mentoring program based on the mentees' preference and availability of the mentors. The mentees and mentors had come together for the first time since allotment. The mentors went on to talk about their experience with the exam preparation and giving the exam. They discussed with the mentees about their objectives, goals and ideas for the test and its preparation. Tips and tricks that made the whole process easy were told. A plan for weekly and monthly progress checks with the mentees was made by all the mentors and their respective groups. All queries regarding the exam were cleared and provided a clear head start for test prep to all the mentees taking up the exam.

The peer mentoring meetings are conducted every month in order to ensure that the chapter members are ready to give the US CMA with full confidence. Regular feedbacks are taken from the mentee chapter members regarding the amount of help they receive from the mentor chapter members.

Photos of the event:

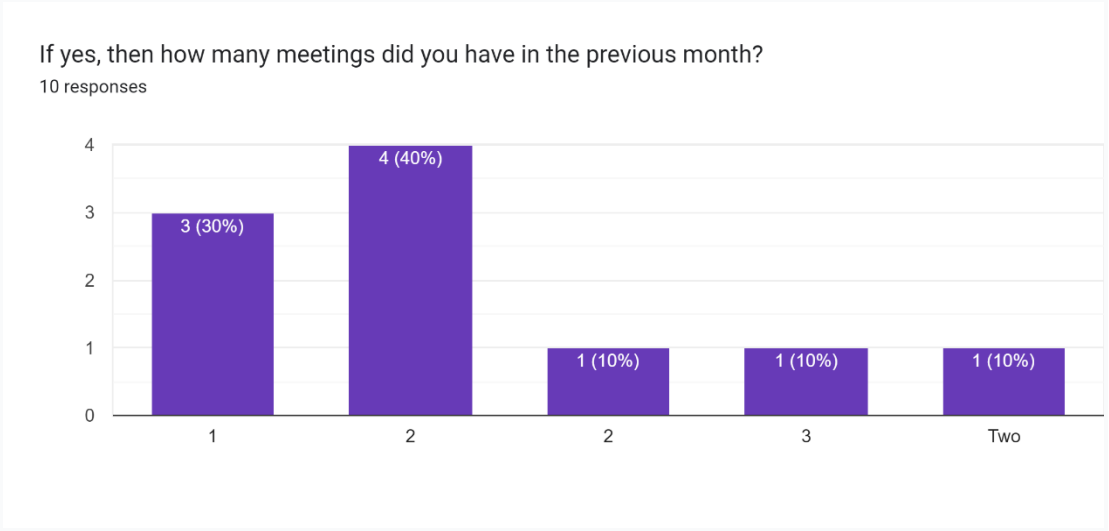
Feedback Data

1)



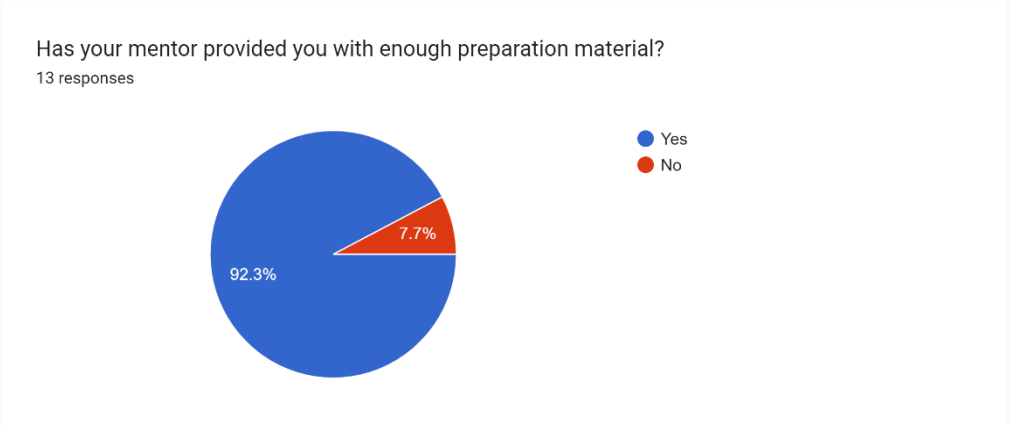
Most of the mentors have been conducting regular meetings to review their mentees' progress.

2)



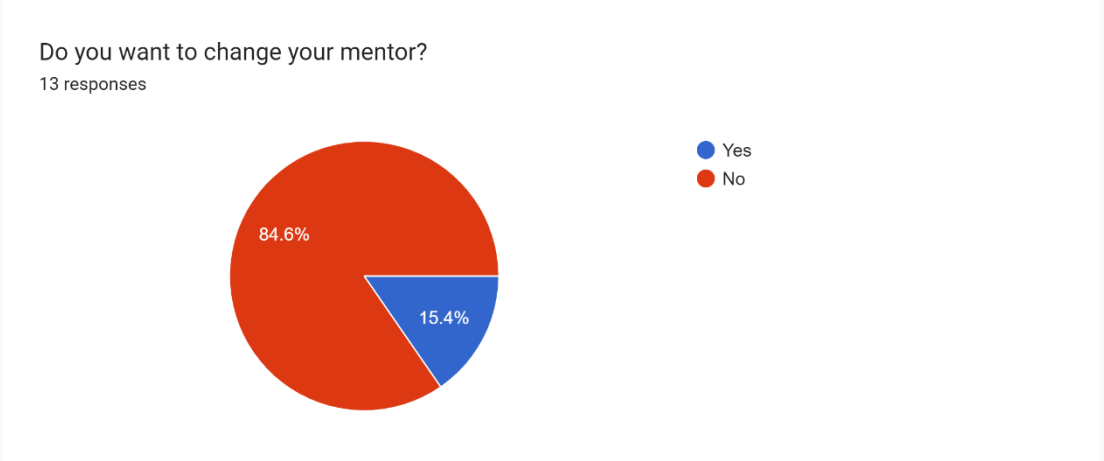
In a month, most of the teams meet at least twice to review their work.

3)



Nearly all the mentors have provided their mentees with preparation material to help.

4)



A couple of the mentees expressed their want to change their mentors.

5) If yes, then give a suitable reason.

- I would like my mentor to motivate me to study as I am someone who requires the extra push.

- I need someone who is less strict but also checks up.

6) Any suggestions

- Personally, to give reasonable deadlines and not go with a mindset of aim for the stars, at least you'll get to the moon.
- Maybe doing a couple of review meetings once in a week would be great, wherein we get more insights from the mentor so as to help us get better prepared, for the upcoming CMA subjects for mid sems, as well as post mid semester prep for the Jan-Feb CMA part 1 exam.

More checking up with the mentors would be done as well so as to ensure that they are fulfilling their respective duties and to ensure that the mentees are getting the best of the program they signed up for.

No. of Participants	800 (Approximately)

Synopsis of the Activity (Description)

Highlights of the Activity	1. The Prarambh boot camp was organized and carried out by the second-year event subheads, who would also organize Prarambh, an intra-departmental fest for the first-years. 2. The boot camp was conducted on 1st September 2022 in the Main Audi of Bangalore Central Campus. During the boot camp, the first-year students were introduced to the conceptof business festing in general, and as to what CUCA has in store for them throughout the academic year. The first years

	from the Department were introduced to the specific events under CUCA so that they can choose their respective fields of interest during the Prarambh Business fest. 3. The event also saw a melodious music performance by Team Sangeeth1 of the Department of Commerce. 4. Each event's boot camp was mandatory to be attended by the first-year students, and provided the cohort with event-specific knowledge to help them make an informed decision regarding participation. 5. Sub-heads of every event made use of attractive presentations to present their content to the audience effectively and interestingly. 6. During the Bootcamp, the speakers representing different events discussed real-life case studies so that the first years are well equipped to give their best in the upcoming Prarambh fest. 7. At the end of the boot camp, a Q&A session was held to clear the doubts of the first years and reassure them of the opportunities available to them through Prarambh.
Key Takeaways	1. The boot camp resulted in the first-year students learning about the culture and elements of business festing, as well as gave them an idea of what each event entailed. 2. The first years were successfully struck by the realisation that competing in a business fest like Prarambh would provide them with exposure to real life corporate scenarios while pursuing their graduation. 3. The target audience of the boot camp, i.e., the first years received due enlightenment in terms of realising that Prarambh not only provides them with real life work exposures, but would also help them sharpen their interpersonal skills. 4. The absence of any mishaps that came in view after evaluating the results received from the feedback form, which was asked to be filled by the students, highlighted the

	The success of the boot camp held for the benefit of first-yearstudents.
Summary of the Activity	The Sanskrit word '*Prarambh*' means to begin or start. As the first years embark on their odyssey at Christ, this Intra-departmental business fest provides them with a perfect ambiance to hustle. The Prarambh boot camp has been an integral part of the CUCA curriculum because it introduces newly admitted first-year students to the diverse range of events that are held at the Prarambh business fest. The Boot camp for the various events under CUCA was conducted on September 1, 2022, and it oriented the students as to how the rounds and deliverables would be for a typical business fest. The Bootcamp session for Prarambh 2022 started off with the welcome address by the emcees of the event. Thiswas followed by event specific introduction of all the events underCUCA. The Bootcamp also saw a melodious performance by Team Taal of the Department of Commerce. **Public Relations** The Bootcamp for public relations was presented by the head of the event Chris Nelson and Aarushi Rai. It started with a small introduction to Public Relations as an event and was followed by the sub-heads, emphasizing on syncing spontaneity to embrace the twists and deliver a reasonable solution. Next up, a detailed explanation of the rounds and deliverables was provided to the participants. The sub-heads took up numerous case studies to give the participants the clarity required while pitching their stance. They also offered insights that could help participants outshine, leaving a lasting impression. An interactive session followed this, and the presenters convinced the participants as to why they should opt for Public Relations as an event.

	Marketing: The session on Marketing was organized by the event heads Nikita Sasi and Pancham Agarwal. Initially, the participants were introduced to the concept of marketing. They were given a detailed orientation on the importance of marketing, especially in the current market scenario, which saw digital shopping coming to prominence. The participants were also introduced to various marketing tactics, including guerilla marketing, ambush marketing and stealth marketing. Attendees were given a number of examples of different marketing techniques that were used by big companies, which had helped them gain popularity and increase their sales. The session also had an interactive session whereby the participants were allowed to know more about the marketing. **Finance:** The bootcamp session for finance was organized by the event heads Jatin Agarwal and Ishan Lath. The session began by highlighting the need for financial literacy and why participants should opt for Finance as an event. This was followed by giving participants certain hypothetical situations to provide them an idea of what to expect from the event. The bootcamp had several hypothetical case studies explained and this helped the participants to get ana overall idea as to various problems that a finance professional would face in a corporate workplace. **Human Resource** The bootcamp session for Human Resource was organized by the event heads Rachna Kabra and Malavika Subash. The participants were provided with an overview of the event alongside the sub-heads highlighting the need for a conducive workplace culture during the initial part of the presentation. This was followed by a detailed breakdown of the HR Financials and non-monetary benefits at a workplace. The workshop also stressed the necessity

	of being innovative and practical in today's corporate environment and encouraged participants to join the event so that they, too, could acquire these abilities before embarking on a corporate odyssey. **Business Quiz** The bootcamp session for Business Quiz was conducted by event heads, Sauravjeet Singh, Mehak L Bagrecha and Hriday Shah. The session started off by the speakers orienting the students as to what business quiz as an event offered the participants. This was followed by the subheads of the event conducting a mock quiz for the attendees to pitch in. This helped the attendees to develop an overall perspective as to how the rounds would be for a Business Quiz event. The session concluded with a Q and A session for the participants whereby the doubts put forward by the attendees were cleared. **Best Manager** The Best Manager boot camp was presented by event heads Rushil Sahni and Sahil Jain. It started by introducing Best Manager as an event and how it represents all CUCA events in a single blend. Thereafter, the presenters explained what skills and practices are essential if one wants to become The Best Manager Prarambh 2021 and why it is important to be the most thoughtful person in the room, followed by steps demonstrating all-around excellence in the Best Manager round. After this, the sub-heads presented some sample rounds to give the audience a better idea of what they are expected to do while solving a Best Manager round and how unique and challenging the rounds can be. The presenters then discussed the unique selling point of Best Manager- the ‘Mentor-Mentee System’ and ‘The Best Manager Title’ and discussed some tips and tricks to ace the Best Manager round. It was followed by an interactive session between the

	audience and the presenters, whereby the doubts put forward by the attendees were cleared. **Prarambh Q&A** The Prarambh Question and Answer session involved the doubt-clearing session of the attendees related to the different events and Prarambh as a fest.
Follow-up Plan, if any	A Google form was circulated at the end of boot camp to invite feedback from the first years. Thereafter, the sub-heads analyzed the responses to churn out insights in order to understand the success of the boot camp and make any necessary upgrades to the same.

Brief Summary

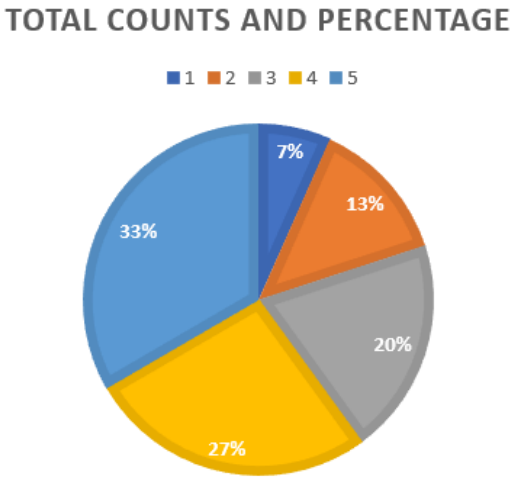
The Prarambh Boot Camp 2022 was organized on September 1, 2022, in the Main Auditorium of Bangalore Central Campus. The boot camp started off with a welcome address by the emcees for the event. The Bootcamp saw different events under CUCA orienting the students as to what to expect from each of these events. The sessions for each event were conducted by the respective heads along with the help of subheads. The Bootcamp also saw a melodious music performance by Team Taal of the Department of Commerce. The event also had a separate Q andA session for the attendees to put forward their questions. The event concluded with a vote ofthanks whereby the emcees thanked each of the attendees for their active participation in the session.

Pictures and Recordings:

Feedback and Analysis

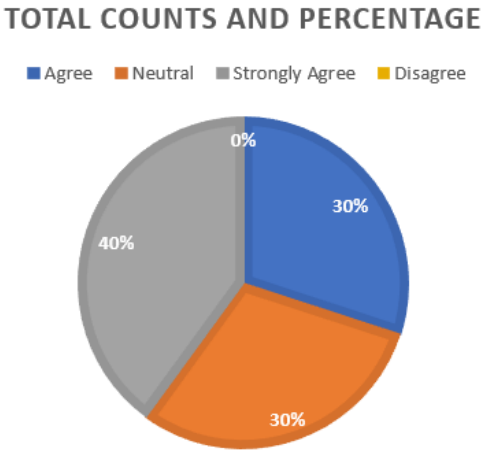
- **Organizers' Feedback**

Do you think the purpose of the orientation has been met and it was helpful for the students?



40% of the respondents *agreed*, and 30% of the respondents has a *neutral* response.

How well do you rate this year's boot camp?



The event was viewed *positively* but the organizers. Most of them chose 4 or 5 (27% chose 4 and 33% chose 5), on the same increasing scale, to represent their rating for the event

Written Feedback/ suggestions

The organizers were very enthusiastic in orienting the first-year students about the most vibrant fest of the department of commerce – PRARAMBH.

It was quoted as

"*A successful event of orienting and motivating our first years. Everything went as planned. It was one of the most interactive Q&A sessions we have had. The energy of the Bootcamp really set the tone for PRARAMBH*"

The common feedback given was that the event was well conducted and highly informative!

But many of the organizers believed that the timetable of the event could have been given in advance, in order to prepare better and present in a more systematic manner.

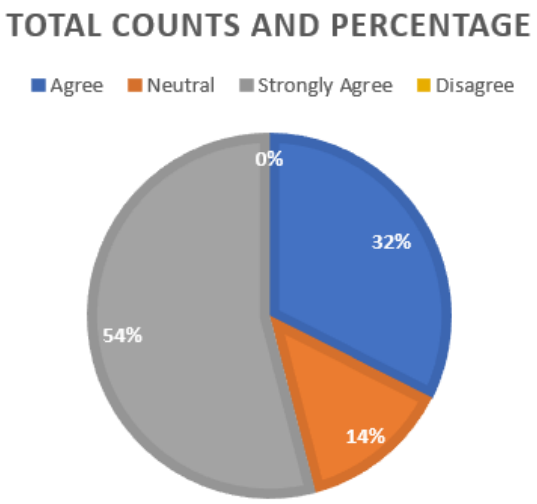
Another suggestion was to conduct an informal session between them to break the ice and get more comfortable with fests

Response to feedback

In order to inculcate informal interaction among the organizers and participants, workshops will be planned with proper interactive sessions.

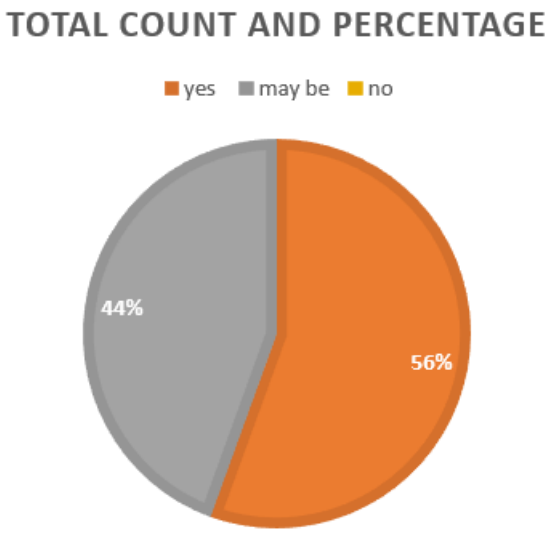
- **Participants' feedback**

Did the Orientation help you understand CUCA better?



32% of the respondents *agreed*, and 54% of the respondents *strongly agreed.*

Will you be participating in PRARAMBH?



The participants gave really *positive* feedback. 56% of them surely want to participate, with 44% of them yet to decide.

Written feedback/ Suggestions

The participants who attended the session truly enjoyed the orientation and understood the department of commerce and CUCA much better! They appreciated the proper structure and planning of the workshops.

Inauguration Ceremony of UDAAN

Synopsis of the Activity (Description)

Highlights of the Activity	● UDAAN is the entrepreneurship cell of the Department of Commerce, CHRIST (Deemed to be university). The cell is responsible for promoting entrepreneurship and innovation and encouraging our department's budding student-entrepreneurs. ● The inauguration ceremony was held on the 6th of September 2022 at 10 A.M in the main auditorium of the university. ● The ceremony was conducted in collaboration with SUYUKTI. The club put forth an event educating the audience about the rise of clickbait, cancelculture, and the rhetoric in media from experts in the industry. ● The event was attended by all the students of the Department of Commerce. Faculty members, program & academic coordinators, guest speakers for both UDAAN AND SUYUKTI, and Dr. Karthigai Prakasam, the Head of the Department of Commerce, had also joined in this event. ● The inauguration began with the lighting of the lamp by the guest speakers and faculty members, accompanied by a prayer song from Team Sangeeth. ● Dr. Deep Jyoti Gurung, faculty coordinator of UDAAN, welcomed the audience and encouraged students to come forward with new business ideas. He presented a challenge to the student-entrepreneurs to establish their own kingdom with their talent, and come up with ideas that break the norm. He emphasized that UDAAN and the Department of Commerce willcontinue supporting all its entrepreneurs and welcome their ideas with open arms. ● The core team members of UDAAN, Mehak and Pranav gave the audienceinsights into the working of

	the divisions of the club, talking about Unbox,Udbhav, and Initio. ● The guest speakers for the event were the co - founders of Moshi Moshi, a prominent advertising agency based in Bangalore. Their insights proved extremely useful to the students and allowed them to go beyond classroomlearning. ● Dr. Prakash M, the co-faculty coordinator for UDAAN facilitated the co- founders of Moshi-Moshi with a memento. ● The Chief of Staff and the Director of the Operations division briefed the first-year students about the recruitment drive. ● Overall, the inaugural ceremony of UDAAN for the academic year 2022-2023 was a grand success. The ceremony managed to inspire all the students to join the club and follow their paths as entrepreneurs.
Key Takeaways	● The inauguration of UDAAN gave the students an idea of the working ofthe entrepreneurship cell. ● The interactive session with the two guest speakers Mr. Ajay Bothra and Mr. Rishav Dubey was the highlight of the day. The audience was extremely interested in listening to them, as their aura was captivating. Theco-founders of Moshi-Moshi provided the audience with several useful insights, one of which was “be that fool, the fool did not know it was impossible, and that's why he did it”. They also said that every failure and every hardship life throw at you polishes you into becoming a better person. ● Another point they stressed was ‘perception mapping’.

	They elaborated on this by sharing their own life experiences. Networking and talking to people from different sections of the society and parts of the country is what made them understand the market life of each product or idea. ● The co-founders also believed in taking huge risks. One could only take huge risks if one had a growth mindset. They also validated their points by sharing with us their future goals for Moshi Moshi. From expanding and growing internationally to creating the coolest office spaces in India, one could see the passion, dedication, and undying entrepreneurship spirit inboth Mr. Ajay Bothra and Mr. Rishav Dubey. ● Overall, the inauguration ceremony inspired many young minds into pursuing entrepreneurship. It managed to leave behind a crowd that was highly motivated and willing to explore different perspectives to pursue and fail.
Summary of the Activity	The inauguration ceremony organized by UDAAN on 6th September 2022 at 10 A.M in the Main Auditorium of CHRIST Deemed to be University was a success. The ceremony was emceed by Avanthika Prasad and Lakshita Shrimali who engaged nearly 550 students of the Department of Commerce of CHRIST (Deemed to be University). Starting with the lighting of the lamp as a symbol of positivity and enlightenment, the audience was welcomed and addressed by Dr. Deep Jyoti Gurung. The crowd was also addressed by two of the members of Udaan- Mehak and Pranav. The inauguration ceremony was attended by Mr Rishav Dubey and MrAjay Bothra, the co-founders of a flourishing startup- Moshi Moshi, and was a great source of motivation and

	enthusiasm for the students. The highlight of the event was the speech given by the chief guests as both of them were alumni of CHRIST University who started their business while they were still in college. It was a huge source of inspiration for the students, to listen to the stories of people who take risks in the world and put forth their ideas. Mr. Rishav Dubey was an integral part of starting UDAAN, the entrepreneurship cell and hence, having him as a guest speaker to see this club starting yet another year, was a huge boost and motivation for the team. The ceremony was successfully concluded with a question-and-answer session, which left the crowd with a feeling of harmony, joy, and zeal to do something new. After the guest speakers were felicitated by Dr. Prakash M, a brief about the recruitment drive for the first years was given by the Chief of Staff and Director ofOperations. All students were encouraged to apply, regardless of their experience in entrepreneurship. The event finally concluded with a dance performance by team Taal.
Follow-up Plan, if any	A feedback form was circulated to attendees soon after the event to evaluate the success of the event.

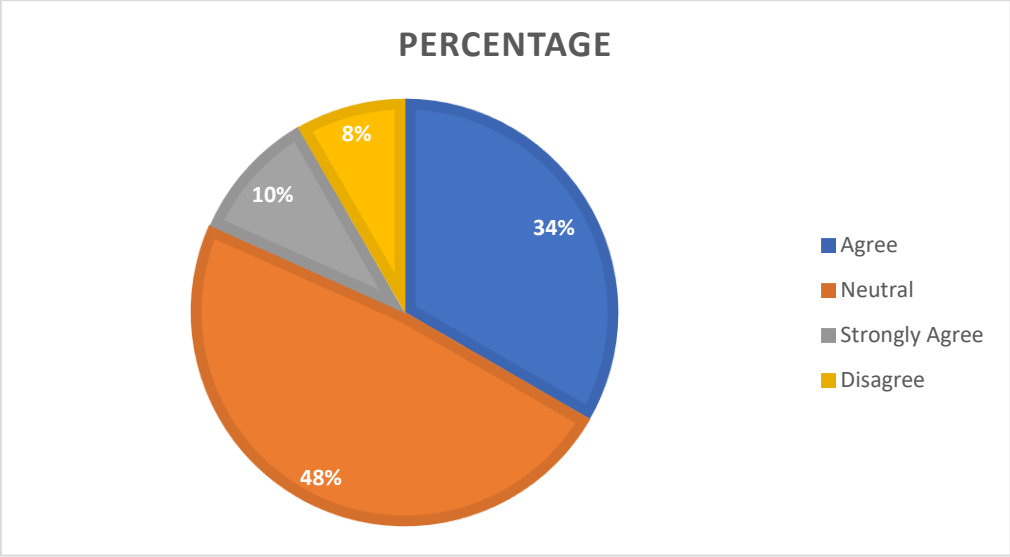
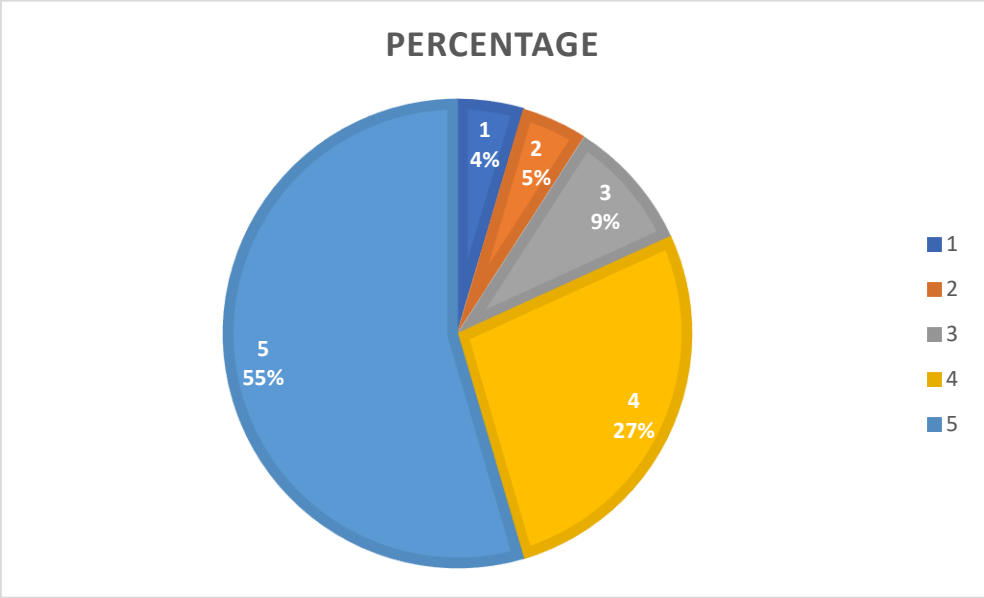
FEEDBACK DATA AND ANALYSIS:

Do you consider the event a success?



34% of the respondents *agreed*, and 48% of the respondents had a *neutral* response.

How well do you rate the organizing committee of the event?



The event conducted was viewed positively by the participants. Most of the participants chose 4 or 5 (27% chose 4 and 55% chose 5), on the same increasing scale, to represent their satisfaction in the conduct of the event.

Written feedback/ suggestions:

The attendees who were present for the event viewed it positively. They appreciated the proper planning and effort that has gone behind organizing the event. Some of the responses received were:

"To be honest, the event was well planned and executed. I did not have much idea as to what Udaan does. However, this event helped me understand the work that Udaan puts in to help the entrepreneurial minds of the university"

The event in general was a success. However, some participants had queries regarding how to join the association.

Response to feedback:

The responses received by the attendees will be taken into consideration by the organizing committee. This will help them conduct future events much more effectively.

Brief Summary

The inauguration ceremony of UDAAN, the Entrepreneurship Cell of the Department of Commerce was held on 6th September, 2022 at 10 a.m., for all the BCom and BCom Morningstudents. This event gave the club a fresh start, and was used as a platform to encourage the mindset of entrepreneurship and innovation. This year, the club aims to encourage practical learning in entrepreneurship. As such, two guest speakers were invited to share their experiences in the advertising and digital marketing space. Mr. Rishav Dubey and Mr. Ajay Bothra (the cofoundersof Moshi Moshi) who themselves are alumni of CHRIST Deemed to be University, conducted aninteractive session, talking about their experience with entrepreneurship right from college.

After the guest speakers were felicitated by Dr. Prakash M., Faculty Coordinator, a brief aboutthe recruitment drive for the first years was given by the Chief of Staff and Director of Operations. All students were encouraged to apply, regardless of their experience in entrepreneurship. The event finally concluded with a dance performance by team Taal.

Synopsis of the Activity

Highlights of the Activity	• Click Bait, Cancel Culture and The Rhetoric – A panel discussion was conducted by Suyukti, the oratory club of Department of Commerce. The event was conducted on October 6th at Bangalore Central Campus.

	• The event started off with an energetic dance performance by Team Taal of the cultural club of the department. • This was followed by the main discussion. The event was attended by two eminent personalities from the media world: Tresa Sherin Morera and Nivedita Niranjan Kumar. The discussion lasted for more than a hour and was concluded by a live interaction session with the viewers. • The discussion saw various issues put to the limelight including the cancel culture, the impact of clickbait, government interference in media reporting etc. • The event in general was a success. The participants were actively involved in the proceeding and were keen to put forward their queries.
Key Takeaways	• Click Bait, Cancel Culture and The Rhetoric - A panel discussion, helped the participants of the event to get some ideas as to various relevant topics in today's media world. • The event discussed some key topics related to media such as: cancel culture, the impact of clickbait, government interference in media reporting etc. This helped the audience to understand the importance of relying on multiple information channels. • Since most of the news reported by media platforms today, provide a skewed opinion to the viewer, the panellists talked about the importance of having a neutral perspective while gaining information. • The attendees of the event were also provided with insights as to how they can take up journalism as a profession. The panellists also talked about the future scope of the same.

	• The participants were also informed about the various challenges that a media professional could face while performing their role. • The event in general helped the participants to gain knowledge in the field of media and mass communication.

Synopsis of the Activity (Description)

Highlights of the Activity	• Prarambh, the intra-departmental business fest was organized by the Department of Commerce solely for the first-year students. Prarambh 2022, was a successful event that took place between 6th- 15th September 2022. • Prarambh 2022, was conducted in the Main Auditorium and proposed a wide variety of six events including Public Relations, Human Resource, Marketing, Finance, Best Manager, and Business Quiz.Before the beginning of the fest Prarambh, a Bootcamp was organized for the students so that they could understand the different events organized this year and the learning outcomesfrom those events. • All the events of Prarambh aimed to give the first-year students an experience of the real and complex business world through various challenging rounds, that required the students to think creatively and come up with solutions for the problems. • All the rounds of all the six events were carefully designed and were well-structured in such a way that participants could gain a lot of knowledge and understand the various real-life business scenarios. The rounds were in the form of report submission rounds, presentation rounds, and on-spot rounds among various others which strived to hone corporate skills among the participants. • Prarambh was the first business fest conducted in the academic year and so, it gave students an idea about fests and also gave them a flavor of the different events, so that students could discover their interests.

	• The valedictory ceremony took place on September 20, 2022, after all the rounds of various events were done. The Chief Guest of the ceremony, Mr. Sunil Nataraj (Director of Broadcom Limited) provided various useful insights from his life experiences. • Overall, Prarambh 2022 was an enriching business fest, which had a lot of challenging, yet exciting events that imparted knowledge and experience to the first years. The second and third-year students designed the rounds which helps the students gain real-life perspectives and come up with creative strategies and solutions.

Key Takeaways	• The events organized under Prarambh 2022 served as an excellent platform for first-year students to showcase their talents and skills in various fields. • Prarambh, being the first business fest conducted in the academic year gave the students an idea about fests and also gave them a flavor of the different events, so that the students could discover their interests. • The events of Prarambh gave the students a chance to come out of their comfort zones and experience corporate life. It enabled them to face stressful situations, handle pressure, work on different dimensions of the new age world and be the ultimate. • The event gave the participants exposure to what they would experience in real-life circumstances. It served as a platform for them to accustom themselves to the pressure and time constraints of the corporate world and get a glimpse of how the business functions in such situations. • The rounds of events were majorly submission-based rounds, presentation rounds, and on-spot rounds which tested various skills and abilities of the participants and developed the various interpersonal, personal, and societal skills of the participants. • The event allowed the students to apply their theoretical and book-knowledge to real-life and practical scenarios and understand the impact and feasibility of each possible solution. • A Bootcamp conducted before the start of the fest which gave the students an overall understanding of all events and their

	relevance in the real business world. During the valedictory ceremony,) Mr. Sunil Nataraj (Director of Broadcom Limited) gave the chief guest's address and imparted some knowledge to the students about the importance of developing skills relevant to the corporate world. • The event also helped the first years gain exposure and provided them an opportunity to interact with the seniors and other first-year students. It helped them realize the benchmarks and provided them with the necessary inspiration and motivation. • Prarambh left behind an atmosphere of competition, and desire to work more and served as a motivation to the rest to come out and unleash their talents. The students participated in the event with great enthusiasm and had an enriching experience.
Summary of the Activity	In every odd semester, the department of commerce organizes one of the most vibrant fests- PRARAMBH. This event is exclusively designed for first-year students. Prarambh serves as a platform for the young minds of the department to identify their talent and interests in the corporate world. Prarambh 2022, was conducted on campus for the first time in two years. It was held from 5th September to 16th September. Students were allowed to take part in a variety of events such as Marketing, HR, Finance, Business Quiz, Public Relations, and Best Manager The fest started with a boot camp and workshop to familiarize the students with the events. Prarambh started with preliminary rounds to filter the participants based on analytical and creative thinking. The first few rounds gave the participants a taste of the corporate world and an idea of judges' expectations. The rounds gradually increased in intensity and difficulty, testing the competitors' decision-making, stress management, time

	management, and courage in the face of unexpected changes in a market situation. **Business Quiz:** The Business Quiz event of Prarambh 2022, was organized both virtually and on-campus from September 5, 2022, to September 16, 2022. The event aimed at teaching and testing first-year students on various aspects of business through creative quiz rounds and a collaborative round with team finance. The event was organized and the rounds were formulated and conducted by the event sub-heads under the guidance of event heads who were the quizmasters for the final round. These arduous 5 rounds were challenging for the candidates who had to showcase their knowledge under excessive pressure and within a limited time. Based on the cumulative scoring in the final's sub-rounds, event winner Sandeep M R and runner-up Bhavy Dhodwani were awarded in the official valedictory ceremony of Prarambh 2022. **Finance:** The primary objective of the event was to provide the first-year students with an opportunity to showcase their talents and to identify whether they have the potential to be the best in finance in the future. The event was organized by the event subheads who were responsible for the formulation and conduction of the entire event. The event in total had 8 rounds classified as technical and stress rounds. These rounds tested the participants both on their technical skills as well as their ability to thrive under pressure. The winner of the event Anirudh Solanki, along with the runner-up Ronit R were officially congratulated on the final day of the

	event during the closing ceremony of Prarambh, 2022. The winner was decided upon the total points scored by the participants. **Best Manager:** The primary objective of the event was to provide first-year students with an opportunity to showcase their talents and to identify whether they have the potential to be future leaders in the competitive and ever-changing corporate world. The event in total had 24 rounds classified into stress and on-spot. These rounds tested the participants' knowledge as well as their ability to thrive under pressure. The winner of the event, Nishchay Marda, and the runner-up, Arunima Saha were officially congratulated on the final day of the event during the closing ceremony of Prarambh, 2022. The winner was decided upon the total points scored by the participants. The event was successfully carried out thanks to the coordination of the event leaders and the sub-event heads. The competition consisted of ten rounds, each of which was more difficult than the one before it, and tested the players' abilities in various ways. The event gave the attendees a wealth of knowledge and gave them the confidence and stress-management skills they needed. Since time management is an essential component of any event, the event even taught them proper time management techniques. The participants gained first-hand experience managing human resources because they were presented with actual problems and were made to find innovative solutions. **Marketing:**

	The Marketing event of Prarambh 2022, was organized both on a virtual platform and on campus between September 6, 2022, and September 15, 2022. It was the first fest for all the first-years and helped to introduce the festing spirits among the freshers. This event helped the first years to discover their true potential and identify their strong areas. The Marketing event in total had 8 rounds that tested the participants on their marketing, critical thinking, creativity, and other skills. Every round of the event tested the participants on different skills and the participants were able to enrich and improve themselves with each of the rounds. The winners of the event were officially announced during the Valedictory ceremony of Prarambh, 2022. Valentina Gonsalves and Yuvika Dwivedi of the Department of Commerce were selected as the winner and runner-up respectively based on the total points scored in each of the rounds. **Public Relations:** Public Relations (PR) deals with the management of the company's image during controversial circumstances. This event consisted of 11 rounds in total, from 5th to 16th September. The PR event of Prarambh, 2022 too focussed on giving its participants experience in various real-life problems that involve the management of a public image. The primary objective of the event was to provide first-year students with an opportunity to showcase their talents and to identify whether they have the potential to be the best in handling PR crises in the future. These rounds tested the participants both on their creative skills as well as their ability to thrive under pressure. The winner of the event, Akash GC along with Vineet Ashish the runner-up position.

	These rounds were crafted to put the students under stressful situations wherein they had to come up with the best ideas and solutions for solving the problem presented to them. To evaluate these rounds and provide scores and suggestions, eminent individuals from various fields were called upon as judges for the final round. After multiple elimination rounds, students were shortlisted for the final round. To score and evaluate these rounds subheads and events heads played an important role. Following two weeks of activity, the finalists were on the stage for the last run of the race. The final rounds went according to plan, and the participants' cumulative scores were used to determine the event winners. After deciding on the winners, the valedictory ceremony took place on 16th September 2022, between 12 noon to 1 P.M. The event served as a platform to laud and congratulate the Prarambh winners and to encourage the rest to participate in future department events. The event was organized and carried out by the CUCA Faculties in Charge – Dr. Kavitha R and Dr. Deep Jyoti Gurung. The key highlight of the event was the chief guest's address delivered by Mr. Sunil Nataraj, Director of Broadcom Limited and the first male civilian to summit Mount Everest from Karnataka, and through his wise words and jaw-dropping anecdotes, the students were determined to 'live beyond their comfort zones. Additionally, there were two performances from Team Sangeet. At the end of the event, the awards were distributed to the respective winners by the dignitaries. The audience thoroughly enjoyed themselves and celebrated the winners' big day. The valedictory ceremony marked the formal conclusion of the 12-day event. The participants gained valuable experience and a

	glimpse into the difficulties faced in the corporate world. Prarambh came to a successful conclusion, and the winners were picked from among the most deserving and exceptional candidates. The competition-filled environment, drive to work more, and inspiration for others to show off their talents were all left over from the event. Overall, the event served as a platform for the participants to experience the challenges of corporate employment and assisted them in identifying the talented set of festers from the initial years.

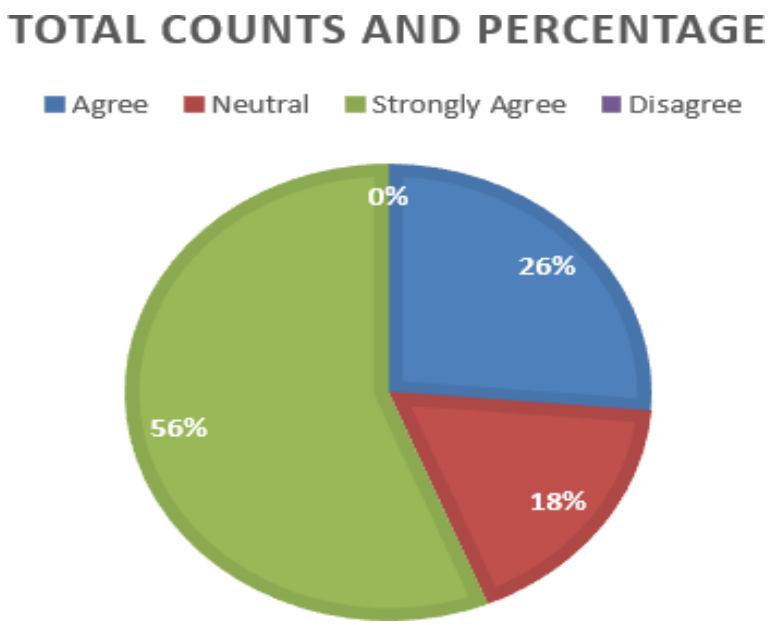
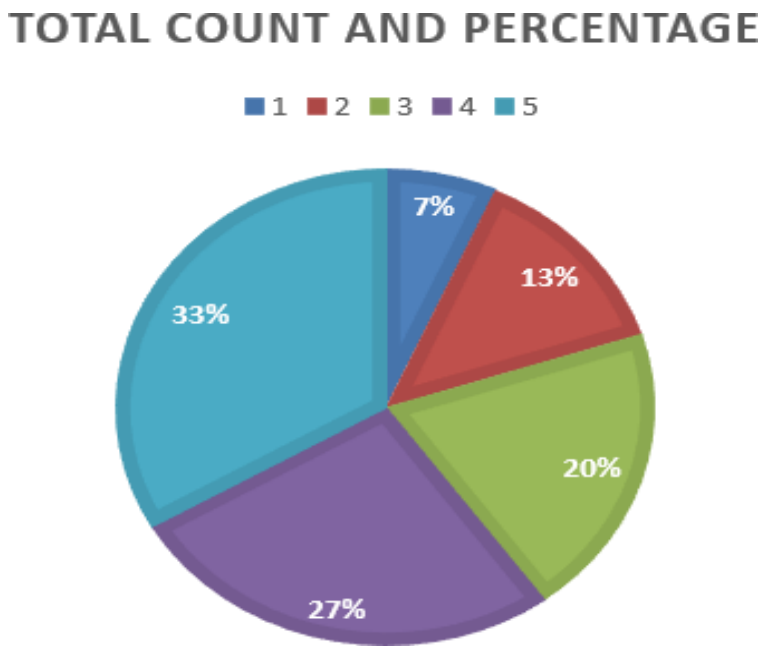
Feedback Data and Analysis

Do you think that the event delivered its purpose?



26% of the respondents *agreed*, and 56% of the respondents *strongly agreed*.

How well do you rate the organizing committee for organizing this event?



The event was rated highly by most of the attendees. Most of the respondents chose 4 or 5 (27% chose 4 and 33% chose 5), on the same increasing scale of organizing this event.

Written feedback/ Suggestion :

The participants were happy with the way the event was conducted

It was quoted as

"*The event was well organized and conducted. All rounds gave a true experience of the corporate world. It helped us get to know our strengths and weakness under stressed situations and solve real-life business problems."*

The common query that attendees had was with respect to how to join CUCA after PRARAMBH.

Response to feedback

By looking into the responses received, CUCA core committee is working towards addressing the queries put forward by the respondents

Brief Summary

The department of commerce organizes one of the most vibrant fests- PRARAMBH. "Prarambh" means an auspicious beginning. This event is exclusively designed for first-year students. Prarambh serves as a platform for the young minds of the department to identify their talent and interests in the corporate world. Students were allowed to take part in a variety of events such as Marketing, HR, Finance, Business Quiz, Public Relations, and Best Manager. These rounds were crafted to put the students under stressful situations wherein they had to come up with the best ideas and solutions for solving the problem presented to them. To evaluate these rounds and provide scores and suggestions, eminent individuals from various fields were called upon as judges for the final round.

After deciding on the winners, the valedictory ceremony took place on 16th September 2022, between 12 noon to 1 P.M. The event served as a platform to laud and congratulate the Prarambh winners and to encourage the rest to participate in future department events. The key highlight of the event was the chief guest's address delivered by Mr. Sunil Nataraj, Director of Broadcom Limited and the first male civilian to summit Mount Everest from Karnataka, and through his wise words and jaw-dropping anecdotes, the students were determined to 'live beyond their comfort zones.

Overall, the event served as a platform for the participants to experience the challenges of corporate employment and assisted them in identifying the talented set of festers from the initial years.

Participants profile

Type of Participants	**1 BCom (SFH) Students**
No. of Participants	**69**

Synopsis of the Activity (Description)

Highlights of the Activity	1. The session was much needed as presentation skills are integral in a student's life. Students were given tips on how to ace their CIAs which involve group presentations. 2. The extempore segment involved an impromptu presentation on a random topic. This helped students think on their feet, get over their fear of presenting and also counter rebuttals effectively.
Key Takeaways	1. Students were taught how to make an ideal PowerPoint presentation that would grab and retain the attention of all their listeners. 2. The activity also served to teach students how to adapt their style of presenting according to various scenarios they might encounter.
Summary of the Activity	Students were taught how to make a good PPT and ace their group presentation CIAs. The session also included an extempore where 5 students were selected to present a random topic on the spot and address rebuttals from their classmates.
Follow-up Plan, if any	**-**

PRESENTATION PREP

An interactive session on presentation skills was conducted for the first-year students of BCom (SFH) by their super seniors - Mr Chris Nelson and Mr Syed Abyan. The session commenced with a motivational message by the speakers - that not only people who are outgoing, talkative and extroverted can present well. It is a skill that can be developed by everybody. Following this, the students were shown how to make an ideal PowerPoint presentation with examples. Font size, spacing, content, graphics and grammatical accuracy are important aspects to look out for while making a PPT.

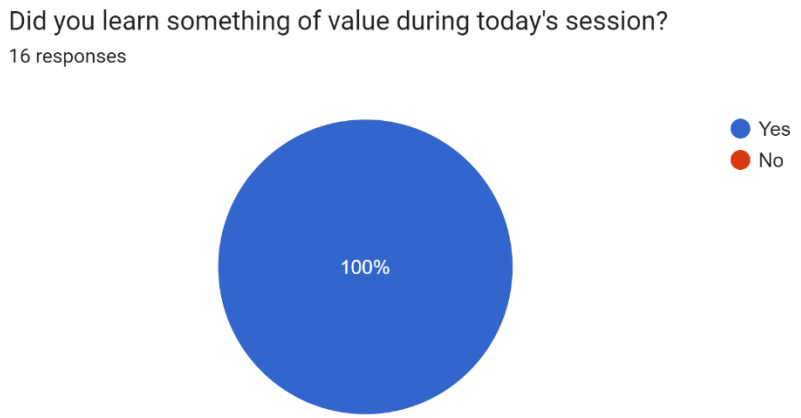
The speakers then talked about the Dos and Don'ts to keep in mind while presenting ideas in different situations. Presenters must refrain from using informal language and filler words, referring to the material on any device and prompting their teammates. Rather, timeliness, eye contact, hand gestures and clarity are good traits of a presenter.

The activity hour concluded with an extempore where 5 students were randomly selected and asked to convince their classmates to agree with their stance on a particular topic. The other students had to come up with valid rebuttals to refute their statements. This helped the students get over their fear of presenting in a fun manner.

Photos of the Activity:

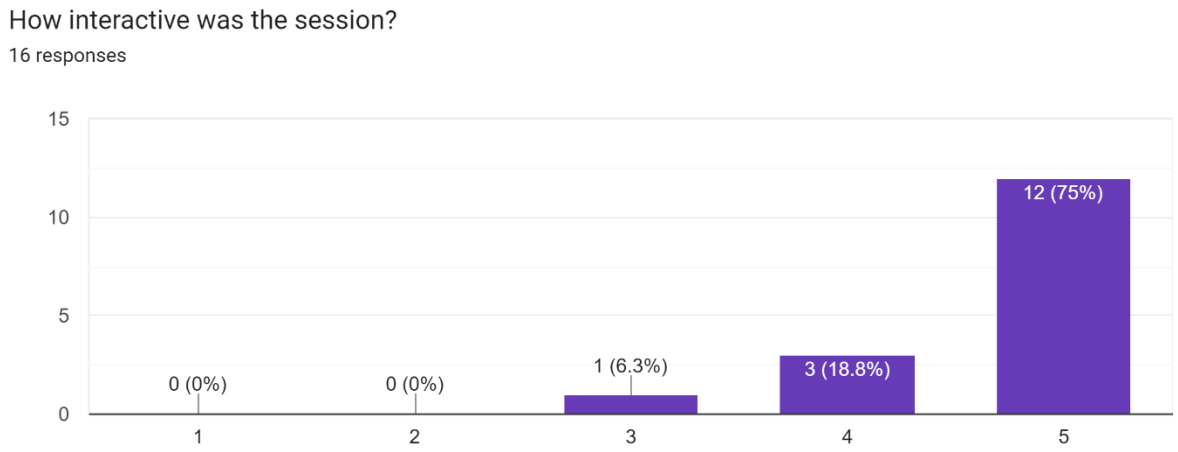
Feedback Data

1)



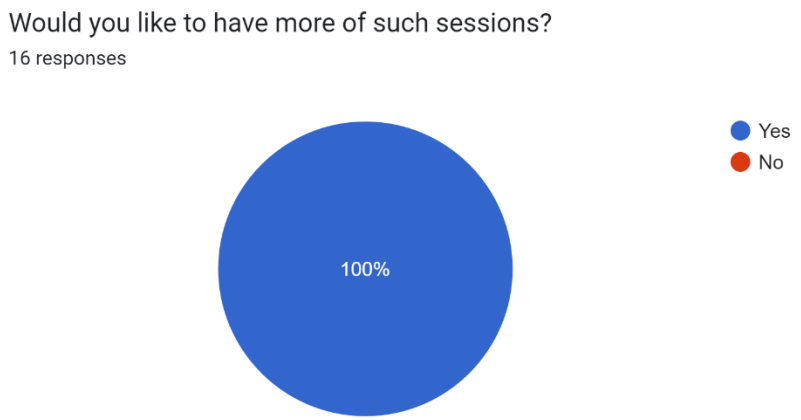
All of the respondents felt that they learnt something valuable from the session.

2)



93% of the respondents thought that the session was very interactive and fun.

3)



All of the respondents were eager for more sessions similar to this one.

4) Any feedback or suggestions for upcoming IMA Student Chapter events?

- Sessions on scheduling, personal finance
- Keep the sessions as interactive as you do now
- Sessions based on seniors' experience with co-curriculars and the university

The session was a massive hit among the first-year students. They all seemed to enjoy the interactive and fun elements of the activity while learning important soft skills at the same time.

BA II PLUS Master Class

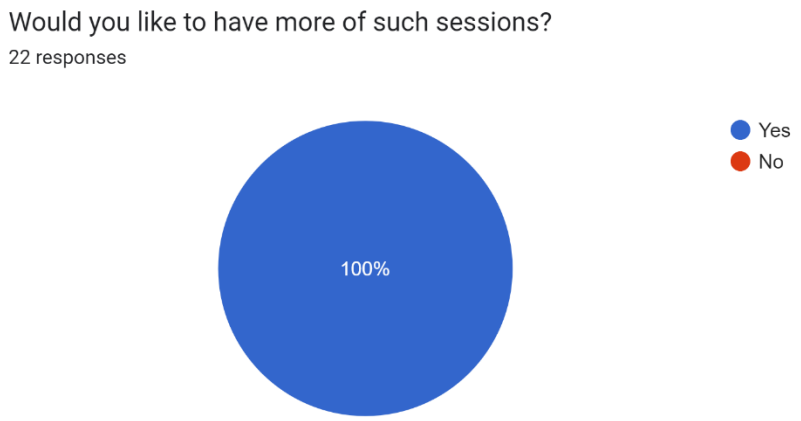
The BA II PLUS Master Class were conducted by Mr. Ameya Kumar and the session took place during the 11am to 12pm Activity Hour on the 17th of September with the second-year students. This session was mainly held to clear the doubts of the different functions in the BA II Plus Calculator and how to use it efficiently for the CMA Exam. This was a really informative and interactive session that helped the students' brush up their concepts. The main purpose of this activity was to engage the students and make them comfortable on working with the financial calculator.

Photos of the Activity:

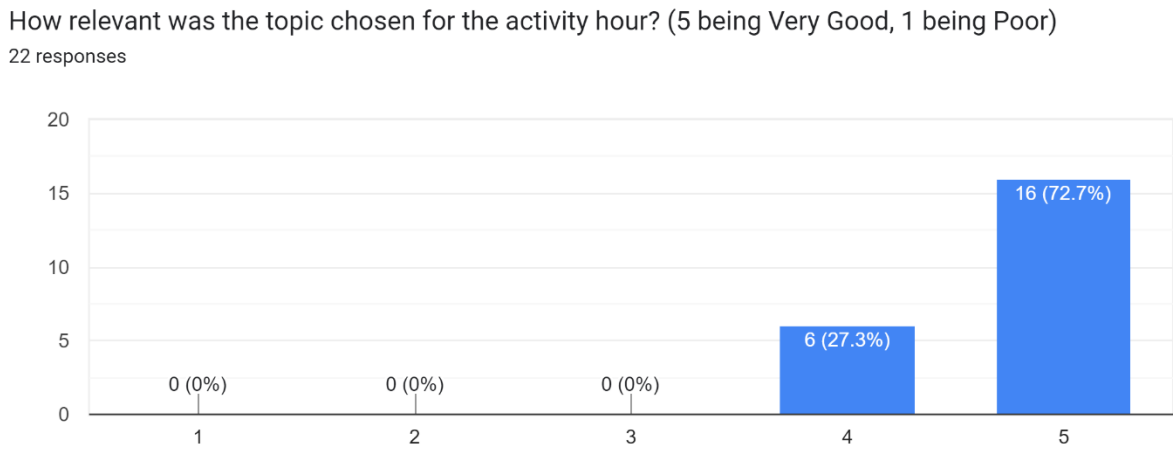
Feedback Data:

1)



All the respondents enjoyed the activity session and look forward to more of such sessions.

2)



Out of 22 responses 16 respondents have rated the session to be very good and the rest satisfactory

3) What are your key takeaways from this event?

-Learning the financial calculator.

-Very informative about the usage of financial calculator

-Learnt how to calculate NPV and TVM in the easiest way. One of the best interactive sessions.

-It was nice to get our concept on financial calculators and I was also able to enhance my conceptual knowledge.

4) Any additional comments regarding the session or overall agenda?

-Today's activity session was fun and interactive. Expecting more such sessions.

-It was really very informative session. It would be great if we could few more sessions of the same manner.

- The session was indeed different from the usual activity hours.

- Concepts and doubts were cleared patiently.

- The session could have been more structured and follow up sessions to strengthen the concepts.

5) What kind of events would you like to see IMA student chapter come up with?

-Fun, interactive and educational sessions.

-Revision Sessions for CMA.

-More of such calculator sessions.

-Similar sort of study focused events.

Overall, the master class session was engaging and the objectives such as clearing doubts and the students being comfortable with using the financial calculator were fulfilled smoothly leading it to be a successful event. As for the future activity hours we look forward to have such similar events in line with the preparation of the CMA exam and the holistic development of students.

Synopsis of the Activity (Description)

Highlights of the Activity	• The Wall St Society Bootcamps are a series of sessions which work on familiarizing interested students with the functions of the various divisions of Wall St Society. The bootcamps were open for all three years. • The boot camp was conducted on 19, 20, 21st September 2022 in Sky View of Bangalore Central Campus. During the boot camp, the interested students were introduced to the intricacies of the finance world and the functions carried out by Wall St Society throughout the academic year. • In each half an hour session the students were briefed about the various divisions of Wall St Society so that the students could make an informed decision when joining the training sessions and selection processes • The Vice-Presidents of each division made use of Power Point Presentations to intimate the attendees about the work that they do in their division.

	• They also conducted interactive activities to pique the interests of the attendees. • At the end of each bootcamp, a Q&A session was held toaddress the queries of all the attendees.
Key Takeaways	• The boot camp resulted in the attendees learning about the various divisions and its functions of the Finance and Investment Cell. • The attendees realized that Wall St Society aims at real time analysis and review of the financial data and other perimeters judgement available in the world of finance. • The target audience of the boot camp understood their area of interest which helped them pick a particular division for the training sessions to be held in the future.
Summary of the Activity	The Wall St Society Bootcamps are a series of sessions which work on familiarizing interested students with the functions of the various divisions of Wall St Society. The bootcamps are open for all three years. The Boot camp for the various divisions under Wall St Society was conducted on 3 days, 19th, 20th and 21st of September 2022. The bootcamp session on 19th was conducted by Publications and Marketing Division followed by Fundamental Research and Valuations Division on 20th and then finally by Derivatives and Technical Research Division on the 21st. **Publications Division** The bootcamp for Publications Division was presented by the Vice President Aarushi Rai. The division's team members began by emphasizing on what it does, that is, write articles and other pieces for the Wall St Society website and Instagram page, monthly magazine and external websites. The division's topics of conversation (Geopolitics, Markets, World, Personal Finance, Business Finance, Economic Affairs) were also explained in detail. A concise talk was also given about the technical and creative process of writing an article with the hurdles one may

	face. Following this, the attendees were briefed on the uniqueness of the unit, and specific hierarchy. **Marketing Division** The session on Marketing was organized by the Vice President of the Marketing Division Khushi Bharti. Initially, the attendees were introduced to the entire marketing division of Wall St Society. The Content Writers and Content Designers then took over the presentation and gave a detailed orientation on the importance of content writing, designing as well as ideation in Wall St Society. The attendees were also asked to follow the Instagram page and check out the website to familiarize them with the work of the marketing division. Attendees were shown a number of posts that were designed by them to inform them about what to do and what not to do. The session also had an interactive session where the participants were asked to come up with a caption for an Instagram post. The session was followed by a Q&A Session. **Fundamental Research Division** The bootcamp session for finance was organized by the Vice President Shivangi Garg. The session began by highlighting the need for and importance of fundamental research of a company. This was followed by introducing the attendees to the various ways to go about researching, understanding, and analyzing a company and the economy. The bootcamp helped the attendees to get an overall idea as to what the division does. **Valuations Division** The bootcamp session for Valuations Division was organized by the Vice President Hrithik Chowdhury. The VP was assisted by Associate Palak Sharma. The session was started by explaining the basic meaning of valuation with an emphasis on its practical essence. This was followed by a detailed introduction into some

	of the preliminary concepts of valuation, such as value vs price, determinants of value, as well as the application of the valuation craft in the business world. The audience was given a detailed introduction into what we do, how we do it, as well as what it takes to be part of the division. **Derivatives & Technical Research Division** The bootcamp session for Derivatives and Technical Research Division was conducted by the Derivatives Vice President, Aayush Surana. The session started off by the Vice President orienting the attendees as to how the division works and operates. The attendees were briefed on the purpose of the technical research and derivatives divisions. The attendees were also informed about the fundamental tasks that the members of the team perform. They were also informed of the team's expectations for creating strategies and composing articles, among other things.
Follow-up Plan if any	A Google form was circulated among all the participants and were requested to fill it out. The purpose of getting these feedback forms filled was to collect responses of the participants and analyze all responses to know the utility of the event for the participants.

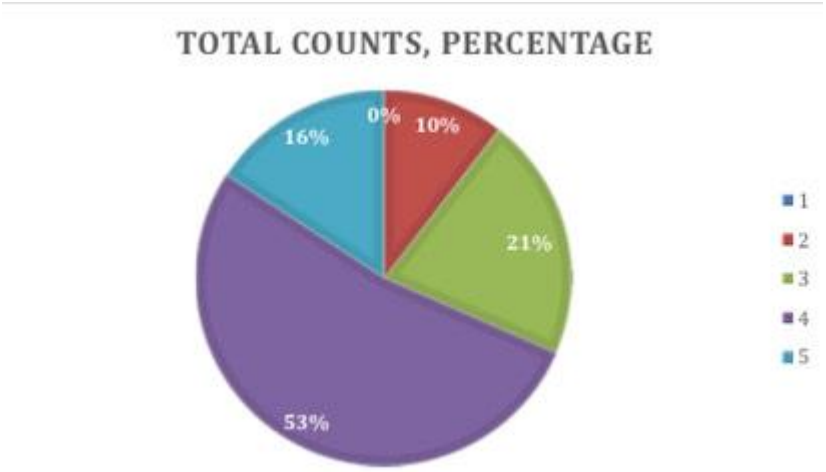
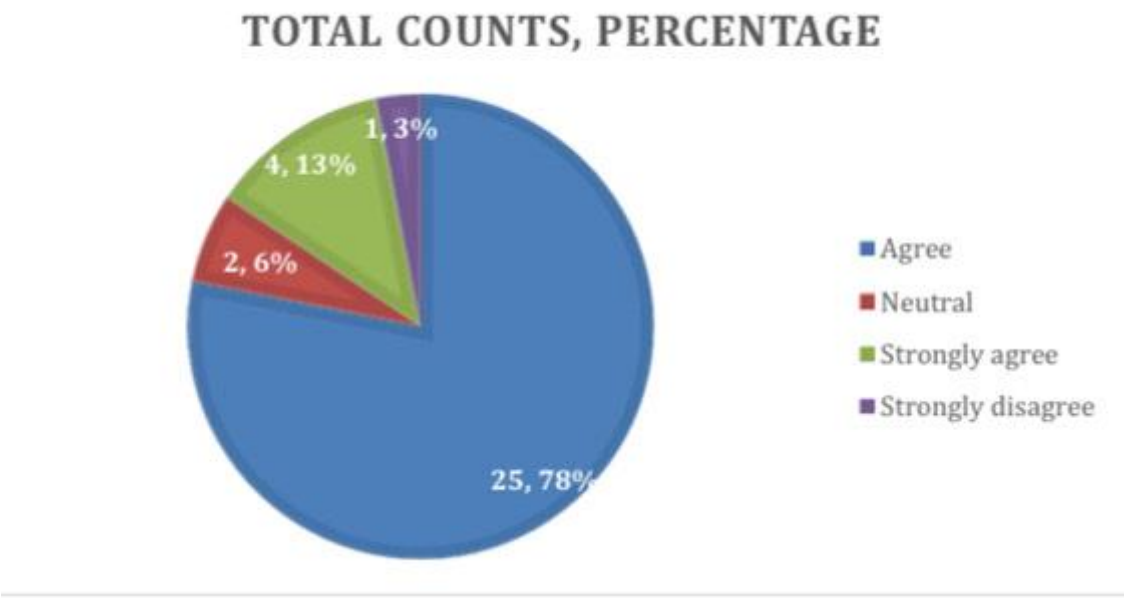
Participants feedback

How well do you rate the workshop?



The idea of the workshop was viewed positively by the organizers. Most of the organizers chose 4 or 5 (53% chose 4, and 21% chose 5), on the same increasing scale, to represent their rating for the idea of the workshop.

Did the delivered content meet the purpose of the event?



78% of the respondents *agreed*, and 13% of the respondents *strongly agreed*.

Written feedback/suggestions:

The participants who attended the workshop had a positive response. They appreciated the proper structure and planning of the workshops. Some of the responses received were:

"*Honestly, all the training sessions were really well planned, and the content delivered was pretty insightful for feasting. Everything from the range of topics to the quality of the presentations was quite good."*

"I found the workshop to be very informative. The workshop provided us with specific hands-on skills."

Some of the participants also had complaints with respect to the time allotted for the explanation of relevant topics and suggested that the workshop would be better if it was scenario (case study) based.

"The sessions conducted were really well. However, some scenario-based case studies could have been included with respect to the particular event to make it more interactive."

Response to feedback

All the responses are taken into consideration and will be reviewed properly for the planning of the next event.

Brief Summary

The Wall St Society Bootcamps are a series of sessions which work on familiarizing interested students with the functions of the various divisions of Wall St Society. The bootcamps were open for all three years. The Bootcamp for the various divisions under Wall St Society was conducted on 3 days, 19th, 20th and 21st of September 2022 at Sky View of the Bangalore Central Campus. The bootcamp session on 19th was conducted by Publications and Marketing division followed by Fundamental Research and Valuations Division on 20th and then finally by Derivatives and Technical Research Division on the 21st. The sessions were conducted by the respective Vice Presidents of each division along with the help of their team members. Each bootcamp was concluded by a Q&A session to clear all doubts and queries.

Internship Talk

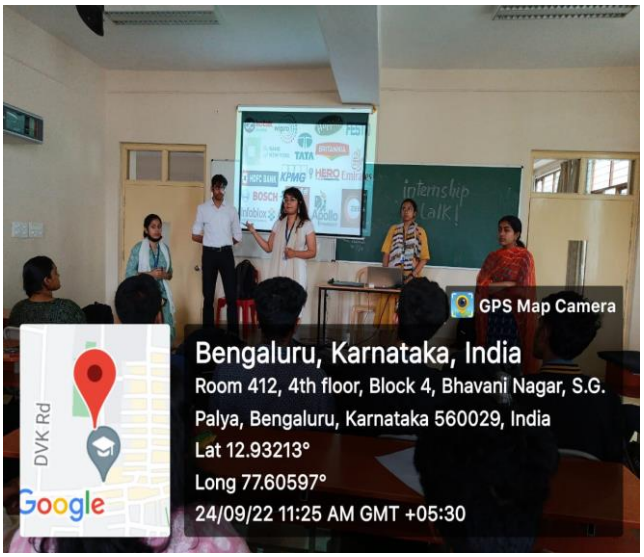
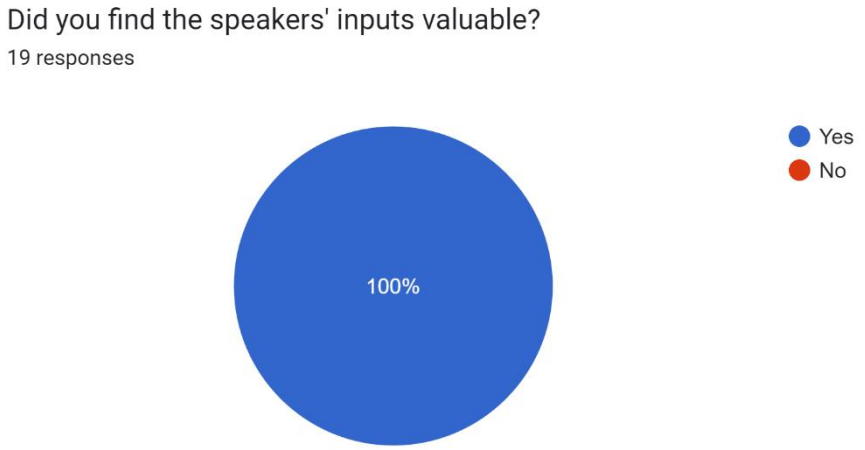
The session began with discussion about how to improve one's resume and its importance to get through any screening processes. Examples of resumes were shown along with key contents that need to be included in an ideal resume. Ways to work on achievements and finding more activities to do were discussed about. Platforms to take up certifications, develop skills, gaining work experience and even resume building tools were introduced to help the participants work on their experiences. Following this, tips to crack the aptitude test were given along with the sections of the test. 5 crucial measures to ensure a successful interview were spoken about. Commonly asked questions during an interview and the right or wrong ways to answer them were told. The internship talk was very engaging throughout as the students kept asking queries and each of them were addressed.

Photos of the Activity:



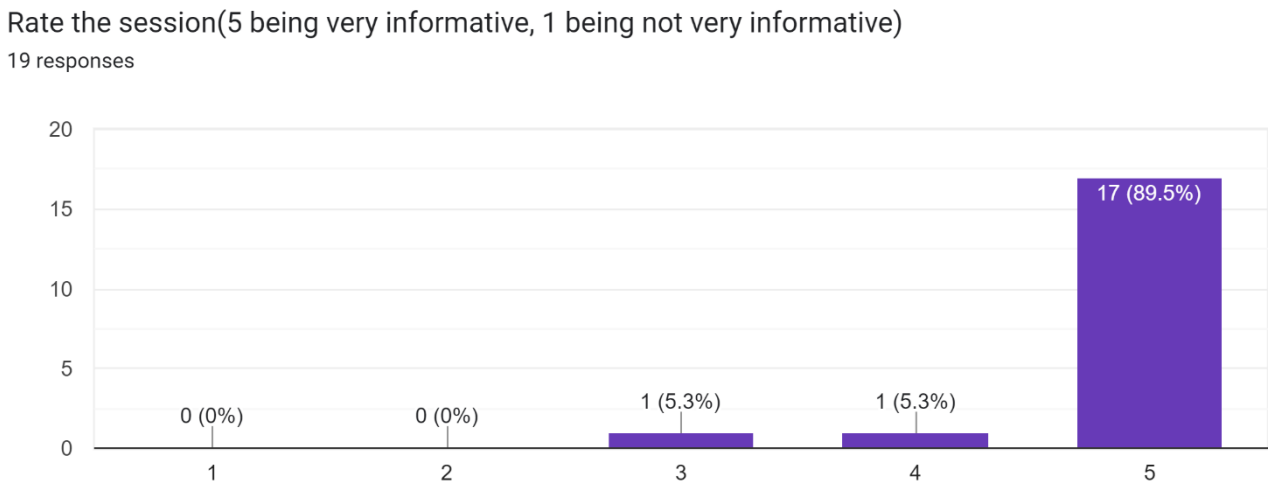
Feedback Data:

1)



The inputs given by the speakers were found valuable by all the responders. The engagement level of these speakers was very high even due to the topic being spoken about.

2)



All the participants found the session informative as it was a need of the hour discussion for the second year students to have had with the internship placements coming nearby.

3) Any additional comments regarding the session or overall agenda?

- It was a really good session, the seniors explained each and every point which was very valuable.
- Similar events that help in personality development.
- More sessions with the 1st years.

4) What kind of events would you like to see IMA student chapter come up with?

- FDM preparation sessions
- Career enhancing sessions/activities
- Sessions with juniors and seniority we can interact with them

More such activities with regards to placements, building and shaping career from people who have been through the same phase would be organized. More CMA preparation related sessions will be organized.

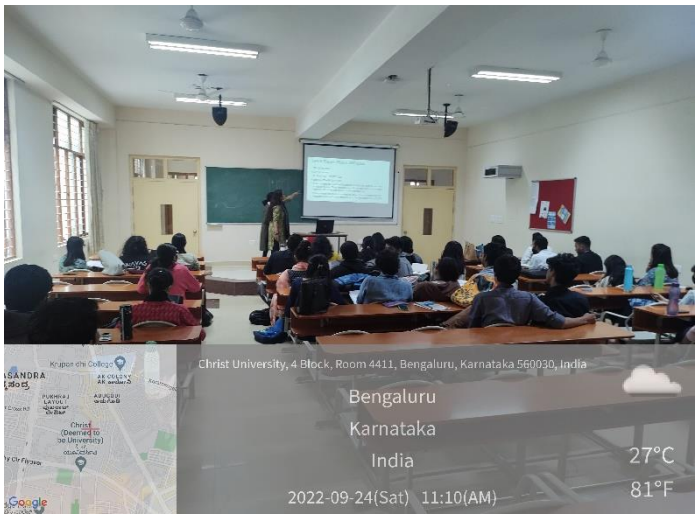
Test Your Aptitude

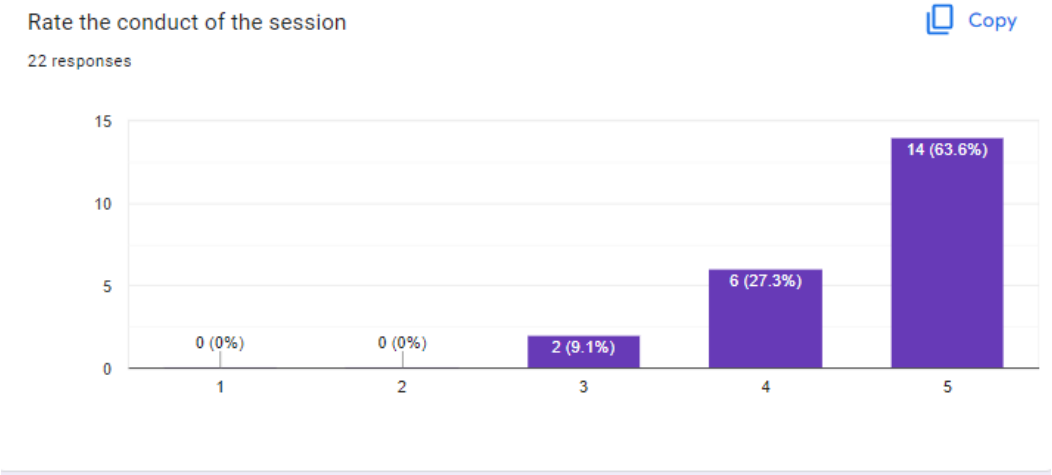
The organizers for the Activity hour event were Ms Sanya Singh and Ms Aparna Sivaramakrishnan from 5 Bcom (SFH). The session was conducted from 11 am-12 pm with the third-year students. As it is placement season and the first step to get selected in any company is clearing the aptitude round, this session helped the students to improve their aptitude skills and help them prepare better for the placement process. Various tips and tricks to solve aptitude questions were discussed and the class was divided into groups to increase competitiveness among the students.

Photos of the Activity:



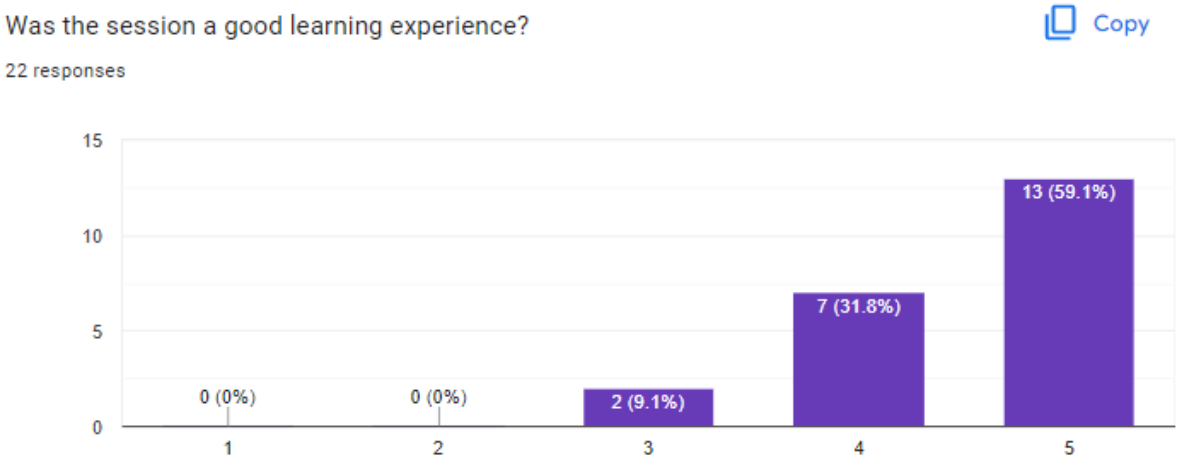
Feedback Data:

1)



63.6% of the respondents found the session informative

2)



60% of the respondents rated the session to be a good learning experience.

3) **Any feedback or suggestions for upcoming sessions?**

-No suggestions

-Slightly more interactive if possible! The execution is perfect, but I'd like a little more interaction!

-Looking forward to more sessions

4) **What kind of events would you like to see the IMA Student Chapter come up with?**

-More about CMA

-Competitions testing academic knowledge

-Any events which are going to be beneficial for our future

-Finance x Tech Information, something along the lines of Fintech!

- Training on Basics of trading Stock market related sessions

Synopsis of the Activity (Description)

Highlights of the Activity	1. The Department of Commerce, Model United Nations (DOCMUN) was a pan-India fest organised for undergraduate students, and was conducted from the 27th to the 29th of September, 2022. 2. It was conducted in the Christ University Central Campus, with 7 committees.

	3. Before the beginning of DOCMUN, a bootcamp was conducted for all the delegates to better understand the procedures of an MUN. 4. The event had 7 committees, which were as follows: 1. UNGA DISEC- Discussion on use of biological weapons and their place in the current world 2. UNSC- Maritime security needs with special emphasis on the South China Sea 3. UNHRC- Accountability for human rights during crises as a result of recent developments 4. ECOSOC- Discussion on cryptocurrency and its role in underdeveloped states 5. AIPPM- ● 1.Discussion of section 124(a) with focus on recent cases brought under the act ● 2.Discussion on the anti- defection law in purview of the recent developments in the country 6. Crisis Committee- Simla agreement 7. International Press 8. In order to better comprehend the causes of conflicts that influence our world, DOCMUN offered students the unique opportunity to discuss and debate current global affairs. The combination of research, preparation, involvement, and interaction acquired helped delegates in developing their debating, researching, and public speaking skills - all skills that will help them in their future. 9. The Valedictory Ceremony was conducted on the 29th of September, 2022, in the Block 1 auditorium, after all the committees were closed, and the respective winners were felicitated with trophies, certificates, and cash prizes. 10. DOCMUN 2022 had a cash prize of _____, and the prizes were split as follows: o Best Delegate: Rs. 10,000

	o High Commendation: Rs. 6,000 o Special Mention: Rs. 4,000
Key Takeaways	1. The events organized by the DOCMUN Society served as an excellent platform for all students across departments to showcase their talents and skills in the MUN and Debating field. 2. DOCMUN 2022, being the first Inter college Model United Nations conference conducted in the academic year gave the students exposure to the MUN society and the field of debating and helped them explore the unexplored debaters in them. 3. The various committees in the DOCMUN Conference gave students a chance to explore various real-life issues and topics. Discussions on such topics helped them gather a lot of insights into the ongoings in the world and expand their knowledge. 4. DOCMUN served as a platform for students to accustom themselves to the politics and plannings of the world at large and get a glimpse of how different countries and people work in such situations. 5. The rounds of the event strictly followed UNA-USA procedure. The Rounds of Procedure were as follows: a. Roll Call b. Speaker's List c. Moderated Caucus d. Unmoderated Caucus e. Resolutions f. Lobbying and Merging

	7. The event allowed the students to apply their leadership and communication skills, in order to solve complex global issues. 8. The event also helped the students gain exposure and provided them an opportunity to interact with the students from different colleges from different part of the country . It helped them realize the benchmarks and provided them with the necessary inspiration and motivation. 9.DOCMUN left behind an atmosphere of competition, and desire to work more and served as a motivation to the rest to come out and unleash their talents. The students participated in the event with great enthusiasm and had an enriching experience.
Summary of the Activity	The DOCMUN was held offline on the Christ University, central campus on 27th,28th and 29th September. Over 405 participants joined seven committees to discuss and debate raging topics. Apollo was the main partner for the event. “DOCMUN'22 saw fresh diplomats showcase their innovative resolutions. The MUNners showed ample zeal for the re-establishment of the MUN culture in the college, which was completely shattered because of the pandemic. The credit for the success of the event goes to the organising committee Each participant proposed statements, discussed and deliberated on various topics. All participants were awarded certificates and the best delegates were declared in the presence of the chief guest. VIT Chennai won the best delegation award.
Follow-up Plan, if any	Following are the follow-up Plan of the event:- 1.Reimbursements 2. Collecting money from different sponsors of the event.

	3.Feedback from the participants and the organising committee members about how to be better in the future MUN's conducted by the club

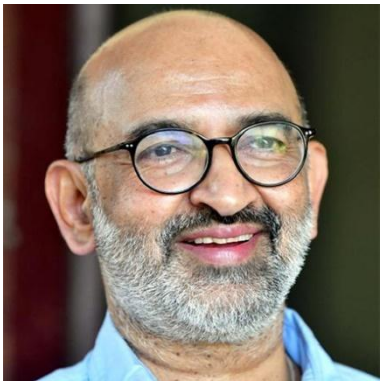
Website Description:

The Department Of Commerce Model United Nations Society (DOCMUN) encourages students from Department of Commerce to participate competitively in Model United Nations (MUNs) all around the country. The society train students rigorously in the areas of public speaking and writing not just to prove ourselves in some of the most competitive MUN circuits across the country, but more importantly because the society value discussions on global politics. DOCMUN is the organizers of one of the finest MUN conferences of South India. However, the aim is to produce speakers that transcend MUNs and excel at even other forms of debating. Thus, we are also responsible for a number of public speaking events on campus that cover a diverse range of issues. DOCMUN is created to simulate the vibrant global dynamics for over 3 days to serve as a platform to make a difference. The third edition of DOCMUN was held across 3 different days (27th,28th and 29th September) which saw participation of 405 students from various institutions across the country. This is also the largest edition hosted yet in the campus after pandemic. It involved 7 different committees where students discussed about various issues pertaining to the world and brought up interesting ideas on finding solutions to various issues.

Speaker Profile:



Venkitesh Ramakrishnan, the former Chief of The Frontline Bureau in Delhi and Senior Associate Editor, has 35 years of experience as a journalist in print, broadcast and electronic media. He is currently in the Director Board of AIDEM - a new people oriented media venture from India that seeks the glocal reach. He is also the Chairman and the Managing Director of HATTADEM, and serves as the Managing Editor of AIDEM.

The Ayodhya imbroglio, the impact of the Mandal Commission proposals and the militancy in Punjab and Jammu and Kashmir are among the major issues he has covered in depth. He specialises in political analysis, including the study of Lok Sabha and Assembly elections for the past 25 years, and also tracks sociological trends, especially in rural India. He is associated with a number of NGOs in an advisory capacity, among them the Schumacher Centre in Delhi, Saksham Kids in NOIDA, Uttar Pradesh, and the Mehac Foundation. Before joining The Hindu group of publications, he was associated with several media organisations including The Telegraph, BBC , Deshabhimani daily. Third Eye TV , and Indiavision TV.

Synopsis of the Activity (Description)

Highlights of the Activity	• The Opening Bell 3.0 for the year 2022- 23 was conductedby the members of the Wall St Society Executive Committee. • Dignitaries were requested to light the lamp, along with the President. • The gathering was addressed by the wise words of Dr.

	Karthigai Prakasam, Head, Department of Commerce, followed by Mr. Amit Kapadia, VP, Product Management,LC Adroit Vantage then by Mr. Sriram Kannan, Director ,CloudSMART, HCL Technologies and finally by Mr. Jasneet Bindra, Country Head, CISI India. • A mellifluous band performance was given by the Team Sangeet of CUCA. • A Promo Video made by the Wall St Society Marketing team showing a glimpse of the divisions of Wall St Society was presented • A detailed introduction about each division was given by the Vice Presidents of the respective divisions.
Key Takeaways	• The event served as a platform to familiarize the studentsabout the various functions of the finance and investmentcell. • The chief guest, guest of honor and the guest speaker enlightened the audience with the knowledge they possessabout their respective domains • The students were made to realize the importance of finance and investment and its merger with technology. • The Executive Committee presented the Annual Report consisting of the work performed by the cell in 2021-22 • Overall, the event turned out a be a great success, whereby the students were both motivated and inspired to work for Wall St Society in the future.
Summary of the Activity	The Opening Bell for the academic year 2022-2023 was a successful event, conducted on 28th September at the main auditorium, it filled the students of the Department of Commerce with a ray of excitement. Mr. Likhith and Ms. Udyutha emceed the ceremony, and they ensured that the

	audience were engaged until the end of the event. The event started off with a melodious invocation song by Team Sangeeth of theDepartment of Commerce. The commencement of the cell's yearwas marked by the lighting of the lamp ceremony by the dignitaries. The attendees also had the opportunity to listen to speakers and get inspired by their stories. The Executive Committee members presented the annual report for the year 2021-22. The event also had a captivating band performance by Team Sangeet of the Department of Commerce. A video prepared by the marketing division was also presented to the attendees to showcase the different divisions of the cell. The ceremony ended with the vote of thanks and the hiring announcement for the year 2022-23. The students left the auditorium filled with energy and enthusiasm after the official Christ Anthem.
Follow-up Plan, if any	Google form was circulated among all the participants and were requested to fill it out. The purpose of getting these feedback forms filled was to collect responses of the participants and analyze all responses to know the utility of the event for the participants.

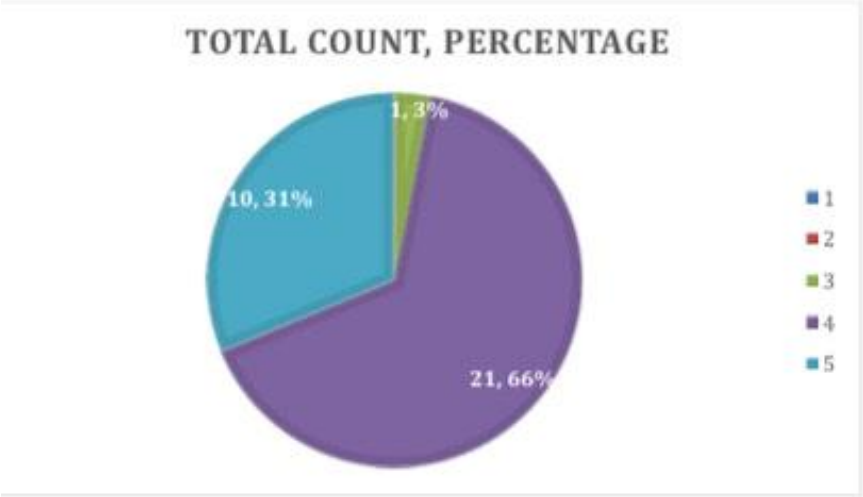
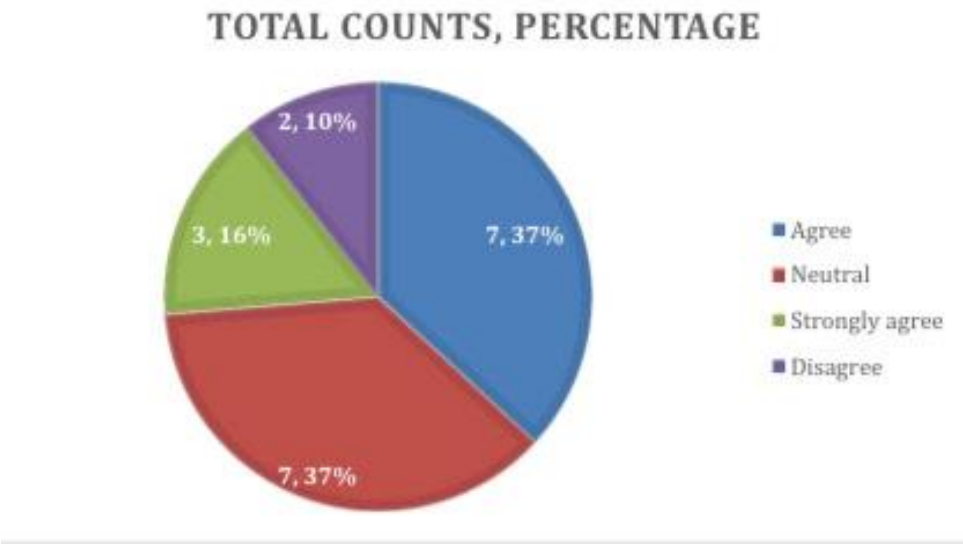
Feedback and analysis

How was the event conducted overall?



The workshop conducted was viewed positively by the participants. Most of the participants chose 4 or 5 (31% chose 5, and 66% chose 4), on the same increasing scale, to represent their satisfaction in the conduction of the event.

Do you think that the idea of this session was helpful for the association?



37% of the respondents *agreed*, and 37% of the respondents had a *neutral* response.

Written feedback/suggestions

The organizers were very enthusiastic in briefing the attendees about the committee. It was quoted as
"*A great initiative, well organized, the experience was good, and everything was set properly. There could be series of other events included in it to make it more interesting and interactive."*

The common feedback given was that the workshops missed the factor of interaction.

Many of the organizers believed that the timetable of the events could have been streamlined considering the hectic schedules, event clashes, and they were not provided with sufficient time to prepare for the content.

The session was very well conducted, and it was very informative."

The participants who attended the session were generally happy to hear the experiences shared to them by the event heads.

Response to feedback

In order to inculcate informal interaction among the organizers and participants, workshops will be planned with proper interactive sessions.

Brief Summary:

The Opening Bell for the academic year 2022-2023 was conducted on 28th September in the main auditorium of Christ University Central Campus. The primary objective of the event wasto mark the commencement of the cell activities for the academic year 2022-23. The event wasgraced by the presence of Dr. Karthigai Prakasam, Head, Department of Commerce, followedby Mr Amit Kapadia, VP, Product Management, LC Adroit Vantage then by Mr. Sriram Kannan, Director, CloudSMART, HCL Technologies and finally by Mr Jasneet Bindra,Country Head, CISI India. The Executive Committee members presented the annual report for the year 2021-22. The event also had a captivating band performance by Team Sangeet of the Department of Commerce. The video prepared by the marketing division was also presented to the attendees to showcase the different divisions of the cell. The ceremony ended with the vote of thanks and the hiring announcement for the year 2022-23. The students left the auditorium filled with energy after the official Christ Anthem.

IMASC Olympics

The students of 1, 3, and 5 BCom (SFH) participated in the first edition of the **IMASC Olympics** on 1st October 2022, an event aimed at providing a fun and challenging way to speak confidently, network and learn to be team players. All the events were drawn from familiar scholastic competitive events as well as corporate team-building games. The students gathered at the Campus View, 10th floor, Central Block, for the event at 11 am. Faculty were also invited to judge the students for the first two rounds.

The event had three rounds, and the students were sorted into teams for them. Depending on the game requirements, only a few team members could participate in an event simultaneously.

The first event was the **Pounce and Bounce**, an individual event where the best speaker was sent on behalf of the team for an oratory event similar to Just a Minute. This particular event tested the communication skills and current affairs knowledge of the students. There was a balanced mix of current affairs topics and lighthearted ones.

The second event conducted was **Mad Ads**, where the students competed in groups of four. Their task was to pitch a simple everyday object to the judges with an innovative spin. The game tested the students on their creativity and quick thinking. The faculty judges then proceeded to rebut the student's pitch and engage them in a pressure round. After the round was over, the faculty judges also gave the students feedback on their performances.

The last event, named **Robots**, was a corporate team-building game focused on building trust and exercising the students' listening skills. The students in groups of four were expected to display efficiency in relaying and following verbal commands to/from their teammates.

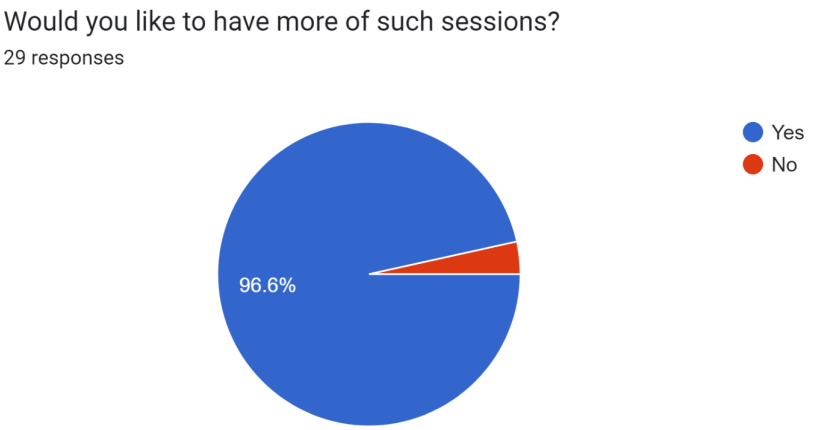
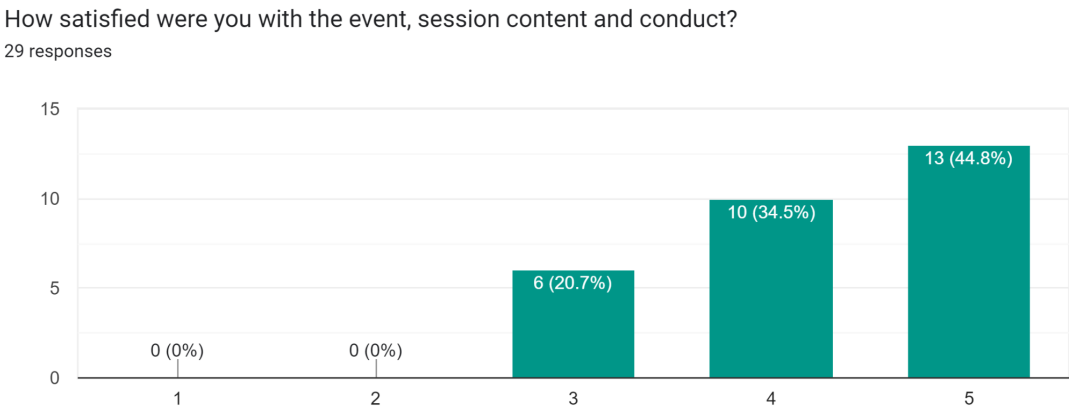
Feedback Data:

1)



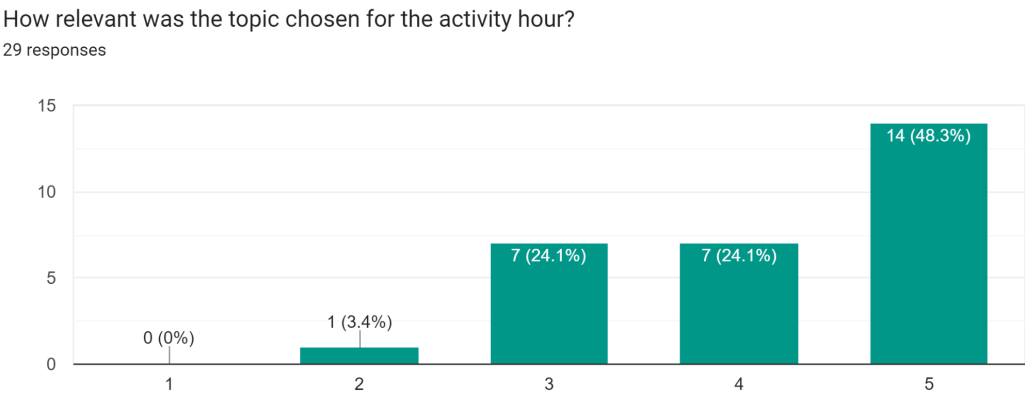
Over 90% of the respondents have reacted positively to the event and would like to have similar events in the future.

2)



None of the respondents thought that the session was conducted poorly. 44.8% of the students were satisfied with the overall execution of the event.

3)



Almost 50% of the students thought the activity hour was relevant to them and the ongoing array of activity hours for SFH students.

4) What were your key takeaways from this event?

It was a good chance to interact with the entirety of the programme and have some good fun

Creativity

Communication is key.

Active listening, communication

It helped to think creatively

Teamwork

Teamwork, communication, creativity

It was a fun filled session along with learning process such as communication skills, marketing skills etc.

Brainstorming

Communication skills, oritory skills, confidence

Brainstorming, Team Work, Communication skills and Marketing skills

Public speaking

How to be confident on the spot

Ice breaking and instilled confidence

It was very interactive and fun

The most important takeaway today was that everyone is talented and unique in their own way.

Importance of teamwork

How to be quick on my feet

Communication

The above are some of the students' responses. Most of the respondents felt the key takeaways from the session were good communication, teamwork, confidence and quick thinking.

5) Any additional comments regarding the session or on the overall?

Some of the details could've been polished a bit more. Teams leaders being asked to be selected a few days prior seemed redundanbt. Conducting the event in skyview always comes with the risk of students not showing up on time or at all. But on the whole it was a very well conducted event.

Very well organised and planned

Fun session

Loved it . Good mode of socialisation with seniors

Wish there was more time and more people participated!

Making the teams larger and giving more time for participaants for preperation and presenting

Pretty well planned and coordinated

It was very well organized and the whole session helped me interact with my seniors.

Very fun and interactive

The session was good and fun

The remarks on the event were mostly positive, with students calling the session good fun and well organised. Some of the suggestions for improving the event was that the team planning could be more efficient.

6) What kind of events would you like to see the IMA Student Chapter come up with?

Similar events

More such activities like this one, except with more scope for interaction and teamwork building

Guest lectures

Fun events

Marketing events

More engaging and fun

Marketing and Fun events

Any

More of such kinds

Something similar, more events to express public speaking!

Audience oriented

More pounce and bounce, and Mad ads or presentations

SFH Shark Tank!

similar

More activities with seniors

More fun events like this one.

Similar interactive sessions

Expecting the same kind of events

Something more fun

Debate

The respondents are enthusiastic about more marketing, presentation, and public speaking events and hope for more interactive sessions of a similar kind with all the three SFH classes.

3) Feedback Forms:

Feedback Form

* Required

1. Name *
Siddharth Arora.

2. Register Number * 2010834.

3. Class * 5 BCOM SFH.

4. How satisfied were you with the event and session content? (5 being Very Much, 1 being Not Very)

Mark only one oval.

1 2 3 (4) 5

Not very — Very much

5. How relevant was the topic chosen for the activity hour? (5 being Very Good, 1 being Poor)

Mark only one oval.

1 2 3 4 (5)

Poor — Very Good

6. What were your key takeaways from this event? *
Great perspectives, good interaction activity. Great opportunity for the different batches to get comfortable.

7. Any additional comments regarding the session or overall agenda? *
The emcees being bit more professional Eg mature before calling anyone out based on their positions of responsibility.
Enjoyed the overaxall activity.
Way better than the sessions in classes.

8. What kind of events would you like to see the IMA Student Chapter come up with?
Something similar, the whole team seemed to enjoy it.
Something that doesn't take commitment before the activity Eg is spontaneous.
Loved the activity.

Title of Presentation	**CMA Orientation**

Participants profile

Type of Participants	**IMA CHRIST Student Chapter Members**
No. of Participants	**134**

Synopsis of the Activity

Highlights of the Activity	1. Students were given an opportunity to interact with an expert. 2. Preparation tips for cracking CMA. 3. Scholarships and other opportunities offered by the IMA.
Key Takeaways	1. Benefits of pursuing CMA. 2. Strategies to be followed to ace both Part 1 and Part 2 of CMA. 3. Global importance of CMA.
Summary of the Activity	The event was very informative and truly an eye opener for all the students as the students learnt of the various opportunities that they will receive after the successful completion of both the parts of the CMA exam.

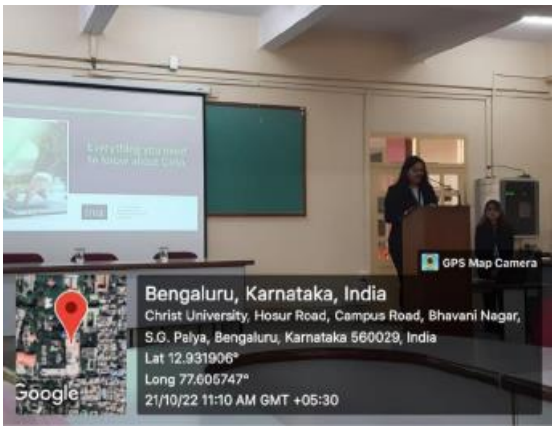
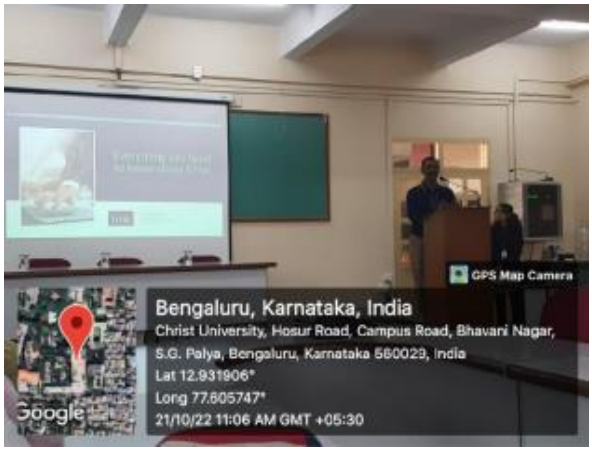
CMA ORIENTATION

The CMA orientation programme was hosted by the IMA Student Chapter of CHRIST (Deemed to be University) was well organized and was graced with the presence of **Mr. Fenil Vadakken, Dr. Karthigai Prakasam and Dr. Sunil MP**. Mr. Fenil Vadakken is a Senior Country Manager at IMA and an interaction with such a knowledgeable person has helped shape the young minds of CHRIST (Deemed to be university). Mr. Fenil Vadakken started the session with an interaction with the junior IMASC Members and then moved on to a presentation **highlighting the uniqueness of this professional certificate**. Throughout the presentation one particular thing stood out the most and that was how the students of the Strategic Finance Honours program enjoyed an edge over the students of other courses. The guest speaker also spoke about the **global importance of the CMA certification** and the **availability of job opportunities worldwide**. The students were also oriented on what to expect in the question paper in terms of the pattern as such and the key topics of interest. The availability of a wide array of valuable information and resource materials was brought to the attention of the students would help the students receive their CMA certification. The **IMA further offers multiple scholarships and opportunities** for the students in a variety of fields to explore their options. The session was followed up by a quick question and answers session where the students asked Mr. Fenil Vadakken multiple questions regarding the CMA and the IMA. Over all the programme was well organised and was truly a learning experience for all the students.

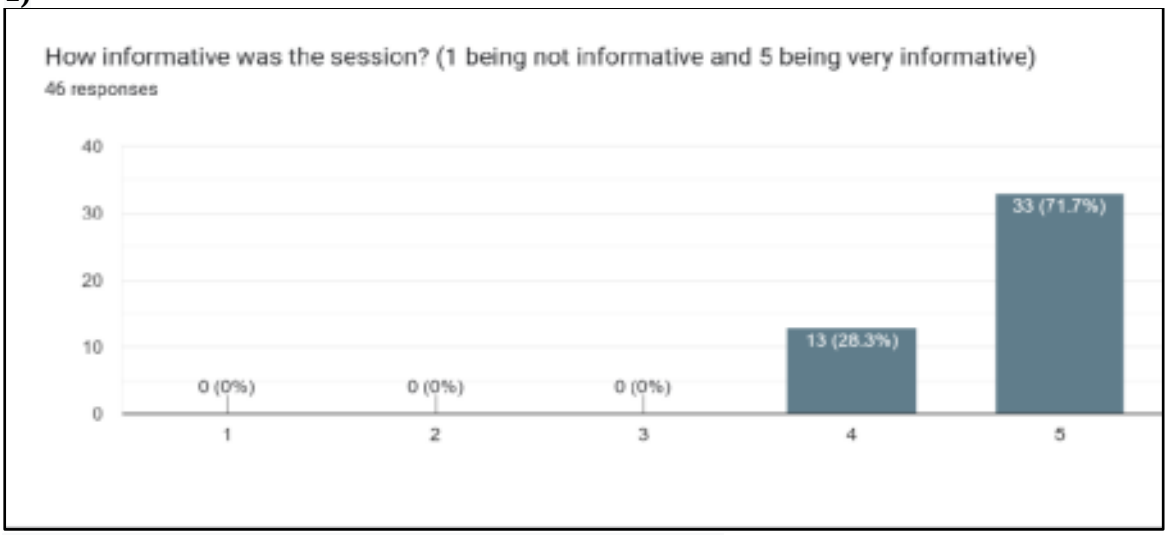
Photos of the activity:





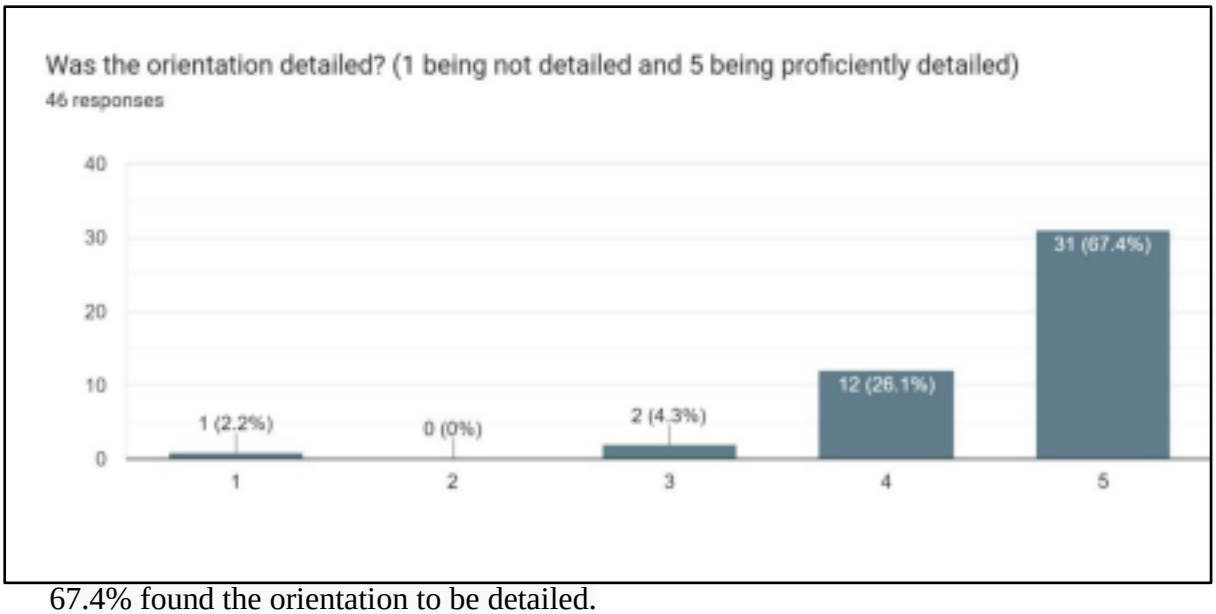
Feedback Data:

1)



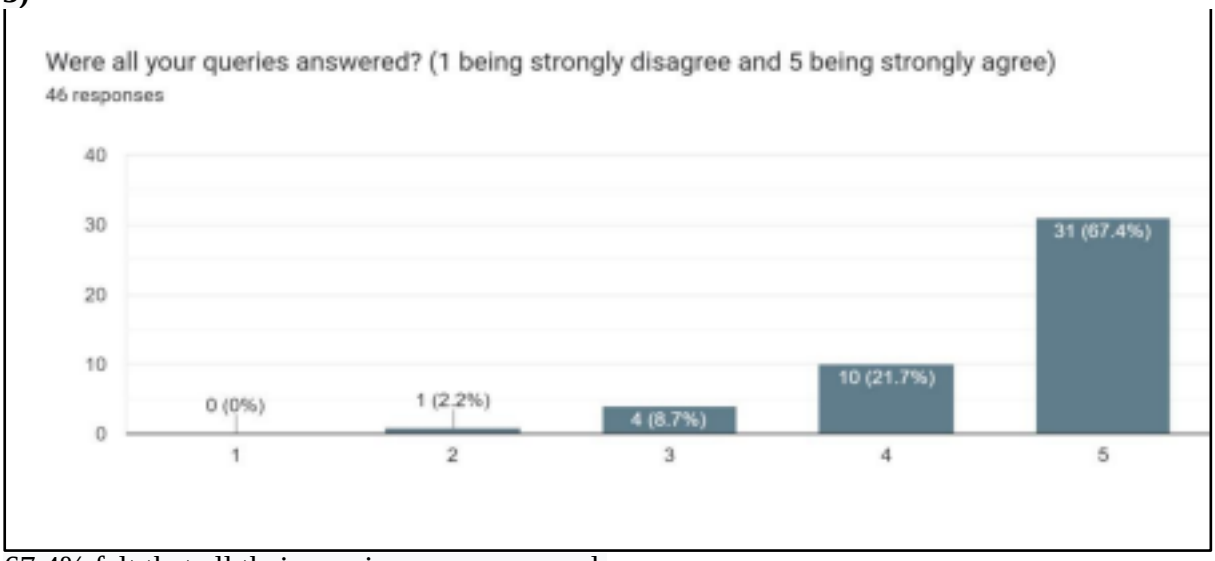
71.7% of the respondents found the session informative.

2)



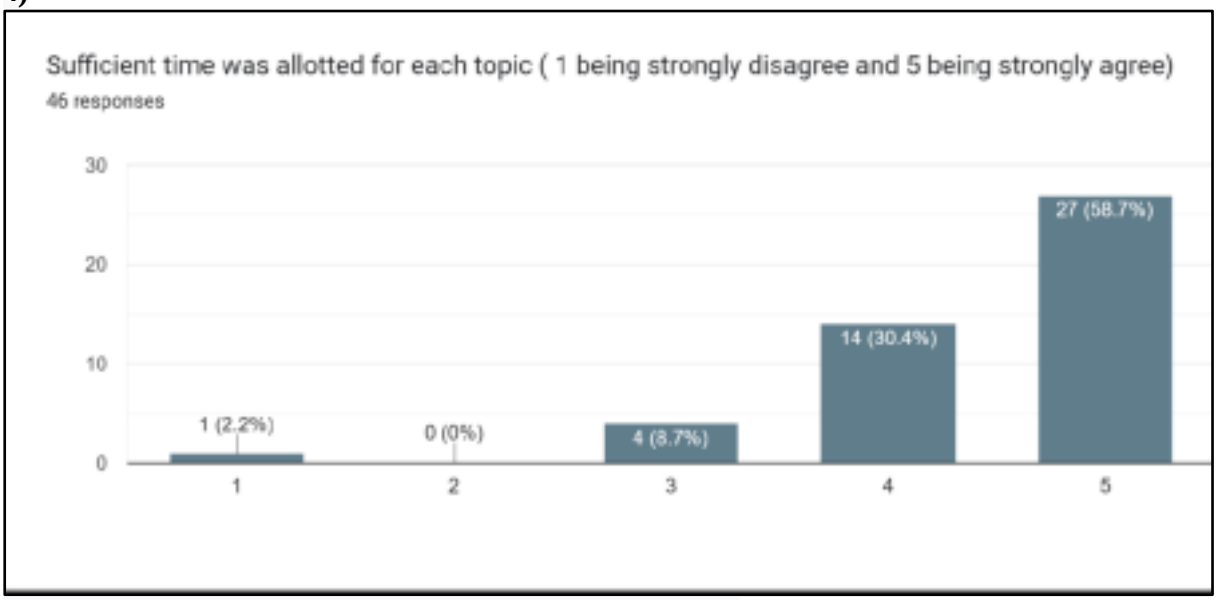
67.4% found the orientation to be detailed.

3)



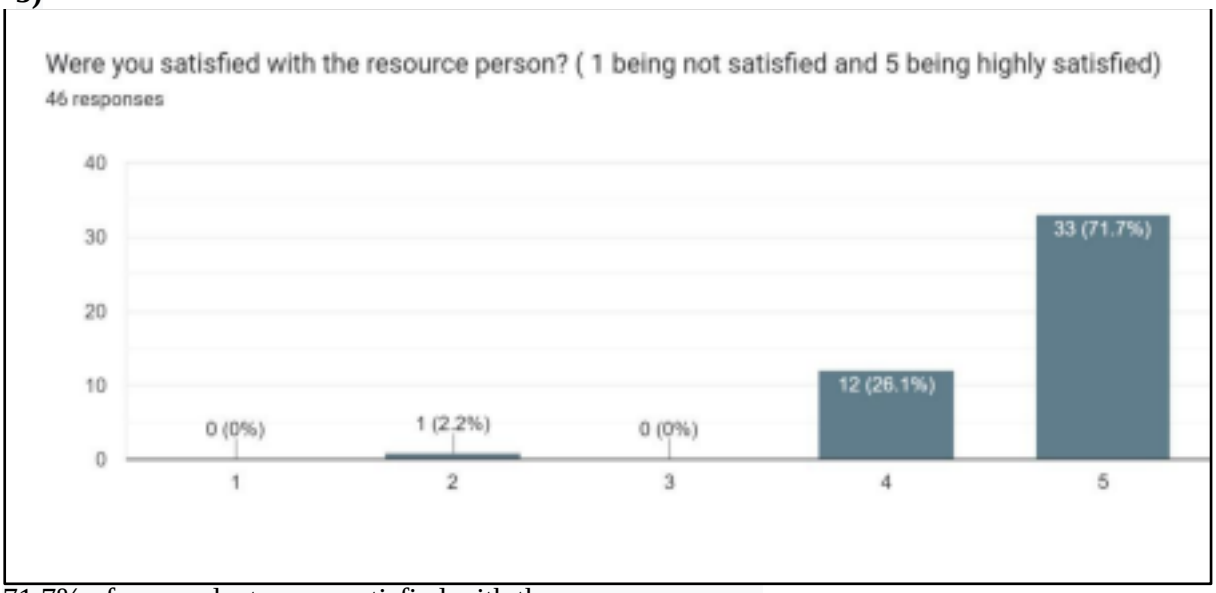
67.4% felt that all their queries were answered.

4)



58.7% felt that sufficient time was allotted for each topic.

5)



71.7% of respondents were satisfied with the resource person.

6) What topics do you think could have been included in the orientation?

Career opportunities
Technology integration with CMA
All topics were discussed
Job opportunities after cma
Pricing
The experience of the speaker
Details About exam fees
There was discussion about various platforms and resource material websites. It would be great if more light was thrown on these things. When we came and how to access them. Their importance, etc.
More detailed
Nothing additional
Not included but the exam pattern could've been elaborated.
All basic topics were covered
Tactics to clear the exam
if you can write the exam again if you fail

The majority of the students felt that all the topics were covered however a few students wanted to learn more about the cost of the entire process and about how to access the resource materials.

7) Any feedback or suggestions for the upcoming events?
Could be more interactive
Overall orientation was informative
No suggestion as of now.
It's was very informative
Nope
Previous year question paper of cma
Perfect planning
Overall orientation was good and it was perfectly arranged and presented. Could have made more interactive
Please bring alumni from CMA U.S.A

The students were satisfied with the event but to name a few suggestions, they wanted to interact more and also wanted to interact with people who have successfully completed their CMA.

All About Trading

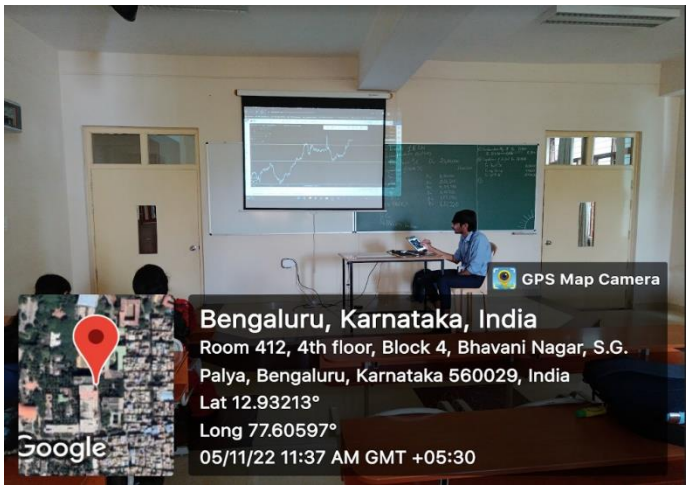
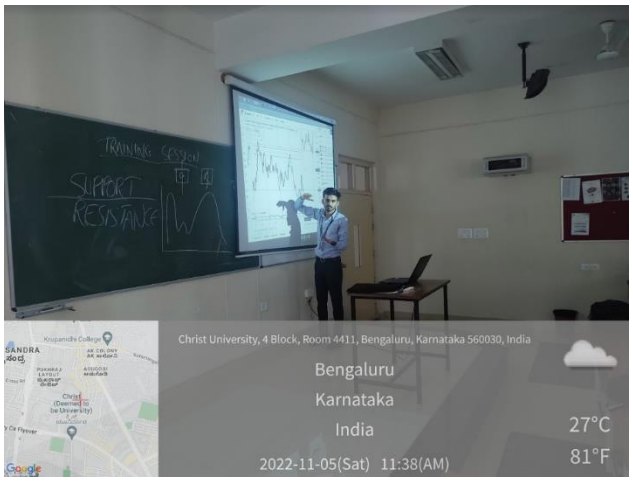
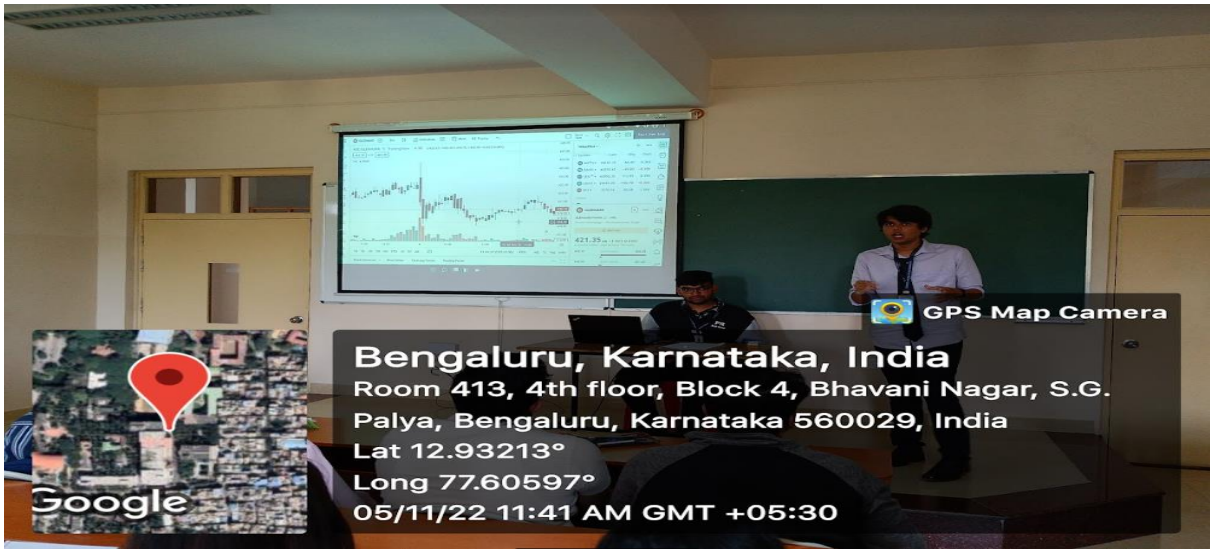
The All about trading educational session was conducted by IMA CHRIST (Deemed to be University) Student Chapter. The organizers were Mr Jash Nanavati, Mr Ameya Kumar and Mr Aayush Surana. It was an educational session being conducted to help the students upscale their trading knowledge and technical know-how about trading. The students were engaged well and showed enthusiasm towards the session by participation and asking queries. There were various concepts covered in the session including what is candlestick, technical analysis of stock market, trends of stock market, support and resistance related to stock market, stoploss, time frame and examples of trade. The organizers also gave a brief about how to get started with trading and introduced to websites that can be accessed for trading for beginners.

Photos of the Session:

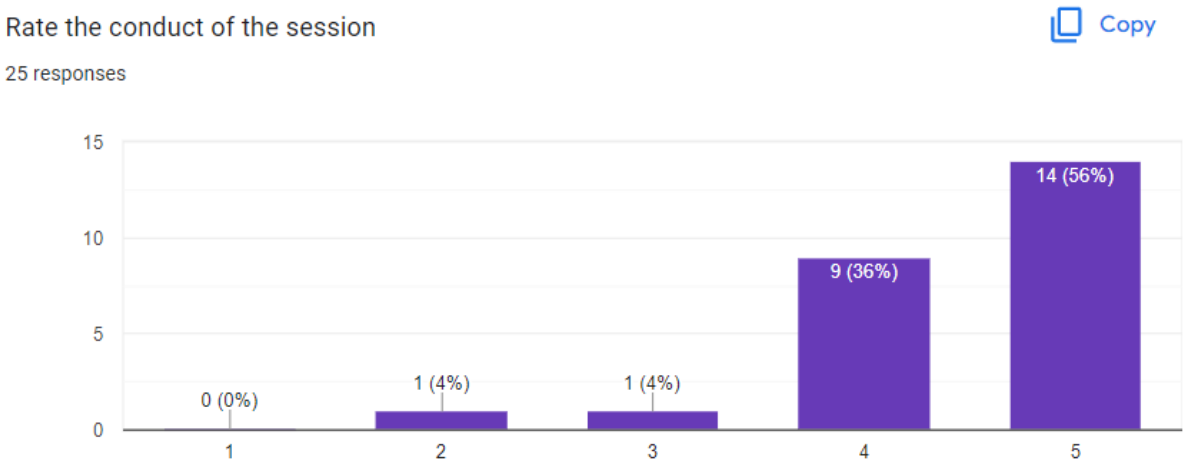






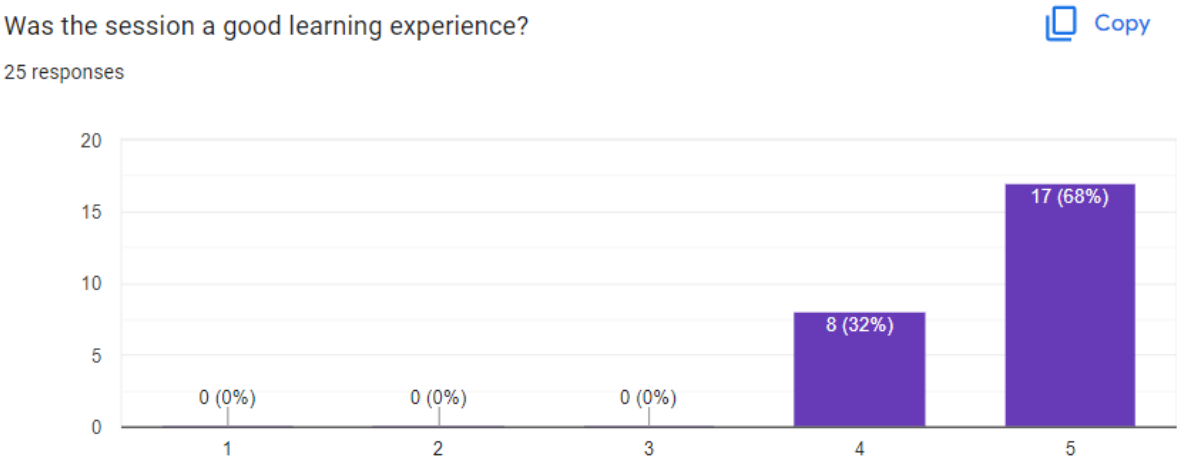
Feedback Data:

1.



56% of the respondents rated the session as very good.

2.



68% of the respondents found the session to be a good learning experience.

3. Any feedback or suggestion for upcoming session?
   - More engaging sessions
   - Conduct more sessions on stock market and trading.
   - The session can be conducted with more mentors and teacher's guidance
   - More interesting topics like this one Eg: financial planning
   - More detailed as well as practical study to deal with stock market.
   -Interaction based sessions

4. What kind of events would you like to see IMA student chapter come up with?
   - Training session on Investments
   - A competition where teams need to read about a complex topic and explain it in the easiest way possible
   -More teaching on the basics of the stock market
   -Webinars and seminars.

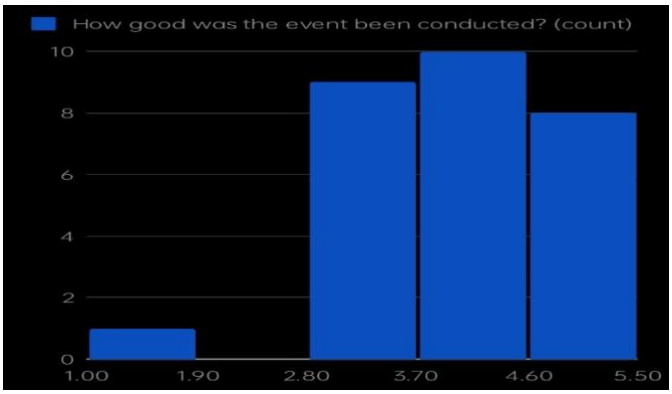
Participants feedback

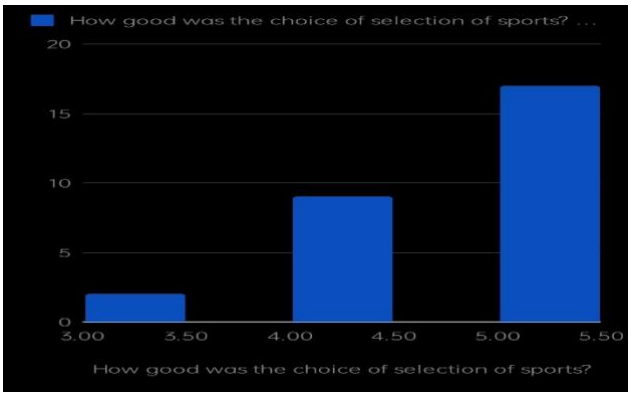
How good was the event been conducted?



TOTAL RESPONSES 27
AVERAGE 3.9 (ON SCALE OF 5)

In view point of knowing how good the overall event was conducted this feedback question was asked among the participants we received a overall good response with a High rating of 3.9 for 5

How good was the choice of selection of sports?



Total responses 27
AVERAGE 4.5 (ON SCALE OF 5)

As we have mentioned DOCathon was a sports event we had critically worked on choosing the sports and we have received a very good scoring of 4.5 for 5

Written feedback/suggestions

The organizers and the partcipants were very enthusiastic. It was quoted as

“A great initiative, well organized, the experience was good, and everything was set properly.

There could be series of other events included in it to make it more interesting and interactive.”

Many of the organizers believed that the timetable of the events could have been streamlined

Considering the hectic schedules, event clashes, and they were not provided with sufficient time

To prepare for the event.

“The event was very well conducted, and it was very inspiring..”

The participants who attended the event were generally happy. They appreciated the proper

Structure and planning of the workshops.

Bloomberg Training

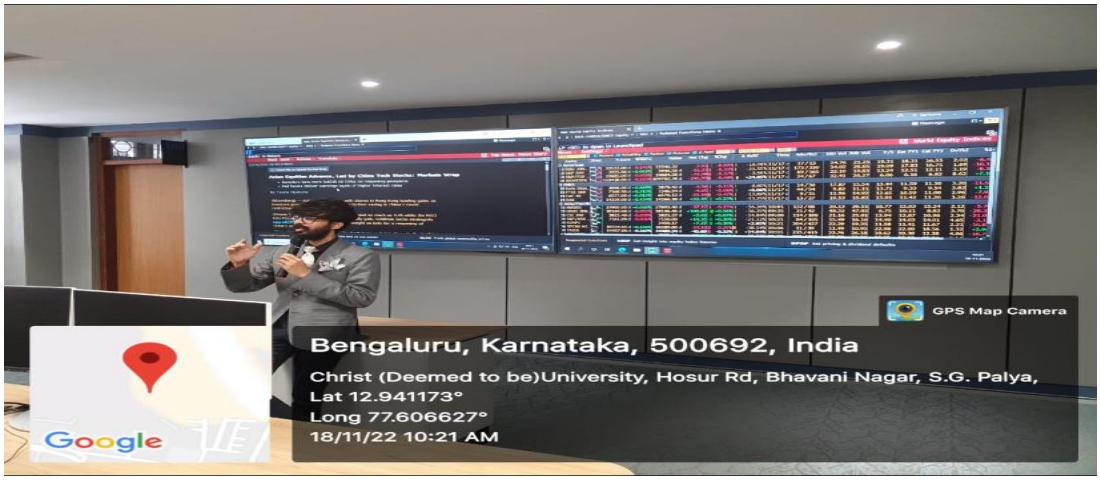
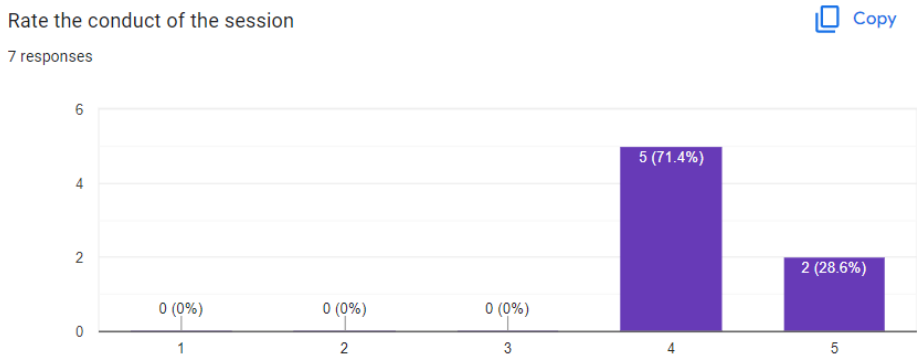
The Bloomberg Trading educational session was conducted by Mr Yuganthar Rathore for two consecutive days. The Bloomberg Training session helped the students to upscale their trading knowledge and technical know-how about trading. The students were engaged well and showed enthusiasm towards the session by participating and asking queries. There were various concepts covered in the session, including technical analysis of the stock market, analysis of a single stock, access to analyzed data, and introduction to functions used in Bloomberg like DPDF, FIRS, FFM, etc. In-depth ratio analysis, as well as the reliability of news about a company or stock, was discussed. Trends of the stock market, support and resistance related to the stock market and examples of trade. At the end of the session, the students were encouraged to create a login user ID and use the Bloomberg resources effectively and efficiently for research purposes. The organizer also gave a brief about how to get started with trading and introduced to websites that can be accessed along with Bloomberg.

Photos of the Session:



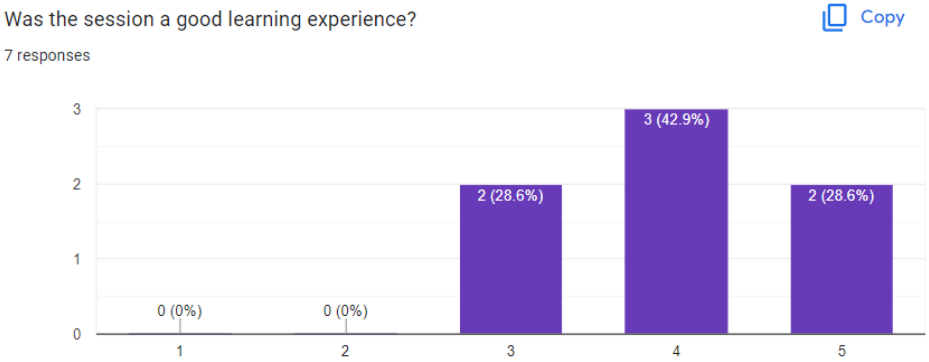
Feedback Data:

1.



The respondents rated the session in the range of good and very good.

2.



The respondents found the session to be a anverage learning experience.

3. Any feedback or suggestion for upcoming session?

- Try to engage after class hours also
- Good class
- It felt rushed
- Nil
- BrilliBrillianton
- Whenever such sessions are conducted, don't make it mandatory for everyone. People not interested in the session waste the theirources and time, and interested people cannot make the most of the session.
- Longer session

4. What kind of events would you like to see IMA student chapter come up with?

- Training session on Investments

- A competition where teams need to read about a complex topic and explain it in the easiest way possible

-More teaching on the basics of the stock market

No. of Participants	**Interviewees (6)** – Mr Tarun Jain, Ms Joshitha V Raju, Ms Namratha Prince, Mr Milan Jiju, Ms Arya Jain, Ms Anutthama G **Audience (32)**

Synopsis of the Activity (Description)

Highlight of the Activity	The students enjoyed the session as it gave them much-needed practice for their upcoming internship interviews. Many showed enthusiasm to participate in more such sessions in the future and also requested a group discussion round on similar lines.
Key Takeaways	1) Candidates were interviewed and given feedback on their performance after a self-evaluation. They were appreciated for the things they did well and were told how they could improve. The audience also pitched in with their opinions. 2) The interviewers provided valuable tips at the end of the session such as having good body language, taking pauses while speaking, using simple words, having concise points, being enthusiastic, not showing frustration under

	pressure, and having questions prepared to ask the interviewer at the end.
Summary of the Activity	Mock interviews replicating the corporate setting were conducted for 2nd year BCom (SFH) students. Three rounds of interviews (Technical, HR and Personal) tested their knowledge and ability to focus under pressure. Candidates were provided with valuable feedback and constructive criticism of their performance.
Follow-up Plan, if any	-

MOCK INTERVIEW SESSION

Following the Placement Talk for 2nd year BCom (SFH) students, a mock interview session replicating an actual corporate setting was organised by Senior IMA Student Chapter members. Students interested in being interviewed were asked to submit their resumes applying for a role in a particular company, for example, a Tax Analyst, Audit Assistant or Management Consultant in companies like Goldman Sachs, Delloite, Mckinsey & Company, etc. Three rounds of interviews were conducted - Technical, HR and Personal, out of which each of the six candidates had to participate in two rounds. The technical rounds were taken by Ms Naitictaa Sahu and Mr Chris Nelson wherein students were questioned about their interest in the particular role applied for and technical questions related to tax, audit and consulting. Ms Rhea Mallya and Ms Shividyarrthi Senthilkumar took the HR interviews. Candidates were asked about conflict management, overcoming challenges, dealing with criticism, etc. In the personal interview conducted by Ms Snehil Verma and Mr Tanmay Seth, students were asked to describe themselves in a few words, talk about their strengths and weaknesses, where they see themselves in 5 years, and so on. After each round, candidates assessed their own performance. Following this, the interviewers provided feedback on what went well and what could be improved. The audience was allowed to pitch in their individual inputs as well. The session concluded with the Chapter members offering useful tips to ace interviews.

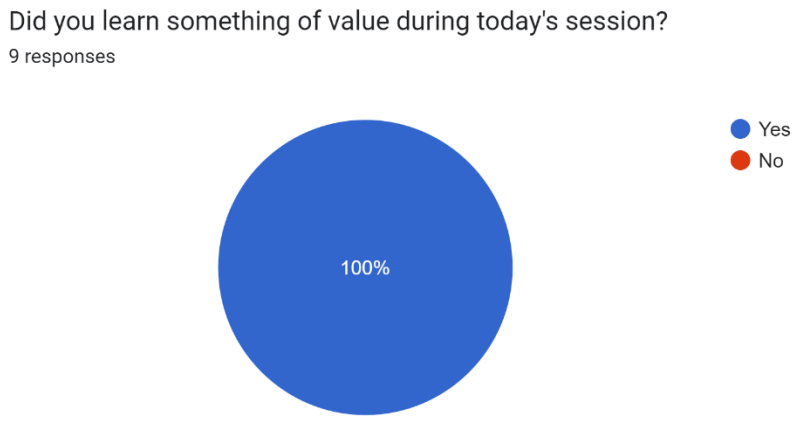
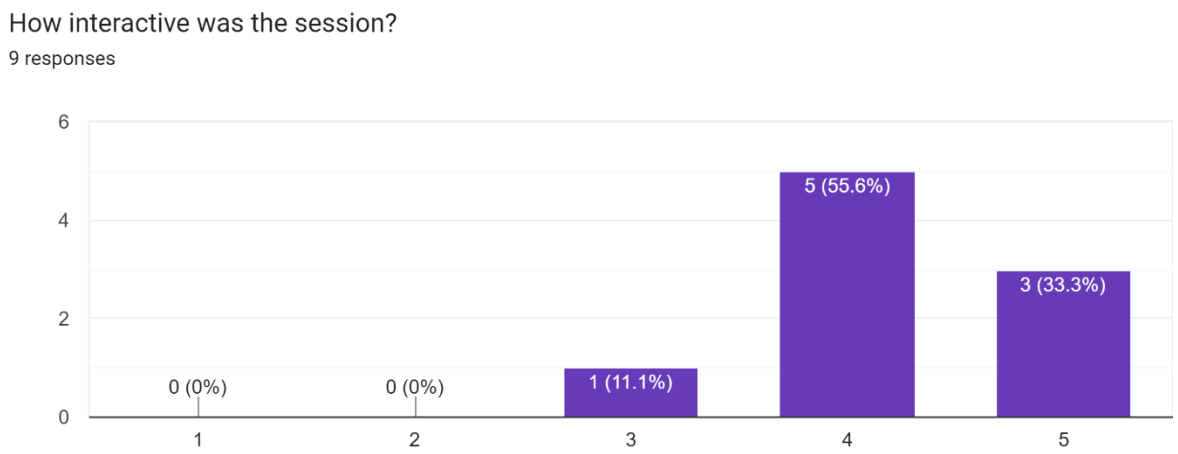
Feedback Data

1)



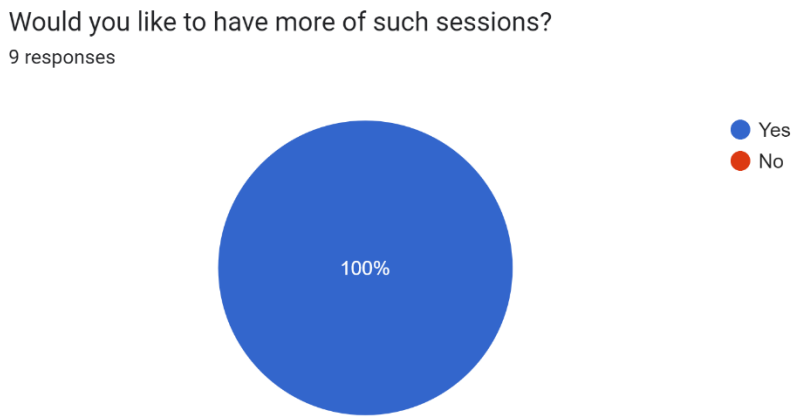
All the participants found the session informative and helpful.

2)



88% of the participants felt that the session was interactive and engaging.

3)



All participants requested more sessions like this one to practice getting interviewed and becoming more confident to face them in real life.

4) **Any feedback or suggestions for upcoming IMA Student Chapter events?**

- Today's session was very informative and insightful. Would like to participate in such further events.
- Absolutely amazing session, with much useful insight from the lovely seniors. Genuinely need more such sessions for interviews and group discussions :) Great job!
- More such sessions would be helpful!
- It was very helpful.
- Would like more skill development sessions.

All students showed great enthusiasm to participate in more mock interview sessions. Some students requested for group discussions to be conducted in the same format.

– Events of these sort that help students improve their soft skills are very much necessary. The feasibility of such events can be worked on though. Not everyone will get a chance to actively work on their soft skills, and events where such can happen should be ideated. Educational sessions need to be developed thoroughly keeping in mind the number of students it has to reach. I personally think, the point of such sessions are lost if the majority doesn't get the benefit.

Panoptic View on Digital Payments Through an Ethical Lens

The IMA CHRIST Student Chapter conducted a panel discussion on India's Payment ecosystem on the 26th of November 2022, browsing through topics like cryptocurrency, blockchain, Central Bank Digital Currency (CBDC) and de-dollarisation. The panellists for the event were Mr Prahlad R, Chartered Accountant, Mr Mustafa Bedawal, Product Manager at S&P 500, Mr Aakash, Editor-in-chief of Doodhwala, Mr Sharad Kapoor, Finance Coach-Kapoor School, and Mr Adhikar Naidu, an alumnus of London School of Economics. The moderator for the session was Mr Uday KT, Director-Tax Division, EY.

The event started with a welcome from the event's MCs, Mr Chris Nelson and Ms Namratha Prince, to the speakers named earlier, Dr Tomy K Kallarakkal, Dean, School of Commerce, Finance and Accountancy, Dr Biju Toms, Director, School of Commerce, Finance and Accountancy, Dr Karthigai Prakasam, Head, Department of Commerce, faculty members, members of the IMA CHRIST Student Chapter Bangalore and the audience. They then introduced the IMA CHRIST (Deemed to be University) Student Chapter, its vision, past events and future trajectory.

The President of the IMASC, Ms Shreya Sarawgi, welcomed and introduced the proficient speakers and formally commenced the event.

The discussion started with Mr Prahlad, orienting the audience on the history and evolution of India's payment system, explaining the physical cheque deliverance and clearing house functions during the 70s-80s. The evolution of the digital shift would begin for India, from its high-value transactions being cleared in a day to the now ubiquitous UPI. "Formalisation of our economy is the biggest achievement of UPI", said Mr Prahlad.

Mr Sharad then spoke on the regulators' role and moved the discussion to UPI charges that a recent RBI paper deliberated on. He believed that levying these charges would 'turn the clock back on the advancement into a cashless society. He provided that a cashless economy would

mean better 'detection, prevention and prosecution.' Mr Sharad proposed that only high-value transactions be charged, and the retail trades are left free.

The discussion was then directed to the role of cryptocurrency in a digital payments system; the core reason for the inception of cryptocurrency, with the parallel advent of blockchain, was to act as a decentralised payment medium. Mr Aakash shed light on this peer-to-peer network, highlighting cryptocurrency's ability to facilitate cross-border transactions anytime, any day, with no middlemen involved.

The next phase of the discussion moved on to the digital currency backed by the government, i.e. the CBDC. Mr Mustafa began this discussion by introducing the different forms of currency today: stablecoin, cryptocurrency and CBDC. He further explained that CBDCs were sovereign money directly issued by the central bank. CBDC is also a global phenomenon, and he concluded by saying that India is looking at the best practise or success factors of other digital currencies for its adoption.

Mr Adhikar agreed on the good impacts of CBDCs, especially their propensity to control the parallel economy that has grown over the years. It could prove a valuable tool to help countries maneuver their monetary policies more effectively and drive certain parts of the economy with CBDCs focused on 'speed and scale'. He also offered that there are many successful use cases.

Mr Sharad countered that people might begin to park their trust in cryptocurrency once the CBDCs are rolled out, in a significant move to 'separate money and state'. The choice would be between a centralised currency, extensively controlled and monitored by the state and a borderless currency that provides transparency and autonomy. He highlighted the disadvantages of introducing CBDCs, such as the arbitrary printing of currency out of thin air or the devaluation of a currency, that could hurt the everyday citizen. He mentioned that the The overarching principle of personal finance was to 'delay your gratification, have patience and think long term.

Concerning dollar hegemony and the possible move away from it, Mr Mustafa agreed that de-dollarisation was underway and that with the advent of digital currencies, there is even more scope. Over time, he suggested that there could be an arrangement between major economies concerning this.

This concluded the panel discussion, and the floor was now open to questions. The first question pertained to India's transition to a cashless economy and if that transformation could be possible shortly, which we expect to be a recessionary period.

The second question was on who would bear the interest for CBDCs if the Central Bank would directly issue it. Mr Sharadh and Mr Mustafa answered the questions.

After the panel discussion concluded, Team Dhwani, a pan-university dance team, performed their act 'Sweet Nothings'.

The event ended with the Vote of Thanks delivered by the IMASC Secretary, Ms Naitictaa Sahu and the university anthem.

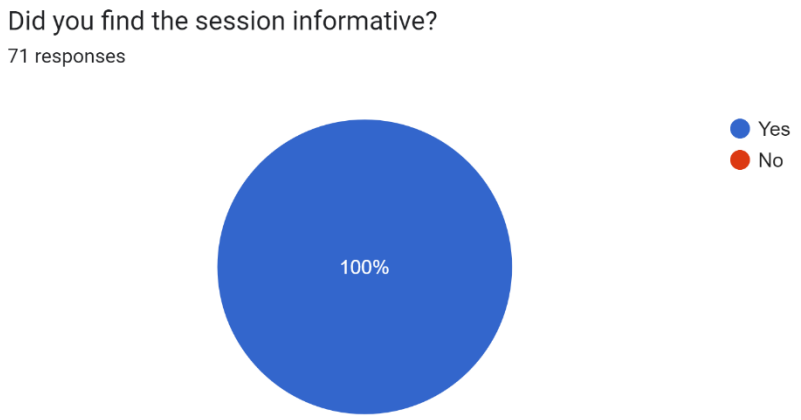
Annexures

1. **Feedback**
2. **Poster**

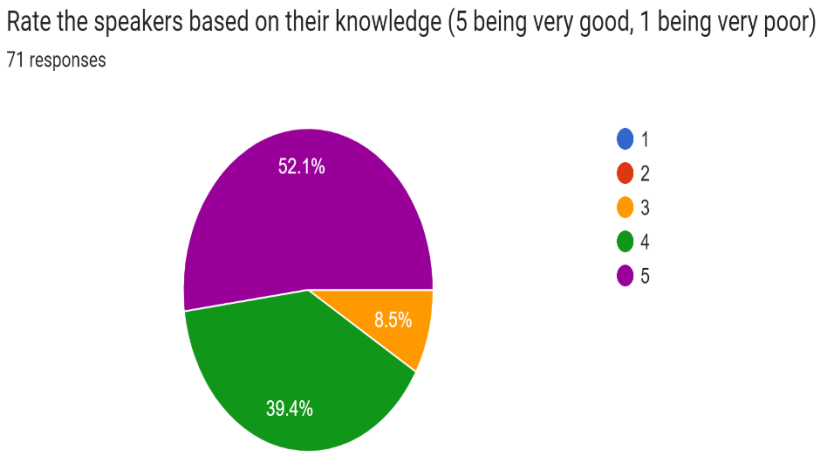
1. Feedback

1.



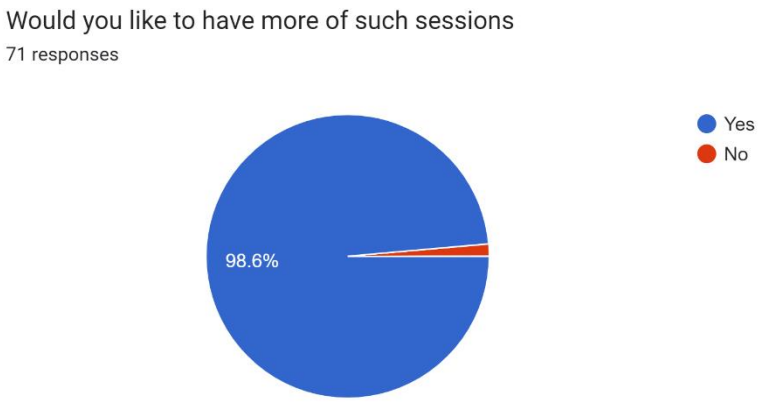
All the respondents found the session informative.

2.



Over 50% of the respondents gave the speakers a rating of five based on the speaker's knowledge expressed during the session.
All the other respondents found the speakers very good in terms of their knowledge based on the ratings of three and above.

3.



98.6% of the respondents would like more of such sessions to be conducted.

4. Any feedback or suggestion for the upcoming sessions?

- The session could have been longer as the topic was interesting and the panelists were great.

- It was good but they should interact with the audience more.

- The panel discussion was great as it helped us with widening our understanding on cdbc, crypto and a little about digital rupee; only if the session was long enough for them to talk more and impart us with the bigger picture for our future with it.

- It would be great if a panel discussion could be more participative where in students also get to participate.

Going ahead, the panel discussions or any such activities conducted would be done with the idea of audience interaction kept in mind. There would be more time for Q&A sessions so that the audience will feel like they have gotten the best of the session and have all their doubts clarified. The key would be to increase interaction.

ACTIVITY REPORT

UDBHAV

General Information

Type of Activity	Intra-departmental fest
Activity Title	Udbhav
Date	29th November, 2022
Time	10:45 a.m. to 1 p.m.
Participation Type	Team (3 members per team) - 40+ teams
Activity Objectives	● To provide a learning opportunity for aspiring entrepreneurs. ● To encourage 'out-of-the-box' thinking, and enhance critical thinking. ● To help the participants develop their entrepreneurial skills by providing real, relevant problems that require unique solutions. ● To assess the use of the participants' ability to pitch their business with confidence.
Venue	Block 4, KE Auditorium

Event Details:

Event Summary	● Udbhav is an intradepartmental entrepreneurship fest organized by UDAAN, the official E-Cell of the Department of Commerce, for all the first, second, and third-year students. The event aimed to test the ability of the teams to take up challenges outside their comfort zone, and help develop an entrepreneurial mindset. ● Pre-event, a workshop on business planning was held to prepare the students for various aspects of the fest. ● The first round, conducted on 24th and 25th November was held online. The case study-based round required participants to work on the overall revamping cum- restructuring of a company. The deliverables for the round included a PPT and an executive summary report. ● The second round was held on 28th November, 2022, and included a creative aspect of web designing, which was taught to all the participants prior to the round through a preparatory workshop. ● The final round was conducted on 29th November, 2022 at 10:45 a.m. at the KE Auditorium. ● The event was a pan-university event and received registrations from more than 130 teams across all the deaneries of CHRIST (Deemed to be University).
Rounds	**<u>Pre-Event Workshop</u>** Prior to the event, a B-Plan workshop was held, where Professor Rishikesh K.B introduced the students to the different aspects of Business Planning, and how they could be applied to entrepreneurship. The workshop aimed to prepare all the prospective participants for UDBHAV, and build enthusiasm towards the event. Further, stalls were set up, where student entrepreneurs from the university could sell items of their own, and enhance their sales and pitching skills. **<u>Round 1 (24th November - 25th November 2022)</u>**

	● The first round of UDBHAV began on 24th November, at 9 a.m. ● The round involved a case study submission, and was held online. ● The participants were given a scenario based on real, happening issues faced by startups (BharatPe, Twitter, Byjus, etc). ● A PPT of 7-8 slides, along with a one page report containing an executive summary of the proposed plan of recovery with relevant marketing strategies, image makeovers, and regaining investors' confidence was to be submitted. ● Brownie points were given to participants who prepared extra deliverables such as videos to go along with the presentations. ● Submissions were closed on 25th November, at 11:59 p.m. ● After the evaluation of the submissions 20 teams qualified for Round 2. **Website designing workshop:** ● After the Round 1 there was a website designing workshop conducted by the UDAAN team members through Google Meet platform. ● This workshop gave the participants an idea about how to design a website in order to provide the assistance in the deliverables required in Round 2. ● The main aim of this workshop was to familiarize the participants with two website applications- Google sites and Wix. **Round 2 (28th November, 2022)** This round was held in Room number 911, Central Block at the Central Campus in CHRIST (Deemed to be University). It was an offline presentation round in which the participants were supposed to present their Round 1 presentations along with their websites. ● The company website was one deliverable in Round 2 and the creation of the same was taught in the website designing workshop.

- The participants presented their PPT's and websites in a time span of 7 minutes following 8 minutes allocated for the Q&A session and rebuttals.
- Brownie points were awarded for extra efforts such as creating videos for the PPT, attention to detail touches, highlighting small details etc.
- After the presentations of all the 20 teams there were 4 teams which got shortlisted for the Final round.

Finals (29th November, 2022)

The final round was conducted in the KE Auditorium, 4th Block, Central Campus of CHRIST (Deemed to be University). The theme of the round revolved around the aquatic industry, and asked the participants to present their business plan for a company of their own. The participants were given 8 minutes to explain their ideas and strategies, through a presentation not exceeding fifteen slides.

- Four teams from various department across the university were shortlisted, namely: **Deal Makers, Binod, Dholakpur, and La Jawaab.** Each of the teams, with three members each, presented their solution to the problem statement with a unique and creative take.
- Following the presentations, the teams were given the opportunity to answer the judges' questions and provide rebuttal the time for which was 7 minutes.
- The teams were judged on the basis of their confidence while presenting, clarity in the business model, the logistics, and financial plan. They were also questioned and probed on these aspects.
- The winner of the event was team La Jawaab and the team was presented with a cash prize of INR 4000/- and the Runner Up was team Dholkapur and they were awarded with a cash prize of INR 2000/-
- After all the teams presented their ideas, the judges were given mementos, following which Team Taal, the Department of Commerce's dance team, performed on stage.

	● Dr. Saji Varghese, a renowned sustainability champion and entrepreneur, then addressed the audience, talking about the need for courage to bring about revolutionary ideas and initiative. He explained that in reality, taking an idea forward and selling it is harder than it seems to be. He also proceeded to talk about how he brought his biodegradable straws to the market, and mentioned the role of Christites in his venture. The encouraging words left the audience inspired, and provided multiple takeaways for all the aspiring entrepreneurs. ● The event concluded with a thank you note from Dr. Deep Jyoti, Faculty Coordinator, UDAAN. He thanked the audience for their support, and encouraged all the students to approach UDAAN if they have ideas they wish to bring to life, no matter how big or small.
Judge/Speaker (s)	Finals: Mr Subin K Nair Dr Saji Varghese
Activity Outcomes	● The event created awareness among students from all over the university of UDAAN and its fests. ● By integrating creative and learning elements through workshop stalls, UDBHAV left the participants with multiple takeaways that would help them in the future. ● By providing the opportunity for students to sell their products at stalls, the event provided practical experience. ● UDBHAV saw great enthusiasm and participation not pnly from the Department of Commerce, but other Departments as well. This proves the success of the event in reaching a wide audience.

Guest Lecture on Wealth Management

The Core of the IMA CHRIST Student Chapter which includes the President, the Secretary and the Treasurer conducted an orientation session about the different Competitions and Scholarships offered by IMA. It was an introduction to the first and second years about the Competitions and Scholarships offered by IMA. The orientation covered the following scholarships:

1. CMA Scholarship

2. IMA MEF and SCMS Scholarship

3. IMA Century Scholarship

The different aspects about the scholarship, eligibility criteria for applying for these scholarships, what the participant is required to do, what they will get, submission process, post acceptance requirements. The students were encouraged to apply for these scholarships. The later part of the orientation covered the Events organized by IMA. The following events were covered:

1. IMA Student Case Competition

2. IMA Student Manuscript Competition

3. IMA Jimme Smith Student Leadership Experience Program

The different aspects about the events were covered which included:

1. What is the competition about?

2. What is the process?

3. What is the prize

4. Eligibility Criteria

5. Submission Process

To conclude the session, a Q&A session took place to clarify the students' doubts regarding the scholarships, competitions, and opportunities offered by the IMA that cater to the students.

Title/Position	Master.
Organization	-
Title of Presentation	A Vocal and Piano Recital

Participants information:

Type of Participants	Students, Faculty, and anyone interested.
No. of Participants	40

Synopsis of the Activity

Highlights of the Activity	Krishna started off, performing He Shall Feed His Flock and Ave Maria, among others, with great skill and elegance. He then took our breaths away with his performance of Prelude and Fugue in C Major, following it up with all three movements of the Sonata in F major Op. 6. by Beethoven. Another piano performance, this time the Chopin Prelude No. 4 in E Minor, came next. He also performed a Liszt Etude and Tchaikovsky's Meditation among the rest of his pieces. He then concluded his performance with three more vocal pieces, the last of which was accompanied by one of our students: Caleb Sam Sentic from 5MPE. During a brief question-answer session, he also played one of his own compositions: which was both played and composed with great care and skill.

Key Takeaways	It was inspiring to watch such a young fledging talent perform with such conviction and confidence, and I'm sure everyone in the audience was wowed by the incredible skill he displayed with both his voice and fingers. His energy, speed and near flawless accuracy, which were on full display during his performance of the Liszt Etude, would serve as a worthy example for our students to keep in mind while preparing for their own future recitals. It was awe-inspiring to watch him slide flawlessly from vocal performances to piano and back to his vocal performances.

	His skill in composition too cannot be overlooked, and neither can his immediate readiness and confidence to demonstrate one such piece on the piano. It was awe- inspiring to see these qualities in such a young, fledging, prodigious human.
Summary of the Activity	Krishna began his concert with three vocal pieces, followed it up by performing eight separate piano pieces, and ended his recital with three more vocal pieces. He also indulged us with a short question-answer session, during which he also played one of his own compositions.
Follow-up Plan if any	Invite Krishna in future for more recitals.

Title of Presentation	A Vocal and Piano Recital

Participants information:

Type of Participants	Students, Faculty, and anyone interested. Open to all.
No. of Participants	80

Synopsis of the Activity

Summary of the Activity	Fateen and Falisha, performed various contrasting voice and piano western classical pieces ranging from baroque to 20th century. It was inspiring to watch such young fledging talents perform with such conviction and confidence, and I'm sure everyone in the audience were wowed by the incredible skill they displayed with both with voice and piano. After the performance there was also a brief Q and A session, where various questions about practice routines, selection of repertoire, stage presence and communication, interpretation and so on were asked by the audience. The energy, speed and near flawless accuracy, which were on full display during Fateen's performances, would serve as a worthy example for our students to keep in mind while preparing for their own future recitals. It was awe-inspiring to watch these young artists slide flawlessly between vocal and piano performances.

Follow-up Plan if any	Invite Fateen and Falisha in future for more recitals.

Augustine Paul

Augustine Paul is the Music Director of the Madras Musical Association Choir and was instrumental in forming the MMA Symphony Orchestra as well. A well-known music educator and conductor in Chennai, he holds a Licentiate Diploma in Music from Trinity College, London, and a Masters in English Literature.

Augustine is the founder-leader of "The Octet Cantabile", a mixed double quartet, which has been performing across the globe for 25 years. He also formed "Chromatics," an ensemble that performs opera arias and art songs. Augustine has performed with and conducted the MMA choir in concerts in London, Sydney, Rome, Vienna, Singapore and Colombo. He has been the guest conductor of the Kuwait Chamber Chorale for the last three years. Under his baton, the MMA Choir won gold and silver diplomas in the Asia Pacific Choir Games, in October 2017.

Andrey Morozov

An Opera and Concert singer, Andrey Morozov has also specialised in the Tuba and has 41 years of conducting experience. He has also performed in numerous operas including but not limited to Nabucco, Le Nozze De Figaro, Pagliacci, Madama Butterfly, Carmen, and Eugene Onegin over nearly two decades.

He has performed at the National Opera of Belarus, Hermitage Theatre, Bolshoi Theatre, Palau de la Musica, Barcelona, Auditorio Nacional and Teatro, Opera and Music Festivals in Germany, Finland, Poland, Spain, Portugal, Netherlands, and Lithuania to name a few. He is now a Professor of Conducting and the Head of Vocals at Christ University.

Jay Rajendra Raythatha

A classical Pianist and Music Educator, Jay Rajendra Raythatha specialises in classical and romantic era's piano repertoire. An Assistant Professor and the Head of Piano at the Department of Music - CHRIST (Deemed to be University), Bangalore, he graduated from Goldsmiths, the University of London, UK with a Master of Music degree in Piano Performance and Research. He has a degree in Engineering but is a musician by passion.

Jay has given various performances across London & India, which include solo piano recitals and performances with the Indian National Youth Orchestra.

Azriela Maben

Azriela began learning the piano at the young age of five from Nakul Jogdeo and has studied under multiple tutors since then including Roxana Anklesaria, Liudmila Drazhnik, Natallia Kapylova and Prof. Jay Rajendra Raythatha. She has completed her ATCL in Piano from Trinity College London. Having won both national and international competitions, she had the opportunity to learn from eminent pianists including Christopher Norton, Dennis Alexander, Raj Bhimani, Prof. Tomislav Baynov and Pervez Modi.

She is currently a second year student pursuing an undergraduate degree in Music, Psychology and English at Christ (Deemed to be University) and aspires to make music her career.

Jeremiah Christopher

Jeremiah started music lessons with Mr. James Mendelssohn at the young age of 8. He passed his Grade 8 Piano Examination, with Distinction, from Trinity College London in 2012 under Mrs. Mira Ben Rodrigo. He has completed his ATCL in Piano, AMusTCL in Music Theory and Grade 8 in Singing, under the guidance of Voice Trainer and eminent conductor of the Madras Musical Association (MMA), Mr. Augustine Paul. Under his baton, Jeremiah is the accompanist of the MMA choir and has been a member of the orchestra. He has also been a part of the Madras String Ensemble since 2017. In addition to singing and playing the piano and viola, Jeremiah has a keen interest in conducting. In 2020, Jeremiah won the prestigious national-level piano competition and festival " Con Brio " conducted by Furtados, adding yet another feather to his cap.

Satvik Chenjeri

A final-year student of the western classical music department, Satvik Chenjeri has been studying opera under the tutelage of Professor Andrey Morozov.

He is actively pursuing western classical and pop music and has taken part in multiple competitions and events, such as the Christmas Spectacular concert in the year 2021. He has had numerous solos during past concerts and will be singing the tenor solo piece, Deposuit potentes, for the concert. He will also be singing the Alto-Tenor duet, Et misericordia.

(Deemed to be University), Bangalore

Synopsis of the Activity

Summary of the Event	This event was one of first large-scale concerts organized by the Department of Western Music In collaboration with the MMA. Collaborating across two cities, conductors Augustine Paul, Andrey Morozov and Jay Rajendra Raythatha conducted a 170 strong ensemble that consisted of members ranging from the age of 12 to 74. The concert was held in Chennai on 12 November 2022 at Women's Christian College auditorium. In a celebration of Western classical music, the concert included J.S. Bach's Magnificat in D, a rarely performed piece in the Indian context and W.A. Mozart's Piano Concerto No. 12 in A Major by pianists Azriela Maben and Jeremiah Christopher, alongside Bach's Brandburg concerto and other choral works performed by the guest choirs in the respective cities. It was a great learning experience for everyone, especially for the Music Dept. students to perform alongside a string ensemble and another experienced choir and conductor. The dept wishes to foster a tradition of such annual performances in future.
Follow-up Plan if any	Yearly collaboration with MMA

Type of Participants	Student, Faculty, and anyone interested. Open to all.
No. of Participants	120

Synopsis of the Activity

Highlights of the Activity	The concert was to spread awareness and promote western classical music amongst the general public, through the Alumni, thus also providing them an opportunity to showcase their talent and skill set. Friyan, started off the concert with one of Chopin's Etudes (Op. 9 No. 1), followed by Smruthi's rendition of two arias: one of Zerlina and one of Mimi. The concert continued with Rhea performing the beautiful Chopin Nocturne Op. 9 No. 1, Viha then taking over the stage with two arias: Vissi D'arte and Aria of Pamina. Ekta was the final pianist of the afternoon with her performance of Brahms' Intermezzo Op. 118 No. 2 and Jemimah ensured that the concert ended on the perfect note with Casta Diva and Think of Me (from Phantom of the Opera). By the time the final performance was done, the concert hall seating was filled and quite a few of the audience could be seen standing. Sarah Jose, closed the show with a vote of thanks.
Key Takeaways	For most of the students of the department, seeing their seniors perform live was a dream come true, most of them being bereft of the experience in their final years. It not only gave them an idea of the performance standards that was expected of the students of the department, but also a subtle reminder that creating and performing music does not necessarily end with the conclusion of your degree.
Summary of the Activity	The concert consisted of alternating piano and vocal performances, with the pianists and vocalists taking alternate turns to wow the enthusiasts seated in the hall. As the name suggests, the performers were the BA-MPE Alumni from the batch of 2021. Prof. Andrey accompanied all the vocalists on the piano. The event was moderated by Sarah Jose and Nidhi Samuel, students of final year BA-MPE.

International Workshop on Data Science and AI

Descriptive Report

An international workshop on Data Science and AI was organised by the School of Sciences in collaboration with Christ Innovation and Incubation Centre (CIIC) on 3rd February 2022. Dr. Gaurav Aggarwal, Assistant Professor, Amity University, Tashkent, Uzbekistan was the speaker for the event. It was a one-hour online event conducted on WebEx. The event was coordinated by the student associates of CIIC, Arinjay Jain (4BSc EMS) and Shreya Srivastava (4BSc EMS).

The event started with a silent prayer. The host introduced the speaker to all the participants. Dr. Gaurav then threw some light on Data Science, Machine Learning and AI. Using examples, he also briefed that Data Science is multidisciplinary. He also discussed various real-world applications of data science. The session ended with a Q&A session. The vote of thanks was delivered by Arinjay Jain (4BSc EMS).

International Workshop on Data Science and AI

Speaker's Brief Profile

Dr Gaurav Aggarwal is an International Faculty, who received his Bachelors in Technology in Instrumentation from University Science and Instrumentation Center, Kurukshetra University,India, in 2006. He did his Masters in Technology in Computer Science and Engineering from theDepartment of Computer Science and Application from Kurukshetra University, India, in 2008.He has completed his PhD from The NorthCap University, Gurugram, India, in speech signal processing and machine learning in 2019. Currently, he is working as an Assistant Professor in the Department of Information Technology and Engineering at Amity University Tashkent,Uzbekistan. His area of interest includes signal processing, machine learning, and cognitive sciences.

He has published more than 20 technical papers and reports in the above research areas on national and international platforms. Dr Aggarwal has published more than 13 international research papers and 3 national research papers while having been granted a patent on the title "Generation of the electronic bill for transaction reference number using blockchain technology." His areas of research are data mining and signal processing.

INTERNATIONAL WORKSHOP ON

DATA SCIENCE & AI

Data Science is the field of study that combines domain expertise, programming skills, and knowledge of mathematics and statistics to extract meaningful insights from data.

Artificial Intelligence (AI) is a wide-ranging branch of computer science concerned with building smart machines capable of performing tasks that typically require human intelligence.

Dr. Gaurav Aggarwal
Assistant Professor
Amity University,
Tashkent , Uzbekistan

3 February 2022 | 3:00 PM - 4:00 PM.

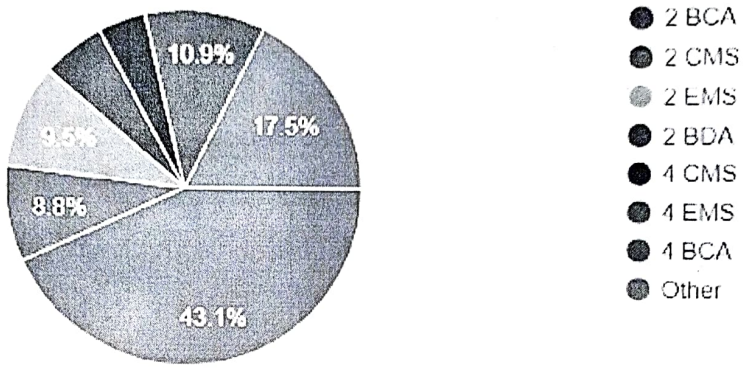
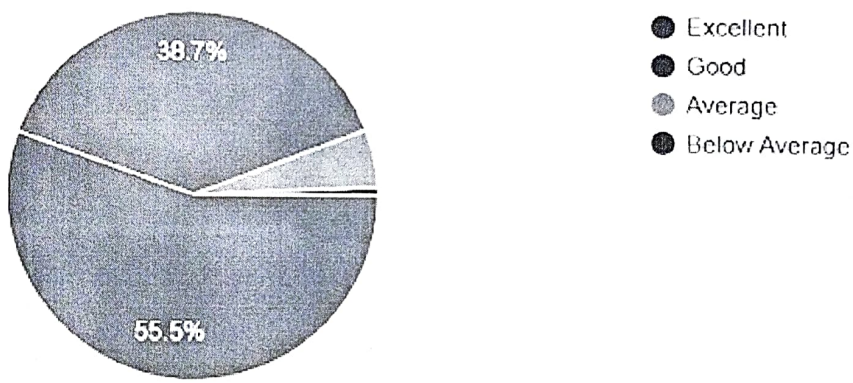
Feedback

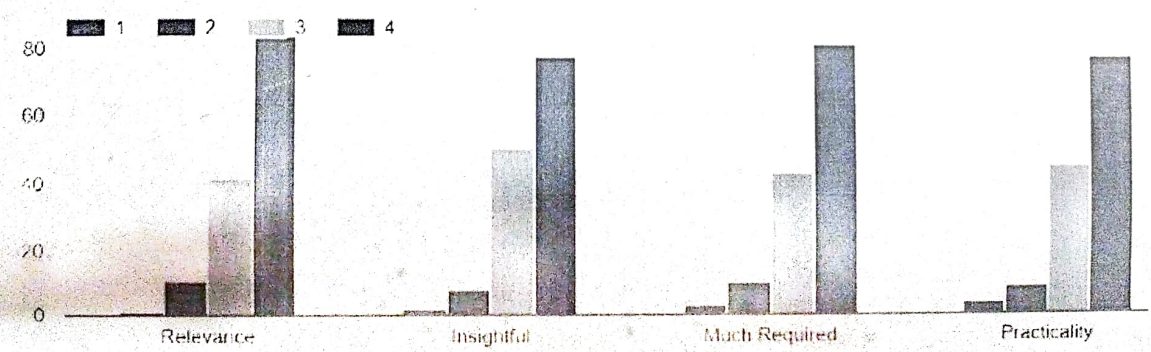
1. **Class**



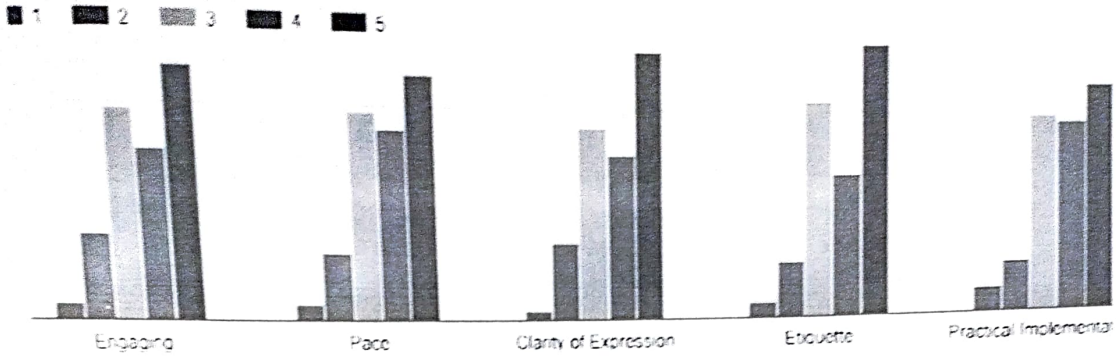
2. **How would you rate the overall session?**



3. **Topics discussed in the session.**



4. Feedback on the Delivery of the topics by the speaker.



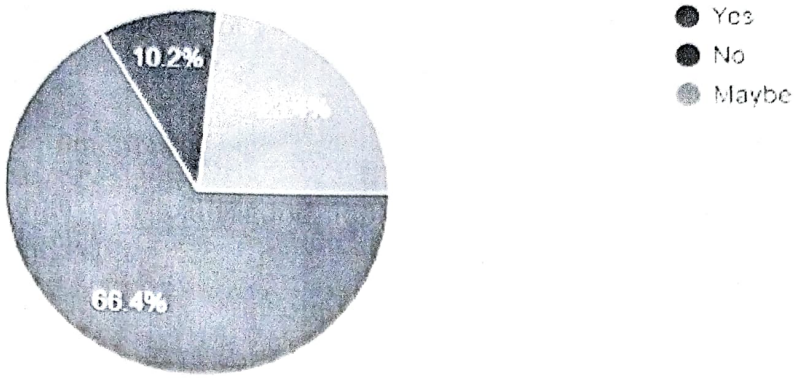
5. Your take away from the session.

- Learnt about various domains of data science n AI
- Useful insights about data science and AI
- Importance of data science
- It was really helpful for me as i am interested in pursuing a career in AI or Data science
- Data science as an emerging career
- Importance of data in any field and future of AI during upcoming time.
- Data Science applications
- There is a lot of scope in Data Science in the future.
- AI in 2022
- We learnt about Data Science and AI implementation in real world
- Interesting facts about AI and data science
- Data science in today's world and how it works
- Applications of data science, what all to learn to become a Data scientist and engineer.
- Nothing is possible without data, but nothing is impossible too. Data security determines the growth of data science and how it stays relevant.
- Difference between various professions for big data analysis.
- Data science is a field that can be taken up by student of any background with a little bit of programming language

  How digitisation of our everyday things is the future
- Uses cases of AI
- application of various subjects I'm learning in practical life and various job opportunities.

CHRIST (DEEMED TO BE UNIVERSITY) SCHOOL OF SCIENCES DELHI

6. **Would you like to attend more of such sessions in future ?**



7. **Any other comments that you would like to share with us for further improvement.**

- The content was not very new.
- The session was good for us.
- Excellent.
- Improve interaction.
- This webinar was really good, looking forward to more events based on Data Science and AI.

Action Taken

As per the feedback given by the students more such trending topics can be considered for future events. More student interaction should be there during the sessions. Relevant videos must be included.

Activity Report

General Information

Type of Activity	**Guest Lecture**
Title of the Activity	**Deep Learning for Twitter Personality Inference**
Date/s	**10th August 2022**
Time	**1430-1530**
Venue	**Room 502**
Organizer	**Dr. Amita Basu**

Speaker/Guest/Presenter Details

Name	**Mr. Partha Kadambi**
Title/Position	
Organization	**--**
Title of Presentation	**Deep Learning for Twitter Personality Inference**

(Add/repeat above rows if there is more than 1 Speaker)

Participants profile

Type of Participants	**Student**
No. of Participants	**72**

Synopsis of the Activity (Description)

Highlights of the Activity	**1. Discussion on the broad conceptual details of sentiment analysis and the relative utility of various specific inference algorithms including BERT, Word2Vec, and a naïve Bayesian algorithm** **2. The four orthogonal MBTI dimensions were discussed in the context of their predictive value for behavioural manifestations.**

	3. The logic behind the possibility of inferring personality from images was next discussed. **4. The process of training and testing the model on all three types of data – bios, tweets, and images – was discussed.** **5. Students were shown how eparate algorithms were trained to generate sample tweets putatively characteristic of the 16 MBTI personality types.**
Key Takeaways	**This invited talk provided an interesting insight into the range of work available for psychologists outside the traditional domains of clinical and organisational psychology. The interactive session engaged students with interactive games and a brief quiz to close the session. It was also observed that a human audience could immediately outperform any of the algorithms based on instantaneous bio or tweet analysis. From this discrepancy the conclusion was drawn that naïve human observers can outperform sophisticated, highly trained-and-tested computer algorithms, which should immediately lay to rest any apprehensions regarding the possibility of AI 'taking over the world.'**
Summary of the Activity	**Mr. Kadambi discussed his work in applying Artificial Intelligence and Neural Network algorithms that can infer dimensions of Twitter users' self-rated MBTI typologies based on Twitter bios, texts re/tweeted, and profile images using BERT, Word2Vec, and a naïve Bayesian algorithm.**

International Talk on Digitization, Data and Technology

Descriptive Report

An international talk on *Digitization, Data and Technology* was organised by the School of Sciences on 27th January 2022. Mr. Pratik Bhandari, Research Scholar, Deakin University, Australia was the speaker for the event. It was a one hour online event conducted on WebEx. The event was coordinated by the University Student Council members of School of Sciences - Om Chetwani(4BCA) , Upal Chaudhary (4B.Sc EMS), P. A Neeraja Nair (4B.Sc EMS).

The event started with a silent prayer. The host introduced the speaker to all the participants. Mr. Pratik then explained the concept of Digitization and Data. He also explained how digitization can help in bringing a digital revolution. The speaker shared his views through various videos and PPT slides. The session ended with a Q&A session. The vote of thanks was delivered by Upal Chaudhary (4B.Sc EMS).

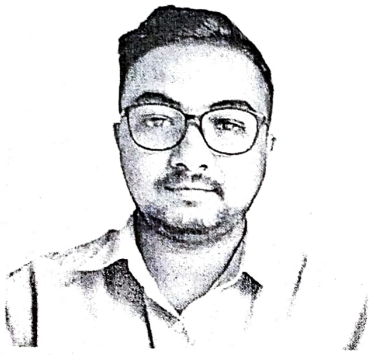
CHRIST (DEEMED TO BE UNIVERSITY) SCHOOL OF SCIENCES DELHI (NCR)

School of Sciences

CHRIST (Deemed to be University), Delhi NCR

International Talk on Digitization, Data and Technology

Speaker's Brief Profile



Pratik graduated with a Master's of Information Technology specialising in software development, software and services and data analytics in 2019 from Deakin University. He completed his undergraduate degree in Bachelor in Technology, Computer Science and Engineering from Kurukshetra University in 2016.

Prior to that, he was engaged in delivering lectures to high school and undergraduate students in Nepal. He has teaching experience of modules Computing 9691 A levels, University of Cambridge, Computing 9608 A levels, the University of Cambridge in Cambridge GCE A levels and Database Management System and Final Year Project to students of Bachelor of Computer Engineering, Bachelor of Information Technology, and Bachelor of Computer Applications.He has also experience working in software development, the higher education sector, education and migration and the travel industry. He has been engaged in digital strategy planning and IT business advice for small-scale businesses since 2016, including software development, digital marketing, and IT services. He has worked on projects related to impact of public health education on controlling cardiovascular diseases and Ebola disease prediction prior to joining PhD (exploring risk and diseases prediction and modelling related to the public health sector).

Currently, he is working as a PhD candidate at Deakin University on the "Infrastructure Futures" project focusing on the changes and evolution of "water utilities". He is focusing on applications of systems thinking and system modelling approaches to improve understanding of changes in water utilities, increasing system interconnections and interdependencies and the growing complexity.

He has a vision of contributing to science and society through research, exploring new mechanisms and ways of thinking for understanding systems, changes, system interconnections, implications of interconnections and exploring complex world problems for a sustainable and resilient future.

CHRIST (DEEMED TO BE UNIVERSITY) DELHI (NCR) SCHOOL OF SCIENCES

4. **Feedback on the Delivery of the topics by the speaker.**

5. **Your take away from the session.**
   - About Data science, artificial intelligence, machine learning.
   - It was a very interactive and helpful session.
   - Development of technology and their uses for humanity.
   - Got more clarity on digitisation and it's relevance and other drawbacks.
   - Data is the future.
   - New Development in the field of Science.
   - Knowledgeable session.
   - This session was important to emphasize and reaffirm the significance of digitization of several fields and how it can benefit the upcoming generations.
   - Digitalization is changing the world.
   - Importance of IT.
   - Demand changes for technology.
   - Insights about data digitisation for large organisations.
   - We should use technology only when required and should not become completely dependent on it.
   - Why digitalisation of businesses is important.
   - We are now in a data-driven society. We have to embrace it and advance ourselves.
   - We learnt how Digitization, Data and Technology are complementary to each other in the growth of any organization.

Guest Lecture on Wealth Management

The Core of the IMA CHRIST Student Chapter which includes the President, the Secretary and the Treasurer conducted an orientation session about the different Competitions and Scholarships offered by IMA. It was an introduction to the first and second years about the Competitions and Scholarships offered by IMA. The orientation covered the following scholarships:

1. CMA Scholarship

2. IMA MEF and SCMS Scholarship

3. IMA Century Scholarship

The different aspects about the scholarship, eligibility criteria for applying for these scholarships, what the participant is required to do, what they will get, submission process, post acceptance requirements. The students were encouraged to apply for these scholarships. The later part of the orientation covered the Events organized by IMA. The following events were covered:

1. IMA Student Case Competition

2. IMA Student Manuscript Competition

3. IMA Jimme Smith Student Leadership Experience Program

The different aspects about the events were covered which included:

1. What is the competition about?

2. What is the process?

3. What is the prize

4. Eligibility Criteria

5. Submission Process

To conclude the session, a Q&A session took place to clarify the students' doubts regarding the scholarships, competitions, and opportunities offered by the IMA that cater to the students.

Synopsis of the Activity (Description)

Highlights of the Activity	1. Knowledge-building 2. Interaction with a panel of experts
Key Takeaways	1. Exploring various dimensions and aspects of G20 Summit 2023 and getting acquainted with different perspectives and stances on the same
Summary of the Activity	The SDG Cell, Department of Economics in collaboration with the University Student Council, CHRIST (Deemed to be University), Delhi NCR Campus; organized a Round Table Panel Discussion on "G20 Presidency of India" on Wednesday, 27th September 2023. The event had faculties and students from the department in attendance. The discussion was conducted in an offline manner. The event began with the emcees introducing the moderator Dr. Salineeta Chaudhuri who then officially welcomed the expert panellists comprising professors from other departments. The panellists were introduced and confidently took the stage to share valuable insights with the attentive audience. Dr. Amit Malhotra focused on the Business Prospects inherent in G20 leadership for India enabling Dr. Rahul Srivastava to smoothly segway into his discussion on International Law and Economic Governance in a Complex World where he discussed the difficulties of simultaneously redefining and redesigning economic international law and examining accountability. The next panellist, Dr. Judith Anne Lal, provided the perspective of international studies on the topic as she discussed the key takeaways and challenges to India's G20 Presidency. The last expert, Dr. Jitender Bhandari provided an outlook on the Economic outcome of the G20

Department of Economics

Shivani

	Presidency and discussed topics of paramount importance such as Climate Financing and reforms in multilateral institutions. During the Q&A session, the panel took charge of addressing the audience's reflections and questions. The event came to a successful end with the felicitation of experts by Dr. Shivani Chaudhry and the proposal of Vote of Thanks.

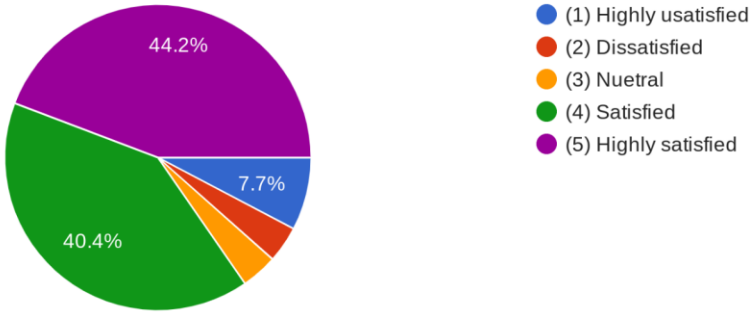
Feedback

Rate your overall satisfaction with the round table discussion on a scale of 1 to 5, where 1 being (Highly dissatisfied) and 5 (Highly Satisfied).

52 responses



From the feedback received, the majority of the participants were HIGHLY SATISFIED with the round table discussion organised.

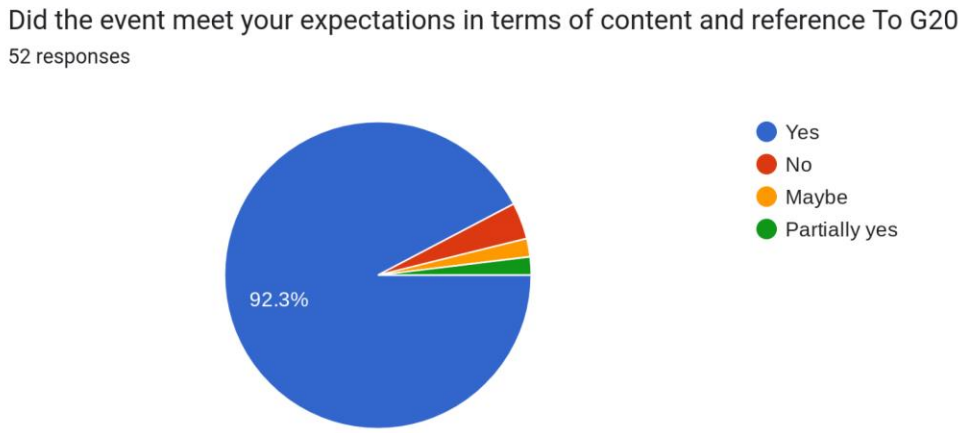
Did you find the event well-organized and smoothly conducted?

52 responses

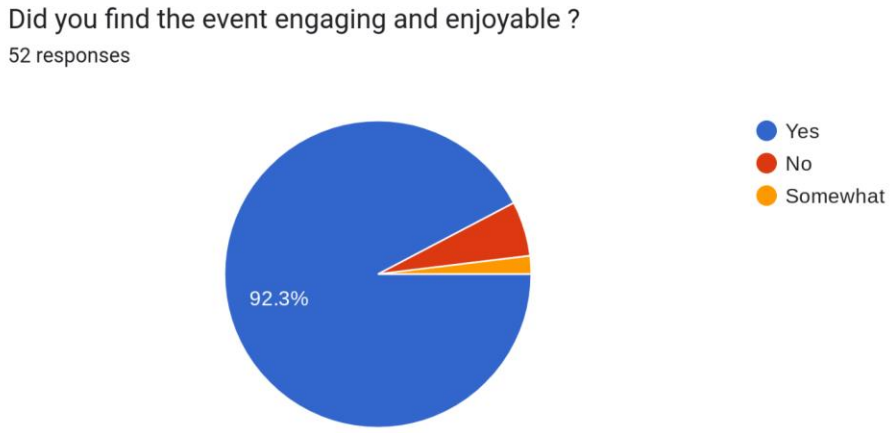
Department of Economics

Shivani

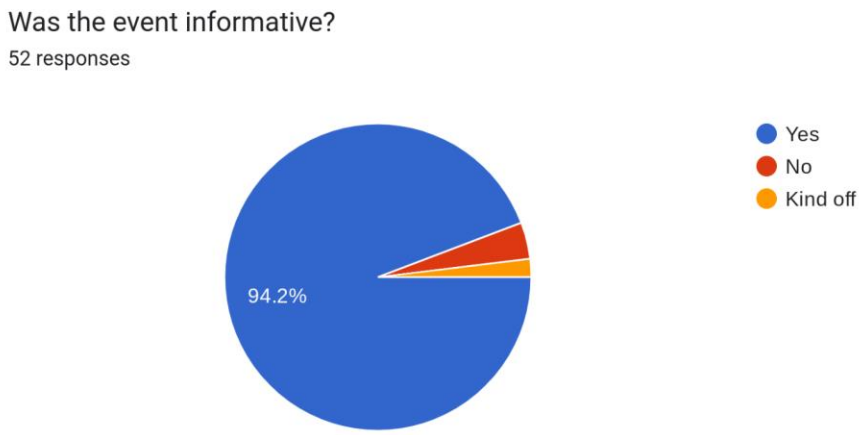
The organization and management of the competition were rated positively by the participants. However there were queries related to Time Management.



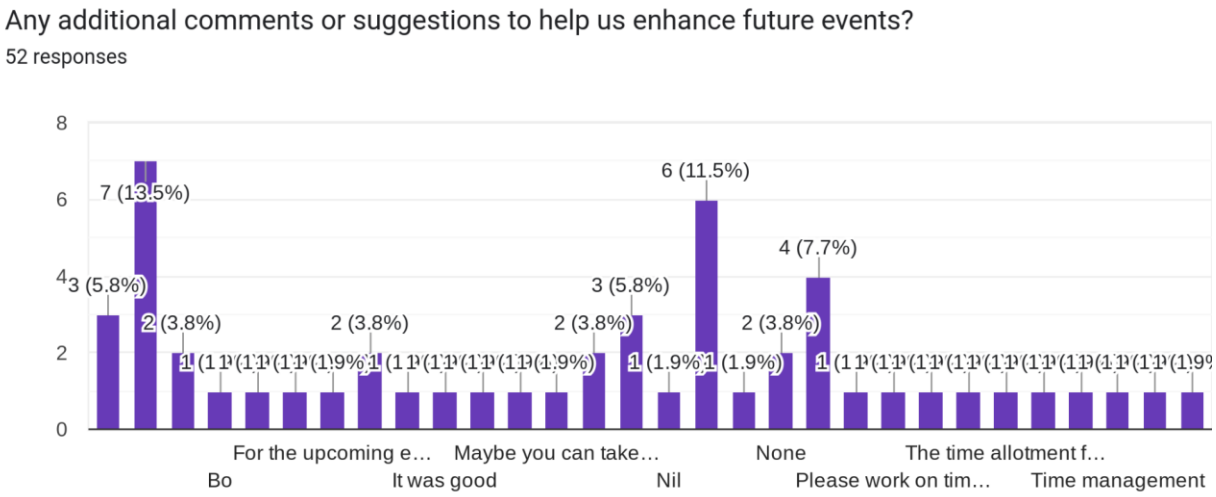
A clear majority of the participants responded that the Round Table Discussion met up to their expectations on G20 summit.



From the response it is very clear that the participants found the event very engaging and enjoyable.



The event has proved to be very informative among the students who attended the Round Table Discussion.



The students felt that the time allotted for such valuable discussions must not be limited to 1 hour. They have suggested working on time management, which would be taken into consideration while organising future events.

IMPACT ANALYSIS:

The following Graduate Attributes were received by the students in the Event

1. Knowledge Sharing: The attitude to help and develop the members of the society for their education and literacy. This event helped in development of knowledge level in students.
2. Cross Cultural Recognition: Acknowledgement of and respect for equality, opportunity in recognition and appreciation of all other cultural followings.
3. Respecting Diversity: Awareness of and insight into differences and diversity and to treat respectfully and equitably.
4. Knowledge Application: Ability to use available knowledge to make decisions and perform tasks.

Synopsis of the Activity (Description)

Highlights of the Activity	1. It was a highly interactive session between the 2nd and 3rd year students and the alumni of the BCom SFH course. 2. The event concluded with a Q&A session where several pertinent questions were answered.
Key Takeaways	1. Students obtained valuable information about how to prepare for internships which involves creating a CV, aptitude tests, interviews, etc. 2. They were also advised that 'learning' should be their main focus while applying for a particular job role/company in order to create value.
Summary of the Activity	Students from the first graduating batch of BCom SFH were invited to answer various questions related to internship opportunities and placements that the students pursuing the course might have, and speak about their personal experiences regarding the same.

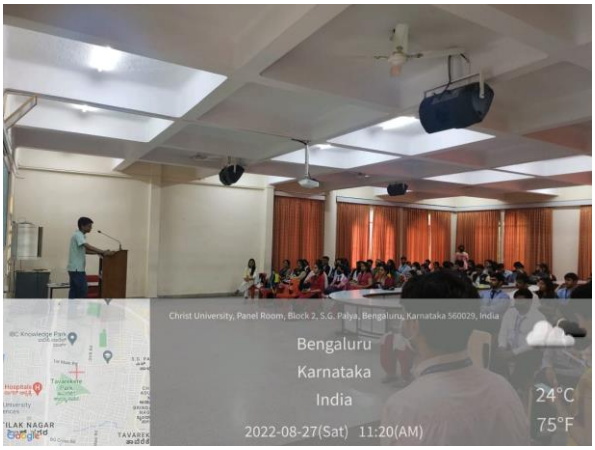
INTERNSHIP AND PLACEMENT TALK

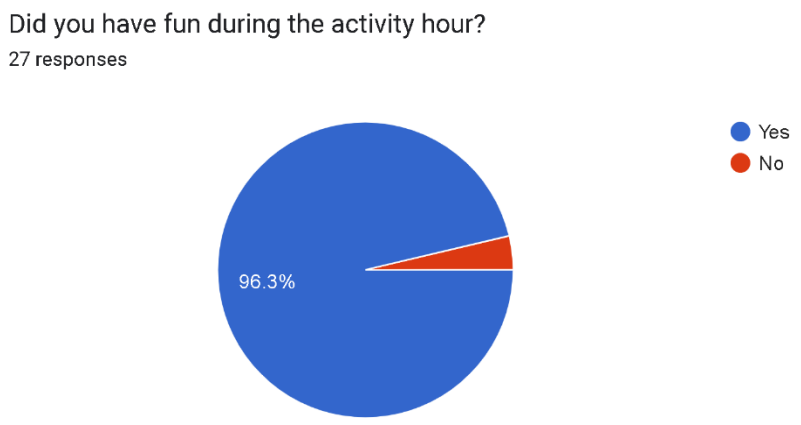
Students from the first graduating batch of BCom Strategic Finance Honours, Christ University – Gaurang Asopa, Shristi Chaudhary and Philip Koshy, were invited to address the students currently pursuing the course about their experience with internships and placements. Each speaker had a unique job profile and provided useful insights on life in the corporate world and how to upskill oneself to be job ready. After an elaborate discussion about the selection process, the alumni spoke about how to build a CV, what resources to use to prepare for aptitude tests, how to ideally answer common interview questions, the different types of job roles a CMA can get, and how much CMA is valued by companies. The interactive discussion was followed by a Q&A session, where second and third-year students had their queries addressed.

Photos of the Activity:



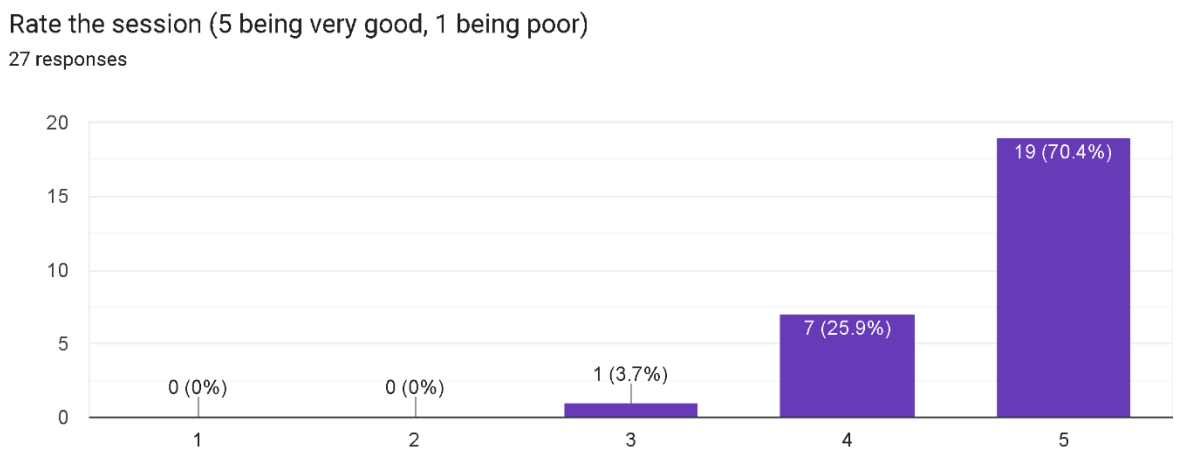
Feedback Data:

1)



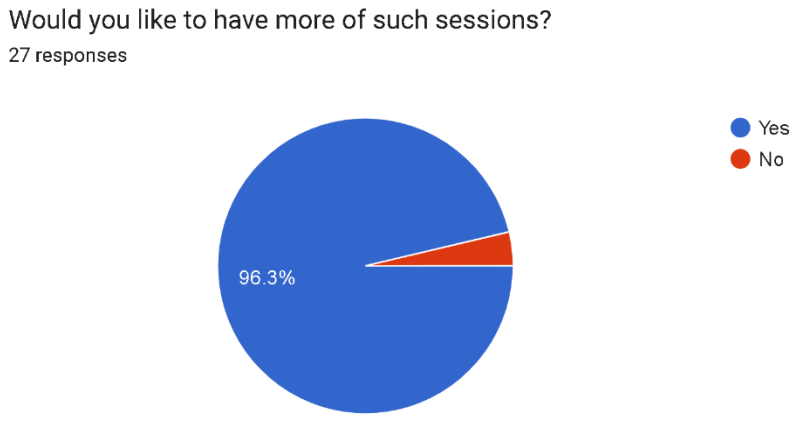
96.3% of the respondents enjoyed the session.

2)



95% of the respondents rated the session a 4 and above.

3)



96.3% of the respondents would like to have more of such sessions.

4) Any feedback or suggestions for upcoming sessions?

- More time for Q&A.
- Some knowledge-based sessions might be great.

5) What kind of events would you like to see the IMA Student Chapter come up with?

- Course on investment from opening demat accounts to investing in stocks/MFs.
- Industry expertise.
- More alumni meets.
- Insightful sessions in terms of college and life after college.

- ( ) No

7. Any feedback or suggestions for upcoming sessions? *

It is great to have people come in and provide us with a lot of knowledge, but it would be great to have a session where each and every student would get to participate. Since it would mean growth of ~~another~~ everyone.

8. What kind of events would you like to see the IMA Student Chapter come up with? *

As students we are very curious about the life after college. It would be great to have simulations of interview, stress interviews and also simulations of work-life

SDG 4: Quality Education

Kidzania- Activity Centre

Event: KIDZANIA
Venue: DECATHLON
Date: 22ND OCTOBER, 2022
Number of volunteers:

SDG Goals:

- SDG 3 - Good Health and Well-being: Encouraging physical activity and sports among students promotes better health and well-being.
- SDG 4 - Quality Education: Sports activities can be integrated into educational programs, contributing to holistic education and skills development.
- SDG 5 - Gender Equality: Ensuring that both boys and girls have equal opportunities to participate in sports promotes gender equality.
- SDG 10 - Reduced Inequalities: Providing underprivileged students access to sports and physical activities helps reduce inequalities in opportunities and well-being.
- SDG 11 - Sustainable Cities and Communities: Creating spaces for sports and physical activities can contribute to building healthier and more sustainable communities.
- SDG 17 - Partnerships for the Goals: Collaborative efforts involving schools, community organizations, and other stakeholders are crucial to the success of such initiatives.

Description and Objective:
The objective of the event was to encourage and partake unprivileged students into activities and sports. It was curated to create a space for the children to use their vigour and passion in sports and health overall.
How the event was planned: the CSA team went to decathlon and booked a place for 5 hours. They warmly received the kids and one could see an evident smile on their faces and they came inside joyfully running. The event was performed in a very organized manner where the kids, 29 in number were provided with transportation facilities. The energetic faces of the children said it all! There were multiple games.
Some of the games played were
Lemon and spoon.
Red light, green light
The three legged game
Chain
Lock and key
The kids sweetly called the volunteers "akkas" and "Anna ". Refreshments and food were provided by the CSA team. After they had their refreshments, they were even taught about segregation of waste by the volunteers. The children ate and drank and had a lot of fun while doing it. They sang and high-fived while conversing with friends and volunteers.
Certificate distribution was conducted and all the children were seen hooting and clearing. This was also a form of encouragement and a type of souvenir that will encourage them through life.

Impact on the community:

1. The kids had a bigger exposure as they moved from the place they originally came from.
2. This created a holistic front for them. They explored sports and activities in a different framework.
3. The kids had a fun time outside of academics and learned the joys of life and learning.
4. The were exposed to healthy competition as the games were fun and competitive.

Panoptic View on Digital Payments Through an Ethical Lens

The IMA CHRIST Student Chapter conducted a panel discussion on India's Payment ecosystem on the 26th of November 2022, browsing through topics like cryptocurrency, blockchain, Central Bank Digital Currency (CBDC) and de-dollarisation. The panellists for the event were Mr Prahlad R, Chartered Accountant, Mr Mustafa Bedawal, Product Manager at S&P 500, Mr Aakash, Editor-in-chief of Doodhwala, Mr Sharad Kapoor, Finance Coach-Kapoor School, and Mr Adhikar Naidu, an alumnus of London School of Economics. The moderator for the session was Mr Uday KT, Director-Tax Division, EY.

The event started with a welcome from the event's MCs, Mr Chris Nelson and Ms Namratha Prince, to the speakers named earlier, Dr Tomy K Kallarakkal, Dean, School of Commerce, Finance and Accountancy, Dr Biju Toms, Director, School of Commerce, Finance and Accountancy, Dr Karthigai Prakasam, Head, Department of Commerce, faculty members, members of the IMA CHRIST Student Chapter Bangalore and the audience. They then introduced the IMA CHRIST (Deemed to be University) Student Chapter, its vision, past events and future trajectory.

The President of the IMASC, Ms Shreya Sarawgi, welcomed and introduced the proficient speakers and formally commenced the event.

The discussion started with Mr Prahlad, orienting the audience on the history and evolution of India's payment system, explaining the physical cheque deliverance and clearing house functions during the 70s-80s. The evolution of the digital shift would begin for India, from its high-value transactions being cleared in a day to the now ubiquitous UPI. "Formalisation of our economy is the biggest achievement of UPI", said Mr Prahlad.

Mr Sharad then spoke on the regulators' role and moved the discussion to UPI charges that a recent RBI paper deliberated on. He believed that levying these charges would 'turn the clock back on the advancement into a cashless society. He provided that a cashless economy would

mean better 'detection, prevention and prosecution.' Mr Sharad proposed that only high-value transactions be charged, and the retail trades are left free.

The discussion was then directed to the role of cryptocurrency in a digital payments system; the core reason for the inception of cryptocurrency, with the parallel advent of blockchain, was to act as a decentralised payment medium. Mr Aakash shed light on this peer-to-peer network, highlighting cryptocurrency's ability to facilitate cross-border transactions anytime, any day, with no middlemen involved.

The next phase of the discussion moved on to the digital currency backed by the government, i.e. the CBDC. Mr Mustafa began this discussion by introducing the different forms of currency today: stablecoin, cryptocurrency and CBDC. He further explained that CBDCs were sovereign money directly issued by the central bank. CBDC is also a global phenomenon, and he concluded by saying that India is looking at the best practise or success factors of other digital currencies for its adoption.

Mr Adhikar agreed on the good impacts of CBDCs, especially their propensity to control the parallel economy that has grown over the years. It could prove a valuable tool to help countries maneuver their monetary policies more effectively and drive certain parts of the economy with CBDCs focused on 'speed and scale'. He also offered that there are many successful use cases.

Mr Sharad countered that people might begin to park their trust in cryptocurrency once the CBDCs are rolled out, in a significant move to 'separate money and state'. The choice would be between a centralised currency, extensively controlled and monitored by the state and a borderless currency that provides transparency and autonomy. He highlighted the disadvantages of introducing CBDCs, such as the arbitrary printing of currency out of thin air or the devaluation of a currency, that could hurt the everyday citizen. He mentioned that the The overarching principle of personal finance was to 'delay your gratification, have patience and think long term.

Concerning dollar hegemony and the possible move away from it, Mr Mustafa agreed that de-dollarisation was underway and that with the advent of digital currencies, there is even more scope. Over time, he suggested that there could be an arrangement between major economies concerning this.

This concluded the panel discussion, and the floor was now open to questions. The first question pertained to India's transition to a cashless economy and if that transformation could be possible shortly, which we expect to be a recessionary period.

The second question was on who would bear the interest for CBDCs if the Central Bank would directly issue it. Mr Sharadh and Mr Mustafa answered the questions.

After the panel discussion concluded, Team Dhwani, a pan-university dance team, performed their act 'Sweet Nothings'.

The event ended with the Vote of Thanks delivered by the IMASC Secretary, Ms Naitictaa Sahu and the university anthem.

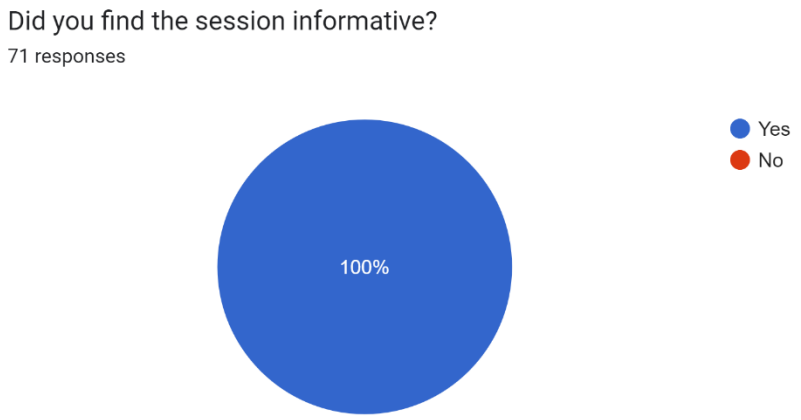
Annexures

1. **Feedback**
2. **Poster**

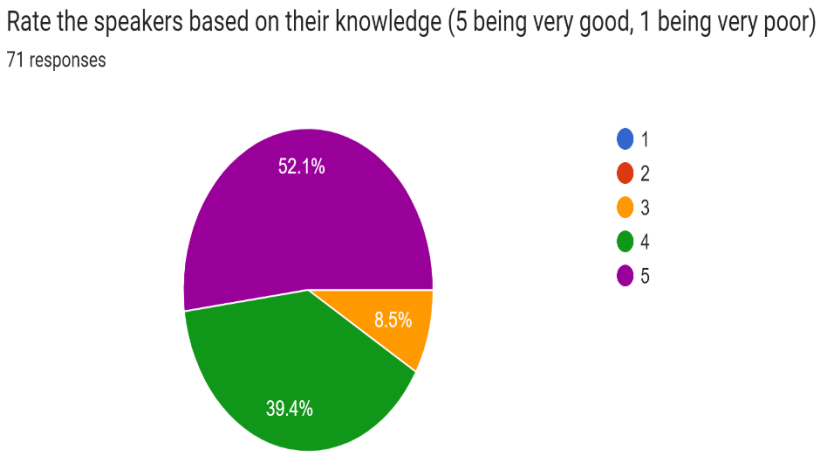
1. Feedback

1.



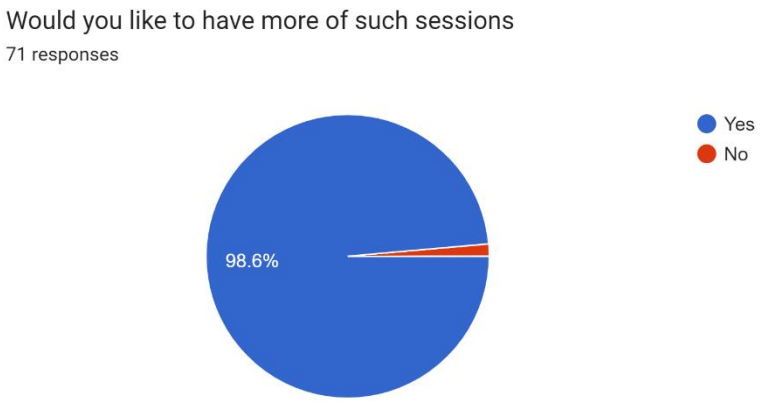
All the respondents found the session informative.

2.



Over 50% of the respondents gave the speakers a rating of five based on the speaker's knowledge expressed during the session.
All the other respondents found the speakers very good in terms of their knowledge based on the ratings of three and above.

3.



98.6% of the respondents would like more of such sessions to be conducted.

4. Any feedback or suggestion for the upcoming sessions?

- The session could have been longer as the topic was interesting and the panelists were great.

- It was good but they should interact with the audience more.

- The panel discussion was great as it helped us with widening our understanding on cdbc, crypto and a little about digital rupee; only if the session was long enough for them to talk more and impart us with the bigger picture for our future with it.

- It would be great if a panel discussion could be more participative where in students also get to participate.

Going ahead, the panel discussions or any such activities conducted would be done with the idea of audience interaction kept in mind. There would be more time for Q&A sessions so that the audience will feel like they have gotten the best of the session and have all their doubts clarified. The key would be to increase interaction.

SUSTAINABLE DEVELOPMENT GOALS

KFUNAI Supports Sustainable Development Goals

CHRIST (DEEMED TO BE UNIVERSITY) BANGALORE · INDIA

Department of Sociology and Social Work
in collaboration with
Centre for Social and Policy Research (CSPR)

The Government of India has prepared a new draft National Youth Policy (2021), which outlines its ten-year strategy for youth development. Youth form a vital demographic for the progress of the Nation and is a priority area for the majority of the global "Sustainable Development Goals" (SDGs).

The Department of Sociology & Social Work in partnership with the Centre for Social & Policy Research and Kerala Forum for United Nations Academic Impact (KFUNAI) brings to you a Student Round Table on this Draft National Youth Policy

Campus View, Central Block, Central Campus

September 16th 2022

4:00 pm to 5:00 pm

The Department of Sociology and Social Work, in collaboration with the Centre for Social Policy and Research (CSPR) and Kerela Forum on United Nations Academic Impact (KFUNAI), organized a Student Round Table on the Draft National Youth Policy (NYP) on the 16 of September 2022.

The Round Table discussion consisted of 6 panellists from variegated backgrounds who led the discourse along various dimensions of the Youth Policy and their requirements in the contemporary world. The Panel was moderated by Ms Supriya Bedi, currently the vice-chair for KFUNAI. The discussion was split into two rounds, with the first round engaging the panellists in conversations along the five priority areas as defined by the policy draft- education; employment & entrepreneurship: youth leadership & development; health, fitness & sports (including a focus on mental well-being); and social justice.

The first round of the discussion started with our first panellist Anshu Pal (3 B. Ed., Research Intern at CSPR), speaking about Environmentalism not as a mere response movement to Global environment crises but also as an employment opportunity and entrepreneurship prospect. He also mentioned apprenticeship as a possible means of increasing youth skills and employment. A gap between the education metrics and employability was highlighted during the discourse, which was then discussed by our next panellist – Aarav Vaidya (3 EPS). Aarav could highlight specific critical theories of economics like the 'Big Push' and relate them to the current education and employability scenario. He also brought on points pertaining to the impact of privatization on education and social justice, which acted as a segue for our next panel member – Mohinoor Singh Batra's (B.A. EPS) discussion on the Juvenile justice system in India and how it

fails to rehabilitate and forgive those who come in its fold with exceptionally high rates of child delinquents joining illegal means of livelihood after coming back from reform homes. Our next panellist Daniel M Abraham (Research Scholar, Department of Psychology), shed light on the usually ignored aspect of mental health well-being among the youth with particular focus on the impact of covid on the same. The discourse emphasized the social dimension of psychological well-being as well as how the current practice ignores the impact of environment and social aspects in all but theory. Ira Tokekar (MSW HR)) took up the discussion from here to talk about Physical Health and Sports. Ira's discussion was a detailed discourse on PCOS and PCOD and their economic, social and medical dimension. The last but not the least member of the Panel Ankit Bhadra (M.Sc. Sustainable Development), spoke about Youth leadership and, through a story narration from the life of former President Dr APJ Abdul Kalam, brought out key aspects of leadership and also means and possible mechanisms to enhance the same among the Indian youth populace.

The second round of discussion consisted of follow-up comments and focused discourses along with the previous round's discussions. This was followed by a question and answer round by the audience, with which the Round Table Discussion was brought to an end.

Nashe se Azadi under Azadi ka Amrit Mahotsav

Posted by Department Of Social Work in Uncategorized Leave a comment

Inaugural ceremony and address by the Honourable Minister for Social Justice and Empowerment Shri Virender Kumar

CHRIST (Deemed to be University), Bengaluru has taken up the project titled, 'Promoting Healthy Behaviour: Community Based Interventions under Nasha Mukt Bharat Abhiyan' for declaring our campus and community DRUG FREE. On the occasion of Azadi Ka Amrit Mahotsav and commemoration of the 75th Anniversary of the India Independence Day through the campaign Nasha se Azadi channelized by the Ministry of Social Justice and Empowerment, we have conducted a series of enduring activities with a coverage of over 230 participants actively engaging for nice impactful activities. The activities commenced with the inaugural ceremony held via hybrid mode organised by Ministry of Social Justice and Empowerment presided by the Honourable Minister for Social Justice and Empowerment Shri Virendra Kumar.

Several competitive activities were organised for the campus and community youths.

Extempore competition

On the note of Azadi Ka Amrit Mahotsav, the team of Christites against substance abuse organized various events to raise awareness regarding substance abuse. The Student coordinators were promoting healthy behaviour against substance abuse by involving them in these mentally engaging activities. The participant gave their best by speaking on current problems faced by the government bodies and youth to escape from the web of substance abuse. The winners of the competition were Supriya Bedi, Siddharth AV and Haggai Tittus.

Haggai Tittus presenting his views on Substance Abuse in Extempore Competition

The poster making competition initiated by the Nasha Mukt Bharat Abhiyaan was held in the college campus on 4th August, 2022. The registration for the event started a few days back. The registration process came to an end by 3rd of August. The participants were asked to submit their posters by 3rd of August before 4pm. Both digital and manual posters were made for the competition. Students tried to bring in different elements based on the theme. On 4th of August at 12pm Mrs. Princy Thomas, Professor from the Department of Sociology and Social Work evaluated the posters based on the guidelines.

Quiz Competition

The Quiz competition initiated by the Nasha Mukt Bharat Abhiyaan was held in the college campus on 4th August, 2022 from 12:00 pm to 1:00 pm. The registration for the event started a few days back and came to an end by 3rd August. There were 10 groups to participate in the competition and each group had 2-3 members. The competition had 2 rounds where the first round was a written assessment where each group were given 10 questions to answer within 5 minutes. In the second round the participants were asked to answer orally for each question. The team that raises their hands first gets to answer first. DrAmaresha C, Professor from the Department of Sociology and Social Work monitored and evaluated the competition based on the guidelines. The winners were announced by the judge within a short span of time.

A snap-shot of the Quiz Competition on DRUG ABUSE Prevention

Poetry competition

A poetry competition was also conducted by CASA club as part of "Azadi Ka Amrit Mahotsav" under the Central Government scheme Nasha Mukht Bharat Abhiyan to spread awareness on substance abuse prevention and rehabilitation. They were mobilized to participate in this competition and portray their imagery, expression and thoughts in the form poem on the theme "Say no to Drugs" in either Kannada or English Language. They were given 5 days' time to utilize their creativity and submit the poems in a google form to the event co-ordinator. The poems were given to the eligible judge to evaluate. there were entries in Kannada and English.

The Seller of Lies

The journey of life could be bumpy a day
Or smoother ahead
But darkness comes with light in the tunnel's end
We have to wait.
We can wait for the light to reach us,
Without healing the bruises from the ride called life
With drugs - the seller of lies
The fake and fugitive illusion of light.
Many a lives cost, many a lives lost
To seek refuge in temporary pleasure
Buying lies, expecting to sustain the sanity of mind.
We live lies, of dead hopes, when we do drugs
And monotonous delight.
We're good people, but what has has happened to us?

-Akangkhya Kashyap

ನಾಕ–ನರಕ

ಧನಬಲವಿದ್ದವರ ಯೆಥೇಚ್ಛ ಓಡಾಟ
ಇಲ್ಲದ ಕೆಲವರು ನುಸುಳುವಿಕೆಗೆ ಪರದಾಟ
ಇಲ್ಲಿ ದಿನಸಿಗಾಗಿ ಆಗಾಗ ಮರುಕವಿಲ್ಲದ ಕಿತ್ತಾಟ
ಸಿಗದಿದ್ದವರ ಅಸಮಾಧಾನ ಸರ್ವನಾಶದೆಡೆಗೆ ವಿಸ್ಫೋಟ
ಮೋಡದಲ್ಲಿ ಅರಮನೆಯಿರುವ ಮಾದಕ ಲೋಕಕೆ ಸ್ವಾಗತ
ಇಲ್ಲಿಯ ಪ್ರಜೆಗಳು ಸದಾ ನಶೆಯ ಗುಂಗಲ್ಲಿ ಬಂಧಿತ

ಈ ಲೋಕದಿ ಮಾದಕ ದ್ರವ್ಯಗಳದ್ದೇ ರಾಜ್ಯಭಾರ
ಬಳಕೆಯೊಂದಿಗೆ ತೆರೆದುಕೊಳ್ಳುವುದು ಕಾಲ್ಪನಿಕ ಮಹಾದ್ವಾರ
ಸಿಗುವುದಿಲ್ಲಿ ಎಂದೂ ಕಾಣದ ಉಲ್ಲಾಸದ ಮಹಾಪೂರ
ವಾಸ್ತವದಿ ಎರಡು ಬಗೆದ ಅಂಗಾಂಗ ಸಾಗುವವು ದೂರ–ದೂರ
ಕ್ಷಣಿಕ ಸುಖಕ್ಕಾಗಿ ಮುಡುಪಾಗಿಡುವರು ತಮ್ಮ ಜೀವ
ಚಟವು ಉಸಿರನ್ನು ಒಮ್ಮೆಲೆ ನುಂಗುವುದು ಇಲ್ಲದೆ ಭೇದ–ಭಾವ

Likhit, 3 MSW CCP, Department of Sociology and Social Work, CHRIST (Deemed to be University)

Mobile photography competition

The mobile photography competition initiated by the Nasha Mukt Bharat Abhiyaan was held on the college campus on 4th August, 2022. The registration for the event started a few days back. The registration process came to an end by 3rd of August. The participants were asked to submit their photographs by 3rd of August before 4 pm. Students tried to bring in different elements based on the theme. On 4th of August at 12 pm Mr. Cyril John, Professor from the Department of Sociology and Social Work evaluated the posters based on the guidelines. The winners were announced by the judge within a short span of time.

Stories of resilience

Portrayal of real life stories of resilience by the participants in any art form. The art forms were to be handed out in a way that the personal details of the protagonist remain confidential. Presentation of the life stories in front of other students provided a visual reference for the students that they can overcome substance abuse. The event mainly focused on the students from the department of sociology and psychology as these students have an upper hand on taking down the case formulation. The event later gathered 6 students from both the departments out of which only 2 were able to make their entries. Both the participants then later performed their stories in front of other students.

Session with youth from community

The session was initiated with 18 youths from community with an introduction to the project, following which the students were asked to think of their neighbourhood and vicinity and identity the various kinds of substances that were used and abused. The students were then asked to brainstorm reasons for abuse. Some of the reasons mentioned were peer pressure, stress, anxiety, bad role model etc. The students were then asked to dwell deeper into the issue and think about the repercussions of substance abuse on a person. The students started with health issues but then quickly moved on to various mental health issues, social issues etc. Following this, the students were given an activity to express themselves as creatively as they wanted on ways, and methods to prevent substance abuse. Some of the students drew posters, comics and paintings demonstrating ways to prevent substance abuse, while some of the students preferred writing over drawing to express themselves. The students demonstrated a keen understanding of the issue and were actively participating during the discussions as well as during the art activity.

On the note of Azadi Ka Amrit Mahotsav, the team of Christites against substance abuse had visited the LR Nagar community and conducted a program with the SHG Women and the Students on promoting a healthy behavior against substance abuse. The volunteers engaged with the SHG women and the students in an interactive session on the ill effects of substance usage and how to intervene when necessary. The students participated in a drawing activity and were asked to show their understanding of substance abuse through art.

CHRISEARCH TIDINGS

THE NEWSLETTER FROM CENTRE FOR RESEARCH PROJECTS

Message from the Director

Research is likened to a journey through a tunnel. Achieving the research goals is the same as seeing the light at the end of the tunnel. This tunnel experience is a challenging one. It is a decision in one's life. It is a new life itself. The firm decision to take up the challenging tunnel experience is a transformational decision. The tunnel experience is one's journey to one's inner self and at the same time, it is a journey to reach out to others and other things. The inward journey helps one realise one's own capabilities and the outward journey helps one to test it with the realities outside. A perfect sync of this inward journey and outward journey helps the researcher to achieve unprecedented heights.

To meet the challenges of the tunnel experience, researchers employ different ways. To achieve the research goals, the way one chooses is very important. When some people take up short term projects some others take up relatively longer terms to achieve their goals. Money and material are very crucial in many research projects. Independent funding agencies fund individuals and groups based on their proven capacity or on the trust of the organization they belong to. Thus the proven experience of the faculty members of a university is a very important factor in the success of research bids of the institution and its faculty members.

Christ University has great success in tapping some very important funds in 2021. Adding to that, the research publications in reputed journals have been significantly improved. From 22 publications in 2011, the faculty members of the university have published 831 research articles in 2021. This is a great feat. While congratulating each and every member of the fabulous learning community, let us hope that 2022 springs greater surprises.

Dr Fr Joseph Varghese, CMI
Director, Centre for Research Projects (CRP)

Events Achievements Featured Research Project Interview Notifications Fun with Research Upcoming Programs

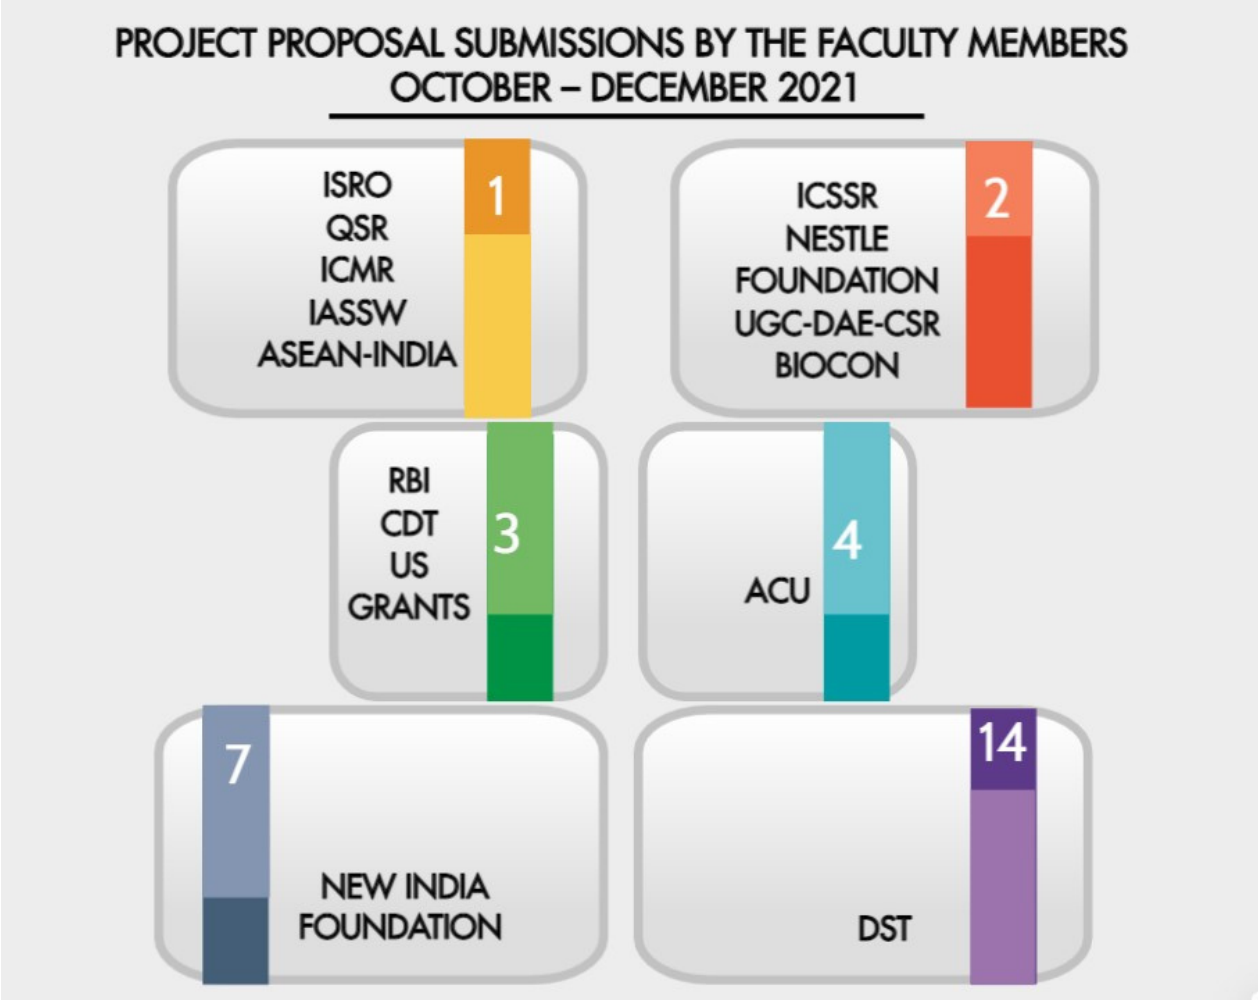
Editorial

The beginning of every year instils hope in our life with visible and invisible elements. To address the current challenges around us, we need to put in a lot of intentional and focused effort over time. We have all been on the voyage of research projects from the known to the unknown phases. Similarly, the research project funders are increasingly aware of the importance of approaching socially relevant challenges with a socially responsible mindset. At this point in time, an evaluation of our contributions to the world of research project initiatives is essential. There is no question that we have to reflect on ourselves in our research projects, and it is conceivable that the mirror could tell us where we are going and whether we are heading on our research project journey. This is an excellent opportunity to reflect on our expertise in managing research projects and their contribution to our society.

How we apply our values and competencies in the right direction for our professional achievement determines our success. In January 2022, the Centre will complete the fifth and final session of the Proposal Writing Workshop for the selected group of faculty members from each department. Our faculty members' project proposal writing competencies will provide us with all the resources we need to discover significant responses to society's concerns by delivering the greatest potential research project proposals.

The efforts of all of our faculty members have been consistently lauded by our Centre. This Newsletter will provide you with another update on our faculty members' accomplishments. In addition, there are two new elements in this issue for you.

Dr Sheeja Karalam
Coordinator, Centre for Research Projects (CRP)
Editor, CHRISEARCH TIDINGS



Events
October - December, 2021

Highlights

- 50 research project proposals of faculty members across campuses sanctioned for the Seed Money Scheme on 15th December 2021.
- Administrative supports were extended to all faculty members throughout the project development, submission and implementation.
- Regular meetings with faculty members were conducted for explaining the guidelines of research project calls and support them in writing the proposals.
- Faculty Coordinators from the Departments across campuses participated in the fourth phase of the Training of Trainers Programme on Project Proposal Writing in the month of November 2021. The discussions were concentrated on the Seed Money Scheme of the University and clarified all doubts on the guidelines of the scheme. Supported the faculty members in drafting the proposal and the budgeting for the scheme.
- Supported all faculty members who were submitting project proposals on notifications on ICSSR Programme Grants, NHRC Research Project Grants, ACU, DST, QSR, Nestle Foundation, The New India Foundation, IASSW and ICMR. All faculty members were invited to online and offline meetings to assist to frame their topics and proposals in accordance with the guidelines.
- Facilitated for signing the Terms of Reference for the "TECH4ALL" project of the Department of Commerce, Central Campus with Cheshire Disability Trust, Bengaluru.
- Visited the Office of Women Development Corporation and met the Director, Ms Pushpalatha N, to discuss the training programmes planned for the Transgenders in Karnataka for their livelihood.
- Evaluated the status of the collaboration with Biocon Foundation, Bengaluru for their Research Projects and the progress. The PhD Scholars of the Department of Psychology are involved in this collaborative assignment.
- Dr Volker Plän, Resident Representative of HSS, Hanns Seidel Foundation - India, visited the Centre on 13th December 2021 and discussed plans on academic projects with CHRIST (Deemed to be University).
- Ms Anuradha Valluri, Program Head, CSR, CDT- Bangalore visited on 18th November 2021 to discuss the projects assigned with CHRIST (Deemed to be University).
- Attended a meeting with the CHRIST Consulting Team on the projects and programmes of the Consultancy Cell and the Centre.
- Facilitated a meeting with Dr Elsa Joe, Assistant Professor, Bharath Matha College, Ernakulam with Faculty members who are interested to submit proposals to the NHRC project calls.

Achievements: October 2021

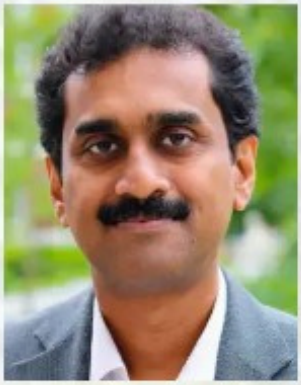
CONGRATULATIONS



The Centre for Research Projects congratulates Dr Tony Sam George, Professor, and Dr Elizabeth Thomas, Associate Professor, from the Department of Psychology, CHRIST (Deemed to be University), Central campus, Bangalore for receiving a project from National Health and Medical Research Council, The Commonwealth of Australia

Title of the Project	Effect of a Brief Psychological Intervention on Anxiety and Depression in University Students During COVID-19 : Controlled Trial of Reducing COVID-19 Related Distress
Fund	AUD 30,000.00
Funding Agency	National Health and Medical Research Council, The Commonwealth of Australia
About the Project	This study will test the capacity of an adapted version of Coping with COVID to reduce distress associated with COVID-19 in university students. This study aims to test whether Coping with COVID designed to target COVID-19 related distress will result in reduce anxiety and depression in university students relative to supportive counselling.

CENTRE FOR RESEARCH PROJECTS

CHRIST (DEEMED TO BE UNIVERSITY) BANGALORE · INDIA

CONGRATULATIONS

Dr. Sarish Sebastian

Dr. Shalini B

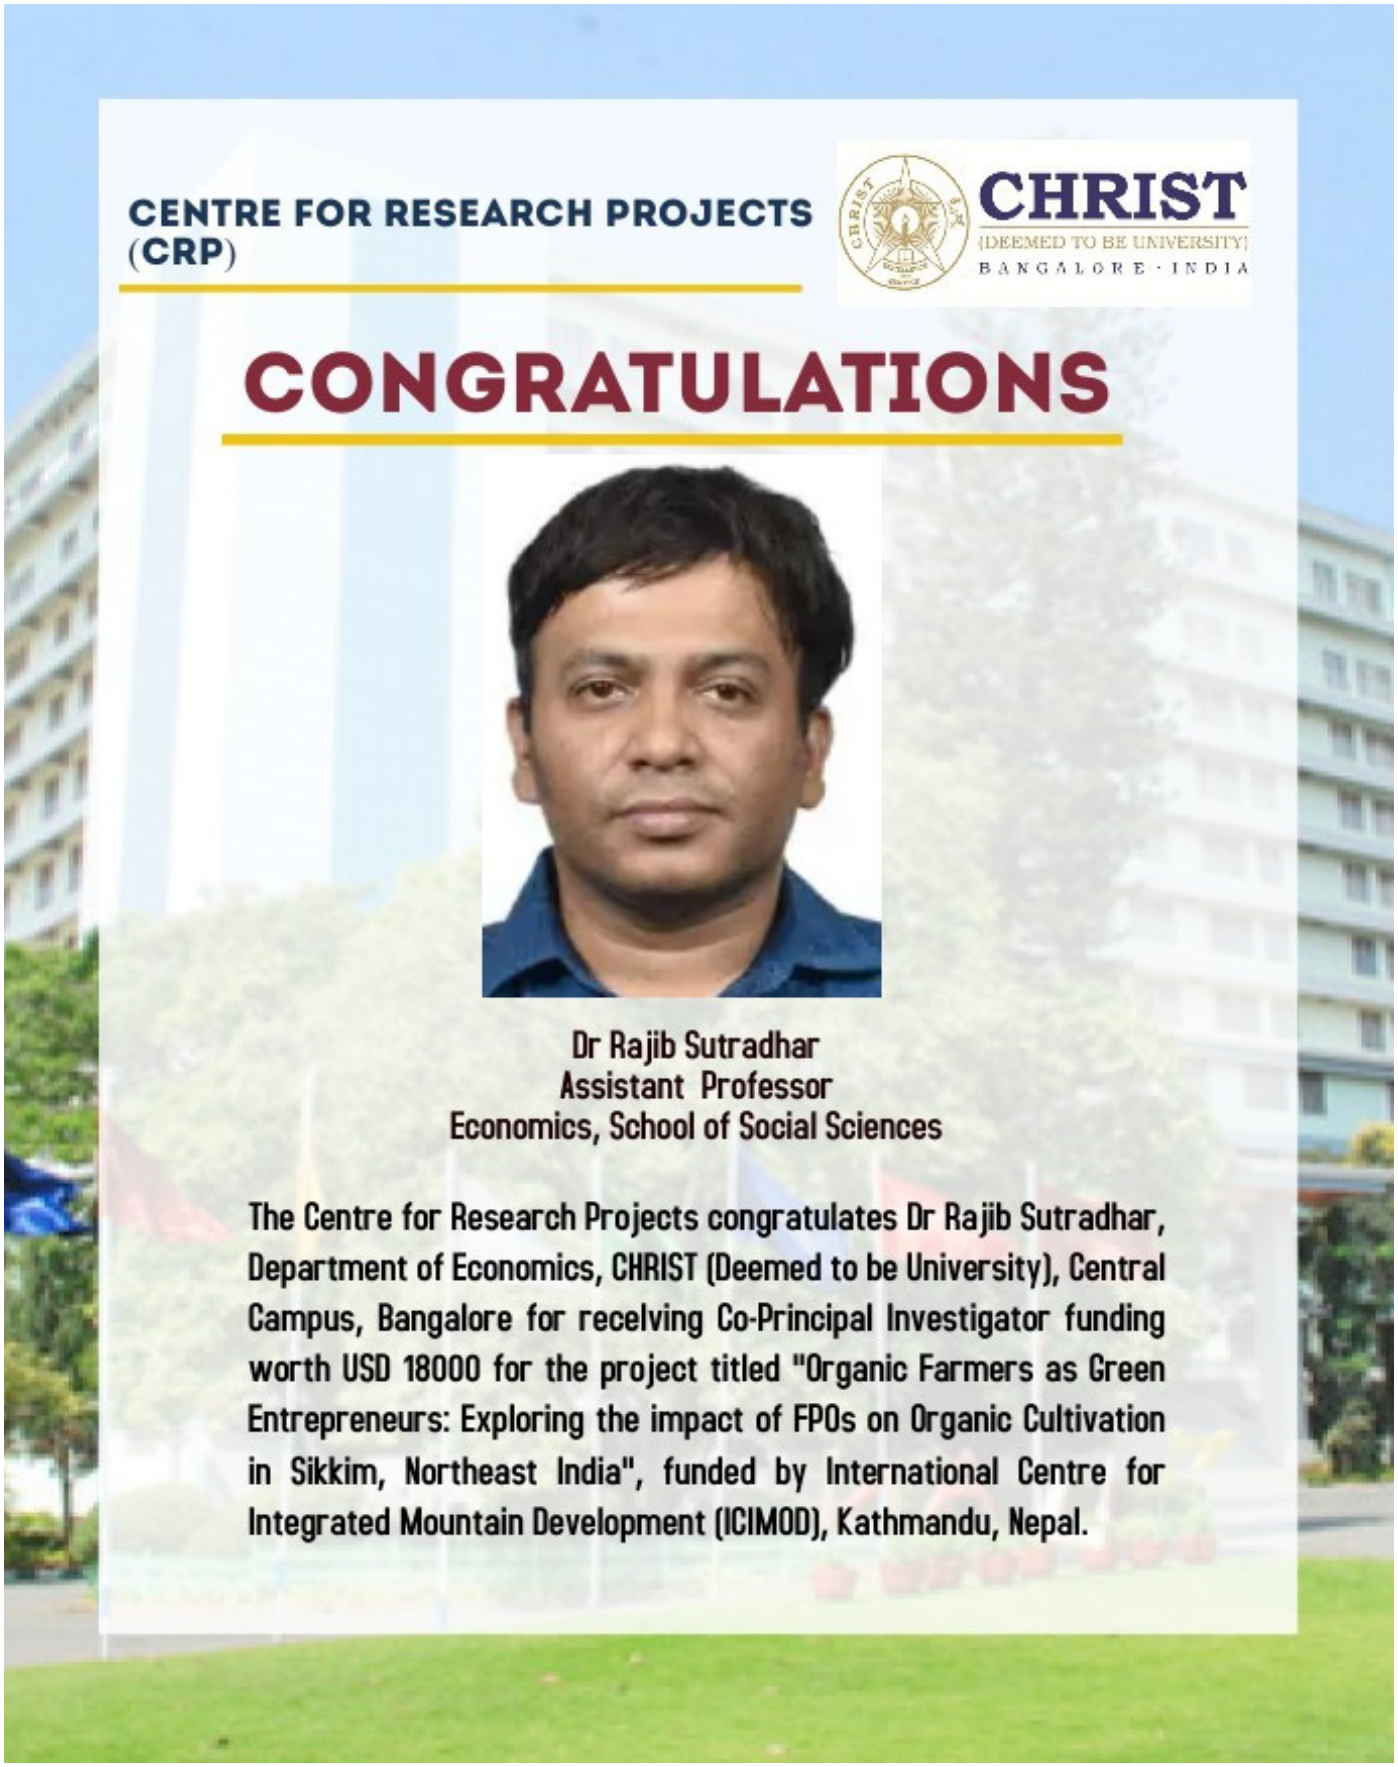
Dr. Philip Varghese

The Centre for Research Projects Congratulates Dr. Sarish Sebastian, Assistant Professor, School of Law, Delhi NCR, Dr. Shalini B., Assistant Professor, Department of International Studies, Political Science and History, BGR, and Dr. Philip Varghese, Assistant Professor, Department of International Studies, Political Science and History, BGR campus, Delhi NCR for receiving a project from Hanns Seidel Foundation, Germany.

Title of the Project	India's Neighborhood Policy towards the Southeast Asian Region: A Study on Act East Policy
Fund	₹ 22,56,000
Funder	Hanns Seidel Foundation, Germany
About the Project	The proposed study will primarily focus on India's foreign policy towards ASEAN countries like Myanmar, Thailand, Malaysia, Vietnam, Indonesia, and Singapore. It examines India's Act East policy, investigating its prospects, and challenges in the Southeast Asian region. The study will further identify priority areas for future Indian policies and contribute insights into renewed foreign policy formulations towards the Southeast Asian region particularly the Act East Policy and its impact on the Northeastern region of India. This study would also draw upon the political, economic and strategic partnerships in the region. The implications emerging out of these are crucial for a holistic understanding of India's engagements, opportunities and challenges towards its Eastern neighbours and will aid future policy priorities for India.

Achievements: December 2021

Faculty Members



Achievements: December 2021

Name	Topic
Dr Gurumurthy Hegde	Biomass derived carbon nanosphere based palladium for cost effective heterogeneous catalysis
Dr Ajesh Vijayan	Environmentally Benign Green Synthetic Approach towards the construction of C-N and C-O bonds via Chan Lam coupling reaction.
Dr Abhijeeth Kishore	Porous materials for advanced applications
Dr Avijith Kumar Das	Design and synthesis of various fluorescent chemosensors for selective detection of various biologically important analysis
Dr Suma Sarojini	Bioprospecting for industrially useful fungal pigments and enzymes from endophytes in polluted lakes of Bangalore
Dr Nainesh K Patel	Development of multipurpose low cost electrolyzer for hydrogen production by water splitting.
Dr Rohan P Fernandes	Cost effective H2 production by sea water electrolysis using nanostructured transition metal phospho-boride based electrolyzer
Dr Christie Thomas	Fabrication and mass transport studies of graphene polymer composite membranes
Dr Anuradha P S	Skill development: Key driver for India's inclusive growth and sustainable development.
Dr Manjusha Warrier	Feasibility of individualised brief psychosocial intervention program for the persons with motor neuron disease (MND)
Dr Philip Varghese	Parastatal bodies, Political decentralization and sustainable Tourism development in western ghats
Dr Swati Pathak	Spring in with happiness: Training program for educators to cater the social and emotional needs of students post pandemic
Dr Jaweriah Hazrana	The impact of access to information on productivity and risk exposure in Indian agriculture
Dr Jacob Alex Kollerathu	Development of novel paving blocks made with sustainable binders and recycled aggregates
Dr Hari Murthy	Formulation of antimicrobial tio2 ink for Inkjet printing
Dr Sreenath K	Measuring GRIT using 3D grit scale: Test retest reliability assessment and establishment of norms.
Dr Venkatanarayanan S	Caste and Honour: Understanding the politics of “Honour Killings” in Tamil Nadu
Dr Anupama Nayar	Postcoloniality and the native French community of Mahe
Dr Mahesh M	Annoted speech corpus of Malayalam for automatic speech recoginition
Dr Rohini V	Plant disease identification and prescription by using convolution neural networks.
Dr Arpan Pradhan	Urban flood Zonation in Bangalore using geo spacial techniques
Dr Sujatha Unnikrishnan	Strength and durability of Geo polymer paver blocks with construction and demolition waste
Dr Debarka Mukhopadhyay	Surveillance in a non-overlapping MCN
Dr Harguneet Kaur	A qualitative study of WASH facilities in Raj Nagar Block(Ghaziabad)
Dr Reghu V R	Laboratory scale synthesis and characterisation of solid state materials for energy storage devices: a feasibility study.
Dr Kenath Arun	Study of traffic behaviour in Bangalore : A physics perspective
Dr Shantharaju S	Cinema, Entertainment labours in Bengaluru and Pandemic
Dr A Senthil Kumar	"Socio-economic conditions of women workers in the unorganised sector - Empirical evidence from Bangalore City"
Dr Surekha Chukkali	Impact of Urban Environmental Quality, Residential Satisfaction, Personality on Quality of Life among Residents of Bangalore
Dr Maya M	An ethnographic Study of Madiwala, Bangalore
Dr Jacqueline Kareem	Teaching and learning in STEM education- An exploratory study
Dr Pramodkumar M P M	Teachers’ Beliefs, Barriers and Limitations in Education for Sustainable Development in Schools
Dr Lakshmi Shankar Iyer	Factors affecting the participation of Women Entrepreneurs in online marketplaces in Bangalore.
Dr Adarsh S V	Assessment of Line Source Emissions and Its Impact on Selected Susceptible Buildings at Traffic Intersections in Bengaluru City
Dr Suresh Gopal	Household food waste measurement: an approach Towards sustainability
Dr Reena Merin Cherian	Reservoirs and Residents: A Case of Community Organisation for Restoration of Madiwala Lake, Bengaluru
Dr Ngaitlang Mary Tariang	Tobacco cessation training in social work post graduate programs in Urban Bangalore
Dr Surekha Chukkali	Parental Experiences of Supporting Education of Children with ADHD during Covid 19 Pandemic in Bangalore
Dr Reeta Tomar	Policy initiative for bridging the digital gender gap : An analysis of Ghaziabad District of Uttar Pradesh
Dr Aasita Bali	Women dancers (item girls) and Negative female lead (vamps) in Bollywood.
Dr Benson K Money	Laboratory Scale Synthesis of Lithium Aluminium Titanium Phosphate (LATP) Based Ceramic Powders as Efficient Solid State Electrolyte Materials in Energy Storage Devices: A feasibility study
Dr Janitha Saji	Polyvinylidene Fluoride Nano-Composites for Electro-Magnetic Interference Shielding Applications
Dr Manjunath N	Some numerical invariants associated with 2-dimensional carbon compounds and nanostructures
Dr Mothi Krishna Mohan	Pristine and Modified MWCNTs based high quality thin films as transparent conducting electrodes (TCEs)
Dr Santhosh G	Sustainable synthesis of 4-(benzo[b]thiophenyl)-2,3-dicarboxylates via one-pot multicomponent approach
Prof Nobi K Daniel	Sulfamic acid catalyzed MCR: A novel one-pot approach for the synthesis of polysubstituted pyrazoles under green conditions
Dr Bindi Varghese	Inclusive Business Models in Tourism: Conceptualization and A multi-stakeholder approach
Dr Yamuna Nair	Sonochemical/solvothermal synthesis of nano sized transition metal complexes and MOFs containing heterocyclic schiff bases as percursors for metal based nano materials: strcutural and morphology charachtrerization
Prof Devika Menon	Design of ultra-wide band wireless body area network for non-invasive tumour detection
Dr Nagarjuna G	Waste management in Tourists' sites of Bangalore: A sustainable approach

Featured Research Project

CENTRE FOR RESEARCH PROJECTS

CHRIST
(DEEMED TO BE UNIVERSITY)
BANGALORE - INDIA

CONGRATULATIONS

The Centre for Research Projects congratulates Dr M J Vinod and Dr Stefy V Joseph from the Department of International Studies, Political Science and History , CHRIST (Deemed to be University), Central campus, Bangalore for receiving a project from Hanns Seidel Foundation, Germany.

Title of the Project	Cooperative Federalism in South Asia and Europe
Funding	INR 11,00,000
Funding Agency	Hanns Seidel Foundation, Germany
About the Project	The project will focus on the challenges and opportunities in intergovernmental relations between the union/federal government and states/Landers/constituent units in South Asia and Europe respectively. The edited volume which will be published at the end of the project shall focus on the changing economic realities, the existing structures of governance, the degrees of consociationalism and changing aspirations in the globalized world, on the federal systems in South Asia and Europe.

MY MESSAGE

Undertaking projects can be a truly delightful, satisfying and rewarding experience. They help us to tap our curiosity, learn new things, engage new ideas, meet new people, enhance knowledge and understanding, besides honing our problem-solving and management skills. Moreover, they help to build ones credibility, sense of discernment and to enjoy the thrill of unlocking the unknown. It's a world full of possibilities.

Happy to note that Christ University has been encouraging Faculty members to apply for projects and reap the benefits, not just in material terms. In this context I need to specifically place on record the support and encouragement provided by the Center for Research Projects, under the leadership of Fr. Joseph Varghese and his very professional team headed by Dr. Sheeja Karalam. Very happy to note that Faculty are applying in larger numbers for projects. I am sure in the days to come more Faculty will undertake projects and bring name and fame to themselves and the University. My best wishes

Dr M. J. Vinod

Interview excerpts :

Dr Theresa Nithila Vincent

THE TECH4ALL PROJECT FOR PERSONS WITH DISABILITIES

The Tech4All project is very special to the Department of Commerce. It is a funded project undertaken for a very noble cause. It perfectly aligns with our institutional vision towards creative and empathetic involvement in the society to transform it, our mission to contribute to society and our core value of social responsibility. A team of eleven faculty members are involved in the training. Each member is passionate to serve the bigger cause of enabling Persons with Disability for a career in the Banking & Finance domain. Our target is to empower 200 PWDs in one year. We consider this as an excellent opportunity to share our expertise with those really in need.

Dr Theresa Nithila Vincent
Professor & Head
Department of Commerce

The entire process of preparing and submitting a convincing proposal, drawing up a realistic budget and the interactions with the funding agency progressed flawlessly because of the expert guidance from the Center for Projects. I sincerely thank Dr Fr. Joseph Varghese, Dr Sheeja Karalam and Mr Anantha Padmanabha for their invaluable support in procuring this project.

Reminders from the Centre

- The University is eligible to apply for all Government, Non-government, CSR and International Fundings.
- Faculty Members are welcome to contact the Centre for any related queries regarding External Funding, Eligibility, Research & Technical Support, Open Calls, etc.
- Existing Major Research Project holders may contact the Centre for accounts related queries of their existing MRP.
- Existing MRP holders who have not yet settled their Accounts are hereby informed to visit the Centre or mail us to know the procedure of settlement.
- Faculties who have recently completed their MRP are requested to submit a hard copy of the Project.
- All Principal Investigators (External/Internal) with Research Assistants/Associates/Project Staff are requested to submit their staff work done report by the 2nd day of every month.
- All Principal Investigators (Internal) are requested to submit their expense statements in the required format by the 2nd day of every month.

Fun with Research

WORD RESEARCH PUZZLE

The first three correct responses will be featured in the next issue along with the solutions. Send in your answers to office.crp@christuniversity.in.

ACROSS

3. A commonly used Psychometric Scale (6)
6. The process of identifying the association between two or more variables (11)
7. Analysis of Covariance (6)
8. A type of periodical (7)
12. A written summary of major findings of prior studies (10,6)
13. A type of Non-probability Sampling (8)
14. Research Institutes are also known by this name (5,5)

DOWN

1. A premier institute for Research in Social Sciences (5)
2. The last stage of writing process, before printing (5,7)
4. Small scale research undertaken before the actual research (5,5)
5. A method of data collection (9)
9. List of all works cited and used by a researcher (10)
10. A predictive statement which is open to testing (10)
11. Likelihood of occurrence of an event (11)
